GET REPLES
ON QUESTIONS
FROM WAR DEPT.

Among the 28 questions formulated by a resident committee selected by Tae
ne Baba, chairman of the Community Council, 3 were left unanswered in Tues
day's Topaz Times until correct answers could be secured from the War De
partment in Washington, D.C.

The answers were re
ceived by Lt. William L. Tracy yesterday as fol
do: (22) Will qualified en
listees have an opportu
nity to enter the Military College Training School?
A. If inducted, possi
bility exists as in the case of every suitably
qualified American soldier of being sent to college after basic training under
the new Army specialized train
ing program to take cer
tain courses of military
value. This will probably
occur in very few cases.
(39) Assuming a draft
for those with dependents,
will the fact that a re
location center is availa
ble make any difference in
the status of dependency?
A. Under Servicemen Dep
endants Allowance Account, Class "A" dependents such as wife and children are con
clusively deemed depen
dent. As to Class "B" de
pendents such as parents, brothers and sisters, de
pendency depends upon the facts in each individual case. Fact of residence in relocation center is not con
clusive against dependen
ties, but simply another fact to be considere
(d) Has the War Depart
ment considered compensa
tion for damages and loss
e due to evacuation?
A. War Department is not considering compensation for losses due to e
vacuation. This question is probably one for ulti
mate determination by Con
gress.
