Abstract

The photo is a representation of the connection between minds. Taken with a single exposure lit by several colored lights, the translucent images show the mystery and energy of the workings of the brain. The work shows the way in which knowledge is social, and how sharing wisdom leads to new opportunities undiscovered. Analogous to research, the overlapping of minds creates interplays of warm colors, new shapes, and new faces. Yet, knowledge is also internal, bound by the shell which keeps the consciousness intact. Our thoughts and insights are our own until we choose to share them with the world. At first, knowledge is hazy, but with the help of others, it can be resolved into something sharp.
