NUMBER 3

## Wolves Defeat Humboldt 33-0

### Coach Wolfe's Fighting Men Experience Little Trouble With California Rivals

Coach Larry Wolfe's men experienced little trouble defeating Humboldt State Teacher's college from northern California Saturday morning on Butler field by the overwhelming score of 33 to 0. Three complete teams were used by Wolfe to score five touchdowns against the visitors.

The game was rather slow but some brilliant open field running and spectacular line work featured the sixty minutes of play. Jimmy Clark and Harold Edwards in the Monmouth backfield and Tim Amundson and Doc Masson in the line, played nice ball. For Humboldt, Derby and Harrison were the big shots. Harrison made some nice gains on reverses but had little help from his team-mates of vital importance.

Humboldt won the toss and elected to receive. Watkins kicked off to the California ten-yard line. Simpson returned it to the thirty-two. On three smashes at the line, the green-shirt men made yardage on the teacher's forty-five yard but were forced to punt on the next series of plays. A punting duel between Brantley of California and Engebretsen of the crimson and gray occupied the biggest part of the first quarter with the Normal men having the edge. With the ball in mid-field, the Normalites started a march that netted a score. Edwards, on center smashes, carried the ball to the visitor's twenty yard line. Engebretsen shot a pass to Gordon who ran it to the California 3-yard line.

(Continued on Page 4)

### Committees Appointed At Meeting of Council

Tuesday afternoon the newly organized Student Council met for the first time this year. Appointments of chairmen for the standing committees were made by the president, Helen Osborn. They are:

Social ..... Edna Starret  
Debate & oratory, Magdeline Lindberg  
Publications ..... Lucile Henkle  
Awards ..... Earl Chamberlain

This year a new type of athletic control is in use. A committee consisting of a junior and senior council member, the president of the student body, three faculty members appointed by the president of the faculty, and the executive secretary as an ex-officio member, compose the athletic control committee. The council members for this committee were elected, the junior member being Lee Stewart and the senior member, Harold Edwards.

The members of the student council for this year are:

President ..... Helen Osborn  
Vice-president ..... Ted Pfahl  
Secretary ..... Esther McCracken  
Senior members: Edna Starret, Lucile Henkle, Earl Chamberlain, Harold Edwards.

Junior members: Magdeline Lindberg, Winibeth McDowell, Lee Stewart, Edward Taggart.

Faculty advisers: Edna Mingus and Dean Butler. (Mr. Stebbins, the executive secretary, is an ex-officio member.)

### Two Teacher's Institutes Attended by Miss Smith

Last week Miss Smith had the pleasure of attending the teacher's institute at Pendleton and Baker, Oregon, spending a day at each city.

Tuesday evening Miss Smith left Monmouth for her trip to Eastern Oregon. She went from Portland on the Portland Rose. The train, it was reported, is worked in a very unique design of roses, while the service on the new train is not only remarkable, but almost beyond belief.

At Baker Miss Smith was met with much enthusiasm. Each teacher was eagerly thirsting for the knowledge that would come to her through Miss Smith's talks on Phonetics and Reading. To them, Shall we or shall we not teach phonetics? was a thing not only of vital but grave importance.

Teachers, who had taught for many years were still teaching and teachers of wide experience were eager to obtain new material at the institute. Miss Smith had the pleasure of meeting Miss Houx, who is now in charge of the teacher's training department at the Eastern Oregon Normal school. Miss Houx spoke on the topic of the "Trouble Shooting Seminare," which made an impression on all those who attended.

In conclusion, Miss Smith stated that she had a very enjoyable time and knew that each teacher went forth better prepared for the on-coming year.

### Elery Walters, a Speaker In Tuesday's Chapel Meet

Elery Walters, world famous author of "The World on One Leg," was presented at chapel, Tuesday, October 14. At the age of 14 years, Elery Walters was put on his own by the death of his parents. He worked his way thru Franklin high school, at Seattle, and the year he went to University of Washington. At U. of W. he was president of his class for two years and was a member of the rowing team. While on the team he developed a blister on his heel, which became infected.

After the infection he left Seattle with \$15 and a ticket for Honolulu, where it was necessary to remove the foot. After the loss of his foot, he decided to "do" the world, and he "did" it, arriving in New York with no friends closer than Seattle and 45 cents in his pocket. He sold a magazine article and returned to Seattle. One of the very unique things about his trip, was that after travelling 45,000 miles, undergoing 19 operations, tutoring two small girls for several weeks and writing several magazine articles, he arrived in Seattle with \$1 more than he had when he left.

So interesting were the experiences of which he told with such delightful humor, that the audience received him with exultant enthusiasm in which they showed their eager desire to hear more of his story.

### Social Committee Meets Plans for Formals Made

A meeting of the social committee of the student body was held Wednesday, October 15. Plans were made for the management of the junior and senior formals which are scheduled for the seniors, October 31 and for the juniors, November 1. See your handbook.

Winibeth McDowell was appointed general chairman for the juniors and Carol Webster for the seniors.

Guests slips must be in by October 23.

## Oregon Normal Plays Chico Next

### Wolves to Meet Chico in the Hardest Game of Season Three Victories Won

With three easy wins under their belts the Wolves face the hardest game on their schedule when they tangle with the Chico Teacher's college aggregation Saturday in the California city. Twenty-two men, the two coaches, and four faculty and townspeople will go with the team. Coach Wolfe has not as yet named the twenty-two men that he will take, leaving here early Thursday morning.

Last year a small band of Wolves went to the Multnomah stadium in Portland, kicked over the old dope bucket, and gave Chico a 12-0 trouncing. The dope bucket is tilted to the California team to win with their 58-0 victory over Humboldt college while the O.N.S. squad took the same team into camp by a lesser score. The Chico team is reported to be heavier, faster, and more powerful than last year's eleven. The heat will also have a telling effect upon our team. It is very warm this time of the year in Chico.

To help solve the heat question, Coach Wolfe is equipping his men with white jerseys with large red numbers on the back.

Although the dope favors the California team the coach may have a trick or two up his sleeve that may upset predictions. However, the game ends the Chico team will certainly know that they have been in a ball game.

### Tennis Tournament Shows Ability of O.N.S. Students

The tennis tournament being held under the direction of Bonificio G. Jacob, is very successful in that it is bringing out the ability of the O.N.S. racketeers.

The finals promised to be between Holt and Jacobs from Lincoln high school in Portland, but the latter was downed in the semi-finals by A. Rakkalo. Jacobs was beaten previously, but evidently was not up to his prime.

The men's finals will be held Tuesday, when Rakkalo meets the winner of the Holt-Rogers match.

For the women, W. Sosdick and M. Riley will come up for the championship sometime next week. Riley has a slight margin to win, but Sosdick may upset all expectations.

A list of mixed doubles is now on the bulletin board and all who are interested should sign immediately.

### MORONI OLSEN PLAYERS Present

## "The Ship"

8:00 P.M. October 27

### Individual Socialized Plan at Rural Centers

The two training centers of the rural department, Oak Point and Greenwood, are demonstrating what can be done in individual socialized work.

The children begin their work where they left off in June and are proceeding at their own rate of speed in all tool subjects. They are broadening their knowledge of the social subjects individually by reading and experimentation.

It is the plan of these two schools to completely eliminate the traditional recitation period, probably by the first of the year. For the first time the children are having the supervision of the music and physical education departments. A new feature in both schools is that of clay modeling. Oak Point will have an outdoor kiln very soon—Greenwood after the holidays.

Students who go to these schools for their practice teaching are those majoring in the rural field, or wish to better understand individual-socialized instruction.

At Oak Point are: Thelma Jenkins, Gladys Overton, Mamie Sandy, Jessie Brown, Irene McReynolds.

At Greenwood: Evelyn Hadsell, Wilma Mierjurgan, Florence Neildt.

### Art Club Initiation Enjoyed at Arnold Arms

A very lively and unique initiation of new members into the Art Club was enjoyed at Arnold Arms Wednesday evening with Genevieve Groves, president of the club, as hostess. After the ability of the new members was thoroughly proven and they were found worthy of being admitted into the club, all the members participated in a pleasing contest. Ellen Sernio was the winner and was presented with a prize by Halley Johnson, treasurer. Genevieve Groves entertained with a comic reading. Delicious punch and cookies were served.

The Art club is an organization of students who are particularly interested in and have ability in the art field. Membership is limited, vacancies being filled as they occur. The club works under the personal direction of Miss Peterson, faculty adviser.

### Purpose of Debate Club Stated; Officers Elected

The debate club met Tuesday and elected the following officers:

President, Earl Steward; vice-president, Bessie Price; secretary-treasurer, Winibeth McDowell; Reporter, Jack Clarke.

The purpose of the club is to stimulate interest among students and faculty in forensic activities; to help Coach Berreman get in touch with promising material for varsity teams and to increase attendance to our varsity forensic contests.

A committee has been set to work drawing up a constitution and program of activities.

Coach Berreman says, "The debate material at hand is of high quality and the outlook for the coming season is bright."

### YWCA MEETING

The first meeting of the YWCA will be held Tuesday evening, October 21 in room 13 at seven o'clock. Miss Wood, the president, will preside; and a general discussion will be held concerning the activities of the group for the coming year. Any girl interested in YWCA is invited to attend.

## Moroni Olsen To Present 'The Ship'

### Talented Company to Play In Chapel October 27 Final Tour Here

A company of players in which there are no stars and in which almost anyone may find oneself playing leads one time and butlers the next, and—in the company's beginnings at least—playing actually janitor if one happened to get to the rehearsal hall first—that is the First Circuit Repertory company of the Moroni Olsen players, which comes in "The Ship" to the Oregon Normal auditorium theatre on October 27.

Moroni Olsen, Janet Young, Byron Foulger and a group of half a dozen, all of whom had stage successes to their credit and very bright careers on Broadway beckoning, got together seven seasons ago and simply "went idealistic."

"Going" idealistic means, in this case, laying aside the almost certain conventional success that awaited, and undertaking a theatrical scheme that, on the face of it, any experienced person would have told them was bound to fail.

A circuit repertory company, traveling the west and bringing a type of distinctive plays that no road company would dare to bring in the ordinary course of things because it was "high brow" or something of the sort—that was what they launched.

And like the proverbial old man's improvised flivver — "the durn thing ran!"

Janet Young, one of the original founders of the company, reappears in the role of Grandmother Thurlow in "The Ship."

Moroni Olsen, who is cast as John Thurlow, the hard driving ship builder, is the "trade mark" that one sees in silhouette on the literature that has heralded the tours of the company in the west for the past seven seasons.

Robert Young, who makes his first appearance with the first circuit repertory company of the Moroni Olsen players, is an actor of ability and experience, and is cast in "The Ship," in the difficult and important role of Jack Thurlow, the young man who revolts against his father's "machine mania" and seeks to return to rural life, with result which make the tragedy and power of the play.

Leora Thatcher, who plays Mrs. Thurlow, has endeared herself to the followers of this play group chiefly in her character roles; for Miss Thatcher is a character woman of unusual ability.

(Continued on page 3)

### MacDowell Club at Work New Officers Elected

At the regular meeting of the MacDowell club Monday, October 13, it was found necessary to elect another girl to the office of treasurer. Jean Campbell was formerly elected secretary-treasurer but as the constitution states that there should be an acting member in each office, Margaret Fuller was elected treasurer and Jean remained secretary.

The club has started work on some Old English Madrigals and we believe that we are among the first organizations in the state to study these beautiful selections.

## A REMINDER

As a delicate reminder for the old students and a word to the wise for the new, let us call attention of all to page 27 of the handbook. There it clearly states just who can and who cannot attend social hour. Let us discontinue the practice of taking our friends who are neither students nor members of the alumni to social hour, and thus save them and ourselves a great deal of embarrassment.

## MAKE THE FORUM YOURS

There is a department of the Lamron by the name of The Forum. Its purpose is to provide a medium of self-expression for both the students and the faculty. If you have an opinion on some matter, write it up and hand it in. This is your paper. Make it virtually yours with ideas and criticisms from the faculty and student body.

## WHO'S WHO

The great and mighty ONS are being interviewed this week, the first being none other than Robert E. Lewis. Bob is 24 years old and is five feet 11 inches tall. He hails from Colorado Springs and attended a high school of the same name.

He is the newly elected senior class president. (three rousing cheers!) Bob played on the football team in '29 and '30 and is a member of the order of the O. He has also been sports editor of the Lamron. His chief ambition is to be a physical education director and he has already started on his career by coaching the football team for Monmouth junior high. He'll get there yet. We might also add that he has one greater interest—one of the best looking, sweetest and peppiest girl that Monmouth has ever had—Winifred (Bud) Alley.

The next high and mighty is Dorothy Frewing. She is eighteen years old and is five feet seven inches tall. Her home town is Bethel, and she completed her high school career there.

Among "Dort's" big accomplishments

## SOCIAL CALENDAR

Tuesday, October 21	
Primary Council	7:00

La Danza	6:30
Thursday, October 23	
Rural Life Club	7:00
Women's League Council	7:00
Saturday, October 25	
Game—ONS vs. Chico at Chico.	
Social Hour	7:45
Monday, October 27	
Moroni Olsen Players	8:00
Orchestra	6:00

are: the offices of vice-president of the senior class and of WAA. Not so bad. She is also a very active member of Staff and Key.

Her bright saying is "Have you ever heard the one about— but the poor girl informs us that she is running out and will appreciate all new contributions.

"Dort's ambitions are to attend a lot of big colleges such as U of W, Stanford and Columbia and get her teaching degree from Columbia. She would also like to accomplish the big job of beating up her "roomie," Mary Brown.

## Book Nook

Hitty has gone away for another trip; she has been accompanying Miss Arbutnot to several teachers institutes. Wherever Hitty goes she finds many friends who want to know her better by reading her memoirs. When Hitty comes back to our library again, perhaps she will be able to tell more stories than before she went away, who knows?

—T—T—

A long time ago a poem—a very lovely poem was sent to the editor of the "Education Magazine." A letter was written to the author telling him how touching the poem was. In this month's issue the poem was published. The author, a member of the faculty of ONS, has kindly consented to its publication in the Lamron.

## ALAS!

"The Spanish language is unworthy of study,"  
Said the lecturer,  
"For Spain has no literature."  
Spain of the Cid Campeador,  
Of Columbus and Magellan,  
Of Cortez and Balboa,  
Of Murillo and Valasquez,  
Of Cervantes and Ebanes.  
Spain—that for more than seven centuries  
Stood, a living wall,  
Against the rolling tide of Islam.  
Spain—that knew the armies  
Of Hannibal  
And of Caesar.  
Spain—whose story is the history of the world;

Spain—that in the sublime heights of her sacrifice

And in the abysmal depths of her degradation

Epitomizes the tragedy of the world;  
Spain has no literature!

—J. F. Santee.

## Student Forum

At the election the other day Cy Urmy was elected our student body yell leader while our song queen chosen was Lena Frizell. President Landers said, "There's one nice thing about having elected Lena for your song leader and that is that she has another one just like her—Frances—who is to be our assistant. The assistant yell leader is a true, loyal student of O.N.S. and greatly liked by all who know him—Stanley Grund.

Both song and yell leaders have shown the student body some nice work so far, but as all four of them are doing their practice teaching this term, only Miss Frizell and Mr. Urmy will be present at chapel rallies and their assistants whenever possible.

Let us as a school back Lena and Cy in all pep rally and games. The game Friday evening in Portland was deeply appreciated by everyone as far as pep was concerned because we gave a big hand in boosting and singing.—W. R.

## THE STROLLER

While anking his way about the campus observed that—

Miss Kirk thinks that New York is a foreign country.

That Brownie can't seem to stand on her own feet.

Lucile Henkle and Wilma Fague are of the same mind but—they can't decide which one has the mind.

Tim West says that we'd have one point after another—if we used German helmets on the football field.

That it takes four men to get Jean Gregory home from Social hour.

Winnie has changed nationalities, it used to be the English now it's the Irish.

Johnnie Steelhammer thinks he can play drums behind locked doors. ....

We wonder what Rolly Watkins does with all the popcorn and Ladies Home Journals that he buys.

If you hear a queer noise, don't be frightened, it's probably only the crutch brigade.

Hurrah for the Irish.

## All-Rubber Galoshes

Be smart on a rainy or snowy day! You can do it with these moire finish rubber galoshes. Snap fasteners.

Independence, Oregon

## Appointment Bureau

The following paragraph quoted from a letter to the bureau by Principal John Watson, Mildred, Montana, will no doubt be of interest to Lamron readers.

"I am returning Kenneth Ferguson's credentials for your files. I know you will be interested to know that he is getting on very well both as a teacher and as a new member of a very critical society. The state supervisor of grade work observed his teaching the other day and although Mr. Ferguson was not feeling well at the time, he made a very good impression with her. She was most enthusiastic about his work. He is becoming accustomed to the place and I think is liking it better as time goes on."

This is the kind of report that the bureau likes to receive on its candidates.

Miss Irene Phillips is teaching the advanced grades in the Cochran district. This is the same school in which Miss Phillips taught her first year. Evidently her work was a success or she would not have been asked back after a year's absence during which time she attended Normal.

Mrs. Emma Patterson writes the bureau that she is now doing substitute work in Seattle public schools. Because of the quality of her work she will no doubt be retained permanently.

A number of the seniors have not called at the bureau for registration forms. Please do so immediately because many will be required to return their forms during the last week of this month and some time must be allowed for the obtaining of photos.

The first call for December graduates has already been received. It is not at

A new lunch room has been opened in Monmouth. It is called—

## Training School News Items

### VALSETZ

An informal tea was held Sunday afternoon in the Valsetz dormitory to give the residents of the community an opportunity to become acquainted with the new teachers and student teachers. The rooms were very attractively decorated in an autumn color scheme of red, gold and brown. Tea was served at four by Mrs. Thompson

and Misses Bockinfeld, Brookin and Salmi.

The girls at Valsetz have organized into a club and elected the following officers: President, Maxine Brookin, vice-president, Edna Goodknecht; secretary, Esther Alrick; treasurer, Wynona Carter; social chairman, Nellie Anderson; reporter, Marie Salmi. Many activities for the term have been planned by the club.

Several callers have been received at the dormitory the past week, among them being: Mrs. John March, of Valsetz; J. Wells, county superintendent; Mr. Starr, of the state board of higher education; C. A. Stanwood of the Normal training school; Mr. Thomas of Valsetz.

The student teachers are now accustomed to their new schedule and work has begun in earnest. An interesting tree project is being carried on in the seventh and eighth grades by Miss Carter and Miss Brookin under the guidance of Mrs. C. Thompson, critic teachers.

### INDEPENDENCE

Miss Kate Houx was here last week as a visitor of Mr. Dewey's. She was a supervisor here several years ago and is now teaching in the La Grande Normal school.

In the fourth and fifth combination room a project is being used to teach the American background in Europe. Geography of Italy is taught from the modern standpoint; and in history the life in ancient Rome.

The pupils are taking a journey to Italy. Clothes suitable for traveling were carefully selected and each child was allowed two grips. They will leave Portland on the "Portland Rose" and upon reaching New York will board a liner for Europe. Passports have been secured and detailed preparations have already been made.

This project correlates history, geography, English, art, reading, and arithmetic in figuring the fare and cost of luggage.

### MONMOUTH

Miss Florence Beardsley, ninth grade critic, was absent all last week on account of illness. During her absence the student teachers took charge of her classes.

The exhibits entered by the Monmouth training school won second prize at the Polk county fair for which the school will receive twenty dollars. The booth was attractively decorated with autumn leaves.

One of the most interesting parts of the exhibit was the house made last year by members of the first grade. This house was completely painted, papered, furnished and even wired for electricity. Its "inhabitant" was a doll with a complete wardrobe.

Art work, sewing and home making were also included, with attractive note books on Oregon history drawing much attention.

Especially notable was the showing made by Jimmie Riddell who with his Angora goats, captured five first places and one second, also the title of grand champion of the division.

Other individual prizes were won by Curtis Hall whose ship model was given second place, and by Ralph Winegar whose cake placed third.

This is the first time for many years that the Monmouth training school has entered an exhibit, so the showing they made was especially good. Next year they hope to come home with first prize.

### A CREED

There is a destiny that makes us brothers;

None goes his way alone,

All that we send into the lives of others

Comes back into our own.

I care not what his temples or his creeds;

One thing holds firm and fast—

That into his fateful help of days and deeds

The soul of man is last—Edwin Markham.

### OLSEN PLAYERS COMING

(Continued from page 1)

ity and versatility.

Just in case the First Circuit Repertory company needs someone who can sing, and sing well, in any of its plays, or needs a "matinee idol" type—who has a sense of humor and an ability to act, quite aside from his appearance—it has Gordon Nelson in the staff, who will play the role of the sensitive and bruised Captain Cornelius. The role of Captain Cornelius is right to his hand, and will be remembered as one of his most excellent pieces of work.

The complete cast of characters is as follows:

Old Mrs. Thurlow ..... Janet Young  
John Thurlow, her son, a ship-builder ..... Moroni Olsen  
Janet, his wife ..... Leora Thatcher  
Jack, his son ..... Robert Young  
Hester, his daughter ..... Donna Earle  
Captain Cornelius .... Gordon R. Nelson  
George Norwood ..... Jos. H. Williams  
Lane ..... Franklin Rasmussen

Don't forget that this remarkable play is to be given in the Normal School chapel on Monday evening, October 27, and that this will be our last opportunity to see them.

## Alumni Doings

Hello Folks:—

Another one of the home town boys making good—Walter Kraxberger. "Krax" has been teaching at Gladstone this being his second year.

Bill Lenher has been teaching for five long years at Aloha, Oregon (not Hawaii.) He has recently received an announcement of his appointment to fill a government civil service position in a Minnesota Indian reservation school. We all wish Bill all the success in the world in his new undertaking—

and also extend a big hand to Lee Bar-num, who can very capably fill the vacancy Bill has left.

Cecil Reuff has been a very successful teacher in mathematics and coaching at Parkdale school. Reuff's home is in Independence.

Gene Ferguson is now attending Willamette university and is right among 'em playing football.

Did you know that a former graduate, Landon W. Regle, is now teaching at Bugle, Montana? He is, and thinks it's a grand country to be working in, but still thinks Oregon is hard to beat.

Miss Marie Ring, a graduate of Oregon Normal school and a very successful art supervisor in Roseburg schools for a number of years is now attending the University of Oregon getting her art degree.

Frances Gill, graduate of '28 is going on with educational work and is now attending the University of Oregon.

Do you remember Wilbur Rowe? Wilbur has made another stepping stone and is principal of the Milwaukie junior high school.

This summer I had twenty cents to spend so I ventured into the College Inn in Portland. Whom should I see but Lavelle Stewart. She was just the same Lavelle—and now the school bell

## Exciting Year Promised In Donut Basketball

With sixteen houses out for practice and each confident that the others will not get the championship, donut basketball promises to be the most exciting activity on this year's program.

After the first practice it was quite apparent that the championship would be between Loan Cari Van, Second Floor Dorm, and the Town Girls. But Loan Cari Van, playing two members of last year's junior first and second teams, showed such organized teamwork that the weaker teams were losing interest in the tournament. To keep the standard, a girl for every sport and a sport for every girl, a committee of the heads of sports decided that Loan Cari Van must give up two of her first team players and find two less experienced players to take their places.

This should put new enthusiasm in the tournament.

Some weaker teams will show better basketball with the help of the two extra players and the stronger teams will put up a bigger fight when they play for championship.

## Rural Life Club Elects Officers for Coming Year

At a regular meeting of the Rural Life club held October 16 the following officers were elected

President, Lester Smith; vice-president, Harold Laswell; secretary-treasurer, Constance Henningson; reporter, Lelia Hammersley.

Mrs. Inez Miller is the faculty adviser. The club boasts of 26 members this term who meet Thursday evenings at seven o'clock to discuss rural problems which confront the people of today. Many good times and much beneficial information are prospects of the future.

## Opening Dance for Norm Given Saturday Evening

Last Saturday marked the opening of a series of dances which are being given to raise a benefit fund for the Norm. The students attending this dance had a most delightful time and experienced the novelty of being allowed to dance until ten o'clock.

This year's Norm question is a case of "To be or not to be?" Unless students back the next dance in greater numbers the answer will be "Not to be."

## A Year Ago

The Normal football team was defeated by Centralia, 12-0, on their home field. Both teams were handicapped by old Jupe who continued to use the sprinkling can.

Last week President Landers attended the Oregon congress of Parent-Teacher associations which was held in Grant's Pass. The meeting had an attendance of from three to four hundred parents, teachers and officers.

The two students making the highest grades in the English entrance examinations were Helen Frey and Doris O'Connor both of Portland. Each of the girls had only eight errors out of a possible one hundred seventy-four.

The Women's Athletic association held its first meeting of the year Tuesday night. Greek Riley was elected president and Dorothy Hill, vice-president.

The first formal of the season were held Friday and Saturday nights and will go down in history as great successes. The decorations were based on the aviation idea and the many colors lent a modernistic touch. Lunch was served over the sides of a large airplane by several charming aviatrixes clad in red and white costumes.

During the hearing of a case the judge was disturbed by a youth who kept moving about in the rear of the court.

"Young man," he exclaimed, "you

are making a good deal of noise. What are you doing?"

"I've lost my overcoat and am trying to find it," replied the offender.

"Well," said the judge, "people often lose whole suits in here without making all that fuss."

## THE HUMBOLDT GAME

(Continued from page 1)

White carried the ball and on the first play made two yards. White scored on the next play when he dived into the line. Engebretsen's pass to Edwards for the extra point failed, incomplete. Shortly after this score the quarter ended.

The Humboldt men started a drive at the beginning of the second canto that carried the ball to ONS' 30-yard line. The Oregon line held and took the ball on downs. This was the deepest Humboldt got in Normal territory and their biggest drive of the game.

Taking the ball on their own 30, the Oregonians started a march that dented the visitors another six points. With Edwards and Clark alternating at carrying the ball up to the opponent's 40-yard line, Gordon on a sneak play, ran through a broken field, evading several tacklers for the second touchdown. Engebretsen's try at place kicking, was wide.

ONS again scored late in the second quarter on a series of delayed line bucks and sweeping end runs. Holt carried the ball over on a tackle smash for the third touchdown. Watkins try for point was good with Edwards holding the ball.

The Wolves scored two touchdowns in the last half. The first one came on a beautiful run by Edwards from the 25-yard line. It was shortly after this run that Edwards was knocked unconscious and was taken from the game.

The last touchdown was made in the last quarter when Vaughan plucked Engebretsen's pass out of thin air, twisted out of three Humboldt men's hands, and dashed 15 yards to the last white chalk mark. Engebretsen's try at place-kick was good.

At this point of the game Coach Wolfe sent in an entirely new team and they advanced the ball deep into Humboldt's territory only to lose it on downs. The game ended shortly after Harrison made a 30-yard run on a lateral pass.
