## TO WORK ON BOOKLET FOR CALIFORNIANS

As a component part of a public relations program a special illustrated booklet publicizing the part played by the Japanese American people in the American war effort is now being prepared by a committee of the Topaz volunteers of the U.S. Army. The 14-page pamphlet will include, among others, articles on the Japanese American racial minority, army volunteering in evacuation centers and a list naming the Topaz volunteers and their respective home localities.

Copies of this literature will be distributed to various American civic and church groups, national publications, statesmen, youth organizations, educational institutions, and interested individuals in most of the central and northern California communities.

Those who wish to volunteer may still do so at Rec 4, it was added.
