Music Department .............................................. 44
Total .............................................................. 257

Courses of Study.

The College has two separate, complete courses, the classical and scientific, conferring respectively the degrees of Bachelor of Arts and Bachelor of Sciences. There is also a preparatory course laid out, for the accommodation of young men and young ladies, who wish a higher grade of instruction, than is furnished in common schools, or to qualify themselves for admission into the regular College courses.

The following are the studies of the

PREPARATORY COURSE.

Arithmetic ......................................................... Robinson
Elementary Algebra ............................................. Robinson
English Grammar ............................................... Clark
Grammar of Rhetoric ......................................... Jameson
Natural Philosophy ............................................. Draper
History and Constitution of the United States ........ Quackenbush
Book-Keeping .................................................... Bryan & Stratton
Elocution .......................................................... Wilson's 5th Reader and Bronson's Elocution
Physiology ......................................................... Cutter
Latin Grammar and Reader ................................. Anthon

CLASSICAL COURSE.

FRESHMAN CLASS.

FIRST TERM.
Latin Grammar and Caesar ................................ Anthon
Greek Grammar and Reader ................................ Anthon
Algebra, (University) ........................................ Robinson
Geometry, Plane and Solid ................................ Robinson
English Grammar ............................................... Forster

SECOND TERM.
Syllabae .......................................................... Anthon
Greek Grammar and Reader ................................ Anthon
Algebra, (continued) ......................................... Robinson
Xenophons's Ambasias ....................................... Anthon
Geometry Spherical .......................................... Robinson
### Sophomore Class

**First Term.**
- Virgil’s Aeneid
- Herodotus
- Trigonometry Plane and Spherical
- Ancient History
- Greek prose Composition

**Second Term.**
- Surveying, Navigation and Conic Sections
- Cicero’s Orations
- Cicero de Senectute et amicitia
- Xenophon Memorabilia
- Modern History, England and France

### Junior Class

**First Term.**
- Analytical Geometry
- Horace
- Homer’s Iliad
- Logic
- Political Economy
- Greek prose Composition (continued)
- Chemistry

**Second Term.**
- Differential and Integral Calculus
- Natural Philosophy
- Cicero’s Tuscan Disputations
- Thucydides
- Mineralogy and Geology
- Sophocles

### Senior Class

**First Term.**
- Astronomy
- Latin Prose Composition
- Demosthenes De Corona
- Livy
- Botany
- Mental Philosophy
- Rhetoric

**Second Term.**
- Prometheus
- Plato’s Symposium
- Euripides Medea
- Mental Science
- Reason and Revelation
- Laws of Nations

---

**Scientific Course.**

Embraces all the Classical, except the Languages.

The foregoing course of studies is prescribed for those entering College with a view of pursuing a regular course. It is not designed to retard the progress of any by a strict conformity to the course. Any student whose attainments in particular branches will justify it, may select studies, and attend invocations to the Sophomore, Junior and Senior Classes, in the same term.
Terms of Admission.

Every candidate for admission into Christian College must present to the President satisfactory evidence of good moral character. He must read or have read to him the laws of the Institution, and pay the required tuition and Junior's fee; he shall then sign his name in a book to be kept by the Secretary for this purpose, in which shall be stated his age, name and residence of his father or guardian, under the following declaration.

Having carefully read the By-Laws of Christian College, I do subscribe myself a student of the same. And I do hereby solemnly promise that during my connection with it I will faithfully observe and obey all its rules and regulations; and particularly, that I will be diligent in study, punctual and orderly at recitation, strictly moral in language and conduct, respectful to the Officers of the Institution, courteous to my fellow students; that I will abstain from all kinds of gaming, the use of intoxicating liquors, and that I will not keep or use firearms or any other kind of deadly weapon whatever.

And moreover I do hereby solemnly certify that at the present I have nothing of the kind in my possession or under my control.

Laws.

Every candidate for admission into any of the departments of the College, must present satisfactory evidence of good moral character; if he shall have been connected with any other College, he must produce a certificate of favorable standing from the authorities of that College.

2. No student's name will be entered upon the Class Books until his tuition and other fees have been settled.

3. That he be diligent in study, punctual in his attendance at the calling of the morning roll, recitations, examinations, and all other College exercises, and that he render a valid and satisfactory reason to the proper officers for any delinquency on his part.

4. That having entered any class, he will not leave it without the permission of the Faculty; and that he will engage in no new study without their consent and approbation.

5. That he neither introduce upon the premises, nor use any intoxicating beverages.
Remarks, etc.

LOCATION.

The Willamette Valley extends from the Caleapooia mountains on the south to the Columbia river on the north, a distance of 150 miles, with an average breadth of 40 miles. It is the Eden of the West, and the granary of the Pacific coast. The salubrity of climate, fertility of soil, and varied productions of cereals and fruits, make it by far the most interesting and delightful section west of the Rocky mountains. Christain College is located near the geographical center of this delightful valley. By the system of Railroads now in progress of construction, it will be very easy of access from the Umpqua and Rogue river valleys on the south, from Washington Territory on the north, and from the valleys of the Columbia and Willa Walla on the east.

It is nine miles from Dallas, twelve from Salem, fifteen from Albany and twenty from Corvallis. The rolling prairie on which the College is situated, is lined by timber, bordered by a serrated fringe of towering firs, marking the course of the Luckiamute. Four miles south, the Willamette two miles east, and the La Creole six miles north, while to the west the oak hills with their dense foliage rise one above another, in solemn grandeur to the Coast Range in full view twenty miles distant. The Cascade Range also, rising from the valley on the east, stretches away for eighty or one hundred miles to the snow clad summits of Mount Hood, Jefferson, and the Three Sisters, all in fair view from the College premises. The lofty range immediately west breaks the sea-breeze, and gives in this locality, only a gentle wind from the north or south. The citizens in the vicinity of the College, are engaged principally in agricultural pursuits, and are distinguished for industry, temperance, intelligence and moral worth. Removed from the causes of diversion from study, and the temptations and allurements of vice incident to a city or town, the surroundings are all most favorable for health, application, virtue and proficiency in every department of study.

BUILDINGS.

The north wing of the new College building will be completed by the opening of the next session. The style of architecture is the collegiate gothic, put up in the most substantial manner. The elevations to the north and east are strikingly beautiful. The first floor is divided by a hall into two recitation rooms, each thirty by thirty-two feet, with fourteen feet ceiling. The second story is one large hall thirty-two by seventy-two feet, sixteen feet ceiling. Under the roof, there are two rooms eighteen by thirty feet, to be used by the Music department. This building used in connection with the old one, will furnish ample accommodation for three hundred students.

LIBRARY.

The want of a suitable place to keep a library hitherto has prevented any considerable effort to secure one. Bro. E. Bridgman of Lane county, presented the College with a small library last summer, which forms a nucleus to which we hope soon to add other contributions from the patrons and friends of education.

APPARATUS.

We have on hand a small fund with which to purchase apparatus, which will be invested as soon as we have some suitable place in which to keep it. The new College building will furnish an upper room in which a library and apparatus may be safely kept. Every effort will be made to add to these important auxiliaries as rapidly as circumstances will permit.

ACCOMMODATIONS.

Students are permitted to select their own places of boarding. The means of boarding in private families have been greatly increased and many students can be accommodated in this way. The club system, might be adopted here as it is in many of the eastern colleges, by which the expense of living would be reduced one-half. Many of the students of Christian College are "batching," that is, they build or rent a small house, in which two, three or four do their own cooking, washing &c., bringing their supplies from home. In this way, board amounts to only $1.35 to $1.50 per week.

INSTRUMENTAL AND VOCAL MUSIC.

Music is made a specialty in Christian College. Mrs. M. J. Campbell, who has charge of this department, is thoroughly qualified by long experience to give unbounded satisfaction to all; her success so far has been unparalleled, her class has rapidly increased, and her students as rapidly improved. The concert given by her class at the interm-diate was a complete success. I think we can justly say we have one of the best teachers in this department, in the State.

Instruments in number and quality suited to the wants of the class, are kept constantly in the institution.

Vocal music is practiced morning and evening in the opening and closing exercises.

Private classes under competent teachers will be formed during the session, for drilling in the rudiments of music.
DISCIPLINE.

The discipline is mild and firm, administered on the principle that virtue brings its own reward and vice its own shame. The highest incentives to virtuous actions are impressed by precept and example, while vice and immorality are restrained by all proper means. Students are taught rather to govern themselves than to be governed. Moral power is the true principle, an appeal to the head and heart, self-government from Christian motives. Hence no student can be permitted to remain who indulges in card-playing, intoxication, profanity, neglect of studies, or any other vice or impropriety. Daily moral instruction based on the Bible, leaves but little else to be done in government.

THE BIBLE.

God has given man two great volumes of Nature and Revelation, suited to his physical and spiritual constitution. These are full of facts addressed to the understanding.

From Nature, we learn the principles which minister to the wants of the body, giving food to eat and raiment to wear. From Revelation, we receive those principles by which the spirit is fed, and clothed with truth and righteousness. Any system of education which neglects either of these volumes is incomplete. To train the intellect in physical science and neglect the moral nature, is dangerous to society for it imparts power which, without moral principal to guide, may be destructive to the peace and happiness both of the individual and society.

To teach morality, to educate the heart without the sanctions of Revelation, is impracticable, impossible. Hence the Bible is made the basis of all moral, social and religious science. It takes precedence of all other studies. This is the distinctive feature of Christian College, that in the Bible we hear what God has said, and in Nature we see what He has done; that what He has said is more simple, intelligible and more easily comprehended than what He has done. Therefore we must always interpret what He has done by what He has said, never what He has said by what He has done. It is the ultimate authority, and it is the final appeal in all sciences, involving morality, humanity and religion.

It is made a daily Text Book, first in order and importance, in the entire College Course. Nothing of a partial, partisan or sectarian character is ever introduced in the Bible lessons. No man is competent to teach, who cannot distinguish between the facts, precepts and promises of the Scriptures, and the theories and the theologies of partisan religion; and no man is worthy, who would poison youthful minds with mooted questions of doubtful import upon which mature minds have differed, and out of which have grown the division and confusion in the religious world. The prejudice against the Bible as a Text Book, which has its origin in contracted views and partisan bigotry, is fast yielding to the spirit of progress pervading the popular mind, and to the light and intelligence of a higher civilization. The things in the Bible are accepted as true by all parties. These alone are taught: the things constituting the distinctive or differential tenets of different denominations are not in the Bible; therefore they are not taught. No one can take any just exception to what we teach, no one ought to object to what we omit. We offer the above not as an apology for introducing the Bible as a text book into our College. We believe it to be the great fountain of moral purity and of both civil and religious liberty. It teaches that which no human science ever taught or can teach, and that, too, which is of infinite value to the human race. It reveals God to man, and man to himself.

BIBLE CLASS.

The duties of the day are introduced by reading in the morning hour a portion of the Holy Scripture, singing and prayer, followed by a lecture on some theme connected with sacred literature, in which the great matters of morality, piety and humanity are elucidated and enforced by appropriate examples. These lectures which are made very familiar and, discursive in character, are free from all sectarian views, carefully avoiding all peculiarities of any particular religious party. These lectures deal in facts, illustrate principles, establish morality in the mind, and enshrine virtue in the heart of the student. Love of truth, the power of faith, respect for authority, the exceeding sinfulness of sin, and the beauty of holiness are illustrated and enforced, in manner and style adapted to the circumstances of the class. Every student in school is required to be present in this class.

MODERN LANGUAGES.

The demand for instruction in the French and German languages during the present session, has demonstrated the necessity of providing a competent Professor in this department.

REPORTS.

Monthly reports will be sent by the Secretary of the Faculty to the parent or guardian of each student, showing his attention in each class, application to study, department, proficiency in each of his studies, attendance at lectures, and recitations, and such other information as may be thought necessary and important for the parents to know. The standing of a student will be shown on the report, on a scale of numbers from 50 to 100, the latter number indicating the highest merit, the former the point below which no student will be permitted to remain in the College. Any student falling below 70 in any study, will be required to take it up again. The reports will be made out from the class book of daily recitations.
MIXED SCHOOL.

Experience has demonstrated conclusively that mixed schools, under proper regulations and restrictions, possess decided advantages over exclusive institutions. Young gentlemen and ladies exercise a refining, restraining, yet stimulating influence over each other, when associated in the same school and in the same class, which nothing else can supply. They vie with each other for the wreath of honor, as they labor side by side in a common cause.

CHARTER.

The Legislature of the State granted to Christian College a liberal charter, conferring all necessary powers on a Board of Trustees, to preserve the rights and manage the affairs of the institution.

TERMS OF GRADUATION.

A student may receive a certificate of Graduation signed by the President and the Professor, in any of the following departments.

1. Sacred History, Mental and Moral Science.
2. Natural Sciences.

To obtain such certificate it is required,

1. That he shall have been a student of Christian College at least one year, or session.
2. That he pass a satisfactory examination on all the prescribed studies of the department.
3. That he pay a fee of three dollars for each certificate.

DEGREE OF BACHELOR OF ARTS AND BACHELOR OF SCIENCES.

A student to receive the Degree of Bachelor of Sciences must have received a certificate of graduation in the departments of Sacred History, Mathematics, and Natural Sciences. To receive the degree of Bachelor of Arts he must have received, in addition to the above, the certificate of graduation in Ancient Languages. In either case, if the applicant has conformed to all the laws and regulations of the College, he shall receive the Degree and Diploma, free of charge.

HONORARY DEGREE OF A. M.

Any Bachelor, may receive the Degree of Master of Arts, on paying a fee of ten dollars to the Library fund, provided he shall have shown himself competent and worthy of such distinction. This Degree may be conferred on eminent persons for distinguished merit.

EXAMINATIONS.

Public examinations of all the classes will be held at the close of each term. All the friends and patrons of the Institution are requested to be present. Your presence on those occasions will encourage the teachers to greater diligence and stimulate the students to renewed efforts. Immediately after the intermediate examination at the opening of the second term, the classes will be readjusted and arranged with reference to the final examination at the end of the session.

TO THE FRIENDS AND PATRONS OF CHRISTIAN COLLEGE.

The prospects of Christian College are most flattering. The session just closed, was by far the most prosperous we have ever had. The attendance was larger by one-third than that of any previous year.

The Institution is increasing in reputation, and its influence and popularity are rapidly extending. Its friends may anticipate a career of still greater usefulness. The patrons of the school will do well to begin now to shape their business so as to send in their sons and daughters at the opening of next session. One fall term, taking the classes in order, is worth more than double the time scattered over several sessions. We hope to welcome to the halls of Christian College on the first Monday of September next, a larger number of students, and to inaugurate a more successful, and prosperous session than the one just closed.

LITERARY SOCIETIES.

These societies, under the care and direction of the Faculty, are justly esteemed a most important means of rendering practical the knowledge gained in the class room. Every facility will be afforded by the authorities of the Institution for increasing the accommodations and adding to the usefulness of these valuable auxiliaries to the College. The general scope of their exercises embraces elocution, composition, debate and criticism, all conducted according to parliamentary rules and usage. Their executive, legislative and judicial departments give admirable training for all the official stations in life.
Societies.

Philosophian Society.

ACTIVE MEMBERS OF 1871-72.

**Males:**
- Bean Robert
- Burford James M.
- Butler A. P.
- Campbell A. P.
- Chesher T. J.

| Painting water colors, Oil, Drawing, Pencil, Crayon, Wax work, &c. | At Teacher's price.

Vocal Music, private classes, at Teacher's prices.

One-half of the above rates must be paid in advance; and similar payments must be made in advance at the beginning of every ten weeks thereafter to the end of the session.

No fees will be refunded to students leaving before the expiration of the term for which they may have paid, except in cases of protracted sickness.

We invite a comparison of our rates, with those of similar Institutions on the Pacific Coast.

BOARDING.

Boarding can be obtained in private families at from $3.50 to $4.00 per week.
