I know I speak for our staff in extending to each of you a cordial and friendly welcome to OCE's summer session. We want to do our share in making your study here a rewarding experience.

Cordially yours,
R. E. LIEUALLEN,

Sign-up Starts for Grade School Summer

The Oregon College of Education summer school for children will begin next Monday, June 24. The program, which includes elementary school work for all levels from kindergarten to the eighth grade, will be held in the Monmouth Elementary school building. The program will be supervised by Dr. William S. Wagner, director of student teaching and principal of the local elementary school.

The school will meet from 9 a.m. to 12 noon, Monday through Friday. There will be a recreational program held in the afternoons from 1 p.m. through 3 p.m. for all children of elementary school age. The summer school for children will end on Wednesday, August 7.

There will be no charge for children in grades one through eight, however a fee of \$5 for the six weeks will be charged for each child in kindergarten. This fee is payable in the elementary school office.

Registration forms, which may

be obtained at the Monmouth Elementary school office, should be completed and returned as soon as possible. It may be necessary to limit the size of some of the classes, but children of summer term college students will have priority over others. The age requirement for kindergarten is five years of age by November 15, 1957; for the first grade, six years of age by November 15, 1957.

Emphasis in the grades will be placed upon work which will enrich but not repeat the work of the preceding grade, although achievement in skills will be stressed when needed. Swimming instruction will be provided as a part of the regular elementary school program. Three one-half hour periods of instruction will be offered each week for every child from the first through the eighth grade. There will be a fee of \$4 to cover the cost of this program.

Parents are advised to register their children as soon as possible if they wish to enroll them in summer school.
