Oregon State System of Higher Education

The Oregon State System of Higher Education was organized in 1932 by the State Board of Higher Education following a survey of higher education in Oregon by the U. S. Office of Education. Member institutions are elements of an articulated system, parts of an integrated whole. The educational program is so organized as to distribute as widely as possible throughout the state the opportunities for general education and to center on a particular campus specialized, technical, and professional curricula closely related to one another.

The institutions of the state system of higher education are Oregon State University at Corvallis, the University of Oregon at Eugene, Portland State College at Portland, Oregon College of Education at Monmouth, Southern Oregon College at Ashland, Eastern Oregon College at La Grande, and Oregon Technical Institute at Klamath Falls. The University of Oregon Medical School and the University of Oregon Dental School are located in Portland. The Division of Continuing Education, representing all the institutions, has offices in Ashland, Corvallis, Eugene, La Grande, Monmouth, Portland, and Salem.

At Oregon College of Education, Southern Oregon College, and Eastern Oregon College, students may complete major work in teacher education or general studies or enroll in a pre-professional program. Southern Oregon College also offers a major program in business.

Portland State College offers major work in general studies, liberal arts, and selected professional fields, as well as certain preprofessional programs.

At the University of Oregon and Oregon State University, major curricula, both liberal and professional, are grouped on either campus in accordance with the distinctive functions of the respective institutions in the unified state system of higher education.

Oregon Technical Institute offers technological curricula leading to associate degrees in technical and semi-professional areas.

An interinstitutional booklet, Your Education, which outlines the curricula of the several institutions and contains other information, is available. For a copy, write to Division of Publications, Board of Higher Education, P.O. Box 5175, Eugene, Oregon 97403.

General Information

History and Location

Oregon College of Education was first known as Monmouth University. It was organized in 1856 and opened in 1861. The name was changed to Christian College and the institution was chartered in 1866. In 1882 it became Oregon State Normal School, continuing under that name until 1909. For a period of two years (1909-11) it was deprived of state support. The institution was maintained by combined faculty and community cooperation until re-established as a state normal school in 1910 by vote of the people, opening in 1911 as Oregon Normal School. It continued under that name until 1939, when the legislature designated all the state normal schools colleges of education. The presidents of the institution in the early days of its history were: Thomas W. Haley, L. L. Rowland, and A. D. Butler. Following them were: Thomas Franklin Campbell, 1869-1882; Davis Truman Stanley, 1882-1889; Prince Lucien Campbell, 1889-1902; Edwin De Vore Ressler, 1902-1909; John Henry Ackerman, 1911-1921; Joseph Samuel Landers, 1921-1932; Julius Alonzo Churchill, 1932-1939; Charles Abner Howard, 1939-1947; Henry Martin Gunn, 1947-1950; Roben John Maaske, 1950-1955; Roy Elwayne Llewellyn, 1955-1961; Ellis Arnold Stebbins, Administrator in Charge, 1961-1962; Leonard William Rice, 1962-

The college is in many respects very fortunately situated. Monmouth, a well-administered community with a population of approximately 3,600, is located in the Willamette valley near the state's population center, fifteen miles from Salem, sixty-one miles from Portland, and sixty miles from the Oregon beaches. Exceptional climatic and scenic advantages afford a healthful and delightful place for study and campus life. A chamber of commerce, a civic club of active, enthusiastic women, an active parent-teacher association, several churches, a public park, and library are service features of the community. The campus itself is a beautiful and dignified spot entirely in keeping with the spirit of an institution of higher learning.

Accreditation

Oregon College of Education is a member of the American Association of Colleges for Teacher Education and the Northwest Association for Secondary and Higher Schools and is accredited as a degree-granting college by the National Council for Accreditation of Teacher Education. OCE is authorized by the National Council for Accreditation of Teacher Education to carry the following catalog statement:

"Accredited by the National Council for Accreditation of Teacher Education for the preparation of elementary and secondary teachers with the Master's degree as the highest degree approved."

Facilities

Facilities for instruction include the campus college buildings at Monmouth, with their classrooms, libraries and laboratories, recreation fields, and all equipment, together with cooperating schools in the area. The college campus occupies an area of approximately 85 acres.

Instructional

Administration Building. (1936). A three-story brick structure housing the president's office, personnel offices, general institutional offices, science laboratories, and classrooms.
Campbell Hall (1871, 1889, 1898, 1917). Campbell Hall is named in honor of President T. F. Campbell, who served from 1869 to 1882, and his son, Dr. Prince L. Campbell, president from 1889 to 1902. The historic building has stood as a symbol of the institution for its many years, and until recently held aloft the inspiring tower which fell in the Columbus Day storm, 1962. Other portions of the building were also damaged or destroyed, including that portion of the building which contained the main auditorium, many offices and classrooms.

Education Building (1966). This specialized, multi-purpose structure accommodates research, clinical, instructional and student personnel needs. Housed in the building are the education and psychology department, office of student personnel and staff of the Teaching Research Division of the Oregon State System of Higher Education. The attractive two-story structure is made of concrete and steel and trimmed with brick.

Health and Physical Education Building (1936). A building of brick masonry walls with tapestry brick facings. The gymnasium has a floor of standard size and a seating capacity of 1,000. On the lower floor there are showers, dressing rooms, and two handball courts. The new indoor Wolverton Memorial Pool adjoins the physical education building.

Humanities and Social Science Building (1964). This modern building with three floors replaced a section of Campbell Hall that was destroyed in the October 1962 windstorm. The structure houses 18 classrooms, three laboratories and more than 50 faculty offices.

Library (1951). The library, a two-story building, contains 72,000 books and bound periodicals, and several thousand uncatalogued pamphlets and documents. Approximately 700 periodicals and several daily and weekly Oregon newspapers are received regularly.

The curriculum laboratory on the first floor of the OCE library building contains over 4000 elementary and high school texts, latest editions of recommended children's encyclopedias, and about 1200 courses of study from Oregon and other states.

In addition, through unified library administration, all books, now over one and one-half million volumes, in the libraries of the several state institutions of higher education are available to students and faculty members of all institutions through inter-library loan.

Educational Media Center. The educational media center, on the ground level of the library building, serves as a depository for teaching materials and equipment, as an audio-visual center for projection services on campus and in laboratory schools, and an information center for teaching materials and audio-visual techniques. The center is equipped to produce teaching materials, such as motion pictures, slides, charts and graphs which are not available commercially. Closed circuit television, operated by the center, provides opportunity for classroom observation and experimental teaching. Certain campus classes and production and television studios are a part of the center.

Maple Hall (1914). After serving as a student center through the past decade, this building is now used as an activity room for physical education classes.

Memorial Stadium. Includes physical education and athletic fields, and the covered grandstand. It is one of the better small college athletic and physical education facilities in the Northwest. The stands and bleachers seat more than 2,500 persons.

Campus Elementary School (1916, 1948, 1958). The building houses the student teaching units of the Department of Education and Psychology. The older structure was remodeled in 1948, and two modern wings were constructed in 1948 and 1958.
Music Hall (1958). A modern one-story building, providing facilities for the Music Department, including offices, listening room, teaching studio, practice rooms, a band and choir rehearsal room, and a small recital auditorium.

Physical Plant Building (1960). To replace the old central Heating Plant which became inadequate as the campus grew, a new building was constructed to house central heating facilities, physical plant shops, and storage facilities.

West House (1924). Until 1962 this colonial type building was used as a women's dormitory. Because of crowded office conditions due to the expansion of services by the college, this building is now used by the Training Center for Teachers of Migrant and Disadvantaged Children and the Educational Media Center.

Health Center (1963). This new, modern facility, houses the Student Health Service and includes rooms for examination, treatment, day care and other needs, medical laboratories, and technical facilities for the finest health care. The building was first officially opened to campus and community in January, 1964.

Living

Butler Hall (1964). An apartment-like dormitory for men or women, this dormitory houses 144 students, three resident counselors and a housemother. Three living units are grouped with a fourth that houses a lounge and the housemother's residence. A unique feature of the dormitory is the exterior halls that diffuse noise away from the study areas.

Arnold Arms (1925). Purchased by the state board of higher education in 1946 for use as a women's dormitory, this building is well designed for dormitory purposes and provides comfortable housing for 35 women. All rooms are multiple.

Cottage (1917). A two-story house of red brick and shingled walls is a part of the dormitory group, housing 29 women.

Jessica Todd Hall (1912, 1921). Accommodates 170 women. Single and double rooms are available. Built at two different periods the building has several unusual and attractive features resulting from recent modernization.

Roben J. Maaske Memorial Hall (1956). A modern steel-reinforced concrete structure accommodating 100 men students in 50 double rooms, attractively furnished and decorated. This building provides desirable and comfortable housing for men.

Student Center Building (1960). This beautiful building provides a center for student life on the campus. It includes kitchen and dining room facilities for all dormitory residents, a coffee shop, lounges, offices, and committee rooms for student and other activities. Located in the basement are the college store and a large recreational area for various kinds of games. The dining room doubles as a ballroom.

Village (1946). Consists of 42 apartments for married students. The buildings were provided by the federal government through the Federal Public Housing Authority.

Arbuthnot Hall. Katherine Arbuthnot Hall, a modern, tastefully appointed dormitory for women dedicated January 27, 1963, provides accommodations for 162 women students. The building is named in honor of Miss Katherine Arbuthnot, who was a member of the faculty from 1913 to 1947 when she retired with the rank of assistant professor in geography and head of the geography department.
Teaching Research Division

Oregon State System of Higher Education

The teaching research division was authorized by the Oregon State Board of Higher Education on September 20, 1960, and located on the campus. Formerly administered through the college as an agency of the board, the research group was made a part of the centralized activities for the State System of Higher Education in 1964 and was named the Teaching Research division.

The purposes of the research division, as listed in the initial proposal to the Board of Higher Education, are the following: (1) to identify areas related to the teaching-learning processes in which experimentation and research are urgently needed, (2) to plan and conduct research projects leading to improved teaching procedures at the various levels of instruction, (3) to provide the State System of Higher Education with an agency designed to expand knowledge related to teaching in a way comparable to that employed in other disciplines, and (4) to provide the State System of Higher Education with a facility designed to attract and wisely use the financial support which is available in this field through both public and private agencies.

The division professional staff is employed full time in research. Opportunity is provided for graduate student research in connection with division projects. Central offices are located at Monmouth, with branch offices on other campuses as required.

Degrees and Certificate

Oregon College of Education offers curricula leading to junior standing and the associate in arts certificate, on the completion of two years' work, and to the following baccalaureate and graduate degrees:

Bachelor of Science and Bachelor of Arts: elementary, junior high, and senior high school; general studies, medical technology.

Master of Science: elementary and secondary education, with several areas of educational specialization.

Master of Arts in Teaching.

Admission Requirements

In order to be admitted to Oregon College of Education, a student must be of good moral character and must present evidence of acceptable preparation for work at the college level. The development of character is regarded as a primary aim in education and is emphasized at all the state institutions of higher education. Every person applying for admission to the regular sessions of the college must submit the following records, which become the property of the college:

1. Application for admission

   a. Students with no preparation beyond high school graduation apply on the official form, Application for Admission to Oregon Higher Institutions. These forms may be obtained from the high school principal or superintendent or from the director of admissions, Oregon College of Education.

   b. Application forms for transfer students must be obtained from the director of admissions, Oregon College of Education.
2. **Official records**
   a. Beginning freshmen must furnish complete (four-year) high school records showing credits earned and graduation certified by the principal or superintendent of the school.
   b. Students with previous college work must file complete official records of all school work beyond the eighth grade, including an original transcript from each college or university attended. College records must be certified by the registrar of the institution where the work was undertaken. If the high school record is adequately shown on the college transcripts, another record direct from the high school is not necessary.

All records should be filed with the director of admissions at least four weeks prior to the date of registration; if they are filed later, the student's registration may be unavoidably delayed. The registrar will evaluate the records submitted and will notify the applicant of his entrance standing.

**Placement Examinations**

All beginning freshmen planning to enter Oregon College of Education must complete the following college entrance examination board placement test prior to registration for classes: scholastic aptitude test. For those students majoring in mathematics, completion of the Mathematics Achievement test—Level 1—is required. These tests are used for counseling and placement purposes but may be the basis of admission if the required high school GPA has not been achieved.

Arrangements to take these tests during the senior year in high school should be made through the high school principal. Persons without access to such an arrangement must write directly to the college entrance examination board for information about taking the tests. They should be completed as early in the summer as possible.

The results of these tests must be received by the Registrar’s Office, Oregon College of Education, Monmouth, Oregon, at least two weeks prior to registration. Special arrangements will be necessary if the tests are not completed prior to arrival on the campus.

**Health Requirements**

At least six weeks prior to registration freshmen and transfer students are required to submit a health history and physical examination report to the Health Service. It is the responsibility of the student to arrange for this examination by a physician of his own choice. Delay in furnishing this record will delay the student's registration. Forms for this purpose are provided for each student requesting admission.

Evidence of current immunity to smallpox, diphtheria and tetanus and a tuberculin test are required.

**Advanced Placement Program**

Students who complete examinations under the Advanced Placement Program sponsored by the College Entrance Examination Board and who receive satisfactory scores in these examinations administered by the Board may, on admission to Oregon College of Education, be granted credit and/or placement in comparable college courses toward a bachelor's degree. The amount of credit

---

Information concerning fees, scheduled examination dates, and examination centers may be obtained from the College Entrance Examination Board, P. O. Box 27896, Los Angeles 57, California. Official scores are submitted by the CEEB upon student request.

Credit exempts the student from a specified class and reduces the number of hours required for graduation.

Placement is a substitution for a specified class to avoid duplication of course work, but does not reduce the number of hours required for graduation.
allowable will be determined on the basis of the curriculum the student follows and the grade received in the examination. Oregon College of Education's participation in this program is supervised by the Office of the Registrar.

Upon receipt of the test material, the acceptable units presented will automatically be credited toward the total hours required for graduation. In some instances the student may be permitted to enter advanced courses not ordinarily open to freshmen. Entering students who receive credit and/or placement in several subjects may be eligible for immediate sophomore standing upon entrance, and may be graduated in three years. Advanced Placement credit will be withdrawn if work is subsequently duplicated in college-level courses. No letter grades will be assigned Advanced Placement scores.

Scores of three (3), four (4), and five (5) on the Advanced Placement Examinations will lend, at Oregon College of Education, to the conferring of credit and placement, the amount varying from department to department. A score of two (2) will be reviewed by the department concerned, which will then make recommendations as to the amount of credit and/or placement given, if any. A score of one (1) receives neither credit nor placement.

The fields included in the Advanced Placement Program are: American History, Biology, Chemistry, English, European History, Foreign Languages, and Mathematics.

**American History.** Six hours of credit will be granted for Hst 201, 202 if a score of 3, 4, or 5 is attained.

**Biology.** Nine hours of credit will be granted for Bi 101, 102, 103 if a score of 3, 4, or 5 is attained.

**Chemistry.** Up to 12 hours of credit may be granted in chemistry, depending upon the student's major field of study.
1. Twelve hours of credit will be granted for Ch 104, 105, 106 if a score of 3, 4, or 5 is attained.
2. Ten hours of credit will be granted for Ch 204, 205 if a score of 3, 4, or 5 is attained.

**English.** Eighteen hours of credit will be granted for Eng 107, 108, 109 and Wr 111, 212, 314 or Wr 111, 112, 113 if a score of 4 or 5 is attained. Fifteen hours of credit will be granted for Eng 107, 108, 109 and Wr 111, 212 or Wr 111, 112 if a score of 3 is attained.

**European History.** Nine hours of credit will be granted for Hst 101, 102, 103 if a score of 3, 4, or 5 is attained.

**Foreign Languages (Romance Languages).** Nine hours of credit will be granted for RL 311, 312, 313 (Survey of French Lit.) or RL 341, 342, 343 (Survey of Spanish Lit.) if a score of 4 or 5 is attained. Eight hours of credit will be granted for RL 102, 103 (last two quarters of 2nd year French), or RL 108, 109 (last two quarters of 2nd year Spanish).

**Mathematics.** Up to 12 hours of credit may be granted in mathematics course work, depending upon the student's major field of study. Actual courses and placement to be determined by the departmental staff.

**Freshman Standing**

Oregon residents being admitted to first-year (freshman) standing must have:

a. Completed the following uniform entrance requirements approved by the institutions of higher education in Oregon: Graduation from a standard high school with 19 required units, including 3 units in English, 2 units in social science, 1 unit in mathematics, 1 unit in the natural sciences, and 2 units in health and physical education.

---

1 This score must be in that part of the examination entitled "Literature."
b. Achieve one of the following:
   (1) For fall term only, a 2.25 (C plus) grade-point average or above in all high school subjects taken toward graduation; for winter and spring term, a 2.00 (C) average or
   (2) A combined score of 887 points fall term, (880 points winter and spring terms) on the verbal and mathematical sections of the Scholastic Aptitude Test of the College Entrance Examination Board, or
   (3) A minimum grade-point average of 2.00 (C) on 12 term hours of college-level course work (of which 9 hours must be taken concurrently), or on 9 term hours in a prescribed program in a regular collegiate summer session, including a course in English composition and two or more courses from the areas of humanities, social science, or science-mathematics.

Students classified as nonresidents and registering as freshmen must have:
   a. Graduated from an accredited high school and completed the distribution of subject matter required for Oregon residents.
   b. Achieved one of the following:
      (1) A 2.50 (B-) grade-point average or above in all high school subjects taken toward graduation, or
      (2) A score of 887 or higher on the scholastic aptitude test of the college entrance examination board, or (See footnote on page 13)
      (3) A minimum grade-point average of 2.00 (C) on 12 term hours of college-level course work (of which 9 hours must be taken concurrently), or on 9 term hours in a prescribed program in a regular collegiate summer session including courses specified for resident students.

Students who have not graduated from high school, in order to gain admission, must have:
   a. Obtained the Certificate of Equivalency from the state department of education based on required scores in the general educational development (GED) tests.

EARLY ADMISSION TO FRESHMAN STANDING. Oregon residents who have completed seven semesters of high school with a GPA of 2.50 or higher, or who have earned a combined score of 950 on the college entrance examination board scholastic aptitude test may be granted admission to the college prior to their graduation from high school. In order to be granted early admission at the end of the seventh semester, qualified high school seniors should have their high school principal complete the first page of the Application for Admission to State Institutions of Higher Education in Oregon and mail it to the director of admissions, Oregon College of Education.

Advanced Standing

Transfer students from other colleges, regardless of residence, are required to present a 2.00 (C) grade-point average and evidence of eligibility to return to any and all colleges previously attended. A student transferring fewer than 12 term hours must satisfy the entrance requirements for both transfers and entering freshmen.

Advanced standing is granted to students transferring with acceptable records from accredited institutions. The amount of credit granted depends on the nature and quality of the applicant's previous work evaluated according to the academic requirements of Oregon College of Education.

No advanced standing is granted at entrance for unaccredited work. After three terms of satisfactory work on the campus a student may receive credit for work taken in unaccredited collegiate institutions, but the courses must be equated to the regular courses offered at Oregon College of Education.
Foreign Students

Admission of students from abroad is limited to those who plan to prepare for teaching in their own homeland. Requirements for admission are based on an outstanding background of preparation which would make the student eligible for university admission in his own country. Normally, only students working toward the bachelor's degree in the field of elementary or secondary education will be accepted.

Students with college credit to transfer are admitted as beginning freshmen, with advanced standing, if any, to be determined after matriculation and further study of records submitted.

Students from abroad will be expected to guarantee financial responsibility because of limited financial assistance available from Oregon College of Education.

Graduate Standing
(See Graduate Study section)

Fees and Deposits

Fees and deposits in all the state institutions of higher education are charged according to a uniform plan, varying on different campuses according to differences in conditions or nature of work offered. The state board of higher education reserves the right to change the schedule of tuition and fees without notice.

In the fee schedule below are listed the regular fees paid by all students under the usual conditions. These registration fees entitle the student to the use of the college library, to the use of laboratory equipment and materials in connection with courses for which the student is registered, to medical attention and advice at the student health service, to the use of the gymnasium equipment (including gymnasium suits and laundry service) and to all other services maintained for the benefit of students. No reduction of fees is made to students who may not desire to use some of these privileges.

Undergraduate students who are residents of Oregon and who are enrolled for a total of 8 term hours of work or more during the regular academic year pay tuition and fees totaling $98.00 per term or $294.00 for the three-term academic year.

Undergraduate students who are not residents of Oregon and who are enrolled for a total of 8 term hours of work or more during the regular academic year pay, in addition, a nonresident fee of $80.00 per term. Total fees and tuition for nonresident students is $178.00 per term or $534.00 for the three term academic year.

Graduate students enrolled for a total of 8 term hours or more pay tuition and fees totaling $98.00 per term.

Regulations Governing Non-Resident Fee. Under the regulations of the Oregon State Board of Higher Education, a minor whose parent or guardian is a bona fide resident of Oregon qualified for enrollment under the resident fee; a student whose domicile is independent of his parent or guardian qualifies for enrollment under the resident fee if he presents convincing evidence that he established his domicile in Oregon six months prior to his first registration.

All other students are required to pay the nonresident fee, with the following exceptions:
a. A student who holds a bachelor's degree from an accredited college or university. (However, a nonresident student with a Bachelor's degree enrolled in a curriculum at the University of Oregon Medical or Dental Schools leading to the degree of Doctor of Medicine or Doctor of Dental Medicine is required to pay the nonresident fee.)

b. A student attending a summer session.

c. A student paying part-time fees.

A student who has been classified as a nonresident may be reclassified as a resident:

1) in the case of a minor, if his parent or guardian has moved to Oregon and has established a bona fide residence in the state, or

2) in the case of a student whose domicile is independent of that of his parent or guardian, if the student presents convincing evidence that he has established his domicile in Oregon and that he has resided in the state for at least twelve consecutive months immediately prior to the term for which reclassification is sought, and that he has no intention of moving out of state after completion of his school work.

A student whose official record shows a domicile outside of Oregon is prima facie a nonresident and the burden is upon the student to prove that he is a resident of Oregon. If his scholastic record shows attendance at a school outside of Oregon, he may be required to furnish further proof of Oregon domicile.

If any applicant has questions concerning the rules governing the administration of these policies, he should consult the office of the registrar at OCE.

Special Fees

Part-time Students' and Auditors’ Fee. Part-time students and auditors (7 hours or less) will pay a fee of $14.00 per credit hour per term; the minimum fee is $28.00. Payment of the part-time fee entitles the student to all services maintained by Oregon College of Education for the benefit of students. (This fee is subject to adjustment to reflect total fee changes approved by the State Board of Higher Education.)

Late-Registration Fee. Full-time students registering after registration day of any term pay a late-registration fee of $5.00 for the first day and $1.00 for each additional day. Part-time students pay $1.00 a week.

Return-of-Check Fee. If institutional charges are met by a check which is returned because of any irregularity for which the student is responsible (NSF, illegible signature, improper bank account number, etc.), a fine of $5.00 will be charged.

Change-of-Program Fee. Students are charged a fee of $1.00 per course for each change they may wish to make in their program subsequent to the date changes may be made without charge.

Application Fee. A fee of $10.00 is charged for each application for admission. Payment must be included with the application form. The fee is non-refundable and is not transferable between institutions.

Transcript Fee. Each order is $1.00 for the first copy and 50 cents for each additional copy.

Art Fee. For courses in art the additional fees per term range from $2.00 to $15.00.

Applied Music Fee. For courses in applied music the additional fees per term range from $25.00 to $47.50.

Graduate Qualifying Examination Fee. Students desiring to take this examination will be charged $1.00 to $15.00.
Fee Refunds

Students withdrawing from the college and who have complied with the regulations governing withdrawals are entitled to certain refunds of fees paid, depending on the date of withdrawal. The refund schedule has been established by the state board of higher education and is on file in the business office. All refunds are subject to the following regulations:

1. Any claim for refund must be made in writing before the close of the term in which the claim originated.
2. Refunds in all cases are calculated from the date of application for refund and not from the date when the student ceased attending classes, except in unusual cases when formal withdrawal has been delayed through causes beyond the control of the student.

Graduation Expenses

Each year students who are graduating will be charged the cost of cap and gown rental and other incidental expenses connected with graduation and commencement exercises. No person may be recommended for graduation until he has paid all fees and charges due the institution.

Living Accommodations

The students and faculty at Oregon College of Education believe in the kind of democratic education fostered in a residence hall program, as opposed to a fraternity and sorority program. All facilities are geared to provide students with living accommodations which promote physical health and which encourage social, educational and spiritual development. To these ends, living conditions are made as comfortable and congenial as possible, and the cost is kept at a minimum.

Housing Regulations. All freshmen and sophomore women and men, except those living at home, are required to live in the college operated residences. Exceptions to this regulation are made only upon petition filed with the Housing Committee. Petitions to this committee by freshmen or sophomores are approved only on showing convincing and exceptional reasons of health, financial necessity, or other special circumstances, why the students should not live in the dormitories. All upperclass men and women will live in either the college dormitories, at home, or in approved off-campus houses. Off-campus residences for unmarried students must be approved by petition to the housing committee.

Dormitory Accommodations. Halls of residence are maintained for men and women. Each room is attractively furnished, with each hall having coin-operated laundry facilities, snack areas, lounges, pianos, soft drink dispensers, and many other facilities. Dining facilities are located in the Student Center building for all hall residents.

Dormitory accommodations are for room and board, and are contracted for by the Student for the full school year, unless the student should elect to withdraw from the Institution, when such contract would be considered void.

Application for residency in dormitories must be completed on an official form, to be duly signed by the student, and must be accompanied by a room deposit of fifty dollars ($50.00), all of which will be applied to the first installment of board and room charges of the applicant. No room reservations are held unless all of the above provisions are fully complied with.

Board and room rates for dormitories are as follows:

<table>
<thead>
<tr>
<th>Dormitory</th>
<th>Board per month</th>
<th>Room per year</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Single</td>
<td>Multiple</td>
</tr>
<tr>
<td>Ahrudinot, Maaske, Butler Hall, New Dormitory</td>
<td>$61.50</td>
<td>$450.00</td>
</tr>
<tr>
<td>Todd</td>
<td>61.50</td>
<td>427.50</td>
</tr>
<tr>
<td>Cottage, Arnold Arms</td>
<td>61.50</td>
<td>382.50</td>
</tr>
</tbody>
</table>
Living Accommodations

When dormitory reservations are cancelled, a full refund of the fifty dollar ($50.00) deposit will be made only if cancellation is made prior to August 15, 1966 on reservations for the fall term; and on reservations for winter and spring term, only when cancellation is made at least 14 days prior to the official opening date of said term. Students found ineligible for admission will have the full deposit refunded to them.

No refunds can be made for meals which are missed, nor are students allowed to transfer their meal tickets. Improper use of meal tickets, or the allowance of unauthorized persons to sleep in the dormitories will result in disciplinary action.

Board-and-room fees are payable in advance, not later than the 10th day of each month.

Students paying board or room charges after the date on which payment is due are assessed a late-payment fee of $1.00 for the first day, and $1.00 for each additional day until a maximum charge of $5.00 is reached. If dormitory charges are not paid within 10 days after the date due, the student’s registration may be cancelled.

At the end of any term, no grades will be issued to students who are in default of payment of any regular, or assessed, dormitory charge.

Room-and-board rates are subject to change at any time, but only by action of the State Board of Higher Education.

The charges for rooms cover the period of the college term with dormitories opening at 2:00 P.M. of the day prior to the first scheduled day of the academic calendar, and closing on the last scheduled day of each term.

Any refunds for charges for periods of less than a month are calculated at a daily rate, based on the monthly rate.

If a student withdraws from the dormitory but does not withdraw from the institution, he must pay all board-and-room charges for the entire school year remaining, unless he provides a substitute occupant, not then presently in dormitories, acceptable to the Dormitory Director.

Housing for Married Students. For married students, Oregon College of Education provides nine buildings containing forty-two apartments. These buildings are the property of the college. The apartments are partially furnished and rent for $36.00 to $45.00 per month with water and garbage disposal furnished.

Off-Campus Houses. A limited number of approved houses in Monmouth offer housekeeping rooms and apartments for junior and senior students under college regulations. Information about the approved houses may be obtained from the office of student personnel in the education building. All off-campus residences must be approved by petition to the housing committee.

Student Expenses

Figuring the cost of a year in college, the student usually thinks of the money he will spend from the time he leaves home until he returns at the close of the year. Such an estimate includes, of course, such personal items as clothing, travel, amusement—items which vary according to the thrift, discrimination, and habits of the individual. The following table gives as nearly as possible the over-all expenses incurred by a student during an academic year. Board-and-room estimates are based on charges commonly paid by students. The incidentals item varies greatly with the individual. Cost of clothing is not included. The expenses of the first term are listed separately since the first term involves expense not incurred during the second and third terms.
Financial Aids

Many opportunities for financial assistance and employment are available for students at Oregon College of Education. A variety of scholarships and loan funds have been established. Part-time work opportunities are available at the college and in the community.

Scholarships

State Scholarships

By action of the state legislature, scholarships in limited number have been established for students attending the institutions of higher learning in the state system of higher education for the year 1966-67. Value of certain scholarships are subject to adjustment to reflect fee changes approved by the State Board of Higher Education.

Scholarships for Oregon Residents. The following scholarships are available to students in the upper third of their high school class who are residents of Oregon and who need financial assistance. They are available also to students with previous college experience who have a current term and a cumulative grade-point average of 2.50. At least 50 percent of the scholarships are awarded to entering freshmen.

Application should be made by March 1 to the Oregon State Scholarship Commission, P. O. Box 5175, Eugene, Oregon. Official application blanks are available from the office of the high school principal and from the Oregon State Scholarship Commission.

Part-Tuition-and Fee Scholarships. The state scholarship commission awards part-tuition-and-fee scholarships in equal number to 25% of the college’s annual enrollment. These awards carry a value of $63.00 per term, or $189.00 for the 1966-67 school year. They are open to students in any curriculum.

District and County Scholarships. The state scholarship commission awards annually throughout the state system of higher education one scholarship for each state legislative seat and one for each county. These scholarships carry a value of $189.00 per year at Oregon College of Education and are awarded for a period not to exceed four years, subject to satisfactory scholastic achievement term by term. They are transferable to other institutions of higher learning in the state system of higher education, but recipients must first attend for one year the institution making the award.

Teacher-Education Scholarships. Full-tuition-and-fee scholarships are available to students in elementary teacher education for the year 1966-67. These awards amount to waiver of all tuition and fees, a total of $294.00 for the year.

Special Cash Scholarships. The state legislature has authorized a very limited number of special cash scholarships to be awarded by the state scholarship commission to residents of Oregon with outstanding academic achievement and financial need for use at any four-year accredited institution of higher
learning in Oregon. These awards have a possible annual value of $500.00 (depending upon individual need), with the amount subject to review each year by the commission. They are renewable for a total of four years provided eligibility is maintained. Special application forms are available at the office of the high school principal and must be submitted directly to State Scholarship Commission, Box 5175, Eugene, Oregon, by March 1.

Scholarships for Foreign Students. Scholarships are available in limited number to students from Foreign countries and to displaced persons. These awards carry a value in the amount of part- or full-tuition-and-fee costs and include the nonresident fee. Complete information may be obtained by writing the Scholarship Committee, Oregon College of Education, Monmouth, Oregon.

Other Scholarships

Bernard Daly Educational Fund. Under the will of Dr. Bernard Daly of Lakeview, Oregon, worthy young men and women of Lake County, Oregon, may receive a part or all of their necessary college expenses. The terms of the will provide that the income from this fund be used to pay the college expenses of at least fifteen students each year who attended high school in Lake County. The fund is administered by a board of trustees who select candidates annually from a list of applicants recommended by the county judge and the county school superintendent following examinations given in Lake county.

Eastern Star Scholarships. Five scholarships of $100.00 each are awarded annually to women students who are members or daughters of members of the Order of the Eastern Star in Oregon. These scholarships are presented at the end of the junior year to worthy students in need of financial assistance for the senior year.

The Maria C. Jackson Foundation Scholarship. The Jackson Foundation is a testamentary trust of the late Mrs. Maria D. Jackson, widow of C. S. Jackson who was founder of the Oregon Journal. The trustees of the Foundation have granted Oregon College of Education a $1,000 scholarship for the 1966-67 school year. All scholarship applicants are automatically considered for this award.

Oregon College of Education awards.

OCE Dade Club awards.

Money is presented to the Scholarship Committee to be used as supplementary awards. All scholarship applicants are automatically considered for these awards.

OCE Mothers Club awards

1. The scholarship is to be awarded to a student on campus for the purpose of helping him or her in paying board and room.
2. The student may be of either sex.
3. The student should preferably have completed two years of work at Oregon College of Education.
4. The student must have maintained a grade point average of at least 2.40 in order to be eligible for the scholarship.
5. The total amount to be awarded by the Mothers Club each year is not to exceed $150.00 and is to apply toward board and room costs for the winter and/or spring terms.
6. The scholarships shall be awarded by the O.C.E. Scholarship Committee.

OCE Scholarship Committee Awards.

The Oregon College of Education Scholarship Committee offers a limited number of scholarship awards from funds contributed to the Committee by various individuals, groups, and organizations. These scholarships vary in
number and amount according to the student’s financial need and proven abilities. All scholarship applicants are automatically considered for these OCE awards.

Oregon Congress of Parents and Teachers Scholarships. The Oregon Congress of Parents and Teachers has established a program of tuition scholarship awards available to individuals who plan to prepare for elementary or secondary teaching in the public elementary and/or secondary schools of Oregon. High school seniors or graduates and college students desiring to qualify for elementary or secondary certification may apply for these scholarships. Scholarships are in the amount of $250.00 a year for a period not to exceed four years (12 terms). The awards are limited to Oregon residents. Application forms are available in the high school principal’s office and should be filed with the Oregon Congress of Parents and Teachers, 603 Loyalty Building, Portland 4, Oregon, by March 1.

Oregon State Employees Association Scholarships. A number of scholarships and grants-in-aid are awarded annually by the Oregon State Employees Association to students attending institutions in the state system of higher education. The applicant’s parent or legal guardian must be a member of OSEA. Selection is based upon scholastic achievement and financial need. Scholarship application forms are available from the high school principal or the scholarship committee, Oregon College of Education, and must be submitted to the OCE scholarship committee by March 1. The applicant must also obtain from the president of the OSEA chapter where the required membership is held a form for certification of eligibility to be sent to the OSEA Scholarship Committee, 1515 State Street, Salem, Oregon, by March 1.

P.E.O. Scholarships. Two scholarships in the sum of $250.00 each are awarded annually to girls who are residents of Oregon by the Oregon State Chapter of P.E.O. These awards are to be used during the junior or senior year at a college or university in the state of Oregon. Applications should be obtained from and filed with the Scholarship Chairman of the State Chapter of P.E.O.

Mrs. Roben J. Maaske Scholarship. A $200.00 scholarship to be awarded annually to a sophomore, junior or senior student at OCE. Selection is made by the OCE scholarship committee based upon achievement and financial need.

Non-resident Scholarships

A limited number of non-resident fee remission scholarships are awarded annually by the State Scholarship commission to residents of the United States who are not residents of Oregon. The scholarships are for study in the institutions of the Oregon State System of Higher Education. At Oregon College of Education the scholarships have a value of $80.00 a term.

Loan Funds

As an aid to students in financing a part of their collegiate study, a number of loan funds have been established. These funds are administered by officers of the institution in accordance with provisions specified by the respective donors. Applications for loans should be made to the office of student personnel.

The Ackerman Memorial Loan Fund. Named in memory of the late J. H. Ackerman, former president of the college, the fund has been built up through the contributions of graduating classes, individual contributions from members of the alumni association, and from the faculty.

Sophia Barnum Memorial Loan Fund. Relatives and friends of the late Sophia Barnum, long a member of the teaching staff, have established a loan fund in her memory for deserving men and women interested in preparing for teaching.
Patrick D. Dillian Memorial Student Endowment Fund for Seaside High School Graduates. The annual income from this endowment fund is to be used for an annual award for a selected graduate of Seaside high school if such graduate attends an institution of the system within six months after graduation.

Educational Loan Foundation Fund, IOOF. Provides loans to qualified students who have completed at least one year of college.

The Federation of Women's Clubs Educational Fund. Provides loans to a limited number of students.

Thomas H. Gentle Memorial Student Loan Fund. This loan fund has been established by relatives and friends of the late Thomas H. Gentle, who was at one time a member of the staff and an outstanding leader in teacher education. Loans from this fund are available to selected men and women preparing for teaching.

The Harry L. Holmes and David H. Holmes Scholarship Fund. Loans from the Harry L. Holmes and David H. Holmes scholarship fund are available to able, worthy, and needy male students (except those who propose to pursue the professions of medicine, law, music, and art) of Jackson county. Students to receive loans are selected by a committee of Jackson county residents, including a member of the Harry L. and David H. Holmes family.

Katherine Elle Klein Memorial Loan Fund. Relatives of Katherine Elle Klein have established this memorial. Funds are available to senior men and women in teacher education.

The J. S. Landers Loan Fund. Named in memory of Joseph S. Landers, president of the college 1921-1932, this is an emergency fund to meet immediate needs of students. Loans are made in small amounts and are for a short time only.

The Julia McCulloch Smith Loan Fund. Given to Oregon College of Education by Mr. John E. Smith, of Ames, Iowa, in memory of his wife, Julia McCulloch Smith, a graduate of Oregon College of Education, the fund is loaned to worthy women students.

Roben J. Maaske Memorial Student Loan Fund. This fund has been established in memory of the late Roben J. Maaske, president of the college 1950-55, to provide loans to worthy and deserving students preparing for teaching.

The Virginia Martin Memorial Loan Fund. Established in 1948, the fund makes available to students loans not to exceed $100.00.

Masonic Educational Funds. The Grand Lodge of the State of Oregon has assigned $2,000 to a fund for needy sons and daughters of Master Masons. Loans from this fund are made at the discretion of the trustees of the Grand Lodge, upon recommendation of the president of the institution and the approval of the master and wardens of the lodge located in the same place as the institution. Loans to any one student may not exceed $300.00 in a college year, subject to repayment in full or in installments at the borrowing student's earliest convenience.

The Knights Templar have a national fund available for the aid of students in the junior and senior years. The student applying need not necessarily have Masonic affiliations as a prerequisite. Loans from this fund are obtained in the manner above described.

Ralph Kilham Memorial Loan Fund. Established in 1963 as a memorial to Ralph Killham, by the students, faculty, and staff of Oregon College of Education.
Monmouth Chamber of Commerce Loan Fund. This fund is available to carefully selected students.

Mothers Club and Dads Club Loan Fund. This fund was established in 1951 and is available to young men or young women in attendance at Oregon College of Education.

National Defense Education Act Loan Fund. By act of Congress this fund was established to assure that "no student of ability will be denied an opportunity for higher education because of financial need." Though not limited to students preparing for teaching, the loan arrangement is especially attractive to such students. Up to one-half the amount borrowed may be cancelled for those who enter the teaching profession in public schools and continue in it for five years. A "superior academic background" is required of applicants.

Oregon Department, Daughters of Union Veterans of the Civil War Student Loan Fund. The Oregon Department has established a loan fund which is designed to give assistance to selected men and women students. Preference is given to descendants of Union veterans.

P.E.O. Educational Loan Fund. Undergraduate or graduate women students in good standing may be eligible for P.E.O. loans in a sum not to exceed $800.00 and for a period not to exceed five years. The interest rate is three percent. The dean of women may assist in bringing about contact between the applicant and a P.E.O. chapter through which the loan is processed.

Rachel Phillips Loan Fund. Oregon College of Education was made beneficiary of one-third of the estate of Mrs. Rachel Phillips, of Oregon City. The amount of the bequest was made available for use as a student loan fund by the board of regents.

OCE Alumni Association Loan Fund established in 1962 by that Association. Regulations are the same as other institutional loans.

Riddell Memorial Student Loan Fund. Relatives and friends of Elizabeth and William Riddell have established this loan fund in their memory. Funds are available to men and women students.

Thomas Roberts Loan Fund. From the estate of Thomas L. Roberts this fund was made available to worthy young men and women of the state of Oregon to encourage spirituality and ability to be of service to others.

Sovereign Grand Lodge Education Loan Fund. This fund is available to candidates approved by the administrators.

The Charles H. Thompson Fund for Girls. Young women in college may apply for loans from the Charles H. Thompson Fund for Girls, which was established by the will of the late Charles H. Thompson.

Ada Murray Memorial Loan Fund. Established in 1962 by the Hood River County O.E.A., this fund is available to all students with preference given to students from Hood River County.

Lee J. Mahoney Memorial Loan Fund. Established in 1964 as a memorial to Lee J. Mahoney, instructor in science and mathematics. Loans from the fund are limited to students interested in a mathematics teaching career.

George J. Harding Memorial Loan Fund. Relatives and friends of the late George J. Harding, long time faculty member in speech and drama, established a loan fund in his memory.

United Student Aid Funds Loan. The Oregon College of Education Alumni Association has provided this loan fund in conjunction with a National Philanthropic Foundation. Students who are of sophomore, junior, or senior standing and who are progressing toward a degree may be eligible for this loan.
Employment

Many students earn a large part of their expenses by work in the summers and during the academic year. Only those who are in good health and who can maintain a high scholastic standing can expect to succeed in carrying a full college course and at the same time earn a major part of their expenses. The work available during the academic year consists of such tasks as housework, janitor work, typewriting, reporting, waiting on tables, clerking, gardening, caring for children, etc.

Organized effort is made to assist those desiring to find work. Applications should be made to the student personnel office. Remunerative employment cannot be guaranteed to all who may desire it. The new student should have sufficient funds to cover the expenses of at least the first term. The attention of new students who intend to earn all or part of their living is called to the following results of experience:

1. Work of any kind is much more readily obtained after the student has had opportunity to familiarize himself with the local conditions.
2. No student should expect to obtain employment by correspondence. Positions for part-time employment are not listed, as a rule, until after the term opens.
3. No student should come expecting to earn money unless he knows how and is willing to work. Only those students who do their work well can expect continued employment.
4. A student earning his board and room or working 20 hours or more a week should not expect to carry a full academic load.

Student Welfare

Every effort is made at Oregon College of Education to promote student welfare. Special personnel services and agencies coordinate the program, and all members of the faculty and staff assist in promoting a personnel program designed to further mental health and educational development.

Student Personnel Program

The dean of students and the associate deans have general responsibility for the personnel program and for student welfare. The deans are available to students at all times for personal guidance and scholastic counseling.

A series of placement and aptitude tests is administered to admitted students and provides students and advisers with information valuable in planning professional work and in general counseling.

An effective counseling program insures personalized help for every student in planning his college course, and in making adjustments to college life. A faculty adviser is assigned to each new student. The student may retain this adviser throughout his college career, or he may change his adviser at any time. The faculty adviser becomes acquainted with the student and is available for consultation whenever help is desired. The dean of students and the associate deans are always available to all students for counseling. Specialized individual counseling and testing services are available to any student. A charge of $5 per school year is assessed for these specialized services.

The registrar is always available for planning programs and assisting in evaluation of work completed or work to be done. The dean of instruction, heads of various departments, and faculty members in each field are available to students for academic counseling. The director of teacher education, the coordinator of the secondary education program, and the placement secretary assist students in working out a suitable program of teacher preparation and in obtaining satisfactory placement.
Religious education is fostered on the campus by convocation speakers and by cooperative activities with the local churches. Students also have opportunity for fellowship in several religious organizations which are active on the campus. The college has also participated in a nationwide study of religion and higher education.

**Discipline.** The president has final authority in all matters of student discipline and, subject to review by the chancellor, in the regulations of student organizations and institutions whose actions may affect the welfare or policy of the institution.

**New Student Week**

The orientation program for all new students is an important feature of the fall term. During New Student week, social functions, guided campus tours, firesides, and assemblies acquaint students with the many aspects of college life, its responsibilities and possibilities. Advisers assist the student in preparing his academic schedule. The students sign the Freshman walk and become familiar with other OCE traditions. Freshman initiation ceremonies are planned. Freshman class government is organized, and general orientation to the college curricular and co-curricular programs takes place.

**Campus Store**

A self-service campus store is maintained by the college through which students may purchase textbooks, supplies, and miscellaneous items.

**Student Health Services**

Through the Student Health Services, the college seeks to promote optimal physical and mental health for all its students. It strives to reach this goal by providing a safe, healthful environment, sound health education, health counseling and basic medical and nursing services. Health services are supported by student fees on a non-profit basis.

All regularly enrolled students are entitled to medical consultation and treatment as provided through the Health Service. On the recommendation of the College physician and under his supervision a student is entitled to a maximum of five days hospitalization per term or fifteen days for the three terms. Hospitalization contracts for OCE students for ward care have been arranged with the two Salem hospitals. Expenses connected with surgery, x-rays, medicines, special nurses, and laboratory tests other than routine blood and urine must be met by the student.

A student who is ill at his residence on or off campus may request a call by the college physician at his own expense at the following rates: 7 a.m.-12 midnight: $10.00, 12 midnight-7 a.m.: $15.00.

Health services are not provided to students' families, faculty or staff.

**Accident and Sickness Insurance**

A committee from the Associated Students each year selects an insurance plan which it feels will best meet the students' need to supplement the limited services described above.

Such a plan provides for additional hospitalization, medical and surgical benefits, diagnostic and laboratory tests and coverage for accidental injuries.

This group insurance may be purchased by the student at registration time at considerably less cost than individual coverage and provides protection both on and off campus whether school is in session or not.

An insurance plan of this type is recommended in order to provide reasonably adequate coverage for the college age student.
Placement

The placement office assists students who prepare for teaching to obtain teaching positions. Close relation with the schools and school officials of the state is maintained so as to insure the placing of graduates in the positions suited to their preparation and qualifications. The current year’s graduates receive the placement service without cost; graduates of former years may receive the service of the placement office for an annual registration fee of $5.00. The credentials compiled by the placement secretary are made available to school officials upon request.

Follow-up Services

During their first year of teaching in Oregon, all graduates of the teacher education program are visited by a member of the academic staff. This visitation program serves to assist the graduate in evaluating his personal experiences and make further professional adjustments. The institution uses the follow-up program to evaluate its teacher education program.

Alumni Association

The graduates of Oregon College of Education maintain a permanent alumni organization. The association maintains contact between the institution and its graduates and among the graduates themselves. The college is interested in continuing to serve its graduates in the various fields of endeavor, and they in turn are usually alert to opportunities for building up the work of their alma mater.

One of the very positive assets of the college is its loyal and active Alumni Association, as evidenced by active alumni clubs under the leadership of directors appointed by the executive committee of the association. Through these alumni clubs and the OCEAN (Oregon College of Education Alumni News), alumni are kept informed on matters pertaining to the college and its graduates.

The Oregon College of Education Alumni Loan Fund and participation in the National Defense Education Act and United Student Aid Funds loan programs are possible through the financial support of the Alumni Association.

The Carillon, in memory of the Campbell Hall Tower and the Grove, is a gift of alumni and friends of OCE, through the efforts of the Alumni Association.

Life membership at $35.00 and annual memberships at $3.00 entitle alumni to the privileges of the Alumni Association, and to the OCEAN, which is published four times during the school year. All inquiries regarding the Alumni Association should be addressed to the Director of Alumni Relations, Oregon College of Education, Monmouth, Oregon.

Mothers and Dads Clubs

The OCE Mothers Club and OCE Dads Club are open to all mothers and fathers of students attending Oregon College of Education. These organizations help to acquaint parents with the philosophy, curricula, trends, and opportunities at Oregon College of Education, and provide a close link between the home and the college.

Dues and contributions of the Mothers Club and Dads Club provide scholarships, loan funds, and special awards. The organizations meet at various times during the year, holding joint meetings during Folks Festival at the OCE campus.
Student Activities

Various activities and organizations of alumni and of students add their incentive and direction to the program and ideals of the college. These activities and organizations not only assist in developing the individual students for further service to their communities, but they also strengthen and enrich the life of the institution.

Focal point of student activities is the Student Center, which is an integral part of the educational life at the college. It serves adequately the needs of students, faculty, alumni and guests for cultural, recreational and social pursuits. The center helps to make free time activity of students a cooperative factor with study.

Participation in any activity program is particularly valuable for students planning a teaching career. A record of such participation will be helpful to the teaching candidate seeking placement and to the teacher after a position is secured.

Social Activities

Through various social activities and organizations, particularly through living groups, students enjoy association with fellow students and members of the faculty. The contacts thus afforded constitute one of the most pleasant features of campus life.

Oregon College of Education fosters, in every way possible, an atmosphere conducive to high social and ethical ideals. A close personal contact between students and faculty, resulting in mutual confidence and inspiration, is sought. All students are encouraged to participate in student activities and to have a part in establishing and maintaining the spirit of the college.

Organizations

Associated Students

All students are members of the Associated Students and are eligible for participation in the many social, educational, and recreational activities. The college recognizes the value of democratic living and fosters in every way student participation and responsibility in all matters of student welfare.

Student Government

A strong student council, through its elected representatives of the student body, and its various appointed officers and committees, shares with the faculty many administrative responsibilities, and coordinates the activities of the various campus clubs and organizations.

Scholastic Honorary Organizations

Election to membership in scholastic honor societies is on the basis of high scholarship and honors students for outstanding academic achievement.

Theta Delta Phi, national honorary fraternity for men, is open to students achieving a 3.0 average for two consecutive terms.

Sigma Epsilon Pi, women’s scholastic honorary, is open to students achieving a 3.25 average for two terms.

Professional Honor Societies

Student interest in professional areas is encouraged through professional honor societies. Election to membership is on the basis of special fitness or attainment in the respective departmental or professional field.
Kappa Pi, the oldest honorary art fraternity, has chapters in forty-seven states. The Oregon College of Education chapter was organized during the year 1946-47. Students elected to membership must be upperclassmen with high scholastic records and outstanding art ability. Candidates must have the approval of the art staff.

Alpha Psi Omega, national dramatics honorary, stimulates interest in dramatic activities. The Kappa Mu chapter was chartered in 1947. Election to membership is on the basis of active participation in dramatic activities.

Service Honoraries
Several service honoraries offer selected students an opportunity to work together on worthwhile educational and recreational activities and to perform service functions for the associated students in many ways.

Staff and Key is a women's service club. To be a member of this organization a girl must have been on campus at least one term and have a 2.5 grade point average. Other qualifications for membership are leadership, loyalty, friendliness, and cooperation.

Collecto-Coeds is a women's service organization comprised of women exhibiting such attributes as cooperation, character, friendliness, loyalty, and service. This organization promotes interest in student activities and assists in upholding high social standards on the campus. Membership is by invitation.

Intercollegiate Knights, Wolf Knights chapter, is a national men's service organization of limited membership. The purpose of the club is to keep alive the traditions of the campus and to encourage student leadership and participation in campus activities. Members are selected on the basis of loyalty, character, and willingness to work.

Special Interest Organizations
The special needs and interests of students are effectively served by special interest groups and classes of many types. Student government encourages the organization of special groups to serve particular interests of students.

Classes. Each class (freshman, sophomore, junior, senior, and graduate) is organized in order to better serve the needs of the students. The class organizations participate in student government and in planning worthwhile social and educational activities.

Independent Students is an organization open to all students living in off-campus residences and to commuting students. This group sponsors social and recreational activities for students unable to participate in dormitory living.

Student Oregon Education Association is open to all students in teacher education. It assists the student in his future profession and has a constructive program fostering better teaching and better candidates for the teaching program.

Dormitory Living Groups have their own government for effective democratic living. Each dormitory sponsors social and recreational programs in cooperation with the Associated Students and the Interdormitory Council.

Co-Weds, an organization of student wives and married women students, meets together for social and educational activities of particular interest to young married women.

Upstagers is a drama club for students interested in all areas of play production and drama. One-act plays, dramatic readings, and other dramatic activities are encouraged through this organization.
D'OCE-Do, the square dance club, sponsors campus folk and square dance activities and demonstrations.

International Relations Club sponsors and programs debates on topics of current international affairs. Membership is open to all students.

Outing Club and the Schussmeisters (ski club) sponsor appropriate activities for students.

Young Democrats and Young Republicans sponsor political assemblies, discussions, and other activities for students interested in public affairs.

Varsity "O" is an organization composed of men who have earned their varsity letter in intercollegiate athletic competition.

Hui O Aloha (Hawaiian Students Club) is an organization which strengthens the ties between Hawaii and the continent by creating a better understanding of the Hawaiian Islands through group association and other activities. Membership is open to students who have resided in Hawaii for at least one year.

Music Educators National Conference (M.E.N.C.), Student Chapter, is a national organization for students interested in music education. Meetings feature speakers and performers in the field. M.E.N.C. also acts as a service group by assisting in the organization of concerts, receptions, student recitals, and other musical activities.

Wolvettes is the "pep club" for women who are interested in furthering school spirit.

Band is a class available to students with musical ability. The band sponsors concerts, plays at ball games, and conducts other musical activities.

Choir is a class open to students with singing ability and sponsors concerts on campus and in surrounding communities.

The Campus Christian Council coordinates many of the activities of the separate religious and church-affiliated groups on the campus and sponsors an annual Religious Emphasis Week for the campus community. Wesley Foundation, Lutheran Club, Westminster Foundation, Newman Club, Christian Science Club and Inter-Varsity Christian Fellowship provide students and faculty members ample opportunity for many rewarding religious and social activities.

W.R.A., the women's recreational association, coordinates the women's intramural and intercollegiate recreational program. Blazers are awarded to women students who qualify for awards according to the point requirements specified in the WRA constitution.

Publications

The Lamron is the weekly newspaper written, edited, and managed by students with the aid of a faculty adviser. It is designed to keep students and faculty in touch with the activities of the campus and the institution and to give student staff members valuable experience in journalistic activities.

The Grove is the annual publication of the associated students which features a review in pictures and words of the year's activities.

The Word is a handbook published each year for new students.

Wolf Calls, the student-faculty directory, is published each year by the associated students.

Other Student Activities

In addition to clubs and organizations, a large variety of student activities enhance the cultural atmosphere of the campus and provide educational, recreational, social, and leadership opportunities for interested students.
Athletics, Sports and Recreation

Athletic programs for men and women supplement the class program of physical education activities. Participation in intercollegiate athletics with colleges of the Pacific coast is an integral part of the physical education program.

The men's intercollegiate program includes participation in the Oregon Collegiate conference. Competition on an intercollegiate basis is conducted at the varsity level in football, cross country, basketball, wrestling, baseball, track and field, tennis, golf, swimming and bowling. Freshman and junior varsity schedules are maintained in several of the sports.

The intramural program for men includes flag football, volleyball, basketball, swimming, handball, badminton, table tennis, softball, track and field, tennis, golf, horseshoes, archery, bowling, and wrestling.

Women participate in a program of intramural and intercollegiate recreational activities under the sponsorship of the women's recreation association. Their activities include volleyball, basketball, badminton, table tennis, folk and square dancing, swimming, softball, tennis, horseshoes, archery, and bowling.

Dramatics

Through coursework and extracurricular activities, dramatics are fostered in the college not only for the benefits which such activities bring to those participating but also for the intellectual and cultural value they bring to the campus generally. Experience in dramatics is of great value to any prospective teacher.

Music

Through various means, effort is made on the campus to stress the cultural benefits of music. Many recitals and concerts are given throughout the year, often with no admission charge. Participation in Band, Orchestra, Choir, vocal, instrumental ensembles, operas and musical plays is urged.

Assemblies and Concerts

A variety of assembly programs encourages interest in political, literary, artistic, and other areas. The college sponsors a series of musical concerts either on this campus or in cooperation with other nearby colleges, which provides opportunities for the students to extend their music education by personal attendance at operas, ballet, and other musical programs.

Awards

As an incentive to exceptional achievement in scholarship and activities, or in special fields of endeavor, many honors and awards have been made available to students.

The Julia McCulloch Smith Award is given each year to the outstanding senior woman.

The Delmer Dewey Award is given each year to the outstanding senior man.

The Eloise Buck Memorial Award is given each year to a student for outstanding accomplishment in creative writing.

Phi Delta Kappa, national men's honorary education fraternity, presents an award each year to the outstanding senior man in education.

Other Awards. Numerous other awards are presented annually in recognition of outstanding achievement in drama, journalism, leadership, scholarship, intramural and intercollegiate athletics, mathematics, physics, and other areas.
Requirements for Degrees and Certificate

Certificate

Completion of the prescribed program of lower-division work qualifies one for an associate in arts certificate.

General Requirements:
  a. Term Hours: Minimum, 93
  b. Grade-Point Average: Minimum, 2.00 (C)
  c. English Composition: 9 term hours
  d. Fundamentals of Speech: 3 term hours
  e. Physical Education: 6 term hours in activity courses
  f. Personal Hygiene

Group Requirements:
  a. A prescribed amount of work selected from three groups representing comprehensive areas of knowledge: humanities, science-mathematics, and social science. The group requirements are a sequence of at least 9 approved term hours in each of the groups and a second sequence of at least 9 additional approved term hours in courses numbered 200-210 in any one of the same three groups.

Bachelor's Degree

To earn the degree of bachelor of science (B.S.) a student must complete the following institutional requirements. (Curricular and departmental requirements are listed elsewhere in this catalog.)

1. Term Hours: Minimum, 192 including at least 45 in upper-division in the elementary school, junior high school, and general studies curricula, and at least 62 in upper-division in the senior high school curriculum.

2. Grade-Point Average (GPA): Minimum 2.00 (C) on all college work and all work completed in residence at Oregon College of Education. (See Teacher Education curricula for grade point requirements.)

3. Residence: Minimum, 45 of the last 60 term hours. Division of Continuing Education classes taken through Oregon state system of higher education (not including correspondence study) may partially satisfy the residence requirement, but two full terms out of the last 60 hours must be completed on the Oregon College of Education campus. Two 8-week summer sessions of 12 hours each will meet this requirement.

4. Correspondence Study: Maximum, 24 term hours. (Credit earned by correspondence study is not residence credit.)

To earn the degree of bachelor of arts (B.A.) students are required to meet the institutional requirements listed above, and the course requirements in one specified curriculum for the degree of bachelor of science, and in addition to complete two years (normally 24 hours) of college work in a modern foreign language, one year of which may be satisfied by two or more years of this same language in high school.
Application for Degree. All students who intend to receive a degree from Oregon College of Education must make application by filing the proper form in the registrar's office early in the senior year. All college academic and financial obligations must be satisfied before any degree will be conferred.

Graduation with Honors. The faculty at Oregon College of Education recognizes superior scholarship by conferring at the annual commencement ceremony the distinction "Graduation with Honors" on students who have earned a cumulative grade-point average of 3.5 or better in their undergraduate work. Such students must have been in regular attendance at the college their last two years, earning a minimum of 90 term hours. Normally, the determination of grade point averages for honors purposes will be made at the end of winter term of the student's senior year.

Application for Teaching Certificate. All teaching certificates are issued by the superintendent of public instruction in the state department of education, Salem. To be eligible, an applicant (1) must have attained the age of 18 years; (2) shall furnish satisfactory evidence of proper educational preparation; (3) shall furnish satisfactory evidence of United States citizenship; and (4) shall, if the superintendent of public instruction requires such, furnish satisfactory evidence of good moral character, mental and physical health, and such other evidence as may be deemed necessary to establish the fitness of such applicant to serve as a teacher.

Application is made by submitting the required form, which is available in the placement office, to the state department of education, Salem, along with the regular $5.00 fee and an official transcript of college record, which is obtained from the registrar's office for a $1.00 fee.

Advanced Degrees

For advanced degree requirements see Graduate Study section.
Academic Procedures and Regulations

The academic year of Oregon College of Education is divided into three terms of approximately twelve weeks each, exclusive of the summer session, which is eight weeks in length. Students may enter at the beginning of any term but are advised to enter in the fall. It is especially important that first-year or freshman students be present for the opening week. The opening and closing dates for the terms of the current year are given in the academic calendar.

Definitions. Special terms applying to academic procedures of the college are defined as follows:

A SUBJECT is a designated field of knowledge such as history or English.

A COURSE is a subject or an instructional subdivision of a subject offered through a single term.

A CURRICULUM is an organized program of study arranged to provide definite cultural or professional preparation.

A YEAR SEQUENCE consists of three closely articulated courses in a subject extending through the three terms of the academic year.

A TERM HOUR represents three hours of the student's time each week for one term. This time may be assigned to work in classroom or laboratory or to outside preparation. The number of lecture, recitation, laboratory, studio, or other periods per week for any course may be found in the descriptions in this catalog or in the regular schedule of classes.

Concurrent Registration. A student registered full time at OCE may not register for courses at another institution or in the Division of Continuing Education without specific permission from the academic requirements committee.

Class Standing. Freshmen, 37 or fewer hours; sophomore, 38-95 hours; juniors, 96-141 hours; seniors, within 51 hours of meeting requirements for graduation from a specific curriculum with required scholarship.

Grades and Points. The quality of student work is measured by a system of grades and grade points.

Grades. The grading system consists of four passing grades, A, B, C, D; failure, F; course dropped, Dr.; withdrawal from school, W; incomplete, Inc. Students ordinarily receive one of the four passing grades or failure. When the quality of the work is satisfactory, but the course has not been completed for reasons acceptable to the instructor, a record of incomplete is made and additional time is granted. Normally, an Inc. becomes an F by the end of the next term of residence unless the instructor has granted additional time.

Points. Grade points are counted on the basis of 4 points for each term hour of A grades, 3 for each term hour of B, 2 for each term hour of C, 1 for each term hour of D, and 0 for each term hour of F. Marks of Inc. and W are disregarded in the computation of points. The grade-point average (GPA) is the quotient of total points divided by total term hours in which grades (A, B, C, D, and F) are received. A minimum grade-point average of 2.00 or C is required for graduation.
Course Numbering System

Courses throughout the state system of higher education are numbered as follows:

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-49</td>
<td>Courses which do not carry credit applicable toward an academic degree.</td>
</tr>
<tr>
<td>50-99</td>
<td>Courses in the first year of foreign language, elementary algebra, geometry, and other courses of similar level.</td>
</tr>
<tr>
<td>100-299</td>
<td>Courses on the lower-division level.</td>
</tr>
<tr>
<td>300-499</td>
<td>Courses on the upper-division level.</td>
</tr>
<tr>
<td>500-599</td>
<td>Upper-division courses which may be taken for graduate credit.</td>
</tr>
<tr>
<td>(G) or (G)</td>
<td>Graduate courses.</td>
</tr>
</tbody>
</table>

Certain numbers are reserved for courses that may be taken through successive terms under the same course number, credit being granted according to the amount of acceptable work done. These blanket numbers are as follows:

<table>
<thead>
<tr>
<th>Number(s)</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>503</td>
<td>Thesis (reading or research reported in writing)</td>
</tr>
<tr>
<td>402, 502</td>
<td>Workshop</td>
</tr>
<tr>
<td>406, 506</td>
<td>Special Individual Studies</td>
</tr>
<tr>
<td>407, 507</td>
<td>Seminar</td>
</tr>
</tbody>
</table>

Dropping a Course. A student may drop from a course (or courses) without being responsible for his grade up to the scheduled date shown on the academic calendar. If a student drops a course at any time after that date, a grade of Dr. will be recorded if a grade of D or better is earned at the time of dropping. A grade of F will be recorded if the student is doing failing work. This grade will be figured into the term grade-point average along with those for courses carried the full term.

Withdrawal from School. A student may withdraw from the college without being responsible for grades up to the scheduled date shown on the academic calendar. If he withdraws after that date, he is responsible for his grades at the time of withdrawal; if he is doing satisfactory work (C or better), he will receive grades of W for all his courses; if not, grades of F will be recorded for all courses in which he is doing unsatisfactory work (D or F). The student will then be subject to appropriate academic action at the close of the term. It should be noted, however, that in situations of emergency (accidents, prolonged illness, etc.) a student may be permitted to withdraw without penalty at any time upon approval of the academic requirements committee.

Procedures. The form for dropping a course may be obtained in the registrar's office. It must be completed with instructor's and adviser's signatures and returned to the registrar's office before the action can be considered official. The instructor is then notified to that effect.

In order to have official and clear withdrawal from school, a student must fill out the necessary withdrawal papers, obtain the signatures of instructors, adviser, and dean, and return the forms to the registrar's office. All obligations to the school must be met in order to receive honorable dismissal. Under no circumstances will the withdrawal be official until this procedure has been completed.

Scholarship Regulations. The administration of the regulations governing scholarship requirements is vested in the academic requirements committee of the faculty.

A student is doing satisfactory work when he maintains a grade-point average of 2.00 (C) or better for all college work and for all work at OCE, and makes substantial progress toward the completion of other graduation requirements. A student failing to do satisfactory work any one term is placed on scholastic probation. If his grade-point average the following term is 2.00 or better,
(a) he is removed from probation if his cumulative grade-point average is 2.00 or better on load of 12 or more hours.
(b) he is continued on probation if his cumulative grade-point average is below 2.00.

A probationary student whose scholastic average for any term falls below 2.00 will not be permitted to re-register without the consent of the academic requirements committee. Any student not achieving profitable and creditable progress toward graduation may be suspended at the discretion of the academic requirements committee.

Awarding of Degrees. Degrees are awarded by Oregon College of Education once each year only, at the regular commencement exercises held in June. Those persons completing requirements for a degree at the close of the summer, fall, winter, and spring terms receive their degrees and diplomas in June. Persons who complete their final work off the Oregon College of Education campus spring term will be awarded the degree at the June commencement of the subsequent year. Upon request, a statement of degree can be furnished whenever requirements are completed at a time other than the term degrees are awarded.
Undergraduate Curricula

Honors Program

As a significant part of its various curricula, OCE offers an honors program dedicated to the pursuit of academic excellence. It provides the opportunity for the able and ambitious student to look at himself and his work, both in and out of classes, and to commit himself with dedication to quality in his educational adventure. The very center of this commitment is a readiness on the part of superior students to face up to and explore ideas.

The honors program at OCE was established to offer more challenging work to students who have demonstrated superior scholastic ability.

Freshman Program. Freshmen are selected on the basis of high school rank and performance on certain standardized tests. Participation in OCE's honors program is purely voluntary. Students selected are invited to take some of their work in specialized courses taught in such a way as to integrate basic information in the fields of science, literature and social science. These specialized courses meet the college freshman year requirements in literature and social science.

Sophomore Program. Sophomores who have successfully completed the freshman honors program, or who have otherwise demonstrated superior ability, are invited to participate in the sophomore honors program. Participation in this program is purely voluntary. Emphasis of the sophomore honors program is upon United States history and culture.

Junior-Senior Honors. Students in the junior and senior classes who have demonstrated superior academic achievement and potential as leaders are invited to participate in seminars and to earn credit for research papers written during the course of an academic year. Superior junior and senior students planning a career in teaching may be invited to serve as research, laboratory or teaching assistants.

Teacher Education

The preparation of teachers for the public schools has long been considered to be one of the major responsibilities of higher education in America. The state board of higher education in Oregon has indicated its recognition of this responsibility by the expansion of its facilities for the accomplishment of this task. Among the institutions comprising the state system of higher education, Oregon College of Education has as its major responsibility offering undergraduate and graduate work in teacher education at the elementary, junior high, and senior high school levels and the provision of leadership in teacher education.

At OCE a four-fold educational objective is sought:

1. To provide a broad general education with academic specialization for the prospective teacher.
2. To develop a well-defined philosophy of education and to provide a professional preparation for effective teaching and administrative services at the elementary, junior high, and senior high school levels.
3. To prepare educational specialist personnel with specialization programs to provide clinical and remedial services to elementary, junior and senior high schools.
4. To exert leadership in research in the teaching-learning process through the work of the Teaching Research Division of the Oregon State System of Higher Education located on the campus.

The college realizes that its obligation to the citizens of Oregon is not discharged solely through developing teaching skill in those who go out to teach. Back of the professional education must be an acquired culture and an integration of personality which will effectively influence the pupils to be taught.

Levels of Preparation

Oregon College of Education attempts to meet the second and third objectives stated above by offering curricular programs leading to certification by the State Department of Education. Since October 15, 1965, eligibility to teach at the elementary, junior high, or senior high school level is determined by satisfactory completion of norm requirements for the desired level and teaching areas and the recommendation of the teacher education institution. Curricular programs, at the undergraduate level, prepare teachers to meet the norms for the following areas:

Kindergarten
Elementary
Junior High School
Senior High School
Art Education
Music Education

Special Education
Teachers of Children with Extreme Learning Problems
Teachers of the Deaf
Speech Correctionists
Teachers of the Mentally Retarded

The Kindergarten and Elementary Curricula are designed to prepare teachers for the general classroom, grades kindergarten through six, or kindergarten through eight of an 8-4 plan of organization.

Major: Elementary Education
51 quarter hours in professional education.

First Minor: A minimum of 36 designated hours in at least one of the following fields and the number of hours indicated in parentheses in the others:

Art (6)  Physical Education (6)
Humanities (21)  Science (21)
Mathematics (12)  Social Science (18)
Music (6)

Second Minor (Optional)
Special Education
Speech Correction .......................................................... 30
Extreme Learning Problems ........................................... 24
Mental Retardation.......................................................... 12
Library .................................................................... 21
Foreign Language ............................................................. 24

The Junior High School curriculum programs are designed to provide both depth and breadth preparation for teaching in grades 7, 8 and 9 in schools with organized junior high school programs.

Major: Secondary Education (Junior High)
38 quarter hours in professional teacher education.
Minors: An OCE combined minor in Language Arts-Social Science (69 hours) or two OCE minors selected from the following fields:

Art .................................................. 42
Combined Language Arts-Social Sciences ........................................ 69
Health and Physical Education .................................................. 49
Literature, Writing and Language ........................................... 54
Mathematics (Elementary Algebra and Geometry) ....................... 31
Physical Education ........................................... 43
Music .................................................. 42
Science (Physical Science-General Science) .................................. 36
Social Science ........................................ 54
Speech and Drama ........................................ 21

Optional Minors in Specialized Fields:
Special Education
   Extreme Learning Problems ............................................. 24
   Mental Retardation ................................................. 12
   Speech Correction .............................................. 30
Library ............................................. 21

The Senior High School curricula are designed to prepare teachers for grades 10 through 12 in a senior high school organization (grades 9 through 12 in a four-year high school).

Major: 63 hours, 27 upper division.
Art Education
   Humanities
   Music Education
   Physical Education
   Science-Mathematics
   Biological Science
   Chemistry
   General Science
   Mathematics
   Physical Science
   Social Science

Minor: Secondary Education
34 quarter hours in professional teacher education.

Teaching Minor (optional second field)
Advanced Mathematics .................................................. 39
Art .................................................. 42
Biological Science ........................................... 40
Chemistry ............................................. 36
Elementary Algebra and Geometry ..................................... 31
Foreign Language ............................................ 45
Health and Physical Education ...................................... 49
Library ............................................. 21
Literature, Writing and Language .................................... 54
Music .................................................. 42
Physical Education ........................................ 43
Physical Science-General Science .................................... 36
Social Science ........................................ 54
Speech and Drama .......................................... 21
Special Education (Optional)
   Extreme Learning Problems ........................................ 24
   Mental Retardation ........................................... 12
   Speech Correction ........................................ 30

1 The minors set forth above are designated in terms that comply with titles of teaching areas established by the State Department of Education.
The Art Education curricular patterns provide for a wide range of teaching opportunities. The teaching majors and minors listed previously in the elementary, junior high and senior high programs may be taken as a part of those curricular patterns. In addition, a five-year baccalaureate program leading to an Art Education Specialist would provide preparation for teaching positions as an elementary classroom teacher or elementary art consultant, a junior high art teacher, a senior high art teacher, or art consultant or any combination of the four.

The Music Education major is designed to prepare public school teachers of music for assignments at both the elementary and secondary levels, and in both vocal and instrumental areas. The teaching majors and minors previously listed in the elementary, junior high and senior high programs may also prepare teachers in those areas with an emphasis on music.

The Physical Education major is designed to qualify students as teachers in this field. The teaching majors and minors previously listed in the elementary, junior high and senior high programs may also prepare teachers in those areas with an emphasis on health and physical education.

The Special Education programs provide preparation for elementary teachers with a minor in either extreme learning problems, mental retardation, or speech correction, or for optional educational specialist minors in mental retardation or speech correction as a part of the curricular programs for junior high or senior high school teachers.

Admission to Teacher Education

Students planning to qualify for certification to teach in the public schools of Oregon normally make application to the committee on teacher education during the third term of their sophomore year. Students may not take courses designated as "Professional Teacher Education Courses" until they have been admitted to Teacher Education. The Committee on Teacher Education establishes policies and standards to be completed prior to full admission to Teacher Education courses. Application is made by filing application forms, by completing satisfactorily the required tests and approval forms, and maintaining a 2.0 GPA. Lower-division requirements must also be met before any student can be fully approved for admission.

Transfer students with junior standing interested in teacher preparation should clarify their status during their first term on the campus.

Information and application forms may be obtained from the Education Department Office.

Admission to Student Teaching and Internship

Application and approval for Teacher Education does not guarantee approval for Student Teaching. The Committee on Teacher Education establishes policies and standards to be completed prior to admission to Student Teaching. Application is made early in the term preceding the quarter in which Student Teaching is planned by filing application forms obtained from the Education Department office. Students must have attained senior standing (within 51 hours of meeting requirements for graduation), completed a substantial portion of the

2 Any course with the prefix Education or Psychology (except Ed 311, Psy 201, 202, 203, 311 and 312) and specified departmental methods courses.
professional education and subject area requirements with approved scholarship, met departmental and Teacher Education Committee Screening requirements, and been approved by the Teacher Education Screening Committee.

Transfer Students. In order to be admitted to student teaching, transfer students must have met the following requirements:

1. Attained senior standing and completed the major portion of professional education and subject area requirements.

2. Satisfied all screening requirements of the committee on teacher education.

3. Spent at least one term preceding student teaching as a full-time student on campus at Oregon College of Education.

Any transfer student with previous work in education, either undergraduate or graduate, who desires to be admitted to student teaching at OCE, may be required to furnish a statement of eligibility from the department of education in the institution from which he transferred.

Internship

Through a cooperative program with local school districts, a year-long internship is provided for selected students in elementary, junior high, and senior high schools. An early expression of interest during the junior year, or fall term of the senior year, will permit the Director of Student Teaching and Interns to plan an individual program for interested students.

The following information describes briefly the salient concepts of the internship program:

1. The regular curricular programs in elementary, junior high, and senior high are completed during a five-year program, rather than a four-year program.

2. Selected candidates serve a full year as a paid intern in a school district under special certification provisions of the State Department of Education, and under a reduced teaching load with the school district.

3. Supervisory assistance is provided during the intern year by the cooperating teacher from the public school and the college supervisors.

4. Weekly college seminars for college credit, and the opportunity during summer sessions and during the internship year to complete college requirements toward the Standard Teaching Certificate and/or the Master's Degree.

5. The opportunity, if appropriate to the student's degree program, to carry graduate credit in lieu of the fifteen-hour requirement for Student Teaching during the senior year. Such credit would be reserved until completion of the required hours of Intern Teaching during the intern year, and subsequently recorded as graduate credit.

6. Awarding of the bachelor's degree at the completion of 192 hours of college credits, if all other degree requirements are met, but with the reservation of institutional recommendation for certification until completion of the internship program.

Eligibility:

1. Be eligible to attain senior standing (within 51 hours of meeting requirements for graduation with required scholarship) within the year of application.

2. Complete all the prerequisite hours in Professional Teacher Education Courses (excepting Student Teaching, or with petition approval of exceptions) during the year of application.

3. Satisfy all screening requirements of the committee on teacher education, and graduate committee as appropriate, during the year of application.
Teacher Education Programs

Kindergarten Curriculum

Students who complete the requirements in the elementary school curriculum for the degree of bachelor of science or bachelor of arts and receive elementary certification issued by the superintendent of public instruction are eligible to teach in kindergartens that are established as part of a public school system. [See Requirements for the Bachelor’s Degree (Elementary School).]

1. Students should have a genuine interest in young children, and it is important that they have the ability to play simple tunes on the piano.

2. It is recommended that students interested in the education of young children qualify themselves as kindergarten-primary teachers by including in their degree program Preprimary Education (Ed 451) and Student Teaching: Kindergarten (Ed 413), 3-5 hours.

Elementary School Curriculum

Students who complete satisfactorily the requirements in the elementary school curriculum for the degree of bachelor of science or bachelor of arts become eligible for certification to teach in the elementary schools of Oregon. All certificates are issued by the superintendent of public instruction upon recommendation of the teacher education institution. Since October 15, 1965, eligibility to teach at a specific level is determined by the satisfactory completion of norm requirements for the desired level.

Requirements for the Bachelor’s Degree (Elementary School).

1. B.S. Degree:
   a. Grade-Point Average: a 2.00 cumulative in all college work, in all work taken at OCE, in major area, and in each minor.
   b. Major: Elementary Education
      Minimum of 24 upper division hours in addition to the education core required of all teacher candidates
   c. Minor: Minimum of 36 designated hours in one of the following fields:
      Art
      Health and Physical Education
      Humanities
      Mathematics
      Music
      Science
      Social Science
   d. Second Minors (optional)
      Special Education
      Extreme Learning Problems
      Mental Retardation
      Library
      Speech Correction
      Foreign Language

2. B.A. Degree: Completion of all requirements given under 1, plus two years of college work in a modern foreign language.¹

I Lower Division General Education Requirements

Undergraduate preparation to meet the Basic certificate for elementary teachers. (Work taken in undergraduate general education in the field selected may be applied toward a minor in that field.)

¹ One year of this requirement may be satisfied by two or more years of the same language in high school.
### Humanities
- Including composition, literature, and speech 21

### Social Science
- History of Western Civilization 9
- Introductory Geography 6
- History of the Pacific Northwest 3

### Science
- Biological Science 21
- Physical Science 12

### Mathematics
- Essentials of Mathematics 9
- Mathematics for Elementary Teachers 3

### Art
- Introductory Materials Survey and Lettering Processes 6

### Music
- Music Fundamentals 6

### Physical Education
- Designated activity courses 6

### Psychology
- General Psychology, Human Development through Adolescence 9

#### II Professional Teacher Education Requirements

**Major:** Elementary Education
- Historical Foundations of Education 3
- Learning and Instruction in the Elementary School (9 hours per term) 18
- Educational Psychology (Learning and Evaluation), Audio-Visual Aids, and methods in reading, science, mathematics, social science, language arts.
- Children's Literature or Literature for Adolescents 3
- School Health 3
- Specialized methods in art, music and physical education 9
- Student Teaching and Seminar 15

#### III Specialized Undergraduate Preparation

**Minors:** At least one minor of 36 quarter hours (which may include the general education hours in the selected field, see general education requirements, page ...) selected from the following fields:

**Art**
- General Elementary Art Requirements 36
  - Introductory Materials Survey (4)
  - Lettering Processes (2)
  - Art Education (Elementary) (3)
- Crafts 12
- Design and Lettering 4
- Drawing and Painting 5
- Specialized Professional Courses in Art Education 3
- History and Appreciation 3

---

1. This 9 hour sequence may be taken as a part of a correlated program including 6 hours of sociology, called the sophomore block.
2. Included in the 36 hour minor.
### Physical Education

**Activity Courses**
- Rhythms (3), Gymnastics and Self Test. (2), Aquatics (2), Individual and Dual Sports (5), Team Sports (5) .................................................. 17

**Theory Courses**
- First Aid (2), Methods (3), Principles (3), Organization and Administration (3), Kinesiology or Anatomy and Physiology (3), Officiating or Coaching (2), Student Teaching in Physical Education (3) .................................................. 19

Choice of minor will vary the number of free elective hours to make the total program of 192 hours

Total hours undergraduate work 192

Junior High School Curricula

Students who complete satisfactorily the requirements of a junior high school curriculum in the degree programs of bachelor of science or bachelor of arts become eligible for certification to teach in the junior high schools of Oregon. Since October 15, 1965, students meet the requirements for the Basic Teaching Certificate valid for three years, and must complete an additional 24 quarter hours of upper-division or graduate credit within three years applicable to a planned fifth year of a five-year standard teacher education program. Eligibility to teach in the junior high school will be determined by satisfactory completion of requirements for the desired level and teaching areas. All certificates are issued by the superintendent of public instruction upon recommendation of the teacher education institution.

Students would be well advised to select their two fields with care. Junior high school organizations provide limited opportunity for single area or field specialization, e.g., Literature, Writing, and Language with a second field of Speech and Drama. Many teachers in the area of English will also teach Social Science, and teachers of science will also teach mathematics. Careful planning with an advisor should be undertaken early in the program.

Requirements for the Bachelor’s Degree (Junior High School)

1. B.S. Degree:
   a. Grade-Point Average: a 2.00 cumulative in all college work, in all work taken at OCE, in major area, and in each teaching area.
   b. Major: Secondary Education (junior high school)
   Minimum of 13 hours upper-division in addition to the education core required of all teacher candidates.
   c. Minors: A combined teaching minor in Language Arts-Social Science, or two teaching minors selected from the following fields:
      Art
      Health and Physical Education
      Literature, Writing and Language
      Speech and Drama
      Music
      Science (Physical Science-General Science)
      Mathematics (Elementary Algebra and Geometry)
      Social Studies
d. Optional Minors in specialized fields.
   Special Education
   Speech Correction
   Extreme Learning Problems
   Mental Retardation

Minimum: Meeting the teaching minor requirements in the combined language arts-social science norm, or in two teaching minors in a program planned and approved by an advisor.

2. B.A. Degree:
Completion of all requirements given under 1, plus two years of college work in a modern foreign language.¹

I Lower Division General Education Requirements
Undergraduate preparation to meet the Basic Certificate for secondary teachers. (Undergraduate work taken in the minor field may be applied toward meeting the requirements for the minor.)

| Humanities | 21 |
| Social Science | 9 |
| Science-Mathematics | 12 |
| Art | 4 |
| Introductory Materials Survey |
| Music | 3 |
| Physical Education | 6 |

Major: Secondary Education

| Historical Foundations of Education | 3 |
| Psychological Foundations of Education | 4 |
| Teaching in the Junior High School | 4 |
| Special Methods in Teaching Fields | 6 |
| Reading Instruction in the Secondary School | 3 |
| Audio-Visual Aids | 3 |
| Student Teaching and Seminar | 15 |

---

III Specialized Undergraduate Preparation
Junior High School teachers must complete the combined minor in Language Arts-Social Science or two minors from those listed below. Students whose interests are in the field of science or mathematics are encouraged to select these two fields as their minors.

In addition to the required minors students may complete an optional minor in special education or library.

¹ One year of this requirement may be satisfied by two or more years of the same foreign language in high school.
² This 9 hour psychology sequence may be taken as a part of a correlated program, including 6 hours of sociology, called the sophomore block program.
(1) Fields from which required minors must be selected by students preparing for Junior High School teaching

Courses Comprising the Optional Minors in Specialized Fields

### Special Education

1. Teachers of the Mentally Retarded

   To meet the basic certificate

   - Ed 464. The Mentally Retarded Child (G) 3
   - Ed 489. Curriculum for the Mentally Retarded (G) 3
   - Ed 509. Practicum: The Mentally Retarded 3
   - Ed 507. Seminar: Arts and Crafts for the Mentally Retarded 3

2. Speech Correction

   To meet the basic certificate

   - SP 487. Audiology (g) 3
   - or
   - Sp 371. Speech Science 3
   - Sp 370. Phonetics 3
   - Sp 484, 485, 486. Clinical Speech Therapy (g) 6
   - Sp 481g. Speech Pathology 3
   - Sp 482 or 483. Speech Pathology (g) 3
   - Sp 478. Diagnostic Methods in Speech Pathology and Audiology (g) 3
   - Sp 488, 489. Audiology (g) 6
   - Ed 393. Speech Correction in the Schools 3

### Library

(To be completed in the four year program)

- Lib 486. Introduction to Cataloging and Classification (g) 3
- Lib 490. Children's Literature (g) 3
- Lib 483. Book Selection and Reference Materials (g) 3
- Lib 484. School Library Administration (g) 3
- Lib 489. Literature for Adolescents (g) 3
- Ed 435. Audio-Visual Aids (G) 3
- Lib 491. Storytelling 3

### Senior High School Curricula

Students who complete satisfactorily the requirements of a senior high school curriculum in the degree programs of bachelor of science or bachelor of arts become eligible for certification to teach in the three and four year senior high schools of Oregon. Since October 15, 1965, students meet the requirements for the Basic Teaching Certificate valid for three years, and must complete 24 quarter hours of upper-division or graduate credit within three years applicable to a planned fifth year of a five-year standard teacher education program. Eligibility to teach in the senior high school will be determined by satisfactory completion of requirements for the desired level and teaching areas. All certificates are issued by the superintendent of public instruction upon recommendation of the teacher education institution.
Majors for senior high school teaching are offered in the areas of art education, humanities, music education, physical education, science-mathematics, and social science, one of which must be selected by the student. It is possible for students to meet additional teaching minors established by the state department of education in other subjects taught in high schools.

Requirements for the Bachelor's Degree (Senior High School)¹

1. B.S. Degree:
   a. Grade-Point Average: a 2.00 cumulative in all college work, in all work taken at OCE, in major area, and in each minor.
   b. Major: One to be selected from the following:
      Art Education
      Humanities
      Music Education
      Physical Education
      Science-Mathematics (Optional fields of concentration)
      Biological Science
      Physical Science-General Science
      Chemistry
      Mathematics
      Social Science
   c. Minor: Secondary Education
   d. Teaching Minors: (Optional second teaching fields)
      Art
      Physical Education
      Health and Physical Education
      Literature, Writing and Language
      Speech and Drama
      Elementary Algebra and Geometry
      Advanced Mathematics
      Music
      Chemistry
      Biological Science
      Physical Science-General Science
      Social Science
      Library
      Special Education
      Mentally Retarded
      Speech Correction

2. B.A. Degree
   Completion of all requirements given under item 1, plus two years of college work in a modern foreign language.

I Lower Division General Education Requirements
Undergraduate preparation to meet the certificate for secondary teachers. (Undergraduate work taken in the major field may be applied toward meeting the requirements for the major.)

  Student Teaching and Seminar ......................................... 15

Majors: One to be selected ........................................... 63-72

Teaching Minors (Optional second field) ................................ 12-54

Choice of major and minor will vary the number of electives

Total ......................................................... 192

III Specialized Undergraduate Preparation in Teaching Fields

First teaching fields consist of a minimum of 63 quarter hours of work. In addition, students are encouraged to meet the basic norm requirements in a second field listed on pages 57 to 60.

ART EDUCATION

63 quarter hours including lower division work. This area of concentration will meet the basic subject matter norm in Art for secondary teachers. Secondary majors in Art Education will be required to select courses to comply with the indicated required credit hours from each of the five listed areas. With the assistance of an art department advisor a planned program will be developed. Deviation from the program or substitution of courses must be approved by the department chairman.

#### Total quarter hours ...................................... 63

### Humanities

The courses listed below constitute the teaching major in humanities at Oregon College of Education and lead to recommendation as a teacher of literature, writing and language. Deviation from this program or substitution of courses must be approved by the department chairman.

- **Wr 111. English Composition** .................................. 3
- **Wr 212. English Composition** .................................. 3
- **Wr 414. Advanced Composition (g)** .................. 3
- **Sp 111. Fundamentals of Speech** .................. 3
- **Eng 107. World Literature (Prose)** .................. 3
- **Eng 108. World Literature (Drama)** .................. 3
- **Eng 109. World Literature (Poetry)** .................. 3
- **Eng 291. 2002 Shakespeare** ............................ 3
- **Sp 239. Oral Interpretation** ............................ 3
- **Eng 101, 102, 103. Survey of English Literature** .................. 9
- **Eng 252, 254. Survey of American Literature** ............ 6
- **Phil 311. Philosophy** .................................. 3
- **Ed 341. Reading Instruction in the Secondary School** (3)
- **Eng 366. The Development of the English Novel** ............ 3
- **Eng 367. The Development of the American Novel** ............ 3
- **Hum 407. Senior Seminar** .............................. 3
- **Eng 489. Literature for Adolescents (g)** ............ 3
- **Eng 490. Development of the English Language (g)** ............ 3

#### Total .................................................. 63

### Music Education

The courses listed below constitute the 63 hour major in music education for secondary students. Those completing the program and meeting the requirements for the general norm as a secondary teacher will be eligible for the basic norm as a high school teacher of music. Deviations from the program or substitution of courses must be approved by the department chairman.

1. **Courses listed with an education prefix do not apply to the 63 hour major.**
TEACHER EDUCATION

Mus 121, 122, 123. Music Theory (4 hours each term) .......... 12
Mus 221, 222, 223. Music Theory (3 hours each term) .......... 9
Mus 224, 225, 226. Keyboard Harmony (1 hour each term) ....... 3
Mus 190, 290. Applied Music (1 or 2 hours each term) .......... 6
Mus 195. Band (1 hour each term) or
Mus 196. Orchestra (1 hr. ea. term) or
Mus 197. Chorus (1 hour each term) or
Mus 390. Applied Music (1 or 2 hours each term) .............. 5
Mus 391. Applied Music (1 or 2 hours each term) .............. 5
Mus 490. Applied Music (1 or 2 hours each term) .............. 5
Mus 315, 316. Harmonic and Structural Analysis ............... 4
Mus 320. Conducting .......... 2
Mus 395. Band (1 hour each term) or
Mus 396. Orchestra (1 hour each term) or
Mus 397. Chorus (1 hour each term) or
Approved electives .......... 11

Total quarter hours .......... 63

PHYSICAL EDUCATION

The courses listed below constitute the 63 hour major in physical education for secondary students. Those completing the program and meeting the requirement for the general norm as a secondary teacher will be eligible for the basic norm as a secondary teacher of physical education. Deviations from the program or substitution of courses must be approved by the department chairman. Every student enrolling in the program is advised and urged to concentrate his electives in a second norm field in order to take advantage of placement opportunities.

a. Professional Activities PE 100P/200P 1 hour courses .......... 18
PE 111P Basic Rhythms
PE 112P Gymnastics and Self Testing
PE 113P/213P Aquatics
PE 114P Badminton
PE 116P Archery
PE 117P Golf
PE 118P/214P Track and Field
PE 119P/214P Tennis
PE 115P Bowling
PE 116P/214P Wrestling (M)
PE 115P Soccer-Species
PE 115P Games and Relays
PE 115P/215P Hockey (W)
PE 115P/215P Basketball
PE 115P/215P Volleyball
PE 115P/215P Soft or Baseball
PE 211P Folk and Square Dance
PE 211P Social or Modern Dance
PE 212P Body Mechanics

b. Theory Courses
He 151. Personal Hygiene ............................................. 2
He 252. First Aid ....................................................... 2
He 325. Nutrition ...................................................... 3
Ed 344. P. E. in the Grades (Elementary) ......................... 3
Ed 344. P. E. in the Grades (Secondary) ......................... 3
Ed 351. School Health Program ...................................... 3
PE 337, 338, 339. Officiating (W) .................................. 3
PE 343. Organization and Administration of P. E. ................ 3
PE 339. Athletic Training and Conditioning (M) .................. 2
PE 371. Kinesiology ..................................................... 3
PE 415. The Physical Education Curriculum ....................... 3
PE 420. Principles of Physical Education ......................... 3
PE 473. Physiology of Exercise ..................................... 3
Z 334, 335. Anatomy and Physiology ............................... 6

Planned Electives .......................................................... 4

The total of 151 hours leaves 41 hours for a second basic norm.

* Not a part of the 63 hour major since it is a general education requirement.
SCIENCE-MATHEMATICS

There are four options in the field of science-mathematics available for students preparing for high school teaching. They appear below. The courses making up the program in each are listed. Deviations from these programs or substitution of courses must be approved by the department chairman.

Specialized Programs in Art Education, Music Education, and Special Education

Art Education

A Specialized Five Year Program in Art Education preparing Teachers at both the Elementary and Secondary Levels leading to the B.S. degree

Upon satisfactory completion of the program the student will be recommended for the basic teaching certificate with, (1) a basic general norm as an elementary teacher, (2) a basic general norm as a secondary teacher, (3) a basic subject matter norm in art.

Teaching Major: Art Education 79 hours
This is a five year program consisting of 240 quarter hours of work leading to a baccalaureate degree and state certification.
Second Major: Education 56-57 hours

**Special Education**

Oregon College of Education is authorized by the State Board of Higher Education to offer work in the following fields of special education: Teachers of the Deaf, Teachers of Children with Extreme Learning Problems, Teachers of the Mentally Retarded, Speech Correctionists. The content of each program at Oregon College of Education is listed below:

THE PROGRAM FOR ELEMENTARY TEACHERS WITH A MINOR IN EXTREME LEARNING PROBLEMS

Satisfactory completion of this program leads to the Oregon basic certificate with a general norm as an elementary teacher and a basic norm as a teacher of children with extreme learning problems.

---

1 This nine-hour psychology sequence may be taken as a part of a correlated program with six hours of sociology and Ed 311—the Sophomore Block.
General Studies

The general studies degree program is designed to provide broad preparation in the three areas of social science, humanities, and science-mathematics. The purpose of this program is to give students the opportunity to obtain, in a smaller state-supported college, a liberal education with emphasis on breadth rather than specialization.

Requirements for the Bachelor's Degree

1. B.S. Degree:
   a. Grade-Point Average: a 2.00 cumulative in all college work and in all work taken at OCE.
   b. Major: Minimum, 63 hours, 27 upper-division.
      1. Social Science: Minimum of 18 hours in history, 18 hours in psychology, sociology, and anthropology, 18 hours in political science and economics, and 9 hours in geography.
      2. Humanities: Minimum of 27 hours in literature, 9 hours in art, music, and drama, and 6 hours in philosophy. (See 2 below)
      3. Science-Mathematics: Sequences of 9-12 hours in mathematics, biology, and chemistry or physics, and advanced sequences in two of these fields.
   c. First Minor: Minimum, 36 hours including two year sequences.
      1. Social Science.
      2. Humanities. (See 2 below.)
   d. Second Minor: Minimum, 24 hours including two year sequences.
      (1) Social Science.
      (2) Humanities. (See 2 below.)
      (3) Science-Mathematics.

2. B.A. Degree:
   Completion of all requirements given under 1, plus two years of college work in a modern foreign language. (The credit earned in college to meet this language requirement may be applied to a humanities major, a humanities first minor, or a humanities second minor.)

The general studies degree curriculum allocates the 192 term hours required for graduation as follows:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Major (including 27 upper-division)</td>
<td>63</td>
</tr>
<tr>
<td>First minor</td>
<td>36</td>
</tr>
<tr>
<td>Second minor</td>
<td>24</td>
</tr>
<tr>
<td>General requirements</td>
<td>18</td>
</tr>
<tr>
<td>Free electives</td>
<td>51</td>
</tr>
<tr>
<td></td>
<td>192</td>
</tr>
</tbody>
</table>

1 Students who select science-mathematics as the major area and are particularly interested in biology may substitute Foundations of Physical Science (GS 201, 202, 203) for the physics or chemistry requirement.

</tbody>
</table>

### Third and Fourth Years

Total of 96 term hours to complete requirements for the four-year program. Advisers will have complete details and will assist in the preparation of each student's program.

Lower-division sequences in social science, humanities, and science-mathematics are given on page 48. In the general studies program, psychology courses apply as social science and music and art courses apply as humanities. Thus, Psy 201, 202, 203, General Psychology, counts as a social science sequence and Mus 201, 202, 203, Introduction to Music and its Literature, is a humanities sequence. Although one sequence in a humanities minor must be literature, courses in foreign language are acceptable in a humanities major or minor.

## Lower-Division Liberal Arts and Sciences

The primary purpose of the lower-division organization in the state system of higher education, as established by the state board of higher education, is as follows:

1. **Basic Education.** Insuring to all students the elements of a sound general education during their first two years, delaying specialization until the junior and senior years, and then encouraging it to a high degree.

2. **Orientation.** Providing students with a period of exploratory contact which will enable the institution to assist them in making a wise selection of specialization on the basis of their abilities and aptitudes.

### Associate in Arts Certificate

Intended for students whose aim is to round out a general education in two years of college and granted on completion of the lower-division curriculum in liberal arts and sciences.

---

¹ These courses are necessary for graduation but do not satisfy major or minor requirements.
**Group Requirements.** Courses selected from these groups representing comprehensive areas of knowledge are required for these certificates. The three groups are: social science, humanities, and science-mathematics. The group requirements are: one sequence of at least nine term hours in each of the three groups and one additional sequence of nine term hours or more in any one of the same three groups. At least one sequence must be numbered 200-210.

Year sequences applicable in meeting group requirements are:

**Social Science Group**
- Hst 101, 102, 103. History of Western Civilization, 3 hours each term.
- Geog 105, 106, 107. Introductory Geography, 3 hours each term.
- Hst 201, 202, 203. History of the United States, 3 hours each term.
- Ec 201, 202, 203. Principles of Economics, 3 hours each term.
- Psy 201, 202, 203. General Psychology, 3 hours each term.
- PS 201, 202, 203. American Governments, 3 hours each term.
- Soc 214, 215, 216. Anthropology, 3 hours each term.

**Humanities Group**
- Eng 107, 108, 109. World Literature, 3 hours each term.
- Eng 201, 202, 203. Shakespeare, 3 hours each term.

**Science-Mathematics Group**
- Bi 101, 102, 103. General Biology, 3 hours each term.
- Bot 201, 202, 203. General Botany, 3 hours each term.
- Z 201, 202, 203. General Zoology, 3 hours each term.
- GS 201, 202, 203. Foundations of Physical Science, 4 hours each term.
- Ch 101, 102, 103. Elementary Chemistry, 4 hours each term.
- Ch 201, 202, 203. General Chemistry, 4 hours each term.
- Ph 201, 202, 203. General Physics, 4 hours each term.
- G 201, 202, 203. Geology, 4 hours each term.

Three consecutive terms of Mth 100, 101, 102, 103. Intermediate Algebra, College Algebra, Trigonometry, Analytic Geometry, 4 hours each term.

Mth 201, 202, 203. Differential and Integral Calculus, 4 hours each term.

Preprofessional Curricula

Oregon College of Education offers opportunity for preprofessional preparation leading to later specialization. Two types of programs are included in the following suggested study plans:

1. One- or two-year curricula in lower-division courses planned to prepare students for later specialization within a four-year degree program in the major field indicated.
2. One-, two-, or three-year curricula including prerequisites for admission to a professional school leading to a professional degree after more than four years.

It is suggested that the student planning such a program work closely with his adviser and consult with his major school before he is ready to transfer.

</table>
The pre-professional curricula which follow include those offered at Oregon College of Education to meet prerequisite requirements for admission to a professional school leading to a professional degree, which in almost all cases calls for more than four years of study. Wherever a three-year preprofessional program is required or desired, it is possible to qualify for a bachelor of science or bachelor of arts degree in general studies as well as the professional degree, provided required courses and electives are carefully selected as indicated in the curricular patterns.

All students should work carefully from the beginning of their study at OCE with the appropriate faculty adviser in order to become informed about the professional schools in which they may be interested and to assure study programs that meet all requirements. The name of the adviser for each program can be obtained in the registrar’s office.

**LAW**

**Preprofessional Program**

The minimum requirement for admission to the School of Law, University of Oregon, is three-fourths of the total credit required for a bachelor’s degree from the institution in which the student completes his prelegal work—but not less than 140 term hours.

The prelegal program should include courses satisfying all lower-division requirements of the university and a minimum of 36 term hours of credit in courses in the general area of social science. The first-year basic college course in accounting is desirable. It is suggested that the student follow the first three years of the general studies degree program with a major in social science. (See General Studies, page....)

For admission to the school of law, a student must have, for all prelegal work, a cumulative grade-point average of at least 2.25. Applicants must take such entrance or aptitude examinations as may be required by the faculty of the school. All students seeking admission to the school of law must file formal application for admission with the dean of the school. Official forms may be obtained from the school of law.

**HEALTH SCIENCES**

**PREDENTISTRY**

It is strongly recommended that predental students devote at least three years to their predental education. Although the minimum period required by the Council of Dental Education of the American Dental Association is two years, only those students who have completed a two-year program with a superior grade-point average will be considered for admission to dental school. It is improbable that any student with a grade-point average of less than 2.25 will be accepted for admission.
Students at Oregon College of Education who plan to enter dental school before receiving a baccalaureate degree should arrange their study program so that they may qualify for the bachelor of science or bachelor of arts degree in general studies after satisfactory completion of one or two years in dental school. This will be possible only if their three-year predental program includes not less than 144 term hours and meets all requirements for the degree, except for upper-division science courses which can be transferred from dental school to apply on the major in science-mathematics and complete the total number of hours needed for graduation. (See General Studies, page 67.)

The following three-year curriculum includes all subjects required for admission to the University of Oregon Dental School or other approved dental schools, elective courses recommended for broad background preparation in both cultural and scientific fields, and the basic pattern established for the bachelor's degree in general studies.

**PREMEDICINE**

Oregon College of Education offers a premedical curriculum which meets the general criterion of a program planned to include not only adequate scientific preparation but also the type of broad education which leads to an understanding of the world in which we live. Admission to medical school is based upon two types of qualifications: the applicant must present evidence of good character, proper attitude, and sincere interest in the study of medicine; he must also have demonstrated sufficient intellectual ability to undertake satisfactorily the study of medicine, as determined by his premedical scholastic record and scores on the Medical College Admissions Test. Admissions is on a competitive basis.

Students must have completed satisfactorily not less than three years of college work (at least 144 hours) before entering medical school and must qualify for the bachelor's degree before being eligible to begin the third year of professional preparation. The following three-year premedical curriculum leads to a bachelor of science or bachelor of arts degree in general studies with a major in science-mathematics and includes all requirements other than those which can be met by transfer of credit from medical school. (See General Studies, page 67.)

3 Courses required by the Council on Dental Education of the American Dental Association. The science courses indicated by course number and the suggestions for sequences are elective courses recommended by the council.

PRENURSING

The School of Nursing of the University of Oregon offers a four-year curriculum which leads to the bachelor of science degree and prepares for state examinations for nurse registration. The student may take one year of prenursing study at Oregon College of Education. The nursing curriculum is completed at the University of Oregon School of Nursing in three years and one summer session.

PREPHARMACY

Oregon College of Education offers a one-year prepharmacy curriculum which prepares a student for admission to Oregon State University School of Pharmacy or any other accredited pharmacy school. The pharmacy curriculum at Oregon State University is four years of professional study during which time courses in the humanities and social sciences are also taken. Transfer students enter the pharmacy program as sophomores. A total of five academic years, with 240 quarter hours, is required for the bachelor’s degree.

1 Courses required for admission to the professional program.

PREVETERINARY

Oregon College of Education offers a two-year preparatory curriculum for students planning to enter a professional school of veterinary medicine. This curriculum is designed to meet the minimum requirements necessary to be considered for admission into the schools of veterinary medicine at Colorado State University, Ft. Collins; Washington State University, Pullman; or the University of California, Davis. Since specific admission requirements vary, the student should become informed about these schools early in his preprofessional study. A limited number of Oregon residents may attend without paying out-of-state fees under the compact which the state of Oregon has through the Western Interstate Commission for Higher Education.

Although the minimum requirement for admission is two years, it is highly desirable that the preveterinary student plan an additional year of study at OCE in order to qualify for the bachelor of science or bachelor of arts degree as well as the professional degree. A three-year preprofessional program of not less than 144 term hours can be planned to include all the requirements for the general studies degree except for upper-division science courses transferable from the professional school to complete the major in science-mathematics and the total number of hours required for graduation. (See General Studies, page 61, and similar suggested curricula under Predental and Premedicine in this section of the catalog.)

Air Force ROTC

OCE offers, as a voluntary program, the AF ROTC Advanced Course taken during the junior and senior years. Qualifying exams (physical and mental) are administered during the sophomore year. Three hours of academic classroom work are required each term, with retainer pay of $40 per month provided. A commission as a Second Lieutenant in the USAF Reserve is granted upon successful completion of this program.
Medical Technology

Oregon College of Education offers a four year curriculum in medical technology. The program consists of three years of work on the campus at Oregon College of Education and one year of prescribed work at the University of Oregon Medical School in Portland. Upon satisfactory completion of the four year program the student receives the Bachelor of Science degree from Oregon College of Education and a certificate from the American Society of Medical Technologists. In addition to the general college requirements the student must complete the following courses in science and mathematics at Oregon College of Education before enrolling for the specialized fourth year at the Medical School.

For an outline of the fourth year program, see the University of Oregon Medical School catalog or your OCE adviser.

Summer Session, 1966

Oregon College of Education has been authorized by the state board of higher education to offer two summer sessions in 1966. The regular summer session consists of eight weeks beginning on Monday, June 20, and closing on Friday, August 12. This session is followed by an intersession of three weeks opening on August 15 and closing on September 2. A variety of workshops of varying lengths occur during this eleven week period for which special tuition fees are charged.

Students who carry a full load (8 quarter hours or more) in the regular session may carry six quarter hours in the intersession without paying the additional tuition fee charged to new enrollees for the three week session. By combining 12 quarter hours of work in the regular session with 6 quarter hours in the intersession a student can complete a full term’s work.

Admission Requirements. Admission to either of the summer sessions is granted to persons of sufficient maturity and academic background to do college work. Students who wish to become candidates for graduation from Oregon College of Education, however, must eventually satisfy regular entrance requirements. Those wishing to work toward graduation should file with the registrar complete official transcripts covering all school work above the eighth grade.

Student Load. Thirteen term hours of work will be considered a maximum student load in the regular eight-week session. Those enrolling in the intersession may earn an additional 6 quarter hours.

Expenses. Detailed information regarding tuition, fees, board and room, and other expenses will be available in the summer session catalog.
Regular Session, June 20-August 12

Courses offered during the regular summer session include undergraduate and graduate work for students working toward the bachelor's or master's degrees and refresher courses for teachers in service who wish to take advantage of new developments in their fields. The courses to be offered will be announced in the summer session catalog to be available in March, 1966. They will be chosen from the courses listed in this catalog, supplemented by special courses designed to meet the needs of experienced teachers and administrators.

Admission to Elementary Student Teaching. Since enrollment in student teaching must be limited, application should be made not later than May 1, 1966. To be eligible for student teaching in the summer laboratory school, a student must have met one or more of the following conditions:

1. Earned a baccalaureate degree from a college or university with 12 quarter hours cataloged as Education.
2. Attained senior standing and completed at least one year of teaching experience.
3. Received credit in student teaching at the elementary or secondary level from an accredited college or university and attained senior standing at OCE.

Additional requirements include a grade average of C or better, evidence of good health, speech proficiency, and desirable character and personal attributes.

Intersession, August 15-September 2

The intersession is planned especially for undergraduate students and experienced teachers working for bachelor's degrees. It includes lower division work in the humanities, social science, and science-mathematics. During the intersession students may enroll for not to exceed 6 quarter hours in the fields listed above.

No campus dormitory or food service facilities are available during the intersession but college assistance is given to students looking for housing in the community.

Workshops

A variety of workshops is offered during the eleven weeks planned primarily for experienced teachers. The summer catalog will give full details of all such offerings.
Graduate Study

Oregon College of Education offers study beyond the bachelor's degree for both elementary and secondary levels of specialization. Special programs are offered to meet the provisions of the State Department of Education requirements for the appropriate teaching level and the teaching and administrative service areas requiring a planned fifth-year program. Cooperative programs with other institutions in the Oregon State System of Higher Education provide the opportunity for those showing superior potential to develop programs leading toward a sixth-year and a standard norm at an approved institution.

Planned Graduate study programs of 45 hours beyond the bachelor's degree consist of: the Master of Science in Education degree; the Master of Arts in Teaching degree; a planned fifth-year non-degree program; and a program to satisfy the requirements for selected norms for educational specialists.

Objectives of the Graduate Study Programs

The specific objectives in these programs are:

1. To continue the professional preparation of teachers by expanding and intensifying their knowledge and understanding of students, of subject matter, of school problems, and of effective teaching procedures.
2. To provide opportunities for breadth of educational and cultural experiences designed to produce professional teachers who are likewise well-educated citizens.
3. To provide an opportunity to combine some undergraduate professional courses in education with those in the master's degree program as a means of qualifying either for certification or the master's degree, or both.
4. To offer opportunity for specialization in professional preparation in several areas at the master's degree level.
5. To exert leadership in research in the teaching-learning process through the work of the Teaching Research Division of the Oregon State System of Higher Education located on the campus.

GRADUATE DEGREE PROGRAMS

Oregon College of Education offers study beyond the bachelor's degree for both elementary and secondary teachers which includes work leading to the degree of master of science in education or master of arts in teaching. The master of science degree will appeal chiefly to elementary teachers wishing to develop further competency in the fields of education and psychology or to teachers at either level who plan to enter such fields as administration, supervision, or special education.

The master of arts in teaching degree is especially appropriate for teachers planning careers as classroom teachers and who wish to develop depth in their area of subject matter specialization. In general, this degree will prove attractive to secondary teachers.

The curriculum for secondary teachers in either program permits students to concentrate their work in humanities, social science (options in history or geography), or science-mathematics (options in biological science, physical science, mathematics, or general science). Curricula are also available in teaching the deaf, and other areas of special education.
General Regulations

Permission to take graduate courses does not constitute admission to candidacy for the master's degree. Hence, three classes of students carrying work beyond the bachelor's degree are recognized: (1) those who wish to continue their education but not for the purpose of earning a degree or completing certification requirements in a non-degree fifth-year program, (2) those who wish to complete requirements for certification and/or a non-degree fifth-year program, and (3) those who wish to complete requirements for certification and/or become candidates for one of the master's degrees. Students of the first group register, subject to the instructor's permission for the courses they desire, with the understanding that the institution is under no implied obligation to apply credit so earned toward a degree or a non-degree fifth year program. Whether the student is adequately prepared to enroll for a particular course is determined by the head of the department and the instructor in charge.

Students whose preparation prior to admission to candidacy is considered as inadequate may be required to complete additional work at the undergraduate level or of a preparatory nature.

A student within 12 term hours of completing the bachelor's degree, not including student teaching, may petition to enroll in approved courses to be reserved for later application to a master's degree program or a fifth-year non-degree program. A student in the teaching intern program may petition any time during the senior year to reserve such credits. In either case the petition must be filed with the Coordinator of Graduate Programs during the week of registration. Not more than a total of 12 hours of such excess credits may be applied later to a master's degree program or a fifth year non-degree program.

Students who wish to become candidates for the master's degree follow programs organized in conformity with the rules and regulations which follow.

Preliminary Forms. Before formal planning of a master's degree program can progress beyond the preliminary stage, the student must file with the Coordinator of Graduate Programs an application for admission to candidacy and official transcripts of all credits earned off the OCE campus. This includes credits earned through the Division of Continuing Education. The form may be secured from the office of the Coordinator.

Admission to Candidacy for the Degrees. A graduate of any accredited college or university may apply for admission to candidacy by filing the above written application with the Coordinator of Graduate Programs. This application should be submitted as soon as the candidate has decided to work toward the master's degree—not later than the date of completion of the first 12 hours of graduate course work. In order to qualify for admission the student must have completed:

1. The requisite preparation to hold (a) an Oregon Basic Teaching Certificate, or a regular five-year elementary or secondary certificate issued prior to October 15, 1965, or the equivalent for out-of-state students, or (b) as a temporary minimum requisite preparation to hold an Oregon Restricted Certificate or, an Oregon secondary provisional certificate issued prior to October 15, 1965. In no case will the degree be granted until requirements for an Oregon Basic Teaching Certificate (or, for out-of-state students the satisfactory completion of a program of preparation comparable to that required for an Oregon Basic Teaching Certificate), or a regular Oregon five year elementary or secondary teaching certificate have been met, except, in certain fields of specialization, for which the requirement is Certificate A of the Conference of Executives of American Schools for the Deaf, or for which the requirement is an Oregon Basic Teaching Certificate and at least a basic norm in one of the areas of special education.
2. An undergraduate program in the selected teaching area comparable to the program in effect at Oregon College of Education or, one approved as adequate by the Dean of Instruction, Coordinator of Graduate Programs and the appropriate department chairman or area-adviser. (A student in the process of clearing any deficiencies may be approved for admission if all other requirements have been met).

3. A preliminary qualifying examination.

4. Twelve term hours in the approved master's degree program on the Oregon College of Education campus with a minimum grade point average of 3.00 (B). At least one half of the 12 hours should be in the area of major study. Nine of these 12 term hours must have been taken concurrently. (A student when applying for admission to candidacy must have an accumulative GPA in all graduate work earned to that date and in all upper-division courses included in the approved program of 3.00 (B) or better. See Minimum GPA Requirement.)

5. The filing of official, original transcripts from each institution where undergraduate and/or graduate credit has been earned, including the Division of Continuing Education.

6. A personal conference with appropriate members of the graduate faculty when so directed.

Failure to comply with these requirements will result in delay in completion of the degree program.

**Transfer of Graduate Credit.** Upon favorable action by the committee on graduate study appropriate credit may be applied from (1) accredited institutions, (2) Portland summer session, or (3) continuation classes.

A total of not to exceed 21 term hours of approved credit may be transferred. An additional 12 hours may also be applied from the Portland Summer Session.

Regardless of the number of credits transferred, it is understood that the student will complete the courses specified as required in the program.

No credit will be applied for courses taken through correspondence study.

**Graduates of Unaccredited Institutions.** Such applicants may be admitted to graduate courses as special students. After at least 12 concurrent hours of planned graduate study completed in one term at Oregon College of Education with grades of B or better, such students may, if meeting the other requirements for admission, be considered for candidacy and may petition for credit in courses completed as special students.

**Minimum GPA Requirement.** In order to be admitted to, and/or retained in, the graduate program, a candidate must earn and maintain at all times on accumulative grade-point average of 3.00 (B) in all graduate work completed, and in all upper-division courses included in the approved master's degree program. A student accumulating 9 quarter hours of C grades, or lower, in graduate courses or upper-division courses included in the approved master's degree program will be dropped as a candidate for the master's degree. A grade of D is not applicable in the program and requires special attention by the committee on graduate study to determine the candidate's future status.

**Minimum Residence Requirement.** A minimum of 24 term hours of graduate credit must be earned in residence on the campus, with at least 9 being taken concurrently.
Maximum Load. The maximum load for graduate students is 16 term hours in a regular term and 13 term hours in an eight-week summer session of graduate courses or any combination of graduate and undergraduate courses unless a petition to carry an overload has been approved by the Dean of Instruction and/or the Coordinator of Graduate Programs during the week of registration.

Tuition and Fees. Graduate students will pay tuition and fees as set forth in the current catalog for resident undergraduates.

Time Limit. Only those courses and requirements completed within a period of seven years prior to the actual completion of the program will apply. This includes all residence credit, all applicable transfer credit, and required comprensive examination. If a thesis or field study is involved it must be accepted within this seven-year limit. However, credit earned between seven and ten years prior to the completion of the program may, in certain cases, be approved by action of the committee on graduate study, upon petition.

Thesis. The writing of a thesis is not required for the master’s degree, but it is recommended for the students planning to take work toward the doctorate. Any student interested in writing a thesis or field study report must contact the Coordinator of Graduate Programs for necessary information as to procedures to be followed.

Final Evaluation Procedures. Each student must satisfactorily complete all evaluation procedures established for his program. These procedures may be written or oral, or both, as determined by the committee on graduate study. If final written comprehensive and/or oral examinations are required they cannot be taken until the student has completed all course work or is actually enrolled in the final course or courses. In such cases the examinations will be offered twice during the year, once in April and once in July. Each candidate must have on file with the Coordinator of Graduate Programs an application for the master’s degree, which will be considered as the application to take the final comprehensive written examination. This form, which is obtainable from the office of the Coordinator of Graduate Programs, must be filed prior to April 1 for the April examination and prior to July 1 for the July examination. (See below.)

A student choosing to write a thesis may be required to complete satisfactorily a written examination, or an oral examination over his research problem, or both.

Application for the Master’s Degree. This application must be filed by each candidate with the Coordinator of Graduate Programs prior to the dates listed above. In addition, when so requested, the candidate will be required to provide evidence that he holds, or is eligible to hold, the certificate required by the curriculum he is completing. (See No. 1. under Admission to Candidacy for the Degree.) This form will also serve as the candidate’s application to take any required final comprehensive examination that may be scheduled.

Commencement. The master’s degree will be officially conferred at the subsequent June commencement on those students who satisfactorily complete all degree requirements during a summer, fall, or winter term, or during a spring term when enrolled for final courses on the Oregon College of Education campus.

When a candidate successfully completes all requirements for the master’s degree but final courses are taken during the spring term through the Division of Continuing Education or on a campus other than that of Oregon College of Education, the degree will not be officially conferred until the June commencement of the subsequent year. However, a certificate of successful completion of the master’s degree program will be sent to such individuals.
Master of Science in Education

ELEMENTARY CURRICULA

Completion of a fifth year program is not required in Oregon for certification of elementary teachers. However, a student completing the MS degree program at OCE will normally become eligible for the Standard Teaching Certificate.

The graduate program for the degree of master of science in education for elementary teachers consists of two curricula, (1) general elementary education, and (2) childhood education (ages 4-7).

General Elementary Education. This curriculum consists of a required professional education core of 18 term hours, a required general education core of 15 term hours, and elective courses to total 45 term hours required for the master's degree. Courses in the 400 numbers with a (G) or (g) affixed may be taken by either undergraduate or graduate students. If a student takes a 400 course as graduate work, it is his responsibility to verify the graduate standing of that particular course and to ascertain that his registration carries the proper designation of G or g as the case may be.

The Professional Education Core consists of 18 term hours as follows:

Ed 566 Curriculum Construction .................................................. 3
Ed 512 Research Procedures in Education ....................................... 3
Ed 513 Evaluation of Classroom Instruction ................................. 3
Ed 514 Foundations of Education .................................................. 3
Ed 518 Public and Professional Relations ..................................... 3
Psy 461G Developmental Psychology: Adolescence and Maturity .... 3

18

The General Education Core consists of 15 term hours as follows:

Two courses selected from the following to represent two of the three general education areas:

SSc 511 Contemporary Developments in the Social Sciences ............... 3
Hum 511 Contemporary Developments in the Humanities .................. 3
GS 511 Contemporary Developments in Science and Mathematics .... 3

and a 9-term hour block of approved courses in the third area ............... 6 of 9 6

9

(Note: If humanities is selected for the 6-hour block, Hum 511 may apply; if science-mathematics is selected, GS 511 may apply. If social science is selected, SSc 511 may apply. The contemporary developments courses are required in the two areas not selected for the block.)

Electives. The remaining 12 term hours shall be completed in approved electives in either professional or general education in light of the candidate's individual needs and possible requirements for certification.

A minimum of 45 term hours is required for the program.

Childhood Education (Ages 4-7). This curriculum is designed to meet the needs of teachers in the elementary schools who wish to extend their professional competency through greater concentration in the area of childhood education (ages 4-7). The curriculum consists of a basic professional education core of 12 term hours similar to that required in the general elementary curriculum for graduate students; a specialized core in childhood education of 18 term hours; a general education core of 9 term hours; and 6 term hours of electives for a total of 45 hours.
The Basic Professional Education Core consists of:

- Ed 512 Research Procedures in Education ........................................... 3
- Ed 513 Evaluation of Classroom Instruction ........................................ 3
- Ed 518 Public and Professional Relations ............................................ 3
- Ed 514 Foundations of Education ...................................................... 3
- Psy 460G Developmental Psychology: Infancy and Childhood .................. 3

The Specialized Core in childhood education consists of:

- Ed 451G Preprimary Education .......................................................... 3
- Ed 452G Creative Arts in Childhood ................................................... 3
- Ed 519 and 520 Childhood Education ................................................. 12

The General Education Core consists of:

- SSc 511 Contemporary Developments in the Social Sciences ...................... 3
- Hum 511 Contemporary Developments in the Humanities ......................... 3
- GS 511 Contemporary Developments in the Sciences and Mathematics ......... 3

Electives:
Electives in education or psychology, or an approved pattern of courses ....... 6

A minimum of 45 hours is required for the program.

SECONDARY CURRICULA

The graduate program for the degree of master of science in education for secondary teachers consists of several different curricula based on the candidate's selected teaching area and certification requirements. Each curriculum consists of a required professional education core of from 18 to 24 graduate term hours including 12 term hours of specified courses and from 6 to 12 term hours of electives; and a selected teaching area chosen from one of those listed below, and consisting of from 21 to 27 required and approved graduate term hours. A minimum of 45 graduate term hours is required for the degree. Courses in the 400 numbers with a (G) or (g) affixed may be taken by either undergraduate or graduate students. If a student takes a 400 course as graduate work, it is his responsibility to verify the graduate standing of that particular course and to ascertain that his registration carries the proper designation.

The Professional Education Core common to all curricula consists of:

- Ed 512 Research Procedures in Education ........................................... 3
- Ed 514 Foundations of Education ...................................................... 3
- Psy 461G Developmental Psychology: Adolescence and Maturity ................. 3
  or
- Psy 520 Psychology of Learning ..................................................... 3
- Ed 566 Curriculum Construction ....................................................... 3
- Education or psychology electives .................................................... 6-12

18-24

The selected teaching core consists of a minimum of 21 graduate term hours in a single teaching area, to be selected from one of those listed below. The actual course required for each student will be selected under guidance of the chairman of the department involved subject to individual needs and certification requirements to be met.

A. Humanities

Both Junior and Senior High School

Literature, Writing, and Language

- Eng 446g Major Theories of Literary Criticism .................................. 3
- Eng 447g, 448g, 449g Major Figures in Literature ................................ 6-9
- Eng 466g Study of Ideas in Literature ............................................. 3
- Eng 475g Modern American Grammar and Usage ................................... 3
- Eng 484g Study of Types of Literature ............................................ 3
- Approved courses .............................................................................. 0-6

Total quarter hours ......................................................................... 21-27
B. Science-Mathematics. The selected area consists of one of the following:

1. MATHEMATICS: (one curriculum to be selected)

Junior High School:

a. Elementary algebra and geometry
   Mth 491g, 493g Mathematics for Secondary Teachers ............................................. 6
   Approved courses with at least 9 hours in mathematics .................................................. 15–21
   Total quarter hours ............................................................................................................... 21–27

b. Pre-Algebra and general mathematics:
   Mth 491g, 493g Mathematics for Secondary Teachers ............................................. 6
   Approved courses with at least 9 hours in mathematics .................................................. 15–21
   Total quarter hours ............................................................................................................... 21–27

Senior High School:

a. Elementary algebra and geometry
   Mth 491g, 493g Mathematics for Secondary Teachers ............................................. 6
   Approved courses with at least 9 hours in mathematics .................................................. 15–21
   Total quarter hours ............................................................................................................... 21–27

b. Advanced mathematics:
   Mth 410g Foundations of Mathematics ................................................................................ 3
   Mth 412g Higher Algebra ...................................................................................................... 3
   Mth 415g Modern Geometry ................................................................................................. 3
   Approved courses with at least 9 hours in mathematics ...................................................... 12–18
   Total quarter hours ............................................................................................................... 21–27

2. SCIENCE: (one curriculum to be selected)

Junior High School

General Science

Bi 446g Evolution .................................................................................................................. 3
Bi 460g Preparation of Biological Materials .................................................................... 4
G 450g Rocks and Minerals ................................................................................................. 3
G 453g Geology of the Pacific Northwest ......................................................................... 3
GS 411g History of Science ................................................................................................. 3
Approved courses with at least 5 hours in science and/or mathematics ............................ 5–11
   Total quarter hours ............................................................................................................... 21–27

Senior High School

a. Biology
   Bi 412g Microbiology .......................................................................................................... 4
   GS 541 Biocology .................................................................................................................. 3
   Bi 455g Field Biology .......................................................................................................... 3
   Z 451g Invertebrate Zoology .............................................................................................. 4
   GS 411g History of Science ................................................................................................. 3
   Approved courses with at least 4 hours in biology ............................................................... 4–10
   Total quarter hours ............................................................................................................... 21–27

b. Chemistry
   Ch 561 Advanced Inorganic Chemistry ............................................................................ 3
   Ch 421g Advanced Analytical Chemistry ........................................................................... 3
   Ch 433g Advanced Organic Chemistry .............................................................................. 3
   GS 411g History of Science ................................................................................................. 3
   Approved courses with at least 9 hours in chemistry ......................................................... 3–15
   Total quarter hours ............................................................................................................... 21–27

c. Physical Science
   Ch 561 Advanced Inorganic Chemistry ............................................................................ 3
   Ch 433g Advanced Organic Chemistry .............................................................................. 3
   Ph 381, 382 Modern Physics ............................................................................................... 6
   GS 411g History of Science ................................................................................................. 3
   Approved courses with at least 6 hours in physical science ............................................... 6–12
   Total quarter hours ............................................................................................................... 21–27
d. General Science
Bi 446g Evolution .............................................................. 3
Bi 460g Preparation of Biological Materials .............................. 3
G 453g Rocks and Minerals .................................................... 3
G 453g Geology of the Pacific Northwest ................................. 3
GS 411g History of Science ................................................... 3
Approved courses with at least 5 hours in science and/or mathematics 5-11
Total quarter hours ............................................................ 21-27

C. Social Science (one curriculum to be selected)
Both Junior and Senior High School

CURRICULA FOR EDUCATIONAL SPECIALISTS

Special Education

These curricula are designed to enable teachers who desire to become educational specialists to meet the subject-matter norms required for the selected area. All personnel in these areas are required to hold an Oregon Basic Teaching Certificate, or appropriate Oregon teaching certificate issued prior to October 15, 1965.

Candidates in these areas must conform to the admission, retention, completion, and other pertinent requirements as listed above under "General Regulations."

Students who have had little or no undergraduate work in the selected field may be required to complete additional hours in order to clear certain undergraduate deficiencies.

In some cases candidates may complete all requirements for the desired basic subject norm and the master's degree but fall short of completing all requirements for the standard subject norm.

Each curriculum requires completion of a basic professional education core consisting of 9 quarter hours and a specialized core of 36 hours in the selected area for a program total of not less than 45 quarter hours.

Each candidate's program will be determined by the chairman of the department of education and psychology, the director of the division of special educa-
tion and rehabilitation, and the designated adviser, in terms of the student's needs and certification requirements. Deviation from the officially approved program of study may be made only when approved by the above individuals and filed in writing with the Coordinator of Graduate Programs.

TEACHERS OF THE DEAF

A program for the dual purpose of fully preparing teachers of the deaf and at the same time qualifying them for a master of science in education degree is jointly conducted by Oregon College of Education and Oregon State School for the Deaf. Some courses are completed on the college campus and some at the school for the deaf.

The master's degree program consists of the following courses.

Professional Education Core

Approved courses ........................................... 9

Specialized Core in Teaching the Deaf

<table>
<thead>
<tr>

</tbody>
</table>

Successful completion of the above 9 hours of professional education and 45 hours of specialized education along with any prescribed testing program will qualify the graduate for certificate A of the Conference of Executives of American Schools for the Deaf and the degree of Master of Science in Education.

EXTREME LEARNING PROBLEMS

Teachers in this area must have met the basic general elementary norm or hold an appropriate Oregon elementary teaching certificate issued prior to October 15, 1965.

- Psy 525 Individual Intelligence Testing .................................... 3

Total ......................................................................................... 24

A minimum of 45 quarter hours is required for the program.

SPEECH CORRECTION

Students wishing to qualify for the master of science in education degree with specialization in speech pathology and audiology must complete a program consisting of 9 quarter hours of approved courses in education and 36 quarter hours of courses in speech pathology and audiology. The 36 hours in speech pathology and audiology will consist of the 24 hours required for the basic norm in speech pathology along with 12 hours of approved courses from the 24 hours listed for the standard norm. In most instances the program will be planned to help the candidate meet the clinical competency required by the American Speech and Hearing Association.

Course requirements are as follows.

Master of Arts in Teaching

The Master of Arts in Teaching degree at Oregon College of Education is designed primarily for those secondary teachers whose chief objective is the development of exceptional competence in classroom teaching in one of the subject fields taught in high school for which Oregon College of Education has been approved. Those planning to specialize in elementary teaching or some type of specialized educational service are encouraged to enter the Master of Science in Education degree program.

Regulations governing admission, retention, completion and other aspects of the program are the same as those for the Master of Science in Education Degree program.

Field of Concentration (Majors)

Humanities, Science-Mathematics, Social Science.

General Pattern of Programs.

Completion of a minimum of 45 term hours of approved courses apportioned as follows:

1. A minimum of 30 quarter hours in a planned program in one of the broad areas of subject matter (called the graduate major) of which at least 24 hours must be designated as graduate credits. This portion of the total program to be approved by the chairman of the department involved in terms of the student's needs and certification requirements.

2. Nine quarter hours in graduate level professional education courses approved by the Chairman of the Department of Education and Psychology in terms of the student’s needs and certification requirements.

3. Six quarter hours of courses approved by the Coordinator of Graduate Programs, only three of which may be in professional education.

CURRICULA

In addition to the above listed six quarter hours of courses approved by the Coordinator of Graduate Programs and nine quarter hours of graduate courses approved by the Chairman of the Department of Education and Psychology the program shall include one of the following 30-quarter-hour concentrations.
A. Humanities

Both Junior and Senior High School

NON-DEGREE FIFTH YEAR PROGRAMS

The non-degree planned fifth-year program at Oregon College of Education is intended to meet the needs of three groups of students who do not desire to earn a master's degree.

1. Those persons who have completed basic certification and subject matter norms in an undergraduate program of teacher education comparable to that at Oregon College of Education and who seek the Standard certifi-
cate and subject norm; or those who hold a regular five year elementary or provisional secondary certificate or higher issued prior to October 15, 1965 and who wish to complete a planned fifth year program (See Program I).

2. Those who have completed a bachelor's degree from an accredited institution of higher learning without meeting the requirements for an Oregon teaching certificate and who desire to become eligible for a Basic or Standard certificate (including a subject matter norm) at the elementary, junior high, or secondary level. Program developed individually.

3. Those who have completed all requirements for basic certification at the elementary level and who wish to qualify at the secondary level (or those who have qualified for secondary certification and wish to qualify at the elementary level). Program developed individually.

In these programs the student will normally complete all requirements for both standard general and subject norms. However, in a number of instances students may find that while completion of the program qualifies them for basic certification and subject norm it will not fully qualify them for standard certification and subject norm due to their lack of certain basic preparation at the time of entering the program.

Admission Requirements

Must hold a bachelor's degree from an accredited institution.

Must file with the Oregon College of Education Registrar an original and official transcript from each college attended including the Division of Continuing Education.

Must file with the Coordinator of Graduate Programs a “Declaration of Intent” form indicating the program and plan desired to be completed.

Must present, on a form provided by the college, a summary of professional needs, signed by an authorized representative of the employing school district or, if not under contract with a school district at the time, present a program prepared by an authorized Oregon College of Education adviser.

Must formulate a program planned in cooperation with an authorized Oregon College of Education adviser, and present to the Committee on Teacher Education for approval. At least 24 quarter hours must be earned subsequent to the approval of the program.

General Regulations

Credits earned through correspondence study will not be applicable to the fifth-year program.

Only credit earned within the 10 years immediately preceding completion of the fifth-year program, and approved by the Committee on Teacher Education, will be applicable to the program.

Excess undergraduate and/or graduate credits not to exceed 12 hours, earned prior to the completion of the bachelor's degree, and specified as such at the time of registration, may be applied to the fifth-year program when approved by the Committee on Teacher Education.

Not more than 24 quarter hours of approved work may be transferred from other accredited institutions and/or the Division of Continuing Education.

At least 12 quarter hours of approved graduate courses must be included in the approved program.

Credit earned in workshops will not apply unless approved by the Committee on Teacher Education. Such credits may not exceed 9 quarter hours. Grades of “Pass” will not be used in computing the student’s grade-point average.
Minimum Residence Requirement
At least 21 quarter hours must be completed on the Oregon College of Education campus with at least 9 of those 21 hours being taken concurrently.

Maximum Load
A maximum load in a regular term is 16 quarter hours, or 13 hours in an 8-week summer session, unless a petition to carry an overload has been approved during the week of registration by the Committee on Teacher Education.

Graduates of Unaccredited Institutions
An individual holding a bachelor's degree from an unaccredited institution may enroll in courses as a special student.

Before such person may be considered for admission to a non-degree planned fifth-year program he must complete a program of planned study on the Oregon College of Education campus consisting of not less than 12 concurrent hours with at least a "B" grade average.

Following completion of the above program he may petition the Committee on Teacher Education for admission to a non-degree planned fifth-year program. The Committee will act on such petition in the light of the student's undergraduate program and his performance on the required 12 hours in residence.

Certificate of Completion
In order to receive a "Certificate of Completion" of a planned fifth-year program the student must have:
1. Completed the program as originally approved, with only those substitutions which have received prior authorization by the Committee on Teacher Education.
2. Maintained a 2.25 accumulative grade-point average on all course work included in the approved program.
3. Filed an application for the "Certificate of Completion" with the Registrar, preferably one term prior to the completion of the planned program.

Recommendation for Basic or Standard Norms
In order to receive the recommendation of Oregon College of Education for the basic or standard general and subject matter norms the student shall have:
1. Satisfactorily complied with all the requirements for completion of the fifth-year program.
2. Completed all requirements for the basic or standard general and subject matter norms as the case may be.
3. Filed with the Registrar a completed form provided by that office for this purpose.

CURRICULUM PATTERNS

Program 1
For those persons who hold or are eligible to hold, one of the following Oregon teaching certificates: (1) Basic Teaching Certificate, (2) Regular Oregon five-year elementary teaching certificate issued prior to October 15, 1965, or (3) Oregon provisional secondary certificate issued prior to October 15, 1965.

A. Elementary Teachers:
In order to be recommended for the standard certificate as an elementary teacher or for completion of a planned fifth-year program the individual must have completed subsequent to being granted the bachelor's degree a planned fifth year of work (minimum of 45 quarter hours) in one of the following plans:
Plan 1. Completion of all course work in one of the master's degree programs at Oregon College of Education but without meeting the specific grade-point average and examination requirements of the candidate for that degree, or

Plan 2. Completion of an interdisciplinary minor consisting of 9 to 12 additional hours in the student's undergraduate minor, plus 27 hours from three of the 7 fields offered at Oregon College of Education, plus 6 to 9 hours in education-psychology, for a total of at least 45 quarter hours, or

Plan 3. Completion of from 30 to 36 hours in a second minor field of concentration, plus 9 to 15 hours in the area of education-psychology for a total of at least 45 hours, or

Plan 4. Completion of at least 45 hours and all requirements for one of the norms in special education available at Oregon College of Education.

B. Secondary Teachers: Junior High School

In order to be recommended for a standard certificate and subject norm as a junior high school teacher the individual must have completed subsequent to being granted the bachelor's degree a planned fifth year of work (minimum of 45 quarter hours) in one of the following plans:

Plan 1. Completion of all course work in one of the master's degree programs at Oregon College of Education but without meeting the specific grade-point average and examination requirements of the candidate for that degree, or

Plan 2. Completion of a planned program divided between the student's two teaching minors, and including at least 9 hours in the area of education-psychology, for a total of 45 quarter hours.

Plan 3. Completion of 45 quarter hours and all requirements for one of the norms in special education offered at Oregon College of Education.

C. Secondary Teachers: Senior High School

In order to be recommended for the standard certificate and subject matter norm as a senior high school teacher the individual must have completed subsequent to being granted the bachelor's degree, a planned fifth year of work (minimum of 45 quarter hours) in one of the following plans:

Plan 1. Completion of all course work in one of the master's degree programs at Oregon College of Education but without meeting the specific grade-point average and examination required of the candidate for that degree, or

Plan 2. Completion of a planned program distributed between the student's major field and approved electives with not less than 6 hours in the area of education-psychology, for a total of 45 quarter hours, or

---

2 Elementary Minors: Language arts, social science, mathematics, science, health and physical education, art, music.
3 Special Education: Exceptional Learning Problems, Speech Correction, Mental Retardation.

Plan 3. Completion of a planned program in a second Oregon College of Education teaching minor⁴ and not less than 6 hours in education-psychology for a total of 45 quarter hours, or

Plan 4. Completion of at least 45 hours and all requirements for one of the norms in special education⁴ offered at Oregon College of Education.

Program 2

Students entering this program are those who have completed a bachelor’s degree from an accredited institution of higher learning without meeting the requirements for an Oregon teaching certificate and who desire to become eligible for a Basic or Standard certificate (including a subject matter norm) at the elementary, junior high, or secondary level. These programs vary with the individual.

Program 3

Students entering this program are those who have completed all requirements for basic certification at the elementary level and who wish to qualify at the secondary level (or those who have qualified for secondary certification and wish to qualify at the elementary level). These programs vary with the individual.

Lower-Division Courses

A 115. Introductory Materials Survey. 4 hours.
A course which explores materials and concepts of diverse works of art.
Introduction through studio experience of areas designed to develop a personal background that will relate to the use of materials in the classroom and on a personal level.

A 127. Art Appreciation. 3 hours.
A course which explores the cultural and historic significance of graphic and plastic arts with emphasis on works of recent, individual artists.

A 221. Drawing Processes for Elementary. 2 hours.
Basic information and creative studio experience with the tools and techniques of drawing and painting experience in the elementary schools.

A 222. Design Processes for Elementary. 2 hours.
Basic information concerning the concepts of design and its application through studio experience in various materials appropriate to the elementary school program.

A 223. Graphic Processes. 2-4 hours.
Basic information on printing by autographic means suitable for impression and reproduction. Studio experience in different media with stress on creative use of materials as well as technical skill in the various print processes. The advanced course may be taken for an additional 2 hours credit.

A 224. Silk Screen Printing. 2-4 hours.
Printing on various surfaces and materials by the major stencil processes used in serigraphy. The advanced course may be taken for an additional 2 hours credit with applied design on fabric.

A 225. Watercolor. 2-4 hours.
The exploration of the techniques of transparent watercolor painting utilizing still life, landscape, and imaginative subjects. The course may be taken for an additional two hours credit.

A 226. Drawing. 2-4 hours.
Basic information on the elements of drawing and representation as they are related to the needs of the student. Creative work is stressed, the student receiving experience in different media in the studio situation. The advanced course may be continued for an additional 2 hours credit.

A 228. Design. 2-4 hours.
Information on the elements and principles of design; creative application, structural and decorative, through various media. The advanced course may be continued for an additional 2 hours credit.

A 230. Basic Craft Techniques. 2-4 hours.
Planning and developing creative products in a variety of media suitable for the elementary grades. An additional 2 hours credit may be taken to extend the craft range.
A 231. **General Crafts.** 2-4 hours.
Introduction to a range of craft techniques appropriate to the secondary art program and to adult performance.

A 237. **Lettering Processes for Elementary.** 2 hours.
Studio class in lettering, progressing from pen to brush practice. Opportunity to develop skill in basic public school Manuscript form, progressing to an introduction to Italic Handwriting. Understanding and experience in the preparation of charts and posters is included.

A 238. **Lettering.** 2 hours.
A continuation of A 237 leading to a greater ability in personal calligraphy. Historical and contemporary means to visual communications are studied as related to preparation of teaching materials. Prerequisite: A 237.

A 251. **Art History.** 3 hours.
A survey of ancient and classical Art History starting with pre-historic man through early Renaissance.

A 252. **Art History II.** 3 hours.
A survey of Art History starting with High Renaissance and continuing through Baroque Art.

A 253. **Art History III.** 3 hours.
A survey of Art History starting with Neo-classic and continuing through Modern Art.

A 254. **Introduction to Ceramics.** 2 hours.
Introduction to ceramic techniques and materials; hand building, surface decoration and glazing. Students assist in stacking and firing the kiln.

A 255. **Ceramics.** 2-4 hours.
Studio activities involving potter’s wheel, hand building, clay composition, glaze calculation. An additional 4 hours of credit may be taken to extend knowledge and skills.

A 256. **Weaving.** 2-4 hours.
Introduction to weaving techniques and materials. Emphasis on the preparation of a variety of looms for weaving. Study of basic weaves, materials, color, and texture of hand-loomed fabrics.

A 261. **Bookbinding.** 2 hours.
Introduction to bookbinding through the construction of various types of bindings suitable for classroom use. Stress on creative use of materials as well as technical binding skill.

**Upper-Division Courses**

A 312. **Puppetry.** 2-4 hours.
A practical course for teachers in the production of original puppet plays including staging, scenery, and the construction of various types of hand puppets and marionettes. An additional 2 hours of credit may be taken to extend knowledge and broaden the learning range.

A 315 **Jewelry.** 2-4 hours.
Jewelry design and construction processes and techniques of soldering, surface enrichment, forging, shaping, and stone setting using silver, other metals, and semi-precious stones.
A 316. **Metalsmithing.** 2-4 hours.
Metal design and construction involving hand processes of raising, forging, and soldering with silver and other metals.

A 317. **Figure Drawing.** 2-4 hours.
Studio course in figure drawing in various media from the live model. An additional 2 hours credit may be taken to increase skills and deepen knowledge in this area.

A 318. **Painting.** 2-6 hours.
A basic exploratory course in painting using a variety of media: oil, enamel, lacquer, casine, etc. A total of three terms may be taken for extended learnings with 2 hours credit given for each term.

A 319. **Ceramic Sculpture.** 2-4 hours.
A basic course in clay sculpture in relief and in the round; non-representational and representational form will be explored. An additional 2 hours credit may be given for a second term.

A 320. **Mosaic.** 2 hours.
Mosaic design and construction, including methods of making and setting tesserae of various materials.

A 323. **Art Education (Elementary).** 3 hours.
Evaluation of the various approaches to the creative art experiences made possible in the flexible course of study. Lectures, reading and discussions deal with recent trends of art expression in elementary and junior high school (applicable as Education on elementary degree requirements and certification). Prerequisite: A 221, 222, A 237.

A 324. **Art Education (Secondary).** 3 hours.
A study of art education through studio experiences and individual research. Lectures and reading dealing with current practices in art education in American high schools. Prerequisites: A 221, 222.

A 331. **Sculpture.** 2-4 hours.
Introduction to basic materials, techniques, and forms pertaining to sculptural processes with modeling, casting, carving in wood, cast stone, etc. A second term may be taken for an additional 2 hours credit.

A 343. **Enameling.** 2-4 hours.
Introduction to the process and techniques of enameling on metals.

A 351. **Sketching.** 2 hours.-*
A course designed to provide experience in sketching and composition of various subjects in a variety of media depending upon the class emphasis.

A 352. **Art in Environment.** 2 hours.
Study of interior and exterior aspects of man-made environment. Emphasis is on contemporary problems and trends in architecture, interior and landscape design. Development of practical means of planning and designing.

A 424. **Layout and Design.** 2 hours.
Advanced studio course in design dealing with problems of page and area layout, color, texture, line, and lettering. Prerequisites: A 228, A 238.

A 425. **Advertising Design.** 2 hours.
Advanced studio course in design dealing with problems of poster, package and publicity techniques. Exploration through studio activities and related research. Prerequisites: A 228, A 238.
A 426. Individual Studies in Art. 2-12 hours. A maximum of three hours of (g) credit may be earned. Individual studies and studio opportunity requiring a planned program, consent of the instructor, and departmental approval.

A 434. Visual Techniques. (g) 3 hours. A production and design class in teacher preparation of classroom instructional items in visual and three-dimensional materials, Diagrams, charts, models and teaching displays and devices will be developed. Instruction in school display and publicity techniques will be given. Consent of instructor required.

A 447. Crafts. 2 hours. Advanced studio activities with ceramic and related materials, with emphasis on contemporary trends and new directions. Prerequisite: consent of instructor.

A 448. Crafts. 2 hours. Advanced studio work in metal design involving use of enamels and related materials. Prerequisite: consent of instructor.

A 449. Crafts. 2 hours. Applied design on fabric using the following processes: Relief printing, silk screen printing, batik, applique, stitchery, and hooking.

A 453. Appreciative Aspects in Art. (g) 3 hours. Exploration of the historical development and current trends in various art forms, including crafts, architecture, sculpture, and painting with emphasis on developing standards and criteria for the understanding and appreciation of art.

Education and Psychology

Professors: Corley (department chairman), Brody, Garrison, Haatt, Mulder, Rowland, Yost.
Associate Professors: Conkey, Cummins, Duncan, Farrow, Glogau, Howard, Millsap, Redbird.

EDUCATION

Upper-Division Courses

Ed 311. Historical Foundations of Education. 3 hours. Historical and philosophical backgrounds of American education to assist in the development of understandings and interpretation of present-day educational issues.

Ed 314. Principles of Secondary Teaching. 3 hours. Study of the actual classroom teaching process, including classroom organization and management, planning teaching units, evaluating pupil learning, and similar problems. Required of all secondary teacher education majors. Prerequisite: Ed 316, or consent of instructor.

Ed 316. Psychological Foundations of Education. 4 hours. School and classroom learning; the nature of the learning process; the relation and significance of motivation; educational measurement and its application to appraising interests, aptitudes, achievements, and adjustment; use and interpretation of tests by classroom teachers. Prerequisite: Psy 311.
Ed 336. Foreign Language in the Grades. 3 hours.
Designed to stress methods and materials that are used in teaching foreign languages in the grades. Course also emphasizes improvement of student pronunciation and fluency of a foreign language. Open to those who have had two years of college French or Spanish.

Ed 342. Teaching in the Junior High School. 4 hours.
General methods for junior high school teachers; classroom activities relating to the core-type curriculum and the integration of subject matter; block-scheduling in the areas of language arts, social studies, and science-mathematics; unit preparation; the teacher's roles in the modern junior high school. Prerequisite: Ed 316.

Ed 344. Physical Education in the Grades. 3 hours.
Theory and practice in rhythm; group and folk dancing; stunts, games, self-testing activities, tumbling; materials; planning and evaluating programs with reference to basic principles of physical education for elementary and secondary teachers.

Ed 351. School Health Program. 3 hours.
Teaching of health education with emphasis on health knowledge, health attitudes, and health habits of school children, and the development of a health service program. Special study of the state health-education program. Prerequisite: Bi 101, 102, 103.

Ed 357. Methods and Materials: Reading. 3 hours.
Techniques and methods of teaching for elementary teachers with particular attention to the development of reading at various levels. Opportunities for observing children. Prerequisite: Ed 316, or consent of instructor.

Ed 358. Methods and Materials: Language Arts and Social Science. 3 hours.
Study of the child throughout his experiences in the elementary school as organized around the language arts and social studies. Observation of children and teaching methods. Prerequisite: Ed 316, or consent of instructor.

Ed 359. Methods and Materials: Science and Mathematics. 3 hours.
Modern methods of instruction at the elementary school level, based upon recent research and writing. The meaning theory in the teaching of arithmetic and problem approach to the teaching of science. Observation of children and teaching methods. Prerequisite: Ed 316, or consent of instructor.

Ed 361, 362. Learning and Instruction in the Elementary Schools. 9 hours each term.
A laboratory type course designed to integrate the competencies essential for elementary school teaching; the nature of learning; evaluation techniques for child study and their application in the classroom; the techniques of classroom instruction in the elementary school with emphasis on observation planning, supervised presentation and evaluation of learning experiences in the areas of reading, language arts, social studies, science, and mathematics. Planned, sequential laboratory experiences in elementary school classrooms and audio-visual laboratory.

Ed 389. Reading and Telling Children's Stories. 3 hours.
Fundamental principles of the art of storytelling, including the planning of a story hour, location of suitable materials for use, and the techniques of learning and presenting the story; study and selection of literature appropriate for oral presentation to children of all ages.
Ed 391. Communication With the Deaf. 1-3 hours.
Techniques for facilitating individual interviews with deaf clients and stu-
dents. Factors important to lipreading. Intensive training in manual com-
munication.

Ed 392. Braille. 3 hours.
Beginning course in Standard English Braille. Covers use and care of
equipment as well as discussion and introduction of Arithmetic and Music
codes.

Ed 393. Speech Correction in the Schools. 3 hours.
The problems and therapeutic needs of speech handicapped children and the
complementary roles of the speech therapist and classroom teacher in meet-
ing these needs.

Ed 402. Workshop. Terms and hours to be arranged.

Designed for individual or special studies in a limited area of interest, under
the guidance of a designated staff member.

Ed 407. Seminar. Terms and hours to be arranged.

Ed 408. Special Secondary Methods. 2-3 hours.
Individual courses in the study of the social science, the humanities, the
science and the mathematics programs at the secondary level, including ob-
jectives, methods, materials, and equipment characteristic of a good in-
structional program. Prerequisite: Ed 314, or consent of instructor.

Ed 409. Practicum. Hours to be arranged. 3-9 hours.
REMEDIAl READING  COUNSELING
THE MENTALLY RETARDED  SPEECH PATHOLOGY
THE DEAF  AUDIOLOGY

Ed 410. Methods and Research Materials. (G) 3 hours each. Maximum
6 hours undergraduate and 9 hours graduate.
Problems and methods in selecting and organizing materials for teaching in
any one of the following fields: Art, Music, Social Science, Science, Lan-
guage Arts, Reading, Physical and Health Education, and Arithmetic. Em-
phasis for graduate students will be placed upon recent research and litera-
ture dealing with instructional materials, methods and facilities, including
the completion of a special project. E indicates elementary level; S indi-
cates secondary level.

Ed 411. Student Teaching Seminar. 3 hours. all St. Pradell
Designed as a part of the student teaching program in elementary, junior
high, or senior high schools. Supervised induction into the teaching profes-
sion, liaison and transitional relationship between the college and the public
school providing the student teaching experience. Must enroll in Ed 413
concurrently, and upon application only.

Ed 412. Laboratory Experiences. 3-9 hours.
An experience practicum to acquaint pre-service and in-service teachers with
programs for children and youth in various societal and educational
agencies; summer practicums in pre-school and elementary education; practi-
cums in addition to student teaching in subject matter areas to meet certifica-
tion requirements.

Ed Lt Primarily
By permission only
Ed 413. Student Teaching. 12 hours.
Observing and teaching under the direction of a supervising teacher; opportunity for assuming direct responsibility for the learning activities of children or youth; developing skill in the techniques of teaching and classroom management; participation in the life of the school. Admission by application only.

Ed 418. Intern Teaching: Elementary. 12 hours.

Ed 419. Intern Teaching: Secondary. 12 hours.

Ed 424. Measurement in Education. (G) 3 hours.
Use and interpretation of informal and standardized tests as supervisory and guidance instruments for the diagnosis, analysis, evaluation, and improvements of instruction in the elementary and secondary schools. Test planning, item writing, essay testing, administration and scoring, analysis of scores and grade assignment. Simple statistics of test interpretation. Prerequisite: Ed 316, or consent of instructor.

Ed 427. School Activities. (G) 3 hours.
Principles and purposes of school activities; pupil participation in school government; assemblies; clubs, social activities; athletics, speech activities, drama, music, publications, evaluation of the school activity program.

Ed 433. Resource Materials Centers. (G) 3 hours.
The organization and administration of resource materials centers; acquisition of materials; cataloging and classification; source materials on pamphlets, texts, reference books, recordings, pictures, programed materials; relationship to unit construction.

Ed 434. Preparation of Audio-Visual Aids. (G) 3 hours.
Development of audio-visual teaching aids for more effective teaching in large and diversified classes, team teaching and educational TV; design and construction of illustrated materials, flat and three-dimensional materials for display or projection. Senior standing or consent of instructor.

Ed 435. Audio-Visual Aids. (G) 3 hours.
Survey of the development and use of classroom films, slides, radio, electrical transcriptions, and other kindred visual and auditory aids in teaching; sources and appraisals of audio-visual aid materials, and their practical use.

Ed 436. Programed Instruction. (G) 3 hours.
Principles and techniques employed in the development of programed instructional materials as an element of teaching technology. Analysis of characteristic programs, devices, and psychological principles upon which current material and devices are based.

Ed 437. Teaching Reading in the Primary Grades. (G) 3 hours.
Study of techniques and research appropriate to teaching reading in the lower grades of elementary school; emphasis on interrelationship of language arts; readiness; individual differences; word recognition skills; oral reading; evaluation of reading materials and reading progress; new trends in teaching reading. Prerequisite: Ed 357 or Ed 361.

Ed 438. Teaching Reading in the Intermediate Grades. (G) 3 hours.
Study of techniques and research appropriate to teaching reading in the intermediate and upper grades of elementary school; emphasis on extending word recognition and vocabulary; comprehension; work-study skills; individual differences; grouping practices; individual readings; importance of recreational reading and improvement of reading tastes; evaluation of reading growth; new trends and materials in teaching reading. Prerequisite: Ed 357 or Ed 361.
Ed 443. **Group Process.** (G) 3 hours.
Analysis of the dynamics of group interactions; principles and techniques; experimentaion in classroom and other group situations; applications to the teaching-learning situation.

Ed 451. **Preprimary Education.** (G) 3 hours.
An evaluation of the preprimary period in terms of the opportunities it affords to build up good attitudes toward school life, to help the child adjust himself to the group, to build up good habits of work, and to develop a readiness for subjects in the first-grade curriculum, such as reading, numbers, and language.

Ed 452. **Creative Arts in Childhood.** (G) 3 hours.
A course designed to assist the student in gaining insight into the many ways young children express themselves with creative media. Exploration will be made into the interrelationships of music and rhythm, graphic arts, constructed materials, literature, dramatic play, and other areas of expression as young children use them.

Ed 453. **Intern Seminar: Problems of Teaching.** (G) 3 hours.

Ed 454. **Intern Seminar: Curriculum and Evaluation.** (G) 3 hours.

Ed 455. **Intern Seminar: Curriculum and Instruction.** (G) 3 hours.

Ed 457. **Recent Educational Trends and Problems.** (G) 3 hours.
Contemporary trends in educational practice and theory, comparison of conflicting points of view, new instructional organizations and programs, with emphasis on implications for schools and the teaching profession.

Ed 463. **The Maladjusted Child.** (G) 3 hours.
Identification and modification of the behavior of the emotionally and socially maladjusted child. The home, school, and community are considered in relation to the child's mental health.

Ed 464. **The Mentally Retarded Child.** (G) 3 hours.
The psychology, education, and guidance of the mentally retarded child.

Ed 465. **Diagnostic and Remedial Techniques in the Basic Skills.** (G) 3 hours.
Diagnostic, remedial, and corrective techniques in basic school subjects (exclusive of reading).

Ed 466. **The Gifted Child.** (G) 3 hours.
The psychology, education, and guidance of the mentally superior and the extraordinarily gifted child.

Ed 467. **Applied Mental Hygiene.** (G) 3 hours.
The development of personality, personality conflicts, mechanisms of adjustment, and the basic principles of mental hygiene. Emphasis on application of mental hygiene principles to personality development of teachers and of children. Prerequisite: Ed 316.

Ed 468. **Diagnostic and Remedial Techniques in Reading.** (G) 3 hours.
For experienced teachers: the typical causes of difficulty in reading; evaluation of procedures to be used in remedial classes. Lectures, demonstrations, readings, and case studies. Prerequisite: Ed 480.
Ed 469. Teaching Reading in the Secondary Schools. (G) 3 hours.
Basic principles of reading instruction; nature and scope of the total reading program; methods and materials for reading instruction in the content areas of the secondary school.

Ed 470. Education of the Exceptional Child. (G) 3 hours.
The emotionally disturbed, the mentally accelerated, the slow learner, and the physically handicapped. Visits are made to state institutions and agencies to acquaint students with services available.

Ed 471. Administration of Special Education. (G) 3 hours.
Organization and administration of special education programs. Laws, rules, and regulations governing the administration of special education programs in Oregon school districts.

Ed 472. Supervision Processes for Supervisors of Interns and Student Teachers. (G) 3 hours.
The role of the cooperating teacher in the supervision of interns and student teachers; the supervisory process; group and individual processes and techniques; analysis of supervisory problems.

Ed 476. School Law and Organization. (G) 3 hours.
The historic and current legal authority of federal, state, county, and local governments in the organization and administration of public school education. Special emphasis placed on the Oregon statutes as they apply to school organization, administration, and teaching.

Ed 480. The Psychology of Reading Instruction. (G) 3 hours.
An advanced course in the teaching of reading at elementary and secondary levels. Fundamental nature of the reading process; principles of growth, adjustment, and learning basic to reading achievement; psychological foundations of methods of reading instruction. Prerequisite: Ed 357 or its equivalent, or consent of the instructor.

Ed 483. General Intelligence Testing. (G) 3 hours.
Administration, scoring and interpretation of the Stanford Binet Intelligence Scale and the Wechsler Intelligence Scale for Children. Consent of instructor required.

Ed 484. Junior High School. (G) 3 hours.
Development of the junior high school, its purposes and objectives. The general organization of the school; courses of study; present practices in leading representative junior high schools, the direction of classroom activities; provision for individual differences; pupil guidance, and socialization.

Introduction to the field of guidance and counseling. Methods and means of assisting students with personal, educational, and vocational problems are studied. Includes studies of school policies, administration, and tests involved in a guidance program. The social agencies available to the school are also emphasized.

Ed 486. Occupational and Educational Information. (G) 3 hours.
Materials available regarding occupations; interpretations of present trends; value and usefulness for high school and college students.
Ed 487. Counseling Techniques. (G) 3 hours.
Purposes and techniques of counseling; dynamics of adjustment and personality change; personality tests and their interpretation; counseling and the individual student. Prerequisite: Ed 485 or consent of instructor.

Ed 489. Curriculum for the Mentally Retarded. (G) 3 hours.
Curriculum resources, methods, and materials for special classes developed on the basis of diagnosed characteristics of mentally retarded children. Prerequisite: Ed 464, or consent of instructor.

Ed 490. Guidance and Counseling of the Deaf. (G) 3 hours.
Orientation to the effects of early profound deafness. Evaluation of psychological, social, and vocational implications of deafness. Utilization of psychological tests and measurements with the deaf. Special counseling techniques, demonstrations, and practice.

Graduate Courses
Courses numbered 400-499 and designated (G) or (P) may be taken for graduate credit.

Ed 502. Workshop. Terms and hours to be arranged.

Ed 503. Thesis or Field Study. 3-9 hours.

Ed 506. Special Individual Studies. Maximum of 6 hours.
Individual surveys, evaluative studies, and special studies in a limited area of interest, under the guidance of a designated staff member.

Ed 507. Seminar. 3-6 hours.

Ed 509. Practicum. Hours to be arranged. 3-9 hours.
Remedial Reading Counseling
The Mentally Retarded Speech Pathology
The Deaf Audiology

Ed 512. Research Procedures in Education. 3 hours.
Methods, techniques, and tools of research. Critical analysis of sample research studies and development of criteria and methods for conducting research. Techniques of reading research and writing reports and articles for professional journals.

Ed 513. Evaluation of Classroom Instruction. 3 hours.
Application of criteria for self-evaluation by individual teachers. Observation of effective teaching in the laboratory school. Analysis of research relating to teaching and discussion methods, group dynamics, and the evaluation of individual teaching.

Ed 514. Foundations of Education. 3 hours.
Major sociological, historical, philosophical, and psychological factors underlying present day American education, with study of related problems of educational adjustments in modern society.

Ed 518. Public and Professional Relations. 3 hours.
Professional responsibilities and ethics of teachers, as related to the lay public, related social agencies and to the education profession. Procedures in group dynamics, public relations, advisory councils, working with parents and parent groups. Emphasis upon means of achieving the professionalization of teaching.
Ed 519, 520. **Childhood Education.** 6 hours each term.
A laboratory-type course designed to extend the specific competencies essential for the teacher of primary grade children. The first term deals with the teaching of children at the preprimary level. The second term is concerned with developing quantitative concepts, reading and other language skills, and social learnings of children. Field trips, supervised teaching, seminars, and case studies. (Offered during summer sessions in a two-summer cycle.)

Ed 521. **Audio-Visual Administration.** 3 hours.
Organizing, administering, and coordinating the school audio-visual program: problems of acquiring, maintaining, and scheduling audio-visual equipment and materials in elementary and secondary schools.

Ed 522. **Secondary School Curriculum.** 3 hours.
Overview of the secondary school curriculum, with emphasis on the various subject fields; organization of the school for curriculum development; educational objectives; the course of study; evaluation of the secondary school curriculum.

Ed 527. **Secondary School Administration.** 3 hours.
The secondary school principalship; principles of administration, staff relationships, public relations, and professional growth; business administration; administration of guidance services, curriculum, and school activities; evaluation of the secondary school.

Ed 539. **Directed observation of the Deaf.** 1-3 hours.
Observation of deaf children in day and residential school programs. In addition, observation of normal hearing children will be utilized to add depth to the understanding of the hearing impaired child. Critical evaluation of student’s recorded observation.

Ed 540. **Teaching Language to the Deaf.** 9 hours.
Principles and techniques of teaching language to deaf children. Leading systems used with a step by step development of at least one language system. Consideration of language problems of the multiple handicapped deaf child.

Ed 541. **Teaching Elementary School Subjects to the Deaf.** 3 hours.
Overview of curriculum for schools for the deaf. Emphasis on reading, reading readiness, the psychology of the reading process, reading skills in relation to other parts of the curriculum, and remedial measures in teaching the deaf.

Ed 542. **Teaching Elementary School Subjects to the Deaf.** 3 hours.
Arithmetic, social studies, art, and science on the elementary and pre-school levels of teaching the deaf. The use of audio-visual aids and other instructional devices.

Ed 543. **Teaching Secondary School Subjects to the Deaf.** 3 hours.
Mathematics, social studies, and science on the intermediate and advanced levels. The use of audio-visual aids and other instructional devices.

Ed 544. **History of Education.** 3 hours.
A study of the rise and development of educational systems in relation to an evolving society; emphasis on the study of ideas from Western Civilization which have influenced and shaped American Education.
Ed 546. Philosophy of Education. 3 hours.
A study of philosophical assumptions, and their implications, on the fundamental issues and practices of American Education.

Ed 551. Curriculum for the Deaf. 3 hours.
Curriculum resources, methods, and materials for programs based on the needs of deaf students.

Ed 553. Elementary School Curriculum. 3 hours.
A systematic study of the elementary school curriculum, including pupil needs in everyday life situations; objectives; essentials of a good program; varying curriculum designs, organization of learning experiences; evaluation of learning; appraisal of newer curriculum practices.

Ed 554. Elementary School Administration and Supervision. 4 hours.
Principles and desirable practices in the administration and supervision of elementary schools; characteristics of good elementary schools; leadership responsibilities and processes; school organizational patterns; personnel and special services; school-community relationships; evaluation of the elementary school.

Ed 556, 557, 558. Teaching Speech to the Deaf. 3 hours each term.
Principles and techniques in developing the formation of English sounds by analytical methods. Introduction of speech by the whole word method. Correction of speech defects in the hard of hearing and the multiple handicapped deaf child. Development of speech in pre-school and school age children. Laboratory experiences with deaf children.

Ed 563. Research Procedures in Special Education. 3 hours.
Methods, techniques, and tools of research. Analysis of research studies in special education. Development of a research problem in one field of special education. Consent of instructor.

Ed 564. Mental Tests. 3 hours.
Selection, administration, and interpretation of individual tests. Problems in testing exceptional and extremely deviate children. Prerequisite: Ed 483 (G) and Psy 525.

Ed 566. Curriculum Construction. 3 hours.
Basic social, philosophical, and psychological factors for curriculum planning and organization at both the elementary and secondary levels, including practical emphasis upon specific techniques in curriculum making for the teacher.

Ed 567. Curriculum Materials. 3 hours.
Effective use and organization of curriculum materials; text and reference books; supplementary pamphlet materials, films and slides, records and recordings, pictures; programmed materials; relationship to unit construction.

Ed 571. Junior High School Curriculum. 3 hours.
A study of the junior high school curriculum with an emphasis on programs appropriate to needs of the early adolescent years; objectives; essentials of a good program; varying curriculum practices and organizational patterns; emphasis on the subject fields; evaluation of junior high school curriculum.

Ed 574. School Supervision. 3 hours.
The role of the supervisor in relation to the changing demands of society; theories of leadership; group and individual processes, supervisory processes and techniques; curriculum change process; analysis of supervisory problems.
Ed 583. The Preschool Deaf Child. 3 hours.
Development and organization of learning experiences in nursery and pre-
school programs for deaf children. Emphasis on the development of com-
munication skills and the social and emotional maturation of very young
deaf children. Laboratory experiences with deaf children.

Ed 584. Orientation to the Deaf and Hard of Hearing. 3 hours.
Introduction to the psychological, social, medical, educational, and voca-
tional problems of the deaf and hard of hearing.

PSYCHOLOGY

Lower-Division Courses

Psy 201, 202, 203. General Psychology. 3 hours each term.
The nature of man, processes of learning, and common modes of resulting
individual and social behavior. Attention is given to the evolving social ad-
justments of the individual, development of an objective attitude toward
himself and others, emotional conditioning, and the mechanisms of adjust-
ment necessitated by society.

Upper-Division Courses

Psy 311. Human Development. 3 hours.
A study of the psychology of human development during the periods of in-
fancy and childhood with major emphasis on childhood. Consideration also
given to prenatal development. Prerequisite: Psy 201.

Psy 312. Psychology of Adolescence. 3 hours.
Processes of human development leading to maturity and the effective func-
tioning of the total organism; personal and social adjustments in adoles-
cence; physical, mental, and moral changes of adolescence. Prerequisites:
Psy 201.

Psy 407. Seminar. Terms and hours to be arranged.

Psy 423. Case Study Procedures. (G) 3 hours.
Analysis of the elements in case study and report writing; principles and
techniques; report writing on studies of children, youth, and adults; analy-
sis and evaluation.

Psy 436. Character and Personality. (G) 3 hours.
Major theories of personality development and function. Consent of instruc-
tor.

Psy 450. Abnormal Psychology. (G) 3 hours.
Various forms of unusual behavior, including anxiety states, hysteria, hyp-
notic phenomena, and psychoses. Normal motives and adjustment. Mechan-
isms considered in their exaggerations in the so-called neurotic person.
Consent of instructor.

Psy 460. Developmental Psychology: Infancy and Childhood. (G) 3
hours.
Development of behavior and psychological activity through the prenatal
period, infancy, and childhood. Changes of intelligence, motor capacity,
emotional response, language, and social behavior. Emphasis of social in-
fluences on development. Consent of instructor.
Psy 461. Developmental Psychology: Adolescence and Maturity. (G) 3 hours.
Behavior changes during pre-adolescence and adolescence as related to physiological development, and social and cultural factors. Emphasis on personal and social adjustment. Consideration of problems relating to maturity and adulthood. Consent of instructor.

Psy 472. Individual Differences. (G) 3 hours.
Application of psychological methods to the study of the individual; problems involved in the prediction of human behavior; basic principles for quantitative and qualitative assessment of human characteristics; research findings concerning intelligence, achievement, aptitudes, interests, and personality.

**Graduate Courses**

Psy 507. Seminar. Terms and hours to be arranged.

Psy 515, 516. Statistical Methods in Education and Psychology. 3 hours each term.
Statistical methods in education and psychology used in the treatment of collective data; principles and techniques in quantitative and experimental methods.

Psy 519. Research Studies in Child Development. 3 hours.
Survey and interpretation of current research studies and experimental programs concerned with the physical, emotional, intellectual and social development of children.

Psy 520. Psychology of Learning. 3 hours.
Introduction to the major theories of learning current among psychologists doing research in the field. Experimentation and research underlying these theories applied to modern educational practices. Includes learning theory and practices at all age levels through adulthood.

Psy 525. Individual Intelligence Testing. 3 hours.
A supervised experience with exceptional children in the administration of the Wechsler Adult Intelligence Scale and a continuation of the W.I.S.C. and Stanford Binet. Other instruments for measuring mental ability individually will be introduced. Prerequisite: Ed 483.

Psy 594. Psychology of Communication. 3 hours.
The nature, origin and purposes of speech and the basic psychological principles involved in the communicative process.

**SPEECH PATHOLOGY AND AUDIOLOGY**

Sp 370. Phonetics. 3 hours.
A study of the sounds used in speech, their production, determination, and the physical and psychological problems involved in their perception. Emphasis upon the application of sound to the listening and speaking activities of children.

Sp 371. Speech Science. 3 hours.
A study of the anatomy, psychology, and physics of speech.
Sp 478. Diagnostic Methods in Speech Pathology and Audiology. (g) 3 hours.
Scientific approaches and techniques in the diagnosis of the major speech and hearing defects. This is a practicum course and students will observe and/or perform requisite diagnostic functions.

Sp 481. Speech Pathology. (g) 3 hours.
Symptoms, etiology, and treatment of functional articulation disorders, delayed speech, emotional speech disorders. (Prerequisite: Speech Corr. in the Schools.)

Sp 482. Speech Pathology. (g) 3 hours.
Symptoms, etiology and treatment of speech disorders due to congenital malformation, injury, or neurological impairment. (Prerequisite: Speech Corr. in the Schools.)

Sp 483. Speech Pathology. (g) 3 hours.
Symptoms, etiology and treatment of stuttering. (Prerequisite: Speech Corr. in the schools.)

Sp 484, 485, 486. Clinical Speech Therapy. (g) 2 hours each term.
Actual case experience for student clinicians in the diagnosis and treatment, under supervision, of speech-defective children and adults. Prerequisite: consent of instructor.

Sp 487. Audiology. (g) 3 hours.
Anatomy of the ear and the speech mechanism, psychophysics of hearing, physical attributes of speech sounds, types and causes of hearing loss, speech involvements of acoustical impairment.

Sp 488. Audiology. (g) 3 hours.
Techniques and interpretation of pure tone and speech audiometry.

Sp 489. Audiology. (g) 4 hours.
Principles and techniques of teaching lipreading, including Nitchie, Jena, Kinzie, Muller-Walle, and others. Techniques and principles of auditory training.

Counseling

Upper-Division and Graduate Courses
Courses numbered 400-499 and designated (G) or (P) may be taken for graduate credit.

Ed 406-506. Special Individual Studies.

Ed 424. Measurement in Education. (G)

Ed 470. Education of the Exceptional Child. (G)

Ed 483. General Intelligence Testing. (G)

Ed 486. Occupational and Educational Information. (G)

Ed 487. Counseling Techniques. (G)
Psy 436. Character and Personality. (G)
Psy 450. Abnormal Psychology. (G)
Psy 460. Developmental Psychology: Infancy and Childhood. (G)
Psy 461. Developmental Psychology: Adolescence and Maturity. (G)
Psy 519. Research Studies in Child Development. 3 hours.
Psy 520. Psychology of Learning. 3 hours.
Psy 525. Individual Intelligence Testing.

**Educational Administration**

Ed 512. Research Procedures in Education.
Ed 527. Secondary School Administration.
Ed 553. Elementary School Curriculum.
Ed 554. Elementary School Administration and Supervision.
Ed 566. Curriculum Construction.
Ed 571. Junior High School Curriculum.
Ed 574. School Supervision.

**Educational Media Specialist**

An elective pattern of course work designed to prepare specialists in the fields of audio-visual aids, educational technology, instructional materials centers, curriculum and resource materials centers. These courses could be planned as a part of the elective sequences in the graduate degree or fifth-year non-degree patterns for elementary, junior high, or senior high school teachers or administrative service personnel.

A 424. Layout and Design.
A 425. Advertising Design.
A 434. Visual Techniques. (g)
Ed 406-506. Special Individual Studies.
Ed 409-509. Practicum.
Ed 410. Methods and Research Materials. (G)
Ed 433. Resource Materials Centers. (G)
Ed 434. Preparation of Audio-Visual Aids. (G)
Ed 435. Audio-Visual Aids. (G)
Ed 463. Programed Instruction. (G)
Ed 486. Occupational and Educational Information. (G)
Ed 512. Research Procedures in Education.
Ed 513. Evaluation of Classroom Instruction.
Ed 546. Philosophy of Education.
Ed 553. Elementary School Curriculum
Ed 566. Curriculum Construction.
Ed 571. Junior High School Curriculum.
Psy 520. Psychology of Learning.
Lib 486. Introduction to Cataloging and Classification.

Health and Physical Education

Professors: Livingston (department chairman), Lautenbach, McArthur.
Associate Professors: Cummiskey.1
Assistant Professors: Kery, McCullough, Miller, Shollenberger.

HEALTH

Lower-Division Courses

HE 151. Personal Hygiene. 2 hours.
Basic scientific knowledge for healthful living; relation of the health of individuals to family and community welfare and to national vitality and progress; fundamental factors involved in intelligent living.

HE 252. First Aid. 2 hours.
Emergency treatment of injuries or sudden illnesses, with emphasis on school situations; upon successful completion the student receives a Red Cross standard first aid certificate.

Upper-Division Courses

HE 325. Nutrition. 3 hours.
Essentials of an adequate diet for all age groups; the nutritive values of the common food materials; emphasis on the diet of school children.

PHYSICAL EDUCATION

Requirements. Students majoring in elementary education are required to take the following courses in physical education: Basic Rhythms (111), Gymnastics and Self Testing (112), Beginning Swimming (113), Games and Relays (115), an Individual Sport (114), and a team Sport (115); All other students are required to complete six activity courses selected from at least four of the following areas: Rhythms, Gymnastics and Self Testing Activities, Aquatics, Individual and Dual Sports, Team Sports. These may be either 100 or 200 courses.

Students are permitted to earn credit in two activity courses each term, only one of which may carry a 100 number. Exceptions made for students specializing in physical education.

Lower-Division Courses

'PE 111, 112, 113, 114, 115. Physical Education. 1 hour.
Instruction is given in skills, techniques, history, and rules of the following sports and activities:
PE 111, 211—Rhythms, Folk and Square Dance, Social Dance, Modern Dance, Basic Rhythms.

PE 100P/200P. Professional Physical Education Activity Courses. 1 hour.
Instruction is given in methods of teaching the activities listed.
PE 111P—Basic Rhythms; PE 112P Gymnastics and Self Testing; PE 113P/213P Aquatics; PE 114P, Badminton, Archery; Golf; PE 114P/214P Track and Field, Tennis, Bowling, Wrestling (M); PE 115P Soccer, Speedball, Games and Relays; PE 115P/215P Hockey (W), Basketball, Volleyball, Soft or Baseball; PE 211P Folk and Square Dance, Social or Modern Dance; PE 212P Body Mechanics.

PE 211, 212, 213, 214, 215. Physical Education. 1 hour.
Instruction given in advanced skills and techniques of the sports and activities listed under PE 111, 112, 113, 114, 115. These are elective courses and will not substitute for the requirements of 6 term hours of PE 111, 112, 113, 114, 115.

Upper-Division Courses

PE 330. Playground Organization and Supervision. 1 hour.
Study of the recreation movement; construction of the playground; selection and placement of equipment; special play days and field meets. Not offered 1966-67.

¹Not more than 12 hours of physical education activity courses numbered 100 and 200 may be counted toward graduation except in the case of a physical education major or minor.
PE 336. Outdoor Education Leadership. 3 hours.
Background and trends of the camping and outdoor education movement; includes brief study of related programs such as Girl and Boy Scouts, Camp Fire Girls, 4-H Clubs, and YMCA with assistance of specialists; work in practical outdoor skills. Offered even-numbered years.

PE 337, 338, 339. Officiating Sports. 1 hour each term.
Rules, techniques, and game practice in men's and women's sports.

PE 343. Organization and Administration of Physical Education. 3 hours.
Policies and procedures; facilities; staff; budget; scheduling; equipment.

PE 350. Teaching of Sports. 1 hour.
Various sports are covered in regard to theory, fundamentals, styles of play, individual adaptations as to positions by lectures and discussions. Not offered 1966-67.

PE 359. Athletic Training and Conditioning. 2 hours.
Study and practice in massage, bandaging, treatment of sprains, bruises, strains, and wounds; the importance of diet and conditioning.

PE 363. Tennis and Golf Coaching. 2 hours.
Demonstration and discussion of the fundamentals, individual skills, methods of instruction, systems of play, philosophy of coaching, and management of matches. Offered odd-numbered years.

PE 364. Wrestling and Swimming Coaching. 2 hours.
Demonstration and discussion of the fundamentals, individual skills, methods of instruction, philosophy of coaching, and management of meets and matches. Offered odd-numbered years.

PE 365. Football Coaching. 2 hours.
Demonstrations and discussion of the fundamentals, individual skills, methods of instruction, systems of play, philosophy of coaching, and management of games. Offered even-numbered years.

PE 366. Basketball Coaching. 2 hours.
Demonstration and discussion of the fundamentals, individual skills, methods of instruction, systems of play, philosophy of coaching, and management of games. Offered even-numbered years.

PE 367. Baseball Coaching. 2 hours.
Demonstration and discussion of the fundamentals, individual skills, methods of instruction, systems of play, philosophy of coaching, and management of games. Offered odd-numbered years.

PE 368. Track and Field Coaching. 2 hours.
Demonstration and discussion of the fundamentals and skills of each of the track and field events, methods of instruction, philosophy of coaching, and management of meets. Offered even-numbered years.

PE 371. Kinesiology. 3 hours.
The study of human motion; implications for the learning and teaching of physical education activities and coaching of sports at the varsity level; includes a brief review of anatomy and physiology. Offered odd-numbered years.
PE 445. The Physical Education Curriculum. (g) 3 hours.
Construction of physical education curricula on the basis of accepted principles, criteria, functions, and evaluations; emphasis on integration with the total school program. Offered even numbered years.

PE 447. Principles of Physical Education. (g) 3 hours.
History, philosophy, and trends; scientific bases; place of physical education in the general education program; practical problems.

PE 473. Physiology of Exercise. 3 hours.
Physiological effects of muscular exercise, physical conditioning, and training. The significance of these effects for health and for performance in activity programs. Offered even numbered years.

HOME ECONOMICS

Lower-Division Courses

HEc 201. Clothing Construction and Selection. 3 hours.
Principles of selection and construction applied in planning and constructing garments; beauty, health, and economy in dress; good taste. Offered on demand only.

HEc 202. Foods, Nutrition, and Cookery. 3 hours.
Basic principles of food preparation, menu making, and meal service. Offered on demand only.

Upper-Division Courses

HEc 301. Consumer Economics. 3 hours.
The specific financial problems which are faced by individual and family groups. Consideration given to study of budgeting, home operation, legal aspects of home, investments, installment buying and insurance.

Humanities

Professors: ALBIN, BELLAMY, DALE.
Associate Professors: ALNA (department chairman).
Assistant Professors: *R. BAKER, D. COOPER, HANSON, W. JOHNSON, KIRBY, *OLMSTEAD, RICKARDS, STEINER.
Instructors: ANDRES, *BIRNBAUM, CAMINITI, A. COOPER, DAVIS, A. JONISH, McKENZIE, POTTS, ROSSI, STUMP.

WRITING

Lower-Division Courses

Wr 111. English Composition.
A basic course in expository writing.

Wr 112. English Composition.
Open only to preprofessional students. Further study and practice in writing exposition.

Wr 113. English Composition.
Open only to preprofessional students. The writing of the research paper.

* On leave 1965-66.
† Interested students should check with the Registrar's Office to determine whether these courses are being offered during the current year.
Wr 212. English Composition. 3 hours.
The writing of the research paper.

Wr 218. Creative Writing. 3 hours.
Opportunity and encouragement for those who wish to express themselves through literary mediums.

Wr 314. English Composition. 3 hours.
The development of style in writing.

Upper-Division Courses

Wr 414. Advanced Composition. (g) 3 hours.
Advanced instruction and practice in the principles of writing, recommended for students who plan to teach high school English.

Graduate Courses

Courses numbered 400-499 and designated (G) or (g) may be taken for graduate credit.

Wr 510. Forms of Expository Prose. 3 hours.
Intensive study and practice for analysis and production of expository prose. Recommended for secondary English teachers.

ENGLISH

Lower-Division Courses

Eng 1. Remedial Clinic: Speech, Reading, or Writing. No credit.
Speech: Establishment of proper habits of pronunciation, articulation, phonation, and diction.
Reading: Careful diagnosis of reading difficulties and corrective measures to meet the needs of individual students.
Writing: A review of fundamentals, primarily for upper classmen whose written work has fallen below the desired level of proficiency.

Eng 101, 102, 103. Survey of English Literature. 3 hours each term.
Representative English literature from the Anglo-Saxon to the present.

Eng 107, 108, 109. World Literature. 3 hours each term.
A sequence in narrative prose, drama, and poetry. Complete works are studied so the student may be familiar with some of the masterpieces in Western-world literature.

Eng 201, 202, 203. Shakespeare. 3 hours each term.
The important comedies, historical plays and tragedies. The three terms constitute a sequence but may be taken separately.

Eng 247. An Introduction to Drama. 3 hours.
Selected representative plays that have exerted considerable influence on the drama in English.

Eng. 253, 254, 255. Survey of American Literature. 3 hours each term.
The content, form, and history of American letters, including the intellectual and environmental forces which shaped the literature.

Upper-Division Courses

Eng 315. The Seventeenth Century. 3 hours.
A study of literature in English written during the seventeenth century.
Eng 316. The Eighteenth Century. 3 hours.
A study of literature in English written during the eighteenth century.

Eng 317. The Nineteenth Century. 3 hours.
A study of literature in English written during the nineteenth century.

Eng 361. Contemporary Literature. 3 hours.
Contemporary novel, poetry, and drama with emphasis on the development of new literary forms, new concepts, attitudes and movements.

Eng 366. The Development of the English Novel. 3 hours.
The English novel from its beginning to the end of the 19th century.

Eng 367. The Development of the American Novel. 3 hours.
The American novel from its beginning to the present.

Eng 368. The Development of the Contemporary Novel. 3 hours.
The 20th century novel with concentration on works published outside England and the United States.

Eng 476. The Teaching of English as a Foreign Language. 3 hours.
Linguistic study of the English language for students or teachers planning to engage in the teaching of English as a second language.

Eng 446. Major Theories in Literary Criticism. (g) 3 hours.
A study of the history, principles, and practice of various aspects of literary criticism. Prerequisite: 15 hours in literature or consent of the instructor.

Eng 447, 448, 449. The Study of Major Figures in Literature. (g) 3 hours each term. Maximum credit 9 hours.
A study in depth of the influence of the events of an author's life on his literary production.

Eng 457. Forms and Meaning of Poetry. (g) 3 hours.
A study of contemporary poetry and its foundations of judgment as seen in literary criticism from Plato to the present time.

Eng 458. Forms and Meaning of Prose. (g) 3 hours.
A study of contemporary prose fiction, American, English, and European, and its foundations of judgment as seen in literary criticism.

Eng 459. Forms and Meaning of Drama. (g) 3 hours.
A study of contemporary drama, in English and in translation, and its foundations of judgment as seen in literary criticism from Aristotle to the present time.

Eng 466. The Study of Ideas in Literature: Romanticism. (g) 3 hours.
An examination of the attitudes and beliefs characteristic of the frame of mind that has come to be called "romantic" and of their influence on the literary productions of certain authors.

Eng 467. The Study of Ideas in Literature: Classicism. 3 hours.
The study of historical and intrinsic classicism as a significant intellectual current and in its relation to literature.

Eng 468. The Study of Ideas in Literature: Realism. (g) 3 hours.
An examination of the theory and practice of realism in various literary works, with a focus on the nineteenth century movement.
Eng 475. Modern American Grammar and Usage. (g) 3 hours.
A study of grammar and usage with emphasis on new linguistic theories.

Eng 480 (Lib 480). Children's Literature. (g) 3 hours.
A study of the many books available for children in the elementary school.
(Applicable as Education on elementary degree requirements and certifi-
cation.)

Eng 484. The Study of Types in Literature: Comedy. (g) 3 hours.
Comedies and the comic concept in Western literature.

Eng 485. The Study of Types in Literature: Tragedy. (g) 3 hours.
An analysis of tragedy and the tragic vision in a range of literary works.

Eng 489 (Lib 489). Literature for Adolescents. (g) 3 hours.
A study of the literature used in junior and senior high schools.

Eng 490. Development of the English Language. (g) 3 hours.
Growth of the English language from its beginning to the present day.

Eng 494. Nature of the English Language. (g) 3 hours.
A general view of the English language with emphasis on modern Ameri-
can language.

Graduate Courses
Courses numbered 400-499 and designated (G) or (g) may be taken for graduate credit.

Eng 510. Recent Developments in Language Study. 3 hours.
Advanced study of the methods and findings of leading scholars of con-
temporary American-English.

Eng 524. The Victorian Era. 3 hours.
A study of the literature and the literary backgrounds of English romanti-
cism.

Eng 526. Regional Literature of America. 3 hours.
A study of literary works reflecting the attitudes and values of the various
regions of the United States, with a concentration on the literature of the
Pacific Northwest.

Eng 576. The Teaching of English as a Foreign Language. 3 hours.
Linguistic study of the English language for students or teachers planning
to engage in the teaching of English as a second language.

HUMANITIES, PHILOSOPHY, AND RELIGION

Upper-Division Courses

Hum 402. Workshop. 2-3 hours.

Hum 406. Special Individual Studies. Maximum of 6 hours.
Designed for individual or special studies in a limited area of interest, under
the guidance of a designated staff member.

Hum 407. Seminar. Hours to be arranged.

Phl 311, 312. Philosophy. 3 hours each term.
Introduction to philosophy through consideration of its basic problems.

R 460. Comparative Religion. 3 hours.
A study and comparison of the great religions of the world.
Graduate Courses

Courses numbered 400-499 and designated (G) or (g) may be taken for graduate credit.

Hum 502. Workshop. 2-3 hours.

Hum 503. Thesis or Field Study. 3-9 hours.

Hum 506. Special Individual Studies. Maximum of 6 hours.

Designed for individual or special studies in a limited area of interest, under the guidance of a designated staff member.

Hum 507. Seminar. Hours to be arranged.

Hum 511. Contemporary Developments in the Humanities. 3 hours.

Emphasis upon the search for values in the modern world as reflected in the forces shaping contemporary philosophies and trends in contemporary literature. For elementary teachers; not acceptable for secondary certification.

Hum 512. Contemporary Developments in the Humanities. 3 hours.

A study of the literary expression of contemporary values as evidenced in the work of currently influential Western authors. (Acceptable for secondary certification.)

JOURNALISM

Lower-Divison Courses

J 211. Introduction to Journalism. 3 hours.

Introduction to the field of journalism, its place in society, and its scope, philosophy and techniques in the various media; techniques of reporting and writing; lecture hours supplemented by work on the college newspaper.

J 212. Reporting. 3 hours.

Basic training in news writing and reporting, with emphasis on accuracy, clarity, and objectivity of writing.

J 213. Copy Editing and Makeup. 3 hours.

Instruction in the fundamentals of copy reading, headline writing, proof reading, and makeup; study of technical processes as they affect copy preparation.

J 351, 352, 353. Journalism Projects. 1 hour each term.

Applications of journalistic techniques and principles through work on student publications. Maximum of six hours.

MODERN LANGUAGES

Lower-Divison Courses

RL 50, 51, 52. First-Year French. 4 hours each term.

An introduction to French stressing comprehension and conversation with emphasis on pronunciation. Practice in the language laboratory required. Exercises in grammar and elementary composition. Not open to students with a background of high school French without the consent of the instructor.
RL 101, 102, 103. Second-Year French. 4 hours each term.
Study of selected texts of modern French authors with purpose of expanding
the student's competence and fluency in speaking, writing and understanding French. Complete grammar review. Work in the language laboratory required. Prerequisite: Completion of RL 50, 51, 52 or two years of high school French.

RL 60, 61, 62. First-Year Spanish. 4 hours each term.
Elementary Spanish with stress on comprehension and conversation. Pronunciation, grammar and reading included. Use of language laboratory required. Not open to students with a background of high school Spanish without the consent of the instructor.

Comprehensive grammar review with emphasis on understanding, speaking and reading Spanish. Selections from representative Spanish authors. Use of language laboratory required. Prerequisites: RL 60, 61, 62 or two years of high school Spanish.

Upper-Division Courses

RL 311, 312, 313. Survey of French Literature. 2-3 hours each term.
Masterpieces of various periods; general survey. Prerequisite: two years of college French or equivalent.

RL 314, 315, 316. Intermediate French Composition and Conversation. 3 hours each term.
Exercises in pronunciation, comprehension, and composition. Ample opportunity for conversation. Conducted in French. Prerequisite: two years of college French or equivalent.

RL 331. French Pronunciation and Phonetics. 3 hours.
A thorough study of the fundamentals of French pronunciation with personal attention to each student's difficulties. Prerequisite: two years of college French or equivalent.

RL 341, 342, 343. Survey of Spanish Literature. 2-3 hours each term.
Masterpieces of various periods; general survey. Prerequisite: two years of college Spanish or equivalent.

RL 429, 430, 431. French Culture and Civilization. 3 hours each term.
The political and social backgrounds of French literature; introduction to French music and art.

SPEECH

Lower-Division Courses

Sp 111. Fundamentals of Speech. 3 hours.
Opportunity to develop poise and confidence in speech and to organize and present material effectively.

Sp 112. Fundamentals of Speech. 3 hours.
Continuation of Speech 111.

Sp 120. Voice and Diction. 3 hours.
Practice of the principles of tone production and phonetic analysis of English sounds as a basis for correct and effortless speech.
Sp 144. Choral Reading. 1 hour.
Group reading of poetry and rhythmic prose for appreciation and enjoyment. Development of techniques for elementary and secondary classroom use.

Sp 239. Oral Interpretation. 3 hours.
Emphasis is placed on the practical values and application of oral reading through the interpretation of prose, poetry, and dramatic literature.

Sp 240. Creative Drama for Elementary Teachers. 3 hours.
Creative dramatics leadership principles that apply to the elementary classroom. Techniques of employing the child's native aptitude for play in bettering the education process. Intended as an elective for elementary education majors.

Sp 244, 245, 246. Stagecraft. 1 hour each term.
Problems in the construction of scenery, stage properties, and lighting; stage management and construction of various types of settings.

Sp 251. Elements of Acting. 3 hours.
Elementary principles of acting technique.

Application of principles of acting and dramatic production. Credit available for students working on regularly scheduled theatre productions, with consent of the director.

Sp 255. Make-Up. 1 hour.
Purposes and techniques of application of theatrical make-up; the use of make-up in the various theatrical media.

Sp 270. Projects in Public Speaking. 1-6 hours.
Training and participation in debating, oratory, and extempore speaking. Prerequisite: consent of instructor.

Upper-Division Courses

Sp 311. Advanced Interpretation. 3 hours.
Instruction in the discovery and oral expression of meaning and feeling in prose, poetry, and dramatic literature.

Sp 323. Group Discussion Processes. 3 hours.
Dynamics of discussion; group thinking and decision making; interpersonal relation; types of leadership, and the employment of discussion in education.

Sp 344, 345, 346. Stagecraft II. 1 hour each term.

Sp 347. Stage and Scene Design. 3 hours.
Basic principles of scene design, with particular emphasis upon design for the educational theatre.

Advanced work in acting and dramatic production.

Sp 356. Theory of Acting. 3 hours.
Principles and techniques of acting; problems in analysis and interpretation of dramatic literature.

Sp 357. Play Production. 3 hours.
Studies and applications of the fundamental principles underlying play production and direction.
Sp 364. Play Direction. 3 hours.
Sources of dramatic material, choice of plays, casting and rehearsal of players.

Sp 411. Speech for the Classroom Teacher. (g) 3 hours.
Study of voice improvement techniques and oral projects that can be used in the elementary and secondary school classroom. Projects for improvement of the teacher's speech.

Sp 412. Advanced Speech. 3 hours.
Selected readings on the principles of the speech arts, illustrated by exercises in the various types of vocal communication. Prerequisite: consent of instructor.

Sp 415. Dramatics in the School. (g) 3 hours.
A study of the role of drama as an activity in the school, including materials necessary for undertaking the development of the drama, the educational values of drama, and the theory of dramatic productions.

Sp 464, 465, 466. Development of Dramatic Art. 3 hours each term.
A study of dramatic literature, performance, and criticism in the historical perspective. The course is chronological in its presentation but each term may be taken separately.

LIBRARY SCIENCE

Lib 480. (Eng 480) Children's Literature. (g) 3 hours.
A study of the many books available for children in the elementary school. (Applicable as Education on elementary degree requirements and certification.)

Lib 483. Book Selection and Reference Materials. 3 hours.

Lib 484. School Library Administration. (g) 3 hours.
The organization, management and function of the school library, and its place in the instructional program. Problems of objectives, standards, housing and acquisitions. Planned for both school librarians and administrators.

Lib 486. Introduction to Cataloging and Classification. (g) 3 hours.
Introduction of principles of cataloguing and classification, including basic catalog card forms, name and subject entries, filing, shelf listing, and mechanical preparation of books.

Lib 489. (Eng 489) Literature for Adolescents. (g) 3 hours.
A study of the literature used in junior and senior high schools.

3 Courses in library science applicable to standardization requirements as established by the state department of education.
Music

Professor: E. Smith (department chairman).
Associate Professors: Redden, Wallace, Geist.
Assistant Professor: R. Glasgow.
Instructors: Dobbs, A. Glasgow, Mitton, Jones.

Lower-Division Courses

Mus 121, 122, 123. Music Theory I. 4 hours each term.
An integrated study of the materials of music through analysis, singing, keyboard, ear-training, and part-writing. Includes all diatonic harmonies, and simple modulation. Required in the music major and music minor programs, elective for others.

Mus 181, 182, 183. Class Lessons in Voice. 1 hour each term.
The essentials of singing, including tone production, diction, style, and interpretation.

Mus 190, 200. Applied Music. 1 or 2 hours each term.
Individual instruction in voice, organ, piano, band, and orchestral instruments. Beginning and lower intermediate grades.

Mus 192, 193, 194. Class Lessons in Piano. 1 hour each term.
Elementary piano course including rhythm, notation, keyboard, and transposition.

¹ Mus 195. Band. 1 hour each term.
Participation in organized band. Open to freshmen and sophomores who pass the necessary tests of ability. The class meets three periods per week. Opportunities are also offered for membership in small instrumental ensembles.

² Mus 196. Orchestra. 1 hour each term.
Participation in organized orchestra. Open to freshmen and sophomores who pass the necessary tests of ability. The class meets three periods per week. Opportunities are also offered for membership in small instrumental ensembles.

³ Mus 197. Chorus. 1 hour each term.
Participation in organized chorus. Open to freshmen and sophomores who pass the necessary tests of ability. The class meets three periods per week. Opportunities are also offered for membership in small vocal ensembles.

Mus 201. Introduction to Music and its Literature. 3 hours.
An introduction to music literature through the study of elements and organizing principles as they relate to music of all periods. Stress is placed on listening to music that is popular in the concert hall. Required as a general education course for junior high, high school, general studies and music majors. Elective to others.

Mus 202. Introduction to Music and its Literature. 3 hours.
A historical study of selected musical masterworks from 1750 to 1900. Special emphasis is placed on the understanding of the musical styles of the period. Required for music minors and majors. Elective to others. Mus 201 is not a prerequisite.

³ Not more than 12 hours of group music participation may be counted toward graduation.
MUSIC

Mus 203. Introduction to Music and its Literature. 3 hours.
The old and the new in music literature and history. Music of Bach, Handel, and their predecessors; and music of the contemporary period, starting with the impressionistic composers. Special unit on jazz. Mus 201 and 202 are not prerequisites. Required for music majors.

Mus 221, 222, 223. Music Theory II. 3 hours each term.
A continuation of Mus 121, 122, 123. Composition, analysis of masterworks, and ear training. Includes altered chords and contemporary trends in composition. Prerequisite: Mus 123.

Mus 224, 225, 226. Keyboard Harmony. 1 hour each term.
Application of theoretical principles to the keyboard. Exercises in modulation, transposition, and development of extempore playing. Must be taken concurrently with Music Theory II.

Mus 235, 236, 237. Brass, Woodwind, String and Percussion Instruments. 1 hour each term.
The study of each family of instruments, stressing good tone production and fingering techniques. Class serves as a laboratory for the development of some playing and theoretical knowledge of each type of instrument, including teaching techniques. Some instruments are provided by the college.

Upper-Division Courses

Mus 314, 315, 316. Harmonic and Structural Analysis. 2 hours each term.
Thorough study of formal analysis, including the phrase unit, period, two and three-part song forms, developed ternary forms, sonata, symphony, concerto, etc. Prerequisite: Mus 221, 222, 223.

Mus 320, 323. Conducting. 2 hours each term.

Mus 332, 333, 334. Stringed instruments. 1 hour each term.
Class lessons on stringed instruments.

Mus 347. Band and Orchestra Management. 3 hours.
The organization of school bands and orchestras, care and repair of instruments, selection of materials, class teaching of instruments, and the technique of the band and orchestra rehearsal. Prerequisite: Mus 235, 236, 237.

Mus 360, 361, 362. History of Music. 3 hours each term.
A study of the development of music from primitive times to the present day.

Mus 381. Music Fundamentals. 3 hours.
A musical background for the classroom teacher; singing song material; acquiring good vocal habits; reading music; experiencing simple problems in rhythm; listening to music; analyzing its forms; learning keys, scales, intervals; primary chords, and their application to the piano keyboard. Open only to juniors or seniors.

Mus 382. Music Fundamentals. 3 hours.
Acquiring more skill in reading song material; more advanced rhythmic patterns; major and minor modes; two-, three-, and four-part music; chording; ear training; dictation. Prerequisite: Mus 381.

Mus 383. Music Education (Elementary). 3 hours.
The close relationship between music education and other areas in education; planning a music environment; directing the experiences of children in music. Prerequisites: Mus 381, 382, or Mus 121, 122, 123.
Mus 384. Music Education (Secondary). 3 hours.
Materials and methods for developing high school choral organizations; adolescent voice, its care and development; survey of choral literature; public performance; program building; general music class; assembly singing. Prerequisites: Mus 121, 122, 123.

Mus 390, 490. Applied Music. 1 or 2 hours each term.
Individual instruction in voice, organ, piano, band, and orchestral instruments. Upper intermediate and advanced students.

Mus 391. Applied Music (Private Instruction). 1-2 hours each term.
Individual instruction in voice, organ, band and orchestral instruments. For upper division students who are not majoring in the performance area being studied. Prerequisite: Mus 290.

Mus 395. Band. 1 hour each term.
Participation in organized band. Open to juniors and seniors who pass the necessary tests of ability. The class meets three periods per week.

Mus 396. Orchestra. 1 hour each term.
Participation in organized orchestra. Open to juniors and seniors who pass the necessary tests of ability. The class meets three periods per week.

Mus 397. Chorus. 1 hour each term.
Participation in organized chorus. Open to juniors and seniors who pass the necessary tests of ability. The class meets three periods per week.

Mus 398. Opera Workshop. 1 hour each term, maximum 6 hours.
Study, analysis, rehearsal, performance of opera, from classics to modern works. Small works and excerpts from longer operas. Consent of instructor.

Mus 407. Seminar. 3-6 hours.

Mus 453. Appreciative Aspects in Music. (g) 3 hours.
Exploration of music through styles including classical, romantic, impressionistic, and modern; and through major musical works including symphony, opera, oratorio, sonata, and tone poem. Emphasis is placed on developing standards and criteria for the understanding and appreciation of music.

Science and Mathematics

Professor: Postl (department chairman).
Associate Professors: Brodersen, Cummins, Head, Walker.
Assistant Professors: Giles, Green, Hibbert, Jaffe, Liedtke, Toob.

GENERAL SCIENCE

Lower-Division Courses

GS 201, 202, 203. Foundations of Physical Science. 4 hours each term.
An introduction to the various branches of the physical sciences, their basic terminology, fundamental laws, procedures, and interrelations. The course is selective in approach and historical in emphasis. Students with adequate high school backgrounds may be excused from parts of this sequence. Not open to students with college courses in the separate fields. Three lectures, one two-hour laboratory period.

1 Not more than 12 hours of group music participation may be counted toward graduation.
Upper-Division Courses

GS 402. Workshop. Terms and hours to be arranged.

GS 406. Special Individual Studies. Terms and hours to be arranged.

GS 407. Seminar. Terms and hours to be arranged.

GS 411. History of Science. (g) 3 hours.
A brief history of the development of the natural sciences, their social implications, and the growth of scientific philosophy. Prerequisite: upper-division standing in science.

GS 424. Astronomy. (g) 3 hours.
A descriptive study of the various members of the solar system, stars, and constellations, as well as some recent ideas on the structure and origin of the universe. Includes study of the basic instruments used in astronomy and observations through a telescope.

GS 441. Natural History. (g) 3 hours.
An introduction to the collection, identification, and ecology of local plants and animals with some consideration of sound conservation practices. Classroom techniques of establishing and maintaining collections, aquaria, and terraria are included. Two lectures and one two-hour laboratory period. Prerequisite: One year of biological science.

Graduate Courses
Courses numbered 400-499 and designated (G) or (g) may be taken for graduate credit.

GS 502. Workshop. Terms and hours to be arranged.

GS 503. Thesis or Field Study. 3-9 hours.

GS 506. Special Individual Studies. Terms and hours to be arranged.

GS 507. Seminar. Terms and hours to be arranged.

GS 511. Contemporary Developments in the Sciences and Mathematics. 3 hours.
Review of recent literature on some selected areas in the field of the natural sciences. Includes a brief examination of the aims, purposes, and organization of the field.

GS 541. Bioecology. 3 hours.
Interaction between living animals, plants and their physical environment. Two lectures and one three-hour laboratory period.

BIOLOGICAL SCIENCES

Lower-Division Courses

Bi 101, 102, 103. General Biology. 3 hours each term.
The principal concepts of biology, including consideration of the variety of plant and animal life and the mechanisms for maintenance and replacement of the individual and the population. Two lectures, one two-hour laboratory period.

Bi 221. Introduction to Bacteriology. 3 hours.
The study of bacteria and other microorganisms emphasizing patterns of growth and metabolism, distribution and laboratory culture. Two lectures, two two-hour laboratory periods.
Upper-Divison Courses

Bi 341. Genetics. 3 hours.
The principles and mechanisms of inheritance including consideration of chromosome transmission, nature of the gene, action of genetic material, and the genetics of populations. Prerequisite: one year of biological science or consent of instructor.

Bi 374, 375, 376. Natural History of Oregon. 3 hours each term.
The earth and life history of Oregon; kinds of distribution of contemporary plant and animal life; interrelations of organisms and their environment; conservation of natural resources; collection, identification, and field study of representative plants and animals with several extended week-end field trips during the spring term. Two lectures, one three-hour laboratory period. Prerequisite: one year of biological science.

Bi 412. Microbiology. (g) 4 hours.
Morphology, physiology, ecology, and systematics of bacteria, fungi, microalgae and protozoa. Two lectures, two three-hour laboratory periods.

Bi 446. Evolution. (g) 3 hours.
Evidences of evolution; mechanisms of evolution, including genetic variation, selection, and other factors.

Bi 458. Field Biology. (g) 3 hours.
Advanced training in systematics, life histories, and field methods in selected areas of biology. One lecture, two three-hour laboratory periods.

Bi 460. Preparation of Biological Materials. (g) 4 hours.
Procurement, preparation, use and care of biological materials for teaching and experimentation. Serves as the methods course for biology majors in secondary education. Two lectures, two three-hour laboratory periods.

Bi 463. Parasitology. (g) 4 hours.
Classification, morphology and life histories including host relationships of protozoan, helminth and arthropod parasites. Two lectures, two three-hour laboratory periods.

Graduate Course

Bi 521. Biosystematics. 3 hours.
Classification and taxonomy of plants and animals, with emphasis on specialization and the available methods and principles for determining and describing species. Three lectures. Prerequisite: Bi 341 or consent of instructor.

BOTANY

Lower-Divison Courses

Bot 201, 202, 203. General Botany. 3 hours each term.
Introductory study of plant life including the structure and function of both vascular and non-vascular plants during the first two terms. The third term is largely devoted to the identification of native plants. Two lectures, one three-hour laboratory period.
Upper-Division Courses

Bot 331. Plant Physiology. 4 hours.
An examination of the physiological processes and mechanisms involved in plant nutrition, photosynthesis, assimilation of organic and inorganic materials, energy balance, water requirements, growth factors and organismic control. Two lectures, two three-hour laboratory periods. Prerequisite: one year of a biological science and chemistry.

Bot 371. Structure of Seed Plants. 3 hours.
Morphology, anatomy, and reproduction of seed plants. One lecture, two three-hour laboratory periods. Prerequisite: Bot 203.

Bot 411. Morphology of Non-Vascular Plants. (g) 3 hours.
Morphology of the algae, fungi, lichens, liverworts, and mosses. Two lectures and one three-hour laboratory period. Prerequisite: one year of botany or consent of instructor.

Bot 412. Morphology of Vascular Plants. (g) 3 hours.
A study of the structure, relationships, and evolution of the vascular plants. Two lectures and one three-hour laboratory period. Prerequisite: One year of botany or consent of instructor.

Bot 490. Paleobotany. (g) 3 hours.
Emphasis on the fossil plants of Oregon. Two lectures and one three-hour laboratory. Prerequisite: Bot 203, or consent of instructor.

ZOLOGY

Lower-Division Courses

Z 201, 202, 203. General Zoology. 3 hours each term.
Introductory study of animal life including the patterns of structural organization and function of both invertebrates and vertebrates with an emphasis on the developmental patterns, mechanisms of temporal and spacial distribution during the spring term. Two lectures, one three-hour laboratory period.

Upper-Division Courses

Z 324, 325. Comparative Vertebrate Anatomy. 4 hours each term.
A comparative analysis of vertebrate morphology, emphasizing the study of organs and organ systems, and an introduction to the taxonomy, evolution, and ecology of the vertebrates. Two lectures, two three-hour laboratory periods. Prerequisite: Z 201, 202, 203, or consent of the instructor.

Z 326. Comparative Vertebrate Embryology. 4 hours.
Principles and mechanisms of the developmental biology of the Metazoa with emphasis upon the vertebrates. Laboratory includes the descriptive examination of the embryonic stages of representative species. Two lectures, two three-hour laboratory periods. Prerequisite: Z 201, 202, 203, or consent of the instructor.

Z 334, 335. Human Anatomy and Physiology. 3 hours each term.
An integrated treatment of the gross anatomy and function of the organ systems in the human including a consideration of morphogenesis. Primarily for non-majors. Two lectures, and one three-hour laboratory period. Prerequisite: one year of biology (or equivalent) or one year of chemistry.
Z 434. General Animal Physiology. (g) 4 hours.
A consideration of general physiological principles as illustrated by major animal phyla. Three lectures and one three-hour laboratory period. Prerequisite: organic chemistry, invertebrate zoology, or consent of instructor.

Z 451. Invertebrate Zoology. (g) 4 hours.
Survey of the invertebrate animals exclusive of Arachnida and Insecta; emphasis on ecology and phylogeny. Two lectures, two three-hour laboratory periods. Prerequisite: two years of biological science.

Z 474. Entomology. (g) 3 hours.
Study of selected aspects of the morphology, life history, physiology and ecology of insects and some consideration of related Arthropods. Two lectures, and one three-hour laboratory period. Prerequisite: two years of biological science or consent of the instructor.

CHEMISTRY

Lower-Division Courses

Ch 104, 105, 106. General Chemistry. 4 hours each term.
An introductory course to the fundamental concepts of general chemistry with some emphasis on organic chemistry during the spring term. Three lectures, one three-hour laboratory period. Prerequisite: high school algebra or consent of the instructor.

Ch 204, 205, 206. General Chemistry. 5 hours each term.
A standard first year sequence with emphasis on inorganic and physical chemistry. The laboratory work during spring term is largely devoted to qualitative analysis. Three lectures, two three-hour laboratory recitation periods. Prerequisite: high school algebra and chemistry.

Upper-Division Courses

Ch 311. Qualitative Analysis. 4 hours.
Classical theory and semi-micro practice in the classification, separation, and identification of the common cations and anions. Two lectures, two three-hour laboratory periods. Prerequisite: Ch 106 or consent of instructor.

Ch 312, 313. Quantitative Analysis. 4 hours each term.
Fundamental principles of quantitative analysis. Laboratory work consists largely of standard volumetric and gravimetric procedures. Two lectures, two three-hour laboratory periods. Prerequisite: Ch 206 or consent of instructor.

Ch 334, 335, 336. Organic Chemistry. 4 hours each term.
A study of the carbon compounds of both the aliphatic and aromatic series. Prerequisite: Ch 206 or consent of instructor.

Ch 340. Elementary Physical Chemistry. 3 hours.
Aspects of physical chemistry having application in engineering, biological sciences, and medicine. Use of mathematics minimized. Some knowledge of physics required. Prerequisite: Ch 206 or consent of instructor.

Ch 423. Chemical Preparations. (g) 1-2 hours each term.
Important methods of synthesis of compounds in the fields of inorganic, organic or biochemistry. Prerequisite: Ch 313 and Ch 336, or consent of instructor.
Ch 425. Advanced Analytical Chemistry. (g) 3 hours.
Selected topics in analytical chemistry, modern techniques and instrumentation. Prerequisite: Ch 312.

Ch 433. Advanced Organic Chemistry. (g) 3 hours.
An introduction to some advanced topics of organic chemistry, particularly as related to biological systems, including some of the modern research methods. Prerequisite: Ch 336, or consent of instructor.

Ch 450. Biochemistry. (g) 3 hours.
An introduction to the chemistry of biological compounds including their metabolism. Prerequisite: Ch 335.

Graduate Course

Ch 561. Advanced Inorganic Chemistry. (g) 3 hours.
A comprehensive study of the chemistry of the elements and their compounds, including nuclear, atomic, and molecular structures. Prerequisite: Ch 312.

GEOLOGY

Lower-Division Courses

G 201, 202, 203. Geology. 4 hours each term.
A study of the agents and processes that have built up, deformed, and torn down the surface features of the earth; the main events in earth history; history occurrences, and characteristics of the common rocks and minerals. Three lectures, one two-hour laboratory and field study.

Upper-Division Courses

G 322. Geomorphology. 3 hours.
A study of processes acting to modify the configuration of the earth's surface and landscapes resulting from these processes. Maps of landforms studied in the laboratory include those depicting regions of North American physiographic provinces.

G 351 Elements of Geology. 3 hours.
Principles of geology, processes which shape the surface of the earth, historical development of the earth. Designed as an introduction to geology for general science teachers and elementary teachers. Two lectures, one two-hour laboratory period.

G 450. Rocks and Minerals. (g) 3 hours.
Identification of common minerals; origin and occurrence of sedimentary, igneous and metamorphic rocks. One lecture, two two-hour laboratory periods.

G 453. Geology of the Pacific Northwest. (g) 3 hours.
An introduction to the geologic history of the region, with particular emphasis on the physiographic provinces of Oregon, including their structures, lithology, mineral resources, and paleontology. Field trips by arrangement. Two lectures, one two-hour laboratory period.

PHYSICS

Lower-Division Courses

Ph 161. Photography. 2 hours.
For students interested in photography as an avocation. Elementary work with hand camera; developing, printing, enlarging. One lecture, one three-hour laboratory period.
Ph 201, 202, 203. General Physics. 4 hours each term.
A year sequence in the study of energy and physical phenomena; including
the fundamental principles of mechanics, heat, sound, light, electricity, magnetism,
and a brief introduction to modern physics. Three lectures, one three-hour laboratory period. Prerequisite: Mth 102 or equivalent high
school trigonometry.

Ph 207, 208, 209. General Physics. 4 hours each term.
Mechanics, heat, light, sound, electricity, and magnetism. For students in
engineering and the physical sciences. Three lectures, one three-hour labora-
tory period. Prerequisites: Mth 104, 200, 201, previously or parallel.

Upper-Division Courses

Ph 311, 312, 313. Introduction to Modern Physics. 3 hours each term.
An introduction to atomic hypothesis and kinetic-molecular theory, dis-
charge through gases, x-rays and radioactivity, atomic and nuclear physics,
the nature of electro-magnetic radiations, wave mechanisms and the photo-
electric effect. Two lectures, one two-hour laboratory recitation period.
Prerequisite: Ph 203 and Mth 203 or consent of the instructor.

Ph 390. Basic Meteorology. 3 hours.
An introductory study of the weather elements, their observation, measure-
ment, and use in forecasting. Includes a study of the atmosphere, its makeup,
energy relationships, and circulation.

Ph 437. Electronics and Radio. (g) 3 hours each term.
Alternating current theory; circuits; electron tubes and solid state electronic
deVICES; amplification; radio frequency generators; modulation; timing cir-
cuits; transmission and radiation; measurements of audio and high fre-
quencies.

Ph 465. Geometrical and Physical Optics. (g) 3 hours each term.
Prerequisite: Ph 203, Mth 203.

Graduate Course

Ph 581, 582. Modern Physics. 3 hours each term.
A brief study of some of the developments in physics since 1895 with em-
phasis on nuclear processes and cosmic rays, relativity and quantum theory,
solid state, cryogenics and others. Prerequisite: one year each of college
mathematics and physics. Offered during summer sessions.

MATHEMATICS

College Preparatory Noncredit Course

Mth 60. Elementary Algebra. No credit.
For students entering with less than one year of high school algebra. Four
lectures.

Lower-Division Courses

Mth 100. Intermediate Algebra. 4 hours.
For students entering with only one year of high school algebra. Prerequi-
site: Mth 60 or equivalent.

Mth 101. College Algebra. 4 hours.
Introduction to logic; elementary set theory; development of the real and
complex number systems; brief introduction to congruences, group, fields,
boolean algebra; inequalities; functions; graphs, theory of equations; per-
mutations; combinations; probability. Prerequisite: Mth 100 or equivalent.
Mth 102. Trigonometry. 4 hours.
Emphasis on the concept of function; analytic trigonometry; solution of
triangles; addition formulas; trigonometric equations; curve sketching;
complex numbers; DeMoivre’s theorem; polar coordinates. Prerequisite:
Mth 101 or equivalent.

Mth 103. Analytic Geometry. 4 hours.
The straight line, circle, conics, translation and rotation of axes, parametric
equations, and polar coordinates. Planes and lines in three dimensions. Prereqs:
Mth 102 or equivalent.

Mth 104. Algebra and Trigonometry. 4 hours.
Real numbers and sets, functions, inequalities, linear algebra, mathematical
induction, trigonometric functions and graphs, algebraic and trigonometric
equations. Prerequisite: mathematics placement examination.

Mth 121, 122, 123. Essentials of Mathematics. 3 hours each term.
Major emphasis is on the postulates of an ordered field and the set of real
numbers. Includes abstract groups, mathematical proof and functions. Some
typeology and applications of algebra, geometry and trigonometry are reviewed.
Students without high school algebra may find this course difficult.

Mth 200. Introduction to Differential and Integral Calculus. 4 hours.
Slope of a curve, derivative of a function, limits, differentiation and integration
of elementary functions with applications. Prerequisite: Mth 102.

Mth 201, 202, 203. Differential and Integral Calculus. 4 hours each term.
Sequence courses for students majoring in the physical sciences, mathematic-
its, or engineering. Prerequisite: Mth 103 or Mth 200.

Mth 237. Mathematics in Western Culture. 4 hours.
A general education course for students who wish to know more about the
contribution of mathematics to human culture. Includes such topics as the
number concept; interrelations between mathematics, art, history; and the
role of induction and deduction in mathematics. Not a skill course.

Upper-Division Courses

Mth 311, 312, 313. Mathematics for Elementary Teachers. 3 hours each
term.
Mathematical background information and theory necessary for teaching in
the elementary school. Prerequisite: Mth 121, 122, 123, or equivalent.

Mth 314. Linear Algebra. 3 hours.
Operations on sets; mapping; transformations; vector spaces; matrices;
linear systems; brief introduction to linear programming, the simplex
method; solution of higher order polynomials; quadratic factoring method.
Prerequisite: Mth 103 or equivalent.

Mth 321. Differential Equations. 3 hours.
Introduction to ordinary differential equations arising in mechanics and
physics. Prerequisite: Mth 203.

Mth 325. Elements of Statistical Methods. 3 hours.
An introduction to sample theory, organization and classification of data,
distributions, measurement of central tendencies, and relative position, cor-
relation, and reliability. Prerequisite: junior standing and consent of in-
structor.
Mth 343. Theory of Numbers. 3 hours.
Properties of integers, Euclid’s algorithm, diophantine equations, prime numbers, congruences, residues of powers, and quadratic residues. Prerequisite: Mth 200.

Mth 344. Geometry. 3 hours.
Geometry considered as groups of transformations, (translation, rotation, dilation, inversion, similitude, orthogonal), and their invariant properties. Prerequisite: Mth 103 or consent of instructor.

Mth 351. Computer Coding. 3 hours.
Coding instruction and practical laboratory work on electronic digital computer. Two lectures, one two-hour laboratory. Prerequisite: Consent of instructor.

Mth 361. Probability. 3 hours.
Combinatorial problems, continuous distributions, expectation, laws of large numbers. Prerequisite: Mth 200.

Mth 402. Workshop. Terms and tours to be arranged.

Mth 407. Seminar. Terms and hours to be arranged.

Mth 410. Foundations of Mathematics. (g) 3 hours.
Fundamental concepts and logical structure of arithmetic, algebra, and geometry. Designed for prospective teachers of high school mathematics and mathematics majors. Prerequisite: Mth 203.

Mth 412. Higher Algebra. (g) 3 hours.
An introduction to abstract algebra. Groups, rings, fields; equivalences and isomorphism. Prerequisite: Mth 203 or consent of instructor.

Mth 415. Modern Geometry. (g) 3 hours.
Modern development of geometries as abstract mathematical systems. Major emphasis on groups, finite geometries, Euclidean and non-Euclidean geometries, and the unstated assumption of Euclid. Prerequisite: Mth 103 or equivalent.

Mth 417, 418, 419. Mathematics Reorientation for Elementary Teachers. 3 hours each term.
Designed to help experienced teachers whose mathematics preparation for teaching current elementary school mathematics education programs is inadequate. Primarily intended as an in-service offering. Credit does not count for advanced mathematics or toward advanced degrees. Prerequisite: consent of instructor.

Mth 442. Logic and Boolean Algebra. (g) 3 hours.
Logical constants and variables; sentences; sentential and designatory functions; quantifiers; connectives; truth functions; postulates for sentential calculus; postulates for Boolean Algebra and examples; partial ordering, lattices. Prerequisite: 6 hours of upper-division mathematics.

Mth 491, 492, 493. Mathematics for Secondary Teachers. (g) 3 hours each term.
Intensive study of the modern mathematics curriculum for grades 7-12 and methods of teaching. Emphasis on Arithmetic (491), Algebra (492) and Geometry (493). Prerequisite: Mth 103. Enter any term.
Mth 494, 495, 496. Analysis. (g) 3 hours each term.
Real and complex number systems, set theory, sequences, series, continuity, differentiation, sequences of functions, Fourier series, functions of several variables, Euclidean and Hilbert spaces, measurable spaces, Riemann and Lebesque integrals. Prerequisite: Consent of instructor.

Graduate Courses

Mth 502. Workshop. 3 hours.
Mth 506. Special Individual Studies. 3 hours.
Mth 507. Seminar. 3 hours.
Mth 541. Modern Algebra. 3 hours.
Advanced theory of matrices, finite groups, rings, and fields. Galois theory of equations; associative linear algebras, non-associative algebras, group representations. Prerequisites: Mth 314, 412, or consent of instructor.

Social Science

Professors: Griffin (department chairman), Charles, Chatham.
Associate Professors: Amsfoker, Anderson, Nixson.
Assistant Professors: Bergman, Dortmud, Hess, Huxford, Johnson, Lieske, Ogdon, Pratton, Singh, Tamler.
Instructors: Johnson, Johnsrud, Vanderford.

GENERAL SOCIAL SCIENCE

Lower-Division Courses

SSc 111. Orientation. 1 hour.
A course in effective adjustments to college and social needs. Effective means and methods of study; use of the library; time budgeting; importance and spacing of reviews; the amount and type of recreation suitable; social adjustments for happy and effective living; means and methods of modifying personality deficiencies.

Upper-Division Courses

SSc 402. Workshop. Terms and hours to be arranged.
SSc 406. Special Individual Studies. Terms and hours to be arranged.
SSc 407. Seminar. Terms and hours to be arranged.
SSc 408. Special Secondary Methods. 3 hours.
Provides experiences in methods of teaching the social sciences. In addition, emphasis is placed upon familiarizing the student with the philosophies and materials of social science. Prerequisite: Ed 314 or consent of the instructor.
SSc 492. Ideologies of the Twentieth Century. (g) 3 hours.
Capitalism, Communism, Socialism, and Fascism, considered as politico-economic systems. Totalitarian methods contrasted with democratic methods.
SSc 493. International Organizations. (g) 3 hours.
Arrangements for national security; balance of power, collective security, United Nations. Causes of war and prerequisites for peace. Designed for those preparing for secondary teaching to better understand the relations between nations and the efforts toward peace.
SSc 494. American Foreign Relations. (g) 3 hours.
The origin, character, and consequences of American foreign policies from 1900.

Graduate Courses
Courses numbered 400-499 and designated (G) or (g) may be taken for graduate credit.

SSc 502. Workshop. Terms and hours to be arranged.

SSc 506. Special Individual Studies. Terms and hours to be arranged.

SSc 507. Seminar. Hours to be arranged.

SSc 511. Contemporary Developments in the Social Sciences. 3 hours.
A study of contemporary literature in the various social science areas for elementary teachers.

SSc 512. Contemporary Development in the Social Sciences. 3 hours.
A study of contemporary literature in the various social science areas for junior and senior high school teachers. (Acceptable for secondary certification.)

SSc 513. Social Problems in American Democracy. 3 hours.
A selected list of problems in the United States such as conservation problems, the nation's health, crime, etc. Designed to give factual and interpretive background for secondary teachers.

SSc 514. Economic Problems in American Democracy. 3 hours.
Selected economic problems of both a general and specific nature. The aim is to give prospective secondary teachers a firm foundation of both theoretical and applied materials in various phases of United States economic-industrial situations and problems.

SSc 515. Political Problems in American Democracy. 3 hours.
A study of current domestic political problems.

ECONOMICS

Lower-Divison Courses

Ec 201, 202, 203. Principles of Economics. 3 hours each term.
Social phenomena due to the wealth-getting and wealth-using activities of man.

Upper-Division Courses

Ec 325. Labor Economics. 3 hours.
Source and nature of labor problems, labor market, wages, unions, law related to employer and union tactics, efforts of levels of employment. Pre-requisite: Ec 201, 202, 203, or consent of instructor.

Ec 417. Problems of Economic Development of Nations. (g) 3 hours.
A study of development problems in such countries as Israel, the Latin Americas, and the African nations.

Ec 450. Contemporary Economic Systems. (g) 3 hours.
A study of capitalism, communism, and socialism in contemporary society.
GEOGRAPHY

Lower-Division Courses

Geog 105, 106, 107. Introductory Geography. 3 hours each term.
A study of the field of geography with emphasis on human activities, interests and welfare.

Geog 221. Field Geography. 3 hours.
Intensive study of a limited area near Salem; elementary map making and studies of economic and human geography.

Geog 240. Cartography. 3 hours.
Study and practice in using, compiling, and drafting of maps, charts, and diagrams for teaching purposes.

Upper-Division Courses

Geog 313. Geography of the Pacific Northwest. 3 hours.
Economic study of the distribution of population and industries of Oregon and the Pacific Northwest in relation to the geographic environment of the entire area; special emphasis will be placed on Oregon.

Geog 340. Intermediate Cartography. 3 hours.
The study of the elements of the cartographic processes including functional analysis, compilation and design, and map production.

Geog 408. Senior Colloquium in Geography. 3 hours.
Study of significant geographical writings from the early Grecian period to the present, with emphasis on methods and interpretations.

Geog 414. Geographic Backgrounds of American History. 3 hours.
The influence of geographic factors on colonization, settlement patterns, and westward movement in America.

Geog 425. Geography of Conservation. (g) 3 hours.
Consideration of the geographic distribution of American resources against a background of world resources; conservation philosophies and practices and their geographic bases in relation to conservation education.

Geog 426. Geography of Europe. (g) 3 hours.
The geographic backgrounds of European civilization; present-day regional and political adjustment to environmental conditions; geographical aspects of European colonial expansion; analysis of the geographic individualities of the major countries, and the relations between human life and natural environment.

Geog 427. Geography of the Soviet Union. (g) 3 hours.
Geography of the Soviet Union; its resources, peoples, and world position.

Geog 428. Geography of Australasia and Oceania. (g) 3 hours.
A physical, economic, and social treatment of the lands and peoples and their potentialities in the Pacific Basin.

Geog 429. Geography of North America. (g) 3 hours.
A course providing a basic understanding of economic and social activities in the major human-use regions of home continent; description, analysis, and interpretation of the present occupancy pattern of the major regions of the United States and Canada.
Geog 432. Geography of Africa. (g) 3 hours.
A study of the African continent, its nations and colonies; the physical and cultural geography of the regions of the continent and their geographical implications.

Geog 433. Political Geography. (g) 3 hours.
The nations of the world and their interrelations analyzed geographically, emphasizing both physical and cultural factors of the environment, to assist in the interpreting of world affairs.

Geog 440. Advanced Cartography. 3 hours.
Specialized study with individual projects in the creative techniques of cartography.

Geog 450. Geography of Asia. (g) 3 hours.
A study of economic and social development of the countries of Asia; the economic bases of human life; problems of population pressure; trends in economic and political exploitation; and the geographic backgrounds of oriental and occidental interrelations.

Geog 461. Geography of South America. (g) 3 hours.
A course dealing with the economic and social development of the countries of Latin America; raw materials; potential markets; inter-American relations.

Geog 463. Geography of Middle America. (g) 3 hours.
Intensive study of the physical and cultural processes that have shaped the landscapes of Middle America.

HISTORY

Lower-Division Courses

Hst 101, 102, 103. History of Western Civilization. 3 hours each term. Development of western civilization from early beginnings to the present time; political, social and cultural factors; present conditions and problems.

Hst 140. Introduction to History. 3 hours.
The historian's craft: an introduction to the meaning and method of history, illustrated by materials drawn from American history. Required of all social science majors but open to freshman and sophomore non-majors as well.

Hst 201, 202, 203. History of the United States. 3 hours each term. Development of the American nation, with emphasis on its political and social concepts.

Upper-Division Courses

Hst 304, 305, 306. English History. 3 hours each term.
A general survey covering political, economic, social, intellectual, and religious developments. Attention to Empire and Commonwealth as well as the homeland.

Hst 350, 351, 352. Latin America. 3 hours each term.
A survey of Latin America from the early Indian civilizations through the periods of European conquest and colonization; the wars of independence; the rise of national states; their internal development and foreign relations.
Hst 391, 392, 393. **History of the Far East.** 3 hours each term.
Introduction to the history, civilization, and institutions of Southern and Eastern Asia.

Hst 408. **Senior Colloquium in American History.** 3 hours.
Study of significant historical writings from colonial times to the present, with emphasis on methods and interpretations.

Hst 444, 445. **Twentieth-Century Europe.** (g) 3 hours each.
The age of European supremacy, the impact of World War I, the interwar adjustment and conflict between democracy and the totalitarian powers; World War II and its aftermath; the rebuilding and reorientation of Europe.

Hst 449. **History of the Soviet Union.** (g) 3 hours.
Political, diplomatic, and social development of Russia from 1917 to the present.

Hst 458. **Civil War and Reconstruction.** (g) 3 hours.
The critical decade before the Civil War; the war years; the tragic post-war era.

Hst 459. **Industrial America.** (g) 3 hours.
The United States from 1865 to 1900. Industrialization, growth of Big Business, and relationship of government to Business; settling the last frontier; immigration and the rise of cities; new intellectual currents; emergence as a world power.

Hst 460, 461, 462. **American Social and Intellectual History.** (g) 3 hours each term.
Influence of social factors on American history and culture; main currents of American intellectual and cultural life from colonial times to the present. Prerequisites: Hst 201, 202, 203.

Hst 476, 477. **History of the West.** (g) 3 hours each.
The American Frontier. First term: the early American frontier; second term; the trans-Mississippi West.

Hst 478. **History of the Pacific Northwest.** (g) 3 hours.
Historical and cultural development of the Pacific Northwest.

Hst 480, 481, 482. **The United States in the Twentieth Century.** (g) 3 hours.
The Progressive Era, the United States and the world; industrial growth; depression and the New Deal; World War II and postwar America. Cultural developments, with emphasis upon the new developments in education.

Hst 483. **Colonial America.** (g) 3 hours.
Colonial background of American history, from the Age of Discovery to the Revolution.

Hst 484. **The New Nation.** (g) 3 hours.
History of the United States from 1775 to 1850; the Revolution, confederation, the Constitution; government under the Federalists.

Hst 492. **World Problems.** (g) 3 hours.
Consideration given to current and significant, political, economic, and social problems of the nations in relation to American culture.
POLITICAL SCIENCE

Lower-Division Courses

PS 201, 202, 203. American Governments. 3 hours each term.
First term: Principles of American political system; organization of national governments. Second term: Powers and functions of national government. Third term: Practical operation and contemporary reforms in government at state and local levels. PS 201 may be taken separately, but it is prerequisite for PS 202.

PS 206. Introduction to Political Science. 3 hours.
What political science is about: its basic concerns, fields and methods of study.

Upper-Division Courses

PS 301. National Government. 3 hours.
An introduction to the study of forms of government, public policy and public opinion in the United States. Prerequisites: PS 201, 202, 203 and/or consent of instructor.

PS 302. State and Local Government. 3 hours.
Practical operation and contemporary reforms in government at the state and local levels. Prerequisites: PS 201, 202, 203 and/or consent of instructor.

PS 303. Foreign Government. 3 hours.
A comparative study of the governments of selected foreign nations.

PS 351. Introduction to Public Administration. 3 hours.
Examination of various approaches to and conceptions of public administration; application of various theories of administration to the study of public organizations; substantive problems of organizations; structures and internal administration; personnel and finance.

PS 414. Political Parties. (g) 3 hours.
The nature, organization, and operation of political parties; election and recall of officers; proportional representation; initiative and referendum; the role of public relations and advertising agencies.

PS 415. Public Opinion and Pressure Groups. (g) 3 hours.
An analysis of the role of public opinion an interest groups in determining public policy.

PS 418. Functions and Policies of National Government. 3 hours.
A detailed analysis of the functions and policies of the national government. Prerequisites: PS 201, 202, 203 and/or consent of instructor.

PS 430. Political Issues: General Theory. 3 hours.
Problems posited by political theorists, past and present; demands made upon political theory by society and by practitioners of political science; relations between political theory and political behavior.

SOCIIOLOGY

Lower-Division Courses

Soc 214, 215, 216. Anthropology. 3 hours each term.
Interplay of man with his environment through the ages; factors influencing physical and cultural development of man.
Upper-Division Courses

Soc 307. Principles of Sociology. 3 hours.
Fundamental concepts and empirical findings in the field of sociology.

Soc 308. World Population and Social Structure. 3 hours.
Introduction to the general field of population studies providing within a sociological framework an analysis of historical, contemporary, and anticipated population conditions and trends, as these are related to social situations and the organization of society.

Soc 309. American Society. 3 hours.
An analysis of American society in terms of its significant structural traits and their functions; major changes in American society and selected contemporary problems examined in their relation to institutional structures.

Soc 338. Marriage and the Family. 3 hours.
The growth and development of the family throughout its life cycle. The family and personality development, dating, courtship, mate selection, engagement, marital and family adjustment, family crises.

Soc 408. Senior Colloquium in Sociology. 3 hours.
Study of significant sociological writings from the 19th century to the present, with emphasis on methods and interpretations.

Soc 416. Criminology and Delinquency. (g) 3 hours.
The nature and extent of delinquency and crime as forms of deviant social behavior; contributing factors; current prevention and treatment programs.

Soc 437. Sociology of Race Relations. (g) 3 hours.
The development of "race consciousness" and emergent problems of race-culture contacts.

Soc 443. The Field of Social Work. 3 hours.
A survey of the development of the social services, with emphasis on current American trends.

Soc 480. Cultural Anthropology. (g) 3 hours.
A survey of ancient and primitive men and their cultures.

Soc 490. Educational Sociology. (g) 3 hours.
Structure and functioning of society, as a background for the study and evaluation of education in its varied forms; the contribution of sociological principles and findings to the improvement of educational practices.

BUSINESS ADMINISTRATION

BA 211, 212, 213. Fundamentals of Accounting. 3 hours each term.
Study of the function of accounting as a tool for the planning and administration of business enterprise. Primary emphasis on analysis and interpretation of financial data, rather than on collection and presentation.

Fall: Position and income statements, conceptual bases for collecting and presenting data, flows of cost, the accounting cycle, depreciation, formation of working capital.

Winter: Inventory and its control, risk-equity relationships, interest and annuities, analysis of position and income statements, fund statements, manufacturing costs, organization for and administration of cost and budgetary control.

Spring: Application of cost concepts to decision making, taxation, and its effect on planning, break-even analysis, internal control, capital budgeting, information theory applied to accounting reports, the impact of price-level changes on accounting data.

Prerequisites: Sophomore standing or consent of instructor.

1 Not applicable to social science major or minor in the general studies curriculum.
Degrees Awarded
1964-65

Degree of Master of Science

**Elementary Education**

Stuart Hawthorne Baker, Salem
James Thomas Blazard, Henderson, Nevada
Jack Hudson Bond, Monmouth
Nancy Ferguson Canon, Monmouth
Jerry Lee Carr, Newberg
James Lauren Corwin, North Bend
Arthur Keith Ellis, Rainier
Caroline Margaret Fullerton, Salem
John Elvin Godlove, Salem
Elton Gene Gregory, Warm Springs
John L. Grossnickle, Redmond
Fred R. Hardin, Monmouth
Ronald Gene Hedg斯顿, Salem
Richard Benjamin Heinrickson, Beaverton
Donald Caldwell Irvine, Barstow, California
Dewey Klyce James, Rosburg
Sister Lucy Krzemien, Mt. Angel
Eugene John Lembold, Salem
Dallas Jay Lommen, Portland
Ella Fales Ocean, Salem
Thomas M. Paterson, Salem
Elmer Gay Sankey, Portland
Sandra Kay Schulze, Monmouth
Rodney Ellis Steen, Monmouth
Bernadine Bethel Taplin, Salem
Donald Michael Tovey, Portland
Emma Koets Winger, Waldport
Darrell Sherman Wright, Madras
Anna Jane Yeo, Dallas (Deceased)

**Secondary Education**

Robert Ellsworth Canfield, Corvallis
Roy James Culley, Coos Bay
Chester Westbrook Dugger, Monmouth
Franz helmet Clemens, Detroit
Maud Elma Fowler, Milwaukie
Robert Dale Lady, Beaverton
Eileen Elizabeth Lauerman, Camas, Wash.
William Lloyd Maler, Salem
Ray Alvin Nairn, Sherwood
Helen Adele Norwood, Salem
Lewis Harmond Polizzi, Sparks, Nevada
Karl Martin Rehm, Salem
Robert H. Retal, Monmouth
Terrill Brockway Robinson, Salem
Richard Roy Ryan, Portland
Sharon Mae Ryan, Portland
David Hugh Swearingen, Madras
Clive Cordell Tittle, Albany
Aganetha Wall, Dallas
Debort Alan Weeds, Silverton

**Teaching the Deaf**

Iris Christina Avedovech, Salem
Herbert W. Barkuoo, Portland
Kenneth Leroy Clemens, Salem
Sylvia Ann Dingman, Salem
Robert R. Gates, Salem
Merle Amanda Gillespie, Salem
Clarice Cram Goldsmith, Salem
Gary L. Holman, Salem
George M. Hoyle, Jr., Gooding, Idaho
Mary E. Hoyle, Gooding, Idaho
Glenn Samuel Pfau, Salem
Jake M. Pino, Salem
Susan Bulloch Pino, Salem
Betty Lou Salyer, Salem
Janet Joyce Speed, Salem
David Allen Spidal, Gaston

**Special Education**

Norene Lucille Bastian, Tillamook
Hazel Evalyn Beam, Salem
Betsey Ann Branigan, Monmouth
Margaret Vittula Geymon, Oregon City
Shirley M. Klaven, Monmouth
Helen Patton Philippi, Stayton
Constance Howard Schwal, Corvallis
Francis Allen Tredler, Independence
Evelyn Hall Zemlicka, Jefferson

Degree of Bachelor of Science

**Elementary Education**

Karlyn Esther Ake, Gresham
Jessie May Alliger, Waldport
Mary M. Almond, Gresham
Ingrid Alford Anderson, Portland
Shirley Matthews Armour, Sheridan
Lorraine Elizabeth Baxter, Monmouth
Brian Charles Beals, Newberg
Eva Mae Benefiel, Monmouth
Jaqueine Doreen Benson, Reedport
Carol Diane Butler, Hillsboro
Ruth Turner Berger, Dallas
Thelma Adelle Bertrand, The Dalles
Joanne Louise Buzier, Salem
Judith Ann Boyd, Monmouth
Glenda Jeanne Bradstreet, Davis, California
Alena Mae Brenden, Silverton
Sharon Lynn Briggs, Bandon
Dianne Marie Gordon Brodie, Monmouth
Judd Logan Browne, Molalla
Margaret Jean Buckley, Eugene
Emily Ann Bump, Newport
Stella Leora Burke, McMinnville
Cocle Marie Cantril, Monmouth
Mary Lou Clark, Junction City
Ada Alliea Clay, Portland
*Carolyn Mae Cozzwell, Monmouth
Marie Anita Cook, Portland
Darlene Marie Cooper, Bend
Lola Mabel Cronk, Dallas
Catherine Jane Curry, Newberg
Jeanie Marie Curry, Rainier
Florence Josephine Daves, Tillamook

*Graduate with honors
DEGREES AND AWARDS

Marilyn J. McMurray, Salem
Minnie Tatom McQuirley, Philomath
Stuart William McNeil, Portland
Margaret Elizabeth McManus, Sheridan
Judith Annette Milbrandt, Newport
Edith Long Miller, Myrtle Point
Orvis Bruce Miller, Myrtle Point
Elise Ethelyn Mitchell, Canby
Cheryl LaVerne Morse, Portland
Mercy Aline Niemi, Astoria
Lorinda Jean Nimister, Bay City
Richard D. North, North Bend
Peris Hulshof Nygren, Albany
Patricia Carol Osgood, Corvallis
Marjorie Ann Parks, Salem
Camilla Rose Peterson, Astoria

HENRY KENT FARLEY, Ed.D., Professor of Education; Coordinator of Graduate Programs.
B.S. (1927), M.A. (1932), University of Missouri; Ed.D. (1949), University of Southern California. At Oregon College of Education since 1947.

RALPH ARTHUR FARR, Ed.D., Associate Professor of Education; Director, Oregon Program—Allied Design.

JESSE HOWARD GARRISON, Ed.D., Professor of Education.

MELVIN HENRY GEIST, M.M., Associate Professor of Music.
B.M. (1929), University of Kansas, Lawrence; M.M. (1938), University of Michigan. At Oregon College of Education since 1964.

CHARLES RICHARD GENGLES, Ed.D., Assistant Professor of Education.

* DONALD EDWARD GILES, M.A., Assistant Professor of Biology.

ALICE EBRIGHT GLASGOW, B.A., Instructor in Music.

ROBERT BYRON GLASGOW, Ed.D., Assistant Professor of Music.

ARTHUR HUGH GLOGAU, Ph.D., Associate Professor of Education.

BEeryl MANSFIELD GREEN, M.S., Assistant Professor of Mathematics.

PAUL FRANCIS GRIFFIN, Ph.D., Professor of Geography.

* Leave of Absence 1965-66.
LLOYD THEODORE HANSON, M.A., Assistant Professor of Humanities.

HAROLD DALE HARQ, M.S., Assistant Professor of Education; Program Director, Campus Elementary School.

SERGE CONRADE HEAD, Ph.D., Associate Professor of Biology.
B.A. (1953), Brigham Young University; M.S. (1956), Washington State University; Ph.D. (1959), Oregon State University. At Oregon College of Education since 1963.

LELAND ELMER HESS, M.A., Assistant Professor of Social Science.
B.A. (1938), Ripon College; M.A. (1940), University of Chicago. At Oregon College of Education since 1956.

MARGARET LOUISE HIATT, Ed.D., Professor of Education.

VERN DONALD HIEBERT, M.S., Assistant Professor of Mathematics.
B.A. (1952), Willamette University; M.S. (1959), University of Illinois. At Oregon College of Education 1959-63 and since 1965.

HOWARD CLINTON HILL, M.A., Instructor; Catalog Librarian.

MARTHA HELEN HILL, B.S., Assistant Professor; Executive Secretary, President's Office.
Diploma (1929), Oregon College of Education; B.S. (1932), Oregon State College. At Oregon College of Education since 1945.

JOHN MORTON HOWARD, Ed.D., Associate Professor of Education.

ELIZABETH EMILY HOYSER, M.A., Assistant Professor of Education; Supervisor of Teaching.

GARY LIDDLE HUXFORD, Ph.D., Assistant Professor of Social Science.

*MAJDUDDIN MOHAMMED JAFFER, M.S.E., Assistant Professor of Physical Sciences.
B.Sc. (1945), Osmania University, India; B.S.Ch.E. (1950), University of Michigan; M.S.E. (1951), University of North Dakota. At Oregon College of Education since 1958.

CHARLES WILFORD JOHNSON, M.S., Assistant Professor of Social Science.
B.Ed. (1938), Illinois State Normal University; M.S. (1948), University of Wisconsin. At Oregon College of Education since 1961.

WALLACE EARLE JOHNSON, M.S., Assistant Professor of Humanities; Director of Information.

HOWARD JONES, B.S., Instructor in Music.

ARLEY DUANE JONISH, M.A., Instructor; Reference Librarian.

* Sabbatical Leave 1965-66.
THELMA OPSTEDAL JONISH, B.S., Instructor; CES Librarian.

STANLEY JAY KENYON, M.S., Instructor; Assistant Registrar; Admissions Officer.

DOROTHY MARIE KIRBY, M.A., Assistant Professor of Humanities.

LEO JAMES KIRK, M.A., Assistant Professor of Art.

JONATHON ELMER KNAUPP, M.A., Instructor in Science and Mathematics.

LOUISE HENDRICKS KREY, M.A., Assistant Professor of Physical Education.
B.A. (1935), Louisiana State University; B.S. in L.S. (1936), Louisiana State University, School of Library Science; M.A. (1952), University of Oregon. At Oregon College of Education 1952-53 and since 1955.

DEL RAY JACOB KRIER, B.S., Instructor in Education.
B.S. (1957), Oregon College of Education. At Oregon College of Education since 1963.

GEORGE ROBERT LARSEN, B.A., Assistant Professor of Social Science.
B.A. (1958), University of the Pacific; S.T.B. (1962), Boston University School of Theology. At Oregon College of Education since 1965.

ANN MARIE LARSON, M.S., Instructor in Biology.
B.A. (1958), College of St. Catherine; M.S. (1963), University of Syracuse. At Oregon College of Education since 1965.

RUTH ELIZABETH LAUTENBACH, Ed.D., Professor of Physical Education.
B.S. (1930), M.A. (1931), University of Iowa; Ed.D. (1957), University of Colorado. At Oregon College of Education since 1940.

JAMES DALE LEDTKE, Ph.D., Assistant Professor of Physical Sciences.
B.S. (1959), Portland University; Ph.D. (1964), Washington State University. At Oregon College of Education since 1965.

MARTYN HERMAN LIESKE, M.S., Assistant Professor of Social Science.

ROBERT CLARENCE LIVINGSTON, Ed.D., Professor of Physical Education.

BOYDE LONG, M.S., Instructor in Physical Education.

DUANE RUBEN LOPP NOW, M.S., Instructor in Art.

MAY FOLSOM LUCAS, M.S., Assistant Professor of Education.

WILLIAM DEAN McARTHUR, Ed.D., Professor of Physical Education.
B.A. (1941), Santa Barbara College; M.S. (1942), University of Oregon; Ed.D. (1956), Oregon State University. At Oregon College of Education since 1947.

DAVID VERNON MCCORKLE, M.S., Instructor in Biology.
ROBERT PATRICK McCULLOUGH, M.A., Assistant Professor of Physical Education.

DOUGLAS CHARLES MCKENZIE, M.A., Instructor in Humanities.

FRANK G. MILES, M.Ed., Assistant Professor of Education.
A.B. (1954), Brigham Young University, Provo, Utah; M.Ed. (1963), University of Oregon. At Oregon College of Education since 1963.

MARIAN MARGARET MILLER, B.S., Assistant Professor of Physical Education.

LUCILLE NAVARE MILLSAP, Ed.D., Associate Professor of Education.

EWAN HAREBRECHT MITTON, Instructor in Music.
Private study with Ruth Miller Chamlee, Los Angeles; Grace Leslie, New York; Lina Pagliughi, Milan; Mme. Gall, Paris; Maggie Teyte, London; Opera under Carl Elbert, Roberto Moranzoni; Tanglewood Festival. MINNIE HUBBARD ANDREWS, Director of Alumni Relations.
At Oregon College of Education since 1946.

FAY JOHNSON GIRARD, Assistant Registrar.
At Oregon College of Education since 1927.

N. ERNEST GRESHAM, Superintendent of Buildings and Grounds.
At Oregon College of Education since 1961.

BETTY COXEN HOYT, Placement Secretary.
At Oregon College of Education since 1964.

MARIE LINEHAN MILLER, Administrative Assistant, Business Office.
At Oregon College of Education since 1927.

NOTE: Since the general catalog is published before the faculty assignments have all been made for the 1966-67 school year, the official faculty list for the Fall quarter of the 1965-66 school year is shown in this catalog. Where possible, however, recently awarded degrees are shown. Included in this list are both full-time and part-time faculty.

Emeritus Faculty

OSCAR CARL CHRISTENSEN, M.S., Associate Professor Emeritus of Social Science.
At Oregon College of Education from 1925 to 1964.

MARY AGNES DONALDSON, M.A., Associate Professor Emeritus of Education.
At Oregon College of Education from 1921 to 1962.

FRANCIS D. HAINES, Ph.D., Professor Emeritus of Social Science.
At Oregon College of Education from 1951 to 1964.

PEARL BIRCH HEATH, M.S., Professor Emeritus of Art.
At Oregon College of Education from 1927 to 1963.

EMMA FRANCIS HENKLE, M.A., Associate Professor Emeritus of Education.
At Oregon College of Education 1922-29 and 1932-57.

CHARLES ABNER HOWARD, M.A., LL.D., President Emeritus.
At Oregon College of Education from 1939 to 1947.

FLORENCE WHITE HUTCHINSON, M.S., Associate Professor Emeritus of Music.
At Oregon College of Education from 1929 to 1961.

OMABELLE EMMONS McBEE, M.S., Associate Professor Emeritus of Education.
At Oregon College of Education from 1922 to 1959.

CHARLES RAYMOND McCLURE, Ph.D., Professor Emeritus of Humanities.
At Oregon College of Education from 1952 to 1964.

EDNA MINGUS, M.A., Associate Professor Emeritus of English.
At Oregon College of Education from 1919 to 1948.

EDITH LORETTA OLSON, B.S., Assistant Professor Emeritus of Health.
At Oregon College of Education from 1952 to 1963.

IDA MAE SMITH, M.A., Assistant Professor Emeritus of Education.
At Oregon College of Education 1918-24 and 1927-47.
CLARA VAUGHN THOMPSON, B.S., Assistant Professor Emeritus.
At Oregon College of Education 1930-34 and 1953-61.

HENRIETTA B. WOLFER, M.S., Associate Professor Emeritus of Education.
At Oregon College of Education from 1925 to 1961.

LOUISE WOODRUFF, M.A., Assistant Professor Emeritus of Music.
At Oregon College of Education from 1946 to 1947.

Teaching Research Division Faculty

JAMES H. BEARD, Associate Research Professor.

LESTER F. BECK, Research Professor.
Ph.D. Brown University, 1933. OSSHE since 1956.

FRED CROWELL, Research Assistant, Instructor.

JACK V. EDLING, Director, Research Professor.
Ph.D. University of Nebraska, 1955. OSSHE since 1955.

JUDITH EDWARDS, Research Assistant, Instructor.

LEE W. FOUST, JR., Assistant Research Professor.
M.Ed. Oregon State University, 1953. OSSHE since 1965.

GERRY GROSS, Research Assistant, Instructor.

DALE G. HAMREUS, Assistant Research Professor.

MARILYN HOLZINGER, Research Assistant, Instructor.

KEITH L. JACKSON, Business Manager and Assistant Research Professor.
B.B.A. University of Oregon, 1951. OSSHE since 1959.

BERT Y. KERSH, Associate Director, Research Professor.
Ph.D. University of California, 1955. OSSHE since 1960.

ROBERT R. LANGE, Research Assistant, Instructor.

VICTOR E. LUND, Assistant Research Professor.

JOHN NYLANDER, Research Assistant, Instructor.
B.A. LaVerne College, 1956. OSSHE since 1965.

CASPER F. PAULSON, JR., Assistant Research Professor.

TIM PETTIPONE, Research Assistant, Instructor.

BEN PURVIS, Research Assistant.
B.S. Oregon State University, 1960. OSSHE since 1964.

JOHN R. PYPER, Assistant Research Professor.

MRS. JO. RICHMOND, Research Assistant, Instructor.
B.A., Rice Institute, 1932. OSSHE since 1964.

ANN ROSE, Research Assistant, Instructor.
HENRY D. SCHALOCK, Associate Research Professor.  
Ph.D. University of Nebraska, 1955. OSSHE since 1956.

PETER E. SMITH, Research Assistant, Instructor.  

DOROTHY C. SPERLING, Research Assistant, Instructor.  

PAUL A. TWELKER, Assistant Research Professor.  

CARL J. WALLEN, Assistant Research Professor.  

VIRGINIA WEIGEL, Research Assistant, Instructor.  

WARREN WELCH, Research Assistant, Instructor.  
B.S. Oregon State University, 1949. OSSHE since 1960.

Associate Faculty

(Off-Campus Supervisors of Secondary Student Teachers and Interns)

MURL ANDERSON—Principal, Silverton Union High School, Silverton
RONALD AUGUST—Dallas High School, Dallas
VICTOR BACKLUND—McNary High School, Salem
BRUCE BARKER—McNary High School, Salem
CARMELITA BARQUIST—South Salem High School, Salem
MILLARD BATES—Parrish Junior High School, Salem
JAE BLENNINGHOFF—South Salem High School, Salem
BRUCE BOATMAN—Parrish Junior High School, Salem
JAMES BORSBERRY—North Salem High School, Salem
MARTYN BRENNEMAN—Dallas Junior High School, Dallas
KENNETH BROY—North Salem High School, Salem
EUGENE BROWN—Henry Hill Junior High School, Independence
NEIL BROWN—Vice Principal, South Salem High School, Salem
GARY BURCH—South Salem High School, Salem
MARGARET BURROUGH—South Salem High School, Salem
TED BUSSHELLE—Principal, Dallas Junior High School, Dallas
CHARLES CAMPBELL—Principal, Woodburn High School, Woodburn
BOB CANTONWINE—Dallas High School, Dallas
E. A. CARLTON—Principal, North Salem High School, Salem
ESTHER CARLSON—Judson Junior High School, Salem
ART CHRISTIANSEN—South Salem High School, Salem
ROY CHRISTIANSON—Stayton Junior High School, Stayton
THELMA CLEMENT—Waldo Junior High School, Salem
GLEN COLLINS—Parrish Junior High School, Salem
ROBERT COLLINS—Walker Junior High School, Salem
WRIGHT COWGER—Principal, Stayton Union High School, Stayton
ROGER DANIELSON—Stayton Union High School, Stayton
LILLIAN DAVIS—South Salem High School, Salem
HARRY DAWSON—McMinnville High School, McMinnville
LOUIS DELORNETTO—South Salem High School, Salem
VIRGINIA DELORNETTO—North Salem High School, Salem
ADRIAN DICKSON—Principal, Stayton Junior High School, Stayton
W. R. DICKSON—North Salem High School, Salem
FRANCES DIX—Leslie Junior High School, Salem
GRACE DIXON—Dallas Junior High School, Dallas
ED DOUGHERTY—Waldo Junior High School, Salem
ROBERT DOW—Principal, Waldo Junior High School, Salem
KAY ELLING—Leslie Junior High School, Salem
HENRY EKOLIN—Principal, Walker Junior High School, Salem
ALICE ETSOL—Cascade Union High School, Turner
DON FINERAN—Leslie Junior High School, Salem
BRUCE FLAMING—Dallas Junior High School, Dallas
GURNEE FLESHER—Principal, McNary High School, Salem
CATHERINE FOREMAN—Central High School, Independence-Monmouth
HALLIE GALE—Parrish Junior High School, Salem
NORMAN GARDNER—North Salem High School, Salem
CHARLES GELDAKER—Senior High School, Lake Oswego
LEWELL GILHAM—Parrish Junior High School, Salem
CHESTER GILLHAM—Vice Principal, Senior High School, Lake Oswego
IRA GODDARD—Waldo Junior High School, Salem
ISABEL GOODNOUGH—North Salem High School, Salem
FRED GRAHAM—Superintendent, Stayton Union High School, Stayton
LYDIA GRAHAM—Waldo Junior High School, Salem
ROBERT HALSTEAD—Principal, Dallas High School, Dallas
LIDA HALVERSON—South Salem High School, Salem
EARL HAMPTON—Principal, Judson Junior High School, Salem
WILLIAM HARGADINE—Central High School, Independence-Monmouth
DENNIS HELSER—McNary High School, Salem
JOHN HEFFLER—Leslie Junior High School, Salem
FRED HARGAND—Waldo Junior High School, Salem
GENEVIEVE HERRINGTON—Central High School, Independence-Monmouth
JAMES HEYDEN—Principal, Henry Hill Junior High School, Independence
KENDRA HISE—South Salem High School, Salem
BELVA HOISINGTON—Dallas Junior High School, Dallas
THOMAS HOLMAN—Principal, Memorial Junior High School, Albany
BETTY HOLMES—South Salem High School, Salem
ARLIE HOLT—Dallas High School, Dallas
CAROLYN HOWELS—Dallas High School, Dallas
LYDIA ISON—Parrish Junior High School, Salem
