Prejudice and Bias...

Blows seem to face us every where we turn. Someone is against this or that because — they can't offer an explanation why. These biases are very detrimental to the people that hold them as they cloud the pro- nounced ability to evaluate in later with open-minded objectivity.

When one holds biases or preju- dice, a skill is that it is extremely difficult to his clear- ly understand the subject and to judge its worth. Because of this one must always attempt to put aside his predetermined evalua- tions and study both sides of the issue prior to attempting to judge it.

Those who plan to teach should be the first to realize the effects that our biases or preju- dice can have on others. Therefore, one should be responsible, which should, while in the process of preparing, attempt to acknowledge, to himself, his biases and prejudices. After these have been examined all effort should be put forth in an at- tempt to eliminate them.

Mail Time...

The student post office is oper- ated for the convenience of the students on campus. This service should be used. Many people are, however, failing to check the student post office boxes, and as a result, many important mes- sages are being undelivered.

It is important that a regular check be made of the P.O. box, as it is the only means for fac- ulty members and students to contact one another. If any student is in doubt as to whether his box should be checked immediately, or is in doubt if he even has a P.O. box, Mrs. Miller in the deans' office should be contacted immediately.

OCE Freshman Rules As Ski Fete Queen

I think this should be an issue of congratulations for a lot of well deserving people. Congratulations in order to the girls of West house for winning first prize with their fine rendition of the old standard, “Whispering” and the clever way in which they presented it. Our compliments also go to Gene Rosasch, who wished the “best of you all the luck,” and to Jerry Anne Bailey for the bang-up drop he designed for the stage.

No discussion of the program would be complete without a mention of the faculty act. It was a good deal of work on their part, Dr. Bellamy sang by Tom Helwig for the clever back-up he designed for the stage.

The way mid-terms are galloping along makes one pause and wonder, to use a very old adage, “Just where the time has flown to!”

Marylin Matoon, an Oregon College of Education freshman, returned to the Monmouth campus this week after being selected queen of the first annual Oregon Winter Carnival, held last weekend at Mount Hood. Marylin was excited and thrilled over receiving the honor, but more than a little chilled by the near-zero mountain temperatures.

Queen Marylin reigned over the carnival dances Saturday night at Timberline Lodge. She was selected as queen from among candidates from 10 Oregon colleges participating in the contest. Judges for the queen contest were Lloyd Olson, supervisor of the Mt. Hood national forest; Mrs. Olop, the supervisor of the Mt. Baker national forest; Harold Christwell and Mrs.
