SUCCESS SEEN FOR PROJECT HOG RANCH

That hogs can be successfully raised in Topaz was shown with the slaughtering of 11 head of hogs last Wednesday. Due to the lack of state inspection facilities locally, the butchering was done at the Kelly Packing Company at Fillmore.

Purchased last November at a total weight of 1430 pounds, these hogs at the time of slaughter aggregated 3060 pounds, a gain of more than 2 pounds per day for each hog, as compared with the pound and a half average maintained at the U.S. government experimental farms.

The cash cost of feeding these hogs was negligible, as they were fed on City garbage, cracked wheat and alfalfa hay, the only expenditure being for the alfalfa hay which cost approximately \$10. On the basis of the current market price for hogs, this represents a net cash gain of approximately \$13 per head for the 69-day period preceding slaughter.

As soon as the butchered hogs are brought back to Topaz, they will be apportioned among the City's dining halls.

NEWS BRIEFS

CHURCH: First of a series of lectures by Dr. G. Chapman, Protestant leader, will be given from 7:30 PM tonight at Rec 22 for the issue.

PAY: All December pay checks are now available at the pay station located in 4-12-B.

SUGAR MAGNATE REVEALS FARMING OPPORTUNITIES

Ford Skelly, president of the Utah-Idaho Sugar Beet Company, spent Thursday and Friday in Topaz to contact experienced farmers on sharecrop farming in Montana, Idaho and some sections of Utah.

Along with Skelly, E. E. Clyde and Jesse Day, field men of the company from Chinook, Montana and Blackfoot, Idaho, respectively, presented facts concerning opportunities now being offered by farmers in nearby states at a meeting with interested residents at the farm placement section Friday morning.

"Farmers are interested in having agriculturists from relocation centers come out to sharecrop farms. Their offer includes provision of land, water, machinery, horses, housing and sanitary facilities," Skelly stated.

"Besides sugar beets, potato and livestock farms are also at the disposal of capable Japanese. Some farmers are even offering acreage for the cultivation of any type of crops, with the proceeds going solely to the evacuees," he added.

The Utah-Idaho Sugar Beet Company will make cash advances after a certain portion of the contracted work is completed to meet the evacuees' living and other costs until harvesting has been finished and profits divided. The Farm Security Authority is also willing to assist in financing Japanese operated farms, according to the sugar representatives.

Good feeling towards evacuees is prevalent in these areas and the return of more beet workers is desired according to Skelly.

FIRE CHIEF OWEN CITES FIRE HAZARDS

Declaring that the careless dumping of hot ashes into the streets by residents was creating a fire hazard, Samuel V. Owen, chief of the Fire Protection division, advised that Topazans, in disposing of stove ashes, either cool them off before depositing them in the streets or sprinkle water on the dumped ashes.

Three recent fires have been directly attributed to the high heat retentivity of coal ashes, Owen claimed. A slight wind may blow the hot ashes against the buildings or inflammable materials, the result of which may be a major catastrophe.

It was also pointed out that children playing in the streets are exposed to the danger of being severely burned. Such an accident was reported earlier this month, according to Owen.

LEAVE OFFICE ESTABLISHED AT REC 4 TO HANDLE PERMITS

The leave office is now established in Rec Hall 4 with Frank Twohey, leave officer, in charge, it was announced by the employment division. This office will handle all applications for indefinite leave clearance.

Residents are advised that if an application has previously been made on

form 71, they should not file form 126, since this will be a duplication and only cause confusion and unnecessary delay.

Residents applying for student relocation should go to Community Welfare in Rec 23, which also handles all applications for transfers or visits to other centers.

食料自足問題解決へ

畜産事業急速に進展

既に豚を屠殺場へ送る―

食料の自給自足へ邁進してある當市では、今年度より野菜類の耕作を計画してあるが、畜産事業は既に大々的に経営を進め、肉類の自給自足については早くも十分なる見通しがついてゐるに至つた。

豚の一日増肉二斤

養豚事業の敬慕異

現在實行されてゐる畜産事業は周知の如く豚と牛でいつ小々逐次その規模を拡大し、發展の跡を見るべきものである。

太らせ、本月廿日には一頭平均二百七十八パウンドといふ好成绩で屠殺場へ送つてゐる右増肉の割合は一日一頭二パウンド餘といふ物凄さで斯くの如き好成绩を収めるといふのは養豚事業として稀に見る處である。司厨部では来る三月から毎週八千パウンドの豚肉を要求してゐるが、これに應ずるには本年度少くとも三千頭養豚事業實現の成績をあげなければ到底不可能なことで、農事

各國學生救済

ホスターの應募締切迫る

應募締切迫る

昨年暮トバズ美術學校より發表された各國學生救済目的に使用する基金募集

ホスターの應募締切は一月三十日に迫つたが、未だ第七レクホールの學校へ提出してゐない者は大至急締切りに間に合ふ様持参方を望まされてゐる。

協力してゐるか、この案は毎日二頭づゝ交代で部員一名と全牧場を見廻る任務を持つてゐる。おほ同部では飼料の増量入手を待つて更に新牛購入を計画してゐるが、そのため現在牧場の擴大フエンスの構築を進めてゐる。
