Shoe Certificates To Be Distributed On Arrival

Rather than to delay distribution until the arrival of shoe certificates for all the blocks, the certificates will be distributed as they come so that some persons will be able to buy shoes, according to a decision of the Tule Lake Board of Control.

Beginning Wednesday, May 17, Father Dale will conduct a series of weekly round-table discussions on a personality problem. It was announced.

The initial meeting will be held at 7:30 p.m., followed by discussions of the application of the teachings of Jesus to everyday life.

ART EXHIBIT IS SUCCESSFUL

The art exhibit sponsored by the Tule Lake Union Church at 1930 Main Street has been a tremendous success, with attendance increasing every day. Watercolors and pencil sketches of Tule Lake and travel scenes from France and Italy by Oliver K. Hoji were featured.

A DEED FOR THE COMMUNITY

Volunteer workers unloading coal are again doing a fine deed for the welfare of the community. Without their cooperation much of the valuable coal needed by the colonists would have been lost. With transportation taxed by war-time necessity, every car must be unloaded as quickly as possible and put back on the road again so that it can serve the war needs of the country. The railroad companies cannot keep the cars standing idle on the sidings longer than necessary. Therefore, the need for unloading coal as quickly as possible is urgent if we are to avoid the consequence of forfeiting the coal which is shipped here.

Sometimes the regular crew is unable to handle the amount of coal which comes in at one time. Then, in order to keep the cars moving on schedule, volunteer workers are needed.

The response from the colonists, whenever such emergencies have risen, has been highly satisfactory. Office workers, firemen, wardens, mess workers, and all others, whether young or old are enthusiastically helping. The spirit of unselfish cooperation is commendable.

ABOUT SHOE CERTIFICATES

The klusath Falls and Tule Lake Town CPA board has returned thousands of applications for shoe rationing to the project on the ground that "they do not represent the present shoe need." This seems to us an unusual reason for not issuing many residents here a shoe certificate. It was our understanding that a person was entitled to so many pairs of shoes a year under the rationing that he had not done to show his "degree of need." Of course, to buy things which are unnecessary is unpatriotic. But as far as clothing is concerned a person is entitled to the degree of need at all times. It is our understanding that a person on the outside could go to a store selling footwear and buy a pair if he had a ration book and the stamp No. 17 intact.

Without mode of travel here except by walking and with the sand making shoes wear twice as fast as usual, most of us, and especially the children, will need all the shoes that we can get.

Under these conditions, why do we in this center have to show our "degree of need" before we may be issued a certificate to buy a shoe. Isn't our word good enough?

MINOR CASES WERE TRIED LAST WEEK

A few minor cases consisting of two out-of-bounds and two traffic cases were tried on May 17 with Mr. Delbert R.Cole, acting chief, Internal Security, substituting for Mr. Jacobsy, who is absent on vacation.

An artist is not a guy with a beret at an artistic angle atop his artistic cranium, an artistic process to come in artistic hand, listening to the gained of matronly woman, who claim to be Art lovers. He's a guy with ideas in his head who puts it down on paper, and gets Beethoven, Orfeo, Tchaikowsky.

Oliver K. Noji is an artist--besides being an architect, as was very evident to those who attended the exhibition of his work at 1308, May 14, 15 and 16.

It might be debatable whether Noji got to San Francisco, but he certainly got down, power-caught the magic of the moment, in his "Sunset Over Dinan." He said it took him 50 minutes to paint it--about the time it takes to read two comic books--thought need.

He is a "Rialto Bridge" spoke of culture, the days of Michelangelo and Florence. The picturesque charm of "Early Morning" described the romantic Europe most of us hope some day to travel through. "Basilica of Constantine" caught something of the sparkling color, in subdued tones with strong under currents of feeling.

His Tule Lake scenes were dwarfed by the vitality, the inspiration, the fire of his European sketches; but Noji was still Noji--a n good.

100 Railroad Workers Needed

Two representatives of the Chicago-Milwaukee Railroad will be at the Placement office Tuesday, May 18, at 10 a.m. to recruit one hundred railroad workers, Frank Fagan of the Placement office announced.

Conditions are: ten hours per day work, $5.50 per day, seven months contract with steady employment.
EX-DISPATCH REPORTER DOES
HIS SHARE OF RELOCATION

Doing his share for the resettlement program is Eino Usoda, ex-DISPATCH reporter, who recently wrote to Mrs. Soo Chee, Project director, from Michigan, where he relocated a few weeks ago.

"After stating that he liked his new home and that, "The people treat me with everything we can," he reported that a nearby farmer, raising chickens and carrots, wanted him to help him. He has been living accommodations available and is anxious to have help now, along right away. Please make arrangements so that some farmers and families can relocate in this area, a farm dwell place."

MORE ABOUT NOJI ART EXHIBIT

(Continued from Page 1)

The new exhibit features paintings of travel scenes in Europe and Italy especially captivated the imagination of the public. The exhibit was sponsored by the artistic originality in Mr. Noji's paintings.

Mr. Noji explained that while architecture is his profession, art was his hobby. He also added that there is a promising future in the field of modern window displays and designing of which he had previous experience in New York. Planning to leave for Chicago in a few weeks he is looking forward to furthering his work in that line.
