President Lieuallen Is Unanimous Choice

"To have the support of the faculty and the students of Oregon College of Education in this selection is the highest sort of honor. I am fully aware of the tremendous responsibility involved. To the board, the faculty, the students and the alumni, I shall devote my best efforts for the benefit of the people of Oregon the high quality educational program they mean so much to me.

ROY E. LIEUALEN, President, OCE

Dr. Roy E. Lieuallen, with the united backing of staff, faculty, and students, is the youngest president of any Oregon state college after a unanimous decision by the state board of higher education.

The appointment to the presidency of OCE was made public Monday afternoon and announced over the loudspeaker on the OCE campus. It was received by a majority of students and faculty, the civil service department heads were received with the traditional ovation, and Dr. Lieuallen and Mr. Stebbins were held Friday and Saturday when the executive committee to complete the 1955-56 student council with the exception of the freshman class, which will be elected next fall. The present status of the student council which is nine women and five men.

Reinstate Students

by Evelyn V. Neal

Three OCE students suspended from school Friday, April 22, because of their action in the administration and were all reinstated by Saturday afternoon.

History of OCE Students

The disciplinary action came after the three male students were positively identified by former authorities as the cause of a disturbance around Todd hall long after closing hours. The students were suspended from campus for the remaining time of the semester and were suspended off-campus until they and their parents could give substantial assurance that their future would be in accord with the social standards on this campus.

Parents of two of the boys were here by Friday afternoon and the third by Saturday.

Student reaction in sympathy with the men resulted in an impromptu student body meeting Tuesday morning in the administration building with President Lieuallen and the executive committee present. The meeting was to "discuss the suspension and to petition for the reinstatement of the students." According to ASOCE minutes, there was an "overwhelming feeling of opinion was that a group of students s h o u l d contact Dr. Lieuallen and present the students' point of view."

Philharmonic To Be at Coliseum

The New York Philharmonic Symphony orchestra will present a concert in Gill coliseum on May 7, at 8 p.m. and 8:30 p.m.

Executive council requested that the discussion and results be published in the Lamron. The council did not, however, make the meeting public, as requested by the students at noon, because the men were reinstated very soon.
EDITORIAL

Surprising Accomplishments

While the student reaction in the recent suspension of students did not seem to accomplish much directly, the incident made obvious several necessities: The need for a combined student-administrative discipline board, to give students a voice in their control of themselves.

The need for a publication board to arbitrate complaints between council and Lamron staff.

The necessity of a well-informed student body which would not need to depend on rumor for information.

No one made any attempt to inform students, as a whole, accurately and unbiasedly in this recent occurrence. Efforts are still being made at this writing to keep the students in the dark about what concerns them.

We believe that when students know the accurate truth and the why behind the truth, they will act wisely and well.

Express Satisfaction

"Dr. Lieuallen's appointment to the presidency of the Oregon College is a deserving reward to ge­
tlemian who has made many sacrifices and valuable contributions to our school. His interest, participa­tion and cooperation in student activities strongly indicate his sincerity in holding the best interest of the student body in trust. The students are pleased to hear of Dr. Lieuallen's appointment and are looking forward to working with him.

—Dale Harp, ASOCE president

"I think everyone is pretty happy and I'm satisfied!" —Oscar Christensen, on faculty since 1925

"I am delighted with the unanimous selection by the board of higher education. In every circumstance where his judgment has been tried he has demonstrated his exceptional abilities. I have observed that the members of the board have complete confidence in him as do we all. I consider it a great privilege to work with him.

—Ellis A. Stebbins, OCE Business Manager since 1928.

"I am most grateful and appreciative of the board's action. If I could have been an omnipotent being and could have moved the pawns the way I wanted, I would have moved them just the way they have been moved."

—Floyd B. Albin, Head of Department of Education and Psychology
