# Elem. Principals Enjoy Workshop At Maaske Hall

By Ed Palmer  
(Lamron Feature Writer)

Dr. Snyder is not modeling the latest in men's ties!

However, if you had been present at the kick-off of the Oregon Elementary School Principal's Association's work conference you might well have gained that impression!

In a ceremony symbolizing the doff-the-formal, don-the-casual atmosphere which has prevailed during the lunch hour recreation period for the past week, Dr. Snyder, summer session director, was very neatly severed from his tie and presented with a new sport shirt!

Sixty-one participants, including elementary principals, graduate students and a number of consultants, are currently engaged in the OESPA work conference activities. Providing both living quarters and a comfortable meeting place for the group is OCE's new dormitory, the Roben J. Maaske memorial hall.

Included in the program, which centers around the general topic "Human Relations in Elementary Administration," are such events as addresses, case studies, panel discussions and informal buzz sessions, interspersed with group singing, skits and other social activities.

Betty Curtis, Lebanon, who heads up the recreational program, reported that one of the

## Try-outs Slated for Summer Session Play

Mr. Alan Robb, humanities instructor, announces that try-outs for the summer school reading production of Enid Bagnold's "The Chalk Garden" will be held at 4 p.m. on Tuesday, July 1, in room 224 of Campbell hall.

This is a contemporary British comedy-drama that recently appeared on Broadway starring the Irish actress, Miss Siobhan McKenna.

Two male and five female roles will be filled, and anyone interested in the theatre is urged to contact Mr. Robb about the parts.

## CALENDAR

### Monday, June 30:

Last day for new registration or addition of new courses  
College Recreational Swim  
3-5 p.m.

Elementary School Opens  
Movie, "Letter to Three Wives"  
8 p.m., CH auditorium  
Maple hall open after movie

### Tuesday, July 1:

Assembly, 11 a.m., Elementary Principals' conference  
College Recreational Swim  
4-5 p.m.

Ed. Film Previews, 2-3 and 3-4 p.m., CH auditorium, "Public Relations," principals  
Faculty Swim, 7:30-8:30 p.m.

### Wednesday, July 2:

Graduate Club Luncheon, 12 noon, Todd hall  
College Recreational Swim  
4-5 p.m.

Graduate-Faculty Evening in Library Lounge

### Thursday, July 3:

OAESP Workshop Conference closes  
College Recreational Swim  
4-5 p.m.

Family Public Swim, 7-9 p.m.  
Square Dancing, 8 p.m. in P.E. building  
Theta Delta Phi Luncheon, 12 noon, Todd hall

### Friday, July 4:

Holiday

## Dr. Bess Goodykoontz, Federal Educator, To Speak Tuesday

A noted educational authority, Dr. Bess Goodykoontz, director of international educational relations, U.S. Office of Education, will address an assembly at Oregon College of Education at 11 a.m. on Tuesday, July 1, according to an announcement by Dr. Walter E. Snyder, director of the OCE summer session. Her topic will be "Principals and Community Relationships."

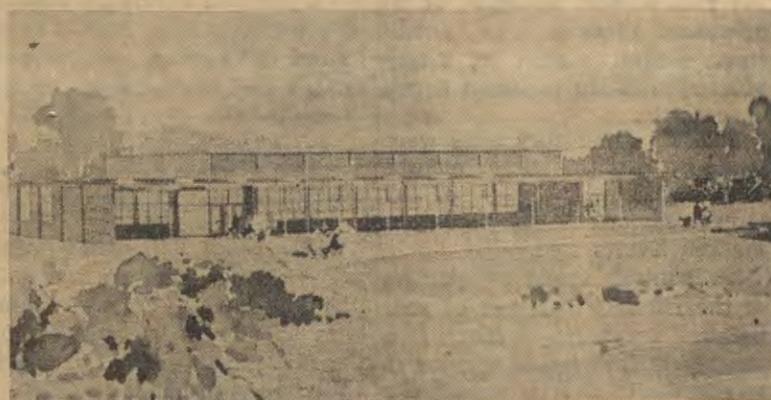

Dr. Goodykoontz has been a delegate to seven UNESCO meetings related to education, and is present vice-president of the World Organization for Childhood Education. Among her various duties in Washington she directs research in comparative education, including studies of educational systems of Germany and the U.S.S.R.

Miss Goodykoontz will also be on the OCE campus the remainder of this week as a participant in the work conference on hu-

Assembly Speaker

man relations in administration, sponsored by the Oregon Elementary School Principals Association.

### ARCHITECT'S SKETCH . . .

Our new general arts building, begun last winter, is rapidly taking shape and will be ready for use Fall term, 1958. The building will include a large assembly room capable of accommodating 180, a rehearsal room large enough for a 70-piece band, three class rooms, three teaching studios, a number of practice rooms, listening rooms, a uniform storage room, an instrument stor-

age room, and a director's office.

The interior has accoustical walls permitting music instruction. The plan is designed to allow a future addition for general purpose classrooms or an arts and crafts wing to the south.

Plans call for the demise of the old Music hall, described in the 1929 school catalog as a "temporary facility for the music department." No one will be saddened at its passing.

LOGAN FORSTER & ED PALMER ..... FEATURE WRITERS

**Toward Understanding . . .**

The atmosphere which pervades the Oregon Elementary School Principals' Work Conference at Maaske hall must be a joy indeed to those participating. Our staff writer, Ed Palmer, has adroitly captured the mood and tenor of this conference . . . a general feeling of conviviality.

Tedious hours of "enlightened boredom" which often accompany such workshops is not in evidence. We believe that at last the doctor is "taking his own prescription" in pursuing the general program topic, "Human Relations in Elementary Administration." Education, and the administration thereof, is proving to be an art as well as a science.

When fellow educators share common experiences with one another on a 24-hour basis it naturally makes for good fellowship.

Our principals' workshop is demonstrating what the nation and the world so desperately need, a "down-to-earth" time of earnest work and relaxation.

**State Reports Mussels And Clams Dangerous**

The State Board of Health recently issued a new warning against consumption of marine mussels or uncleaned clams taken from Oregon coastal waters.

Curtiss M. Evers Jr., director of the Division of Sanitation and Engineering, said a ban on sale and distribution of the seafood between May 1 and October 31 each year was continued thruout the past winter because of an off-season invasion into north-west coastal waters of a tiny poison-producing plankton called G. cantella.

Periodic laboratory tests were made thruout the winter months to guarantee the safety of any Oregon seafood entering the open market, Everts said.

"It is unsafe to eat any portion of the mussels this time of year because they may contain a strong alkaloid poison similar to strychnine," Everts said. He pointed out that digestive organs of clams also may contain the poison, although the white meat is "safe and delicious during this season."

The poison results from the mussels or clams feeding on G. catanella occasionally washed in by the ocean, usually during the summer months. These organisms cause the "red tides" sometimes noticed along the west coast.

"Reputable commercial pack-

ers are aware of the danger and do not permit any of the harmful seafood to enter the open market," Evens said.

Individuals digging clams during the danger period were urged to remove all black portions before eating. White meat and muscular tissues of the clams do not contain the poison.

Everts emphasized that the black portions should be destroyed completely and should never be fed to animals or domestic fowl, which are also susceptible to the poison.

**Theta Delta Phi Holds First Meeting**

Theta Delta Phi, men's honorary fraternity, held its first noon luncheon meeting of the summer term Thursday. The speaker for the first meeting was Dr. Roy E. Lieuallen, president of OCE.

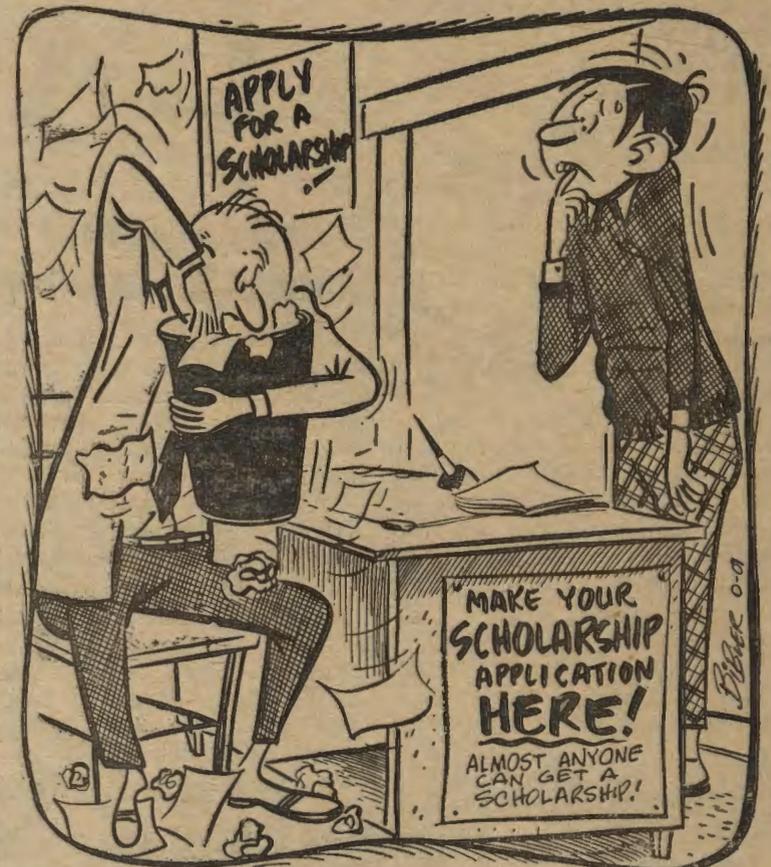

Dr. Lieuallen spoke on the topic "Institutional Leadership." A discussion period followed his talk.

This organization meets each Thursday noon in the music room at Todd hall. All past and presently active members are invited to attend and to take part in the activities.

"I get my exercise acting as a pallbearer to my friends who exercise."—Chauncey Depew.

**LITTLE MAN ON CAMPUS**

by Dick Bibler

"WHY, YES—I HAVE YOUR APPLICATION HERE SOMEPLACE."

**Elementary School Will Open Today**

Monmouth Elementary school will open its doors for the summer session Monday, June 30, according to an announcement this week by Mr. Ralph Farrow, principal.

Children of Oregon College of Education students will be given the first opportunity in registering for the summer term at the Elementary school.

Registration is unusually heavy this year due primarily to the increase in enrollment at OCE.

**Placement Service Offered for Graduates**

Those students who are completing requirements for the BS or MS degrees in August are invited to visit the Placement Office in room 116 of the Administration building to see that their credentials reflect their present standing. It is important that credentials contain references covering all teaching experience, as well as up-to-date academic information. The easiest time to

take care of these details is now, while you are in school.

Placement service is available to all students who are in need of assistance in finding positions this summer. This service is free to those who will complete graduation requirements in August. For others, there is a small charge of \$2.50 for registration.

**Crab Day Plans Set**

"We guarantee as much crab as you can eat!" These were the words of Dr. Glogau last Tuesday in commenting on the annual Summer Fish and Crab Day. However, he failed to say that you get to catch the crab!

Saturday, July 12, is the day set for this gala affair and it will start with a bang at 6 a.m. The cost for the crab, soft drinks and fun has been set at 50 cents per person or \$1 per family.

The transportation arrangements will be posted this week on the student post office bulletin board. Payments will be accepted in the deans' office with the deadline being set as July 8.

Anyone having questions concerning the Fish and Crab Day should contact Dr. Glogau in the deans' office.

## National TV Seminar Beckons Dr. Hiatt

Dr. Margaret L. Hiatt, associate professor of education and supervisor of teaching at OCE, has been named a participant in a national seminar on instructional uses of EV and radio, according to Dr. Roy E. Lieuallen, OCE president.

The conference, to be held July 21-25 at Allerton house, University of Illinois conference center at Monticello, Illinois, will be conducted by the National Association of Educational Broadcasters under a grant from the Ford Foundation. Among the 26 participants, Dr. Hiatt will be one of two people representing teacher education institutions.

Dr. Hiatt's experience with educational television includes a demonstration of science teaching via TV conducted at OCE's annual education conference last April. She teaches fourth grade at the OCE Laboratory school and supervises student teachers. She is also the Northwest member of the Association for Student Teaching's National Research committee.

## Oregon Welfare Com. Hires Brad Everson

Bradford Everson, Seattle, a sophomore at Oregon College of Education and 1958-59 Lamron editor, has been named a summer student trainee in social work by the Oregon State Public Welfare Commission. He will be assigned to the Baker office.

Everson is one of seven college students in the state who were

selected from among over 70 applicants for the training program. OSPWC officials state that the program is designed to give experience to promising college students interested in social work careers.

## Ditto Machine Now Available for Use

Students wishing to duplicate material from class notes, etc., will be interested in learning the ASOCE Ditto machine, located in the basement of Campbell hall, will be available.

Mrs. Colleen Jensen, student P.O. box number 225, will instruct in the use of the machine and/or run the dittos for the students. Materials (paper, ditto stencils) can be purchased from Miss Martha Hill in the President's office.

## Robert Myers Elected SNEA Parliamentarian

Robert F. Myers, Salem, a senior at OCE, has been elected as parliamentarian of the Student National Education Association at the SNEA national convention at Bowling Green, Ohio.

Myers, son of Mr. and Mrs. Deryl F. Myers, 945 Hood Street, Salem, is currently serving as president of the Student Oregon Education group and of the local SOEA chapter.

Following the SNEA meeting, Myers will attend the National Education Association convention in Cleveland, Ohio, June 29 to July 5, as one of 31 official delegates from Oregon.

# Since Nobody Asked Me . . .

By Logan Forster

Well, it certainly seems something or other to be back in school after that long vacation! I must say I have never in all my born days witnessed such a phlegmatic display of bad manners as that displayed in assembly the other day. How people go around teaching good manners to children and adolescents when they haven't enough of their own to observe even the most elementary courtesy such as polite applause when public officials are introduced to them, is downright amazing, not to say disgusting. Even I say it is disgusting. Yes I do. In case no one ever told you, my friends, it's just as customary to clap your hands when brought face to face with someone on a platform as it is to sing "La Marseilles" every time the French government changes or to shout, "Viva Mexico;" every time a president is shot! Kindly bear this in mind hereafter. Shame on us!

Speaking of revolutions and assassinations — how eager can these professors around here get, I ask you? It's a fine state of affairs when they start dragging unsuspecting students out of the halls and trees, like Mr. Hess was doing the other day! We Very nearly came to blows before I could haul out my green catalog and prove to him that he could not force me to attend on Tuesday a lecture scheduled for Thursday. He certainly is a determined soul. By way of fair warning to the handful of prisoners he had corralled in the room at the time of my forced entrance, I will say: "You gotta watch these characters around here. Once you let them get the upper hand, it's only a matter of time until they'll have us all seig-heiling and Il Duce-ing every time a whistle blows!

And Mr. Postl certainly gave a rousing discourse on education with a capital "E" the other day! I agree with everything he thinks on the subject and have taken a pledge to burn all kinds of oil every night and that's why I'm barging blithly and foolhardedly (Who says there isn't such a word!) between two reefs named Biology and Physical Science respectively—if not respectfully. You just wait! I'll make it yet! By 1976 all this will

be but an endless nightmare! Now, remember what I said—this is a very fine school and everyone is grown up and polite and friendly and we always clap like crazy when our faculty and student body officers appear before us in the guise of hosts. It's all very well to exercise one's democratic privileges; but this isolationism has got to go! S'blood! A body would have thought they were a bunch of Trumans, the way we reacted—or refused to!

## Pentacle a Sellout

Mr. George Harding, humanities department instructor, desires to emphasize the need for purchasing tickets to Pentacle theatre productions well in advance if you plan to attend any of the summer plays. The next production will be "The Little Foxes," July 13-19.

Limited seating capacity and wide local interest have made these shows a sellout. Tickets may be purchased at Stevens & Sons or Dell's Bookstore in Salem, or directly from Mr. Harding, room 231 of Campbell hall.

## STUDENT TEACHER'S PRAYER

Yea, though I walk through my classroom,  
I shall not teach through fear,  
Nor shall sarcasm fall from my tongue,  
No frown of displeasure crease my brow,  
Nor shall I use ridicule or shame upon my children.  
Patiently lead me through the paths of tolerance and kindness,  
Let the love of children be the warmth within me,  
Helping to guide and direct those in my keeping;  
Awakening the little dreamer, the little painter, the future scientist  
To complete that dream making it a reality,  
To paint that picture buried deep within his heart,  
To use that scientific research gathered  
For a secure and happy future achieved through the love of learning.

Amen.

—Molly Lansing

## Gems of Thought -- Education

"The best way to become acquainted with a subject is to write a book about it."—Benjamin Disraeli.

† † † †

"With half an hour's reading in bed every night as a steady practice, the busiest man can get a fair education before the plasma sets in the periganglionic spaces of his grey cortex."—Sir William Osler.

"The things taught in colleges and schools are not an education, but the means of education." — Ralph Waldo Emerson.

† † † †

"Half of the little education people have is usually wrong."  
— E. W. Howe.

## William J. Berry, Former Teacher, Dies April 4

Editor's Note: Friends of Dr. William J. Berry, former summer session instructor at OCE, will be saddened at the news of his death as reported in the Western Michigan university News Magazine. We quote:

Dr. William J. Berry, a member of the department of geography and geology at Western Michigan university since 1930, died April 4 at his home following an illness of several months. He had been stricken with a heart attack in January.

Dr. Berry headed the academic department at WMU at his death and had been a long and faithful servant of the institution. One of his major interests outside of the classroom had been athletics, and he had long been a member of the Athletic Board of Control.

Dr. Berry was a graduate of Iowa State teachers college and the University of Chicago. Before coming to Western he had taught in several colleges and universities.

He was born December 4, 1891, in Frerdic, Iowa.

Only the day before his death he had had an opportunity to look over a new book, "World Geography," for which he had written the chapter on South America. He had also written articles and prepared maps for the Encyclopedia Britannica.

Dr. Berry leaves his wife, Marie; one daughter, Mrs. C. E. Webb, Washington, D.C.; two grandchildren, four sisters and a brother.

## Hey! Lost Your Cat, Found a Hat?

Anyone finding or losing a book, coat, car, or what have you, should contact the deans' office, Adm. 102, for help in recovering or claiming lost articles.

## CHECK THAT BOX

Everyone enrolled during the regular summer session has been assigned a new box at the student post-office. It will be appreciated if you will check your box regularly for correspondence from administration, faculty, or fellow students. Your box number is posted at the post office. If your name is among the missing, don't give up — check with the deans' office.

## X-ray Unit To Visit OCE Campus Soon

The State Mobile X Ray Unit will be on the OCE campus Wednesday, July 2, and Thursday, July 3, from 9 a.m. to 12 noon and from 1 to 4 p.m. The unit will be parked in front of Campbell hall.

X-ray cards will be available on Tuesday, July 1, on a table in the Student Post Office. Students are urged to bring the card filled out (both sides) when coming for x-rays.

Faculty, civil service staff and family members over age 15 are invited to come for x-rays if desired.

Report of the x-ray is usually returned in from 10 days to two weeks; enter the address to which the report should be sent on the x-ray card.

## Audio Visual Center Adds 50 New Films

The audio visual materials center has recently acquired 50 new films relating to education and psychology, according to an announcement by Dr. Jack Edling, director.

Coronet Films, Inc., has rented these films to the local center on a permanent basis. They represent an investment of some \$5000. The films will be used in methods, psychology and other education courses, with three of them to be previewed on July 1 in Campbell hall auditorium.

## Enjoy Workshop

(Continued from page one)

entertainment highlights was the personal appearance Friday of Miss Laura Drummond, Oregon's Miss Strawberry Shortcake! Also appearing in person was a new singing sensation, Bob-O-Linka! In case you hadn't guessed, Bob-O-Linka was a Lark, a good one, too, presented as a part of the Lane county contribution to the lunch hour capers!

Serving as conference coordinator and full time consultant is Dr. Don Patterson, president of Eastern Washington college of education. Other full time consultants are Dr. Prudence Bostwick, acting chairman, division of education, Los Angeles State
