Monmouth, Oregon, Monday, July 11, 1960

Oregon College of Education

Master's Exams To Start July 29

Examinations for graduates entering the masters program at OCE will begin Friday, July 29 at 1:30 p.m. according to the office of Dr. Walter Snyder, director of the summer session.

The first examinations will be written; the first section will cover general education with the second section following at 8:30 a.m. the next day and covering professional education. Students should allow about three hours for each examination. The oral examinations will be August 5.

The elementary degree testing falls into two areas, that of contemporary development and in research, evaluation, curriculum, foundation procedures as well as psychology and public and professional relationship. The secondary education degree includes testing in the area of academic specialization.

OCE TV Circuit Gets Initiation

The first OCE closed circuit TV classroom observations began in July to determine and solve any technical problems which may arise before the next school year when this TV system goes into effect officially. Classroom observation periods have been telecast beginning July 6 and a weekly schedule of the remaining periods will be printed in the Lamron. The main observation room is located in the Monmouth Elementary School, room 120, and anyone who wishes to attend these telecasts is welcome.

Starting July 6 through 8 from 10 to 11 a.m., Victor Lund used the TV for observation of the fifth through the eighth grades and observation of playground activities was tested July 6 to determine its value in this field.

New Student Center Nearing Completion

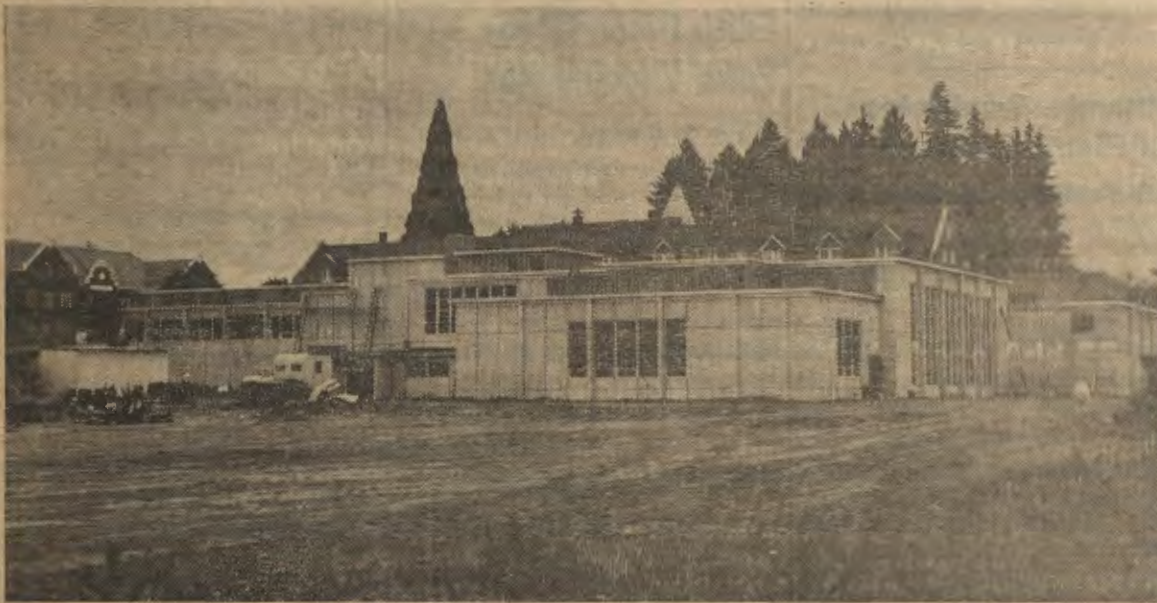

The construction of OCE's new student center is now nearing completion. Roy R. Seeborg, director of the student center, reports that the tentative completion date is August 15 and that it will be occupied as soon as possible after completion. The new building is intended to be ready for general use in time for Freshman Week beginning September 20, 1960.

When finished the new student center will be a two story building with a main floor and a lower floor. Located on the main floor will be a snack bar and leisure time room with booths, tables and chairs and attractive furniture groupings, giving this area of the building an atmosphere of casual comfort. Also

included on the main floor will be a main lounge with nine furniture groupings accommodating 6 to 10 people in each grouping, a large conference room to be used by appointment, two large committee rooms, a large student council room, three student offices for student body officers, coat room, post office, administrative offices, and a men's and women's lounge.

The lower floor will include a large recreation area including ping pong tables, pool and billiard tables, card tables and other recreational facilities. Also located on the lower floor will be the Lamron offices, Grove offices, dark-room for photo finishing, a student supply and work room, college book store and storage areas for books and general storage. The dining commons for dormitories and public uses will be located in the lower section of the student center.

New Student Center Nears Completion

Final touches of completion are being administered by workmen on the new student center building in hopes that it will be finished by the tentative August 15 deadline. Plans are already being made for moving into the new building by anxious occupants of the new building.

July 27th Set For Lecture

According to Mrs. Virginia Stump, dean of women and director of summer activities at OCE, Dr. Anton Postl's lecture entitled "Can We Look to Science" scheduled for the graduate-faculty evening on July 20 has been changed to July 27. On July 20 Dr. Howard Halvorsen will conduct a musical evening in conjunction with a chicken feed. Dr. Halvorsen is a visiting professor from Stanford university.

The graduate-faculty meetings are held in the library lounge at 7:30 p.m. on Wednesday evenings.

Geologists Travel

Dr. Anton Postl, professor of science at OCE, has planned two field trips this summer for the 13 members of his class in Geology of the Pacific Northwest.

The first field trip scheduled for Saturday, July 9, took the students to Depoe Bay on the Oregon coast via Corvallis and Newport.

On July 30 and 31 a trip to central Oregon is planned. The students will travel to Bend via the South Santiam, and will view Lava Butte, Newberry Crater, Ochoco, John Day, and other places of geologic interest in that area.

The complete itineraries for these trips, including maps and mileages, are published in a field guidebook of geologic trips along Oregon highways which is available at the OCE bookstore.

A few extra spaces are still available for OCE students with a background in geology. Persons wishing to go may contact Dr. Postl.

Pentacle Rehearsals Underway On Play Scheduled July 19-23

Rehearsals for the forthcoming play, "The Visit" to be presented July 19-23 by the Pentacle theatre group, are now in progress nightly at the Pentacle theatre grounds.

The Pentacle theatre group was started six years ago by a group of recent Willamette university graduates. During the last six summers of Pentacle production the plays have been successfully presented and have attracted a large following of dramatic enthusiasts throughout the area.

The demand for tickets has been great enough that many people have been unable to secure tickets to the performances they wished to attend. People familiar with the Pentacle and its productions order tickets one or two weeks in advance.

Tickets may be obtained in Salem from Stevens & Son's jewelers and Del's bookstore. Prices are: Sunday through Thursday, \$1.25 per person; Friday and Saturday, \$1.50 per person.

Speaker Reveals Effects of NDEA On Nat'l. Defense

At the OCE graduate faculty luncheon Wednesday, June 29, Oscar Christensen discussed the National Defense Act of 1958 and its effect on our national security by advancing the education of our talented youth.

Oscar Christensen, consultant in guidance counselling and testing for the Oregon State Department of Education, pointed out that the law originated because the security of the nation was thought to be at stake due to insufficient numbers of our talented youth attending college. Areas of most concern as stated in the law were in science, math and foreign languages.

Title III provides financial assistance to schools who meet the state standards for the purpose of acquisition of science math apparatus. Through these funds the state has been able to provide three consultants — one in math, one in science, and one in foreign languages.

Title V provides financial assistance in the guidance and counseling field with the intention of identifying and encouraging able students to continue their education.

Assistance is available to increase counseling time, provide clerical assistance for counseling, improve testing programs, build professional libraries and the purchase of occupational literature.

Alumni - Graduates To Picnic In Grove

Wednesday, July 20, at 6 p.m. is the time set for the Alumni and Graduate club sponsored picnic to be held in the OCE grove.

The menu will be broiled chicken, with the trimmings prepared on the grounds, by Ed Hayes of Dallas. Alumni, students, faculty and their families are welcome. Tickets must be purchased at the OCE business office by noon on Friday, July 15. Prices are \$1.50 for adults, 90 cents for children under 12.

Entertainment with group participation will be led by Dr. Howard Halverson of Stanford university.

Traveling Children Go To Oak Grove

Migrant workers' children began going to school June 27 at the Oak Grove school, north of Independence. The school is primarily for the education of transient students who have little chance for a formal education. OCE is beginning its third year of contract with the State Department of Education to instruct these youngsters in the basic study program.

Director of this program is Miss Helen Redbird, a teacher at the Monmouth elementary school during the winter months. Miss Redbird is assisted by Hilda Hallman and Don Faber plus Dorothy Trolland, a student teacher.

Enrollment in this school varies but now reaches 16. Grade range of the children is the first through the eighth grade. Because of their frequent moves and because they speak Spanish, most of the children are retarded about one year in comparison with the average school child. The children come to the school via school bus from Horst Camp, Walker Camp and Sunset Camp. Their books and supplies are furnished by the state. Basic studies for this group are arithmetic, health, language and English.

Two problems in trying to educate these children are the fluency of English and attendance. The school will operate for six weeks.

Edith Olson Urges Polio Vaccine Now

Now is the time to take advantage of the polio vaccine available to OCE students, according to Miss Edith Olson, director of the OCE health service. The cost is \$1 per vaccination.

Students wishing to check the dates they received previous polio injections since the program began at OCE in 1956 may do so at the health service.

Club Holds Election

The Square Dance club held its weekly dance in the college gymnasium July 7, from 8:30 to 9 p.m. Next week Thursday, July 21, election of officers will be held. Everyone is invited to attend club meetings.

Mrs. Neuberger Opens Campaign By Attacking Elmo

"If Elmo Smith favors these vital pieces of legislation, he must be opposed to the official position of the Republican administration." In citing particular measures, Maurine Neuberger launched her political campaign for senator on the Democratic ticket at the OCE graduate luncheon last Wednesday, July 6.

Mrs. Neuberger's opponent will relate his program and position Wednesday, July 13, when the graduates will host the Republican candidate, Mr. Smith.

Mrs. Neuberger pointed out differences between her political philosophy and that of Mr. Smith, relating that voters in Oregon will have the opportunity to choose between candidates who differ probably more than in the previous history of Oregon's senatorial contests.

Opening remarks of the late Senator Richard L. Neuberger's wife were: "This has been an unusual Fourth, a new star has been added," she continued to mention the value of our flag's two additional stars. Turning then to her opponent's record, she stated that "professional public relations men are trying to remake Elmo Smith into a 'modern Republican'." She added that she has no public relations man but writes her own speeches.

Mrs. Neuberger cited several pieces of legislation in which she believes including equal rights for all Americans, the federal aid to education measures, increasing minimum wages to \$1.25 and aids to housing through a general housing bill. She also stated that the position of the government must be an enlightened and progressive role in the modern world.

Mrs. Neuberger told of considerable differences in her past voting record and that of Mr. Smith. Graduate students may call Todd hall for reservations for Wednesday's luncheon; this will provide an opportunity to hear Mr. Smith defend the Republican policies as he launches his political rocket on the OCE campus.

OCE's Humanities Position Filled By David Cooper

A new staff position in humanities and education at OCE will be filled next year by David Cooper, a former English teacher and education instructor.

Cooper will come to the campus next fall as an assistant professor of humanities and education.

The past year he has been on the staff at Stanford university as an instructor in education. He was on leave from Sequoia high school district in California where he was an English teacher and counselor. Cooper taught at Sequoia high for eight years and previous to that taught four years in New York City high schools.

He earned both the bachelor of science and master of science degrees from the City College of New York. His major areas of study were in English, teacher education, curriculum and educational administration and supervision. He has been doing work toward his doctorate at Stanford.

OCE Book Exhibit At Library July 11 - 15

The OCE library is hosting a book exhibit this week, July 11 through 15. The general public is invited and the library will be open at the regular hours. The books will be on display in the browsing section of the library.

This exhibit contains both fiction and non-fiction books published in 1959 and 1960. The exhibit will contain 600 books ranging from kindergarten through high school levels. There are 31 subject categories. The fiction area breaks down into 15 subdivisions.

The primary purpose of this exhibit is to provide school personnel, teachers and librarians, with an opportunity to examine the new library books. An important part of the exhibit is an annotated, graded, indexed catalog which lists the complete collection.

No books will be sold and no orders will be taken.

Art Class To Travel To Culture Centers

Starting at 8:30 on the morning of July 13, Dr. Kenneth Yost will lead his art appreciation class to Portland to visit art attractions there. Students will leave on a chartered bus and the first stop in Portland will be the Oregon ceramic society. They will see part of a special show about Japanese pottery. Kenneth Shores, a resident potter, will give a demonstration. Oregon ceramic society is unique in that they sell weaving, prints and paintings done by Northwest artists. The society has a display room and a shop.

At noon the class will eat lunch at the Portland State college student center. They will then go to the Portland Art museum, where an exhibit called "20th Century Design: USA" is on display. This is a survey of articles well designed for everyday use co-sponsored by eight American museums. On exhibit are scientific and medical articles, housewares and accessories, appliances and equipment, kitchen wares, furniture and lamps, toys, sports equipment, leather goods, business machines, office equipment, tools and precision instruments.

The class will return to OCE by 5 p.m.

OCE Grad. Women Now Eligible For AAUW Membership

Women graduates of OCE are now eligible for membership in the American Association of University Women. The AAUW has approved OCE to provide membership eligibility as the result of an extensive study of the campus last spring by an officer of the organization. Approval of an institution is based in part on the quality and number of staff members who are women. About one-third of the OCE teaching staff is composed of women.

The AAUW is the largest organization of university women in the world. Its headquarters are in Washington, D.C.

OCE has a chapter of American Association of University Professors.

Hanson Leads Polk's Program

Polk county college students elected Henry Hanson, an OCE student, to head the student committee of "Colleges for Oregon's Future" program in the county. The meeting was held in the library lounge Thursday, June 30 on the OCE campus.

Attending the meeting were students from the University of Oregon and Gary Gibson, Henry Hanson, Don Toevs, Mike Wendt and Dot Neuschwanger of OCE as well as Wallace Johnson and Dean Virginia Stump of the OCE staff.

Len Calvert, representing the Chancellor's office, explained the urgency and importance that the public understand the measure.

Hanson has stated that the chief enemy of the measure is "ignorance and confusion" and added that bond measures usually mean higher taxes but that measure six does not involve a raise of taxes.

The measure involves the changing of one phrase in the Oregon constitution; the words "assessed valuation" would be changed to read "true cash value," a change that would more than double the amount for which the state may bond for building facilities on college campuses.

Hanson had called for another meeting last Thursday to further organize county collegians in explaining the measure to Polk county.

New Office Hours

The registrar's office is open Monday through Friday from 1 to 4 p.m. and on Saturday from 9 a.m. to 12 noon. This is the new summer schedule of hours and will be in effect throughout the duration of summer session classes.

Workshops Add 55

The summer school enrollment at OCE for 1960 is 779, with 55 of these students enrolled in workshops. In the workshops 28 have enrolled in "Music in the Classroom" and 27 have enrolled in "Materials and Techniques of Art."

♦ U-PICK Raspberries.—Mulders Rt. 3, Box 119, Dallas. MA 3-3732. 10c pound. 2tS2

Colored Films on Summer Schedule

Educational films and travel films will be shown to all interested students wishing to spend an evening viewing colored films.

Some of the mysteries of life behind the iron curtain will be revealed in a 67-minute color film "This Is Russia," to be shown at the music hall auditorium, Monday, July 11, at 8 p.m.

Travel films will be shown on Friday, July 14, at 8 p.m. also in the music hall auditorium. Included in this showing will be the films "Enchanted Isles" and "Family Afoot in the Yukon." "Enchanted Isles" includes a spectacular film trip to the South Seas and the islands of Polynesia, plus beautiful scenes of palm-fringed, coral-studded lagoons, schooners, whale boats, natives spearing fish in the surf, and the story of the islanders gathering copra. "Family Afoot in the Yukon" shows the realization of the Albees' dream of exploring a primitive wilderness with two small children.

Tulip Tree Blooms

Have you noticed that the tulip tree on the campus is in blossom? It is located near Maple hall in front of the laundry. It has reached a height close to 80 feet. The leaves are square-cut and shining dark in color. The flowers are an attractive pale green marked with orange.

The tulip tree, which is attractive as a shade tree, is a hardwood. Commercially it is used for paneling or veneer. Its scientific name is musical to hear—Liriodendron tulipifera.

THE OCE LAMRON

5 Achieve 4-Points Many Make Honor Roll Spring Term

Five students earned perfect 4-point grade averages at OCE spring term. Another 44 students earned a 3.5 or better to make the honor roll.

The 4-point students are Sharon Cole, Beaver; Jo Ann Lunas, Creswell; Ann Flesher Linn, Hood River; Arlene J. Wade, Portland; LaVeda A. Redfield, Salem.

To be on the honor roll a student must carry a minimum of 15 credit hours and earn an average of 3.5 or better. The grade-point is computed by counting an A as four points; B, three points; C, two points, and so on.

Students on the spring term honor roll were: Louise D. Anderson, Charlotte D. Ferres, Patricia J. Griffin, Claudia C. Ingebretson, Shirley A. Spence, Barbara R. Stout, Nancy A. Williams, Portland; Donna C. Birch, Claire L. Brown, James Aden Brown, Marjorie E. Christianson, Laticia A. Gunn, Lorraine V. Jenkins, Sandra L. Maas, James E. Ritter, Pamela Wyatt, Salem.

Patricia R. DeLong and Alice J. Stowe, Albany; Rosalie K. Cole, Beaver; Patricia L. North, Cannon Beach; Barbara J. Swensen, Coquille; Carolyn L. Riess and Garland R. Sprick, Corvallis; Jerry J. Dick, Sherry M. Moffitt, Marily L. Zabrosky, Dallas; Rose M. Krautscheid, Hillsboro; Delores J. Vawter, Independence.

Linda A. Ellsworth, Langlois; Kenneth D. Kirkelie, Lebanon; Peggy J. Carson, Marcola; Lenore G. Lee, Mill City; Gary E. Corson, Jean M. Ferguson, Stanley L. Girt, Patience Reynolds, Sybyl E. Smith, Monmouth; Donald A. Habel, North Bend; Nancy Gillam, Prineville; Carol J. deLange, Seaside; Cecil F. Baird, Sheridan; Nancy J. Curtis, Springfield; Louise G. Wilson, Tigard; Mutsuo Ageno, Wailuka, Hawaii.

The Puerto Rico National Guard may well be the oldest "territorial militia" organization in the western hemisphere. It was first organized in 1598 by the Spanish explorer Ponce de Leon. In 1797 the militiamen defended San Juan against the English. Today, the National Guard of Puerto Rico is an element of the U. S. defense team.

Frolander Discusses Oceanography Theme

Oceanography was the subject discussed by Dr. Herbert Frolander at the all campus assembly last Tuesday. Dr. Frolander is an associate professor of oceanography at Oregon State college and has taught and studied biological oceanography at the University of Washington in Seattle and also in Rhode Island.

The department at OSC, originated in 1954, is primarily interested in studying the distribution of plankton in the Pacific area and is working in the Yaquina Bay area at the present time.

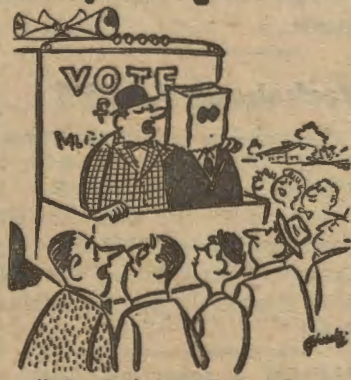

In referring to salmon in the Pacific, Dr. Frolander mentioned that nations established lines as boundaries but fish do not know of such lines; in other words, "Whose are they?" He went on to explain that fish may be tagged off the coast of Oregon and picked up by the Japanese. In this way an idea of fish migration is established.

Dr. Frolander took his audience on an oceanography trip to the Aleutian Islands by way of showing film slides. After the assembly students examined the specimens displayed by Dr. Frolander.

Morton Takes Leave

Jack D. Morton, registrar at OCE, has taken a leave of absence this summer to work toward a doctorate at Oregon State college. During Morton's absence Dr. Floyd Albin, director of general education, is acting as registrar. Morton will return to OCE this fall.

My Neighbors

"They're running him as their dark horse candidate."

Swim Enthusiasts Prove Prowess

Instruction in competitive swimming techniques is being offered at Wolverton memorial pool Thursday evenings from 8 to 9 o'clock. The instruction is for youths of either sex from 7 to 16 years of age. They will be placed in ability groupings according to their prowess as swimmers.

Dr. William McArthur is in charge of the program and he reports that complete instruction in competitive swimming techniques such as starts and turns, proper breathing, and pacing ones-self will be given. Races between participants will be held after the ability groupings are determined and ribbons will be awarded to the winners of each event.

Thus far the program has been reported as a success and interest is running high. All interested individuals are welcome to attend and participate. Energy and willingness to learn are the only prerequisites needed for beginning enthusiasts.

Washington Director Speaks On Guidance

Dr. Arthur Hitchcock, executive director of the American Personnel and Guidance Association of Washington, D.C., will be guest speaker at the all campus assembly at 11 a.m. this Tuesday in the music hall auditorium. His topic will be "Guidance in an Expanding World."

Dr. Hitchcock, who is teaching a two-week advanced guidance workshop at Oregon State college this summer, received his bachelor's degree from West Linn university in Connecticut, his M.A. from Harvard, and his Ph.D. from Yale.

Despite an impressive background of educational activities which includes lecturing at Harvard's graduate school of education and teaching at the University of Nebraska, Hitchcock is most proud of being elected PTA president in Montgomery county, Maryland, and serving as a member of their citizens curriculum committee.

Dr. and Mrs. Hitchcock and their two boys will spend the remainder of the summer at a cottage on the Oregon coast.

Coming Events

(July 11 — July 15)

Monday—July 11

- Second music and art workshops open
- 4-5 p.m., all campus recreational swim
- Pentacle Theatre—"The Visit" all week
- 8 p.m. Movie—"This Happy Feeling (color) Music Hall auditorium
- 7-8 p.m. High School Swimmers only — Pool
- 8-9 p.m. Drown-Proofing Seminars — Pool

Tuesday—July 12

- 11 a.m., All College Assembly, Dr. Burton, "Critical Reading" Music Hall auditorium
- 1-2, 2-3 p.m. Ed. Film Previews Music Hall auditorium
- 4-5 p.m. All Campus Recreational swim
- 7-8:30 p.m. Faculty and Staff swims
- 8:30-9:30 p.m., Adult Women's swim class

Wednesday—July 13

- 12 noon, Graduate Faculty luncheon, Todd hall dining room, Dr. Garrison
- 4-5 p.m. All Campus Recreational swim
- 7-8; 8-9 p.m., Public Family swim night
- 7:30 p.m., Graduate Faculty evening, library lounge; Dr. Halvorsen

Thursday—July 14

- 3:4:30 p.m., All Campus Social hour, Library Lounge
- 4-5 p.m. All Campus Recreational swim
- 7-8 p.m., Public Family swim night
- 8-9 p.m. Polk county race night pool
- 8-9:30 p.m., Square Dancing in gymnasium.

Friday—July 15

- 7:30 p.m. Family cartoon festival, Music Hall auditorium

King's Subject Russia

Mr. Jim King, superintendent of Lebanon schools, will speak in the Library lounge at the graduate faculty evening on Wednesday, July 13 at 7:30. His subject for the evening will be, "Education in Russia." Mr. King plans to show slides taken in Russia and to present his audience some of the differences between Russia's educational system and our own.
