Housing is to be provided free at an auto camp, and electric ranges, bedding and showers will be available, according to J. B. Peacock, representative.

At the end of the employment period, a turkey banquet is promised by the processing company.

TOPAZ LABOR SHORTAGE DISCUSSED IN MEETING

PRIZE ENTRIES

One boar and 2 gilts, raised on the Project, are being prepared by the high school agriculture students as entries in the Millard County Junior Livestock Show to be held in Delta on May 27 and 28.

The boar is a splendid specimen of a 9 month Duroc Jersey, registered as Golden Bar II, and the 2 gilts and 11 month old Chester Whites.

WRA NOT WAGE FIXING AGENCY

"WRA is not a wage-fixing agency," emphasized Dillon S. Myer, national WRA director, in order to counteract the impression the WRA endeavors to set standards for evacuees employed outside relocation centers.

Myer said, "The basic WRA operating policy is that loyal evacuees should return to normal life as soon as possible. To that end, their status with respect to employment conditions should be no different than that of anyone else."

PTA POSTPONEMENT

The PTA program scheduled for Friday has been postponed until Tuesday.

Topaz has a manpower deficiency problem which it must solve for efficient Center management.

Figures revealed by Assistant Project Director James F. Hughes at a meeting of evacuee departmental heads and Council members held Tuesday show a need for 324 more workers for the various departments if the current program is to be carried out successfully. Surveys made by the block managers indicated a labor resource of about 200 unemployed in the Center, pointing out the necessity of establishing a manpower priorities system to benefit essential divisions.

The Agriculture division, with a \$450,000 food production program to carry through, is in need of 150 additional men; the Public Works division must have 120 men for its construction program.

Also discussed at the meeting was the problem of the Center's unfavorable mental attitude, considered to be a contributing factor to the lack of working efficiency.

Committees to investigate these problems are being formed by the Community Council.

400 STRAWBERRY PICKERS WANTED

Provo farmers today urgently appealed to Topaz for 400 strawberry harvesters to help save the crop which will be at its peak early next week.

The pay is 35¢ a crate and it is estimated by local growers that workers can make about \$6 per day. Housing will be at the FSA camp and transportation will be provided by the employers to and from Provo.

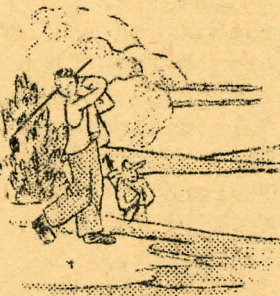

Those interested are requested to contact the Rec 4 Placement office by noon Saturday.

TOPAZ PERSONALITIES III

NICK IYOYA: he knew Churchill

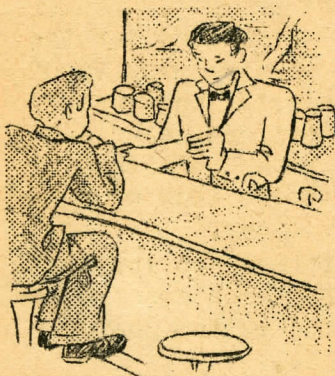

Nick Iyoya, gentleman bartender and darling of the Bay Region elite, has an awesome list of intimates that reads like the Social Register. His friends include Prime Minister Winston Churchill and his son, Ambassador Joseph Grew, Bing Crosby, Irvin S. Cobb, Lawrence Tibbet, Senator Hiram Johnson, Eddie Hill of coffee fame, Templeton Crocker, Randolph Hearst, Bill Boeing, Charles and Kathleen Norris, Roger Lapham, the coffee Folger brothers, Paul Fagan, Charles and Lindsey Howard, and a host of notables.

Once he played golf at 30 a hole with Lord Lionel Tennyson, grandson of the famous English poet, and won every hole but one which he graciously lost to save his noble opponent from utter embarrassment. The match was eagerly followed by an avid throng of socialites who made huge side wagers at ever stroke and hole.

At 13 he was already working in Honolulu as a waiter in the Pacific Club while attending school. Lying about his age at 16, Nick joined the US Navy as ward-room wine boy where he was initiated into the intricacies of mixing drinks, serving on Flagship USS Philadelphia, USS Baltimore, USS Oregon, USS Independence, and USS Monterey during the adventuresome days of the Boxer Rebellion in China and the Spanish American War.

Besides being an excellent bartender, Nick is a fluent linguist, being able to converse in French, German, Italian, and Spanish, while his graceful command of society English can be equaled by few. He acted as an interpreter between the Siwash Indians and the North Alaska Salmon Company for three years. He recalls with nostalgia the days he spent with German friends eating sauerkraut and joking in German over steins of beer.

Considered the most colorful and best drink mixer north of the Rio Grande and west of the Rockies, Nick has concocted a punch recipe, "Bankers' Cocktail", constantly requested by his acquaintances from all parts of the United States. Irvin S. Cobb, humorist and columnist, once praised him saying: "Nick, you make a better New Orleans Fizz than I ever had in all the South."

During his lifetime he made and lost three fortunes. "My associations made money easy come, easy go," Nick confided. "I guess I was an inveterate gambler in my younger days. I love the races and golf and all the indoor games."

Nick was known by everyone in the horse-racing business. He supplied many of the hot tips that circulated throughout the batting circles, besides being a frequent guest at nearby Bay Meadows and Tanforan, wagering thousands of dollars a race.

Born of a Buddhist priest-philosopher-scholar in 1881, Nick sailed to Hawaii in 1893 whence he started a restaurant on Geary Street near Buchanan in San Francisco. After 7 years he sold out and took his family to Japan for a visit in 1921. When he returned he accepted a position at the Burlingame Country Club where he bantered with Bay Region society folks and their famous guests while mixing their drinks. He remained there, loved by the club members, until he was moved to his former wagering grounds, Tanforan, last May.

DESERT Echoes

ANNIVERSARY

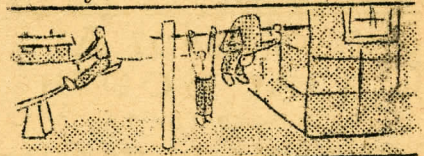

May, always a beautiful month, but for us this year, a raw reminder of another May when we were expelled from our homes and lives of tranquility to contend against the unknown. Wonder where we'll be, May 1944?

GARDENS

Meandered through the City Saturday, and noted, especially, the well-nourished flower and vegetable gardens. Makes us proud of our people, who won't permit conflicting conditions to deprive them of their inherent love for beauty and the vigor of color.

TOMATOES

Passed Block 20 yesterday and witnessed an aged woman planting 3" tomato plants with their stems muffled by a covering of paper to prevent assault and battery from insects. Made us silently pray that she would be rewarded for her efforts by having the biggest tomatoes in the county.

PUBLIC SPIRIT

Topaz should have more public-minded people like Robert Matsumoto of Block 12, who set up 2 gym bars, and constructed a seesaw for the youngsters of the block. Moreover, he informs us that he is contemplating the construction of a swing, slide, etc.

SWIMMING

Looking through the exchange papers at the office, Jack Kawakami, circulation helper, wailed, "Gee, Poston's got a swimming pool!" Well, we can always have a dust bath.

INITIATION

Girls resembling harassed Medusas with 10 pig-tails jutting out uncontrolled from all parts of their heads, and wearing zo-li, ge-tas or galoshes could be observed all of last week at the high school. Seems as though it was initiation week for Topaz Girl Reserves.

CANADA PROPERTY LIQUIDATION SET

With the completion of arrangements by Canadian government officials, liquidation of Japanese-owned property located on the Canadian Pacific coast is expected to begin very shortly.

According to the "New Canadian", "there is every indication that the Canadian government is preparing to go ahead with its arbitrary liquidation with the appearance of advertisements offering properties for sale in the newspapers probably this week."

The Japanese Property Owners' Association, which was formed recently to fight the government's attempt to liquidate their property, will contest the legality of the sale.

The gatherings are open to all young girls at 2:30 o'clock Saturday afternoon at Recreation Halls 20, 36, 8, and 34.

WRA ISSUES NEW RULES FOR MAKING ARRESTS; WARRANT NEEDED

New regulations on internal security governing the procedure for making arrests by project internal security officers have been issued by the Washington office of the War Relocation Authority.

Before a police officer can arrest an offender against law and order, he must secure a signed warrant issued by the project director. The only exception to this is that a policeman may arrest an evacuee for an offense committed in his presence.

Specific procedures for

The right of American citizens of Japanese ancestry to their citizenship was affirmed last week when the Supreme Court of the United States refused to review the Regan case, it was reported in the Pacific Citizen.

This action was in accordance with that of the US Ninth Circuit Court of Appeals in San Francisco, which had sustained a decision of US District Court Judge A. F. St. Sure who had refused the suit, brought up by the Native Sons of the Golden West, on the ground that it had already been ruled upon by the Supreme Court.

The Native Sons through its grand secretary, John T. Regan, had brought suit to have the names of Japanese Americans eliminated from the San Francisco list of voters and that all Americans of non-white ancestry, except Negro Americans, be denied the right of franchise.

In order to aid in financing its publication, the staff of the Topaz high school yearbook will give a Swing Session this Saturday for couples only from 6 PM at Dining Hall 32. Bids will sell at 15¢ per couple and may be obtained at Rec 20 or 10.

trying cases promptly and for releasing defendants on bond, at the discretion of the project director, are also covered in the new regulations. These procedures correspond closely to those in effect at any city police court except that an offender may be released on bond while awaiting trial without putting up bail. His personal word that he will report for trial when notified and that he will not leave the project premises is considered sufficient.

WRA Press Release

REORGANIZATION OF WELFARE DEPARTMENT COMPLETED

Hit by the loss of 25 staff members in the past few weeks, the Community Welfare section today announced a complete reorganization of its family services department.

"Up to now," stated George L. Lafabregue, head counselor, "we have been taking our services to the community residents through our block workers, but because of the acceleration in the relocation program, we are forced to recall our workers from the field and reorganize along functional lines.

"However, this streamlining should not affect the services the Welfare section is rendering the community. In fact, we are establishing a new department, the family relocation bureau, to facilitate through consultations the relocation of whole families."

Residents are welcome to call at Rec 23 for the following services:

1. Personal services--visits, transfers to other centers, Red Cross messages, funerals, adult probation, letter writing,
2. Public assistance.
3. Family relocation bureau.
