This Book is brought to you for free and open access by the The OCE Lamron, 1940-1972 (includes Lamronette, 1952-1954; Summer Lamron, 1955-1968; and Oregon College of Education) at Digital Commons@WOU. It has been accepted for inclusion in The OCE Lamron, Volume 27: 1949-1950 by an authorized administrator of Digital Commons@WOU. For more information, please contact digitalcommons@wou.edu, kundas@mail.wou.edu, bakersc@mail.wou.edu.
Summer Roll! Tops All Recent Records

The halls of learning on the OCE campus are bulging with an enrollment of 757 students for the current summer session with stragglers still coming in. According to R. E. Lieuallen, registrar, this is the largest summer session enrollment since 1929. There were some 870 students on hand for the 1929 session. Nearly 600 of this year's students are former OCE students which emphasizes the interest of Oregon teachers in completing work on the four-year curriculum leading to the degree of bachelor of science in education.

Not included in the total figure are students who will register for two workshops which begin on July 17 and run until August 11.

Women outnumber the men, 556 to 207 for the session. Some 132 students are veterans and there are 159 new students.

Students Married In June Ceremonies

Dorothy Kirkpatrick and Justine Haberlach of OCE added their names to the growing list of June brides on Saturday, June 24. Both were married in Portland. Other recent marriages included Carter Powell who journeyed to the uplands in Pendleton, Oregon, to acquire a bride, and Henry (Hank) Decker and Ladona Lentz, both of OCE, who made the fatal step shortly after the close of spring term.

"Opera" Here June 28

OCE's will have the opportunity to attend the movie "La Traviata" on Wednesday, June 28, at 8:00 p.m. "La Traviata" is a special film of the opera as produced by Columbia Pictures. The cast will include internationally known Metropolitan opera stars. Admission will be 60 cents with children under 12 being admitted for 25 cents.

Completion of Library Planned for January

OCE's new $387,000 library building, located beside the administration building, is expected to be completed early in January, according to Ellis A. Stebbins, OCE business manager. E. E. Batterman, the contractor, is also erecting the new consolidated high school building between Monmouth and Independence. The architects are Wolff and Phillips who have also designed the new library on the EOC campus at LaGrande.

When finished, the new library will have one of the most modern audio-visual aids centers in the state and will include a model broadcasting booth costing in the neighborhood of $1000 for equipment alone.

First Music Hour Held in J.T. Hall

A number of students spent an enjoyable evening Sunday, June 25, at the first music hour of the summer term which was held in the Jessica Todd hall music room under the directorship of Oscar Butler, OCE music instructor. The next two music hour programs will be directed by Carter Powell, graduate student at OCE.

Popular Dancer To Perform Wed.

Presenting the young American dancer, Mary Tiffany, the OCE summer session will see a performance which combines both dance and drama with music played by Andre Vaneuf, composer and concert artist, on Wednesday, July 5, at 8 p.m. in Campbell hall auditorium. The dance sketches of Mary Tiffany have made this artist famous for the skillful beauty of her interpretive dancing and her original choreography conveys clearly the idea of each theme. With training at the Pasadena Playhouse and Neighborhood House, New York, interspersed with work at Bennington college, Stanford university, and Mills college, Miss Tiffany had a rich tradition of schooling in the arts before she began her concert career. When the dance was chosen as her major interest, she abandoned a pre-med course to study with Tina Plade, celebrated Mary Wigman pupil, Hanya Holm, Ruth Dadir and finally with Martha Graham in New York.

The Tiffany programs are very versatile, running the wide gamut from stark tragedy to ridiculous humor. There is a sprightliness to the dances with pantomime that makes for good entertainment. Andre Vaneuf who accompanies the dancing is a composer of note and one who has been associated with Ruth St. Denis and Ted Shawn, doing the piano compositions for their concert numbers. The public is invited. Children must be accompanied by parents.

Maple Hall Open For 'Philosophers'

Summer students are reminded that Maple Hall is a fine place to relax during the present session. One may find a soft chair and gossip about his instructors, the teaching situation, or cast sly glances at the opposite sex.
Questions About Special Education Minor Answered

In keeping with OCE's program of continual development a special education minor has recently been added to its curriculum. In the past two years kindergarten training, then a music minor, and now a special education minor, definitely indicates the steady progress of opportunity present at OCE.

In response to several inquiries, the Lamron herewith presents some questions and answers in relation to this newly added minor in special education. At present some 20 hours of credit in special education courses are required for this minor. The following questions and answers is an outline of the program for earning a special education certificate at OCE:

I. What Does a Special Education Teacher Do?

Special education teachers work with children who are handicapped by crippling or low vitality conditions, vision or hearing loss, speech defects, personality conflicts or extreme learning problems. This work may be done in connection with a public school system or with one of the state institutions.

II. What Are the Employment Possibilities for Special Education Teachers?

In a recent letter from the State Department of Education, the statement was made that: "Special Education is a field in which a great deal of growth is expected in the next few years, and the demand for competent and well-trained people is increasing."

II. What Program Must I Follow at OCE to Qualify for a Special Education Certificate?

1. You should follow the regular four year program leading to a bachelor of science degree in education.

2. In addition to the courses required in the four year program, the following courses should be taken: Psych. 461 — Child Growth and Development, three hours.
   Ed. 482 — Spec. Education, two hours.
   Ed. 485 — Counseling and Guidance, three hours.
   Ed. 483 — General Intelligence Testing, three hours.
   Ed. 465 — Diagnostic and Remedial Instruction in Reading, three hours.
   Ed. 406 — Problems in Elementary Education (clinical work in reading laboratory or guidance clinic) minimum of three hours.
   Ed. 478S — Corrective Reading Laboratory (clinical work) three hours.
   Eng. 238s — Speech Correction; Basic Principles and Techniques, two hours, plus hour of credit for clinical work.
   3. Supervised Teaching and additional work in special education.
      (a) At least one quarter of supervised teaching should be done in the area of special education. This work may be done under the supervision of the directors of the reading clinic or guidance clinic, or it may be done in one of the state institutions.
      (b) Additional work in special education will be offered in the summer session. Each summer, courses in the area of speech correction, adjustment problems of children, clinical practices, reading, and therapeutic techniques will be offered by members of the resident staff and by visiting instructors.

A-V Center Offers Subject Previews

The audio-visual center will be ready for use of its new projection room today. The newly-built partition makes possible the previewing of visual materials without interfering with the other work of the center.

Through a special arrangement with the department of visual instruction at OSC, the state film library, methods and materials study groups at OCE have been offered a "get-acquainted" preview service. The visual instruction department will select a full program of the latest and best in films, slides and filmstrips covering any educational area; the A-V center here will arrange a convenient projection date for groups wishing to preview the materials. Thus OCE can get firsthand contact with visual materials offered for their classroom use in teaching. This provides a chance for evaluation and placement by the teacher and gives a real basis for selection of visual aids during the regular school year.

A wire recorder is now available for class use on special request from the A-V center. It is hoped to have two more such machines available soon.

Placement Service Available To Grads

All graduates of OCE are entitled to the services of the Placement Office. If you are completing requirements this summer for either the three-year or the degree course, now is the time to compile teaching credentials, or to bring old ones up to date if you graduated previously from the two-year course.

Teaching credentials are a compilation of personal information, academic records, faculty and supervised teaching references, and references covering teaching experience. They are not to be confused with transcripts, which are official records of your academic work on file in the registrar's office.

Your credentials on file with the OCE Placement Service provide a source of information for the convenience of school officials who may be considering your application for a position.

During the first year following graduation from either course, the Placement Service provides job assistance without charge. During subsequent years, this service is available upon payment of a small registration fee. Mrs. Minnie Andrews, Placement Secretary, will be glad to discuss this service.

New Prexy Will Visit Campus

OCE's new president, Dr. Roben J. Maaske, will be on the campus for a few days early in July before journeying to USC where he is to be a summer session lecturer. President Maaske will take over duties as president of OCE vacated by Dr. H. M. Gunn who will go to Palo Alto, California, as superintendent of schools. Dr. Gunn and family will leave OCE on Wednesday of this week for California.

VISIT IN LA GRANDE

Mr. Stebbins, Mrs. Jessup and Mr. Tomkins of the OCE staff are absent this week making an official visit to the EOCE campus in La Grande.

THE OCE LAMRON

Jack Holt, W. B. Stanley ... Editors

H. C. Ruark, Jr. ... Faculty Adviser
Dalton Hobbs, 23, OCE student who was critically injured in a two-car collision June 12 in Salem, is still in a serious condition in Providence hospital in Portland.

According to the latest available news Hobbs had a brain operation to remove a blood clot late last week. The outcome of which could not yet be predicted.

The Hobbs' car, pictured above, a 1933 Ford, was almost completely demolished as a result of being hit broadside by a 1949 Lincoln driven by Dr. C. A. Downs of Salem.

Hobbs had been released from the Salem hospital following the wreck but was shortly after rushed to the Portland hospital when he lost his speech, was partially paralyzed, and was unable to identify anyone. Saturday, June 17, a major brain operation was performed after which he regained his speech and was able to identify his father.

Shortly before the accident Hobbs had been washing his car and was wearing dungarees, leaving his billfold in his other clothes. For this reason he was without a driver's license at the time of the accident and was cited by the state police for "being without an operator's license."

Contrary to reports, Hobbs was not a "hot-rod" enthusiast and had expressed a definite dislike for same. He was a veteran of the Pacific theatre during the war and had planned to enter the University of Oregon this fall.

ODDS 'N ENDS

Seen on campus, George Timmons, Willamette valley orchestra leader. Timmons and his orchestra have been appearing in and around the Salem-Corvallis area for at least a couple of years. They have played for several OCE proms. Johnny Dunn, former OCE student and baseball star of the Cascade pro-ball league of the Eugene area is also a student on the campus this summer.

Principals of the OCE elementary school, Dr. Elmer Ensz, has been showing his father around OCE. Dr. Ensz is principal of the junior high school in Visalia where he has been connected with education for no less than 28 years.

Word has been received that Dr. Kent Farley of OCE's regular facility is having an "enjoyable time" teaching graduate courses for the summer at the University of Oklahoma.

Mrs. Frieda Wilson, former OCE instructor has finished a year at Columbia and is to teach at Drake university in Des Moines, Iowa.

Recreation Slated for Elementary Students

E. P. Lawrence announces that the recreation program of the Monmouth elementary school is under way with supervised afternoon and overnight trips planned. The school opens June 26 and will close on August 3, 1950.

The program will include crafts, games, tournaments, swimming, two beach trips, two overnight trips and a trip to Silver Creek Falls. The regular session will be from 1:00 to 3:30 p.m. Monday through Thursday. All trips will be taken on Fridays. The swimming will be done at the Salem YMCA pool on Saturday mornings.

The scheduled trips are as follows: June 30, to Delake (afternoon trip); June 7, to Long Bow (overnight trip); July 14, to Silver Creek falls (afternoon trip); July 21, to Big Elk (overnight trip); and July 29 to the beach (afternoon trip).

June 28 Is Last Day for Registration

Last day for new registration is Wednesday, June 28, according to the OCE registrar's office.

You cannot dream yourself into a character; you must hammer and forge one for yourself.—Froud.
Sports Comments

By W. B. Stanley

Coach Bill McArthur has lined up a strong schedule for the coming football season. The OCE Wolves, one of the three unbeaten elevens on the Pacific Coast last fall, will tangle with such tough opponents as Central Washington College of Ellensburg, Pacific university, Southern Oregon, and Lewis and Clark. McArthur rates Central Washington as probably the strongest squad on the schedule.

Other schools on roster for next autumn are traditional rival Eastern Oregon College of La Grande, Vanport of Portland, Oregon Technical Institute of Klamath Falls, and George Fox college of Newberg.

Two new coaches will make their debut next season when Ray Tatum takes over at the reins at Eastern Oregon College and Rex Hunsaker, ex-Albany high coach, assumes command at OTI at Klamath Falls. Tatum, a disciple of Don Faurot of the U. of Missouri, will probably come up with his version of the split-T formation. Hunsaker, noted for his fine teams at Albany high school, is strong on fundamentals and is expected to field a strong aggregation.

McArthur, in a talk with Joe Huston, Lewis and Clark headman, was apprehensive when Huston said his school will have the best team in its history. Huston is loaded with 24 returning lettermen.

Several newcomers drew praise from McArthur during spring practice a few weeks ago. Among them were Lionel Miller, freshman guard from St. Helens; LeRoy Coleman, a quarterback transfer from Vanport who is an excellent passer; Bob Downing, a fullback from Lebanon who is rugged on defense; Jack Bushnell, freshman from Powers, sharp on offense; John O'Donnell, a transfer center from Portland U; Leonard Staudinger, and from the freshman squad who will be shifted to tackle next fall; and Jim Ortlief, a speedy halfback transfer from St. Marys.

McArthur doesn't expect to have another unbeaten season, but he also doesn't plan to lose many contests in 1950. OCE will face a much stronger group of opponents in 1950, but many supporters believe the Wolves will give all their opposition a very strong argument on the gridiron.

† † † †

For the first time in many years, OCE will play on Multnomah stadium field. The Wolves will lock horns with the powerful Lewis and Clark team September 16. Portland and Willamette valley fans will get their first glimpse of the OCE 1950 varsity on that date at Multnomah stadium.

† † † †

Schedule:

Sept. 16—Lewis & Clark (Portland)
Sept. 23—Pacific U (Forest Grove)
Sept. 30—SOCE (Monmouth)
Oct. 7—Open
Oct. 14—George Fox C. (Monmouth)
Oct. 21—Central Wn. (Ellensburg)
Oct. 28—OTI (Monmouth)
Nov. 4—EOCE (La Grande)
Nov. 11—Vanport (Portland)

'50 Grad Here in Three Generations

One 1950 graduate of OCE has the distinction of having attended the college in three generations.

Mrs. Isabella Armitage of Sheridan was a student as a girl, then she enrolled again with her children in 1936, after her husband's death.

Recently, with a son, Blair, an OCE freshman, playing the procession march in the band, she attended her graduation exercises with other members of the class of 1950 and received her degree.

Arts Expert Leads Study

Miss Mary Fullington, supervisor of art in the Seattle public schools, will conduct a workshop in art in the elementary schools here June 19 to August 11.

How simple, easily available materials may be used to give children interesting and rich experiences in art and its appreciation will be the basis of the course.

Miss Fullington will draw on her wide experiences in the teaching of art to aid her students in working out answers to problems met in classroom practice.

Emphasis will be on the integration of art experience with other school activities.

—1—?—1—

Be your own efficiency expert; do your job the best way it can be done.—E. Plantanda.

Summer Shows Draw Tariff

Miss Joan Seavey, OCE director of entertainment for the summer session, has announced that there will be a 10 cent charge for all entertainment movies shown on the campus in the future. Purpose of this charge is to pay for living and education expenses of OCE's Belgian war orphan, Walter deCraye. Walter's latest letter to his OCE sponsors is displayed on the bulletin board in the administration building.

Campus Post Office For Student Use

Many students are probably not aware of the fact that OCE has its own post office. However before anyone rushes in and tries to buy stamps, etc., it might be wise to explain that its "post office" is only a means of providing inter-campus communication. The p.o. consists of several hundred numbered cubicles located in Campbell hall a few steps from the bulletin board in what was once the Lamron office.

As of today it is open for use. Due to the shortage of cubicles and the large summer enrollment there will be two or three people assigned to one box. List will be found in the p.o. giving the names and box numbers of all OCE students—anyone wishing to communicate with another student may leave the communication in the proper box. It would be wise for all to check their box every day or two as they are used by the administration for official communication with students—maybe the president would like to see you! Miss Seavey has asked that anyone whose name has been overlooked in the listing leave their name at her office.

Inter Varsity Holds First Meeting Tonight

OCE's Intervarsity Christian Fellowship will hold its first meeting of the term tonight, Monday, at 7:00 o'clock in the Monmouth elementary school auditorium (across from Todd hall). Dr. Bradley, instructor in Greek at Multnomah School of the Bible in Portland, will be the featured speaker. Everyone is invited to attend this meeting.
