THE GRIM REAPER HAS NOT LEFT THE ROADS

Despite the lightness of our city's traffic as compared to our pre-evacuation environment, the danger of street accidents has not been eliminated.

It cannot be over-emphasized that there is an imperative need for Topaz residents to realize that even here the observance of traffic rules which have been applied in normal urban life is necessary in the interest of preserving life and property.

Among the most common precautions for pedestrians and vehicles drivers are: Walk on the side of the street facing oncoming traffic, drive within the speed limits, and slow down or stop at intersections.

HOSPITAL: Clinic patients are requested to enter from the north door, stated Chief Nurse Hannah Kringley today. Except for emergencies, the clinic will be closed on Jan. 1 and 2, it was added.

ART SCHOOL: A part of Rec 37 has been acquired by the City's art school for day and night classes beginning the first week of January to accommodate the increasing number of art students.

The public is invited to the ceremonial opening of the practice of art (kakismos) to be held at Rec 7 on Jan. 2, starting at 10 AM.
