

The Idea

The zombie apocalypse is near and fastly approaching & you need to survive. How can one do this? It is solely up to you ^{how} well you survive. By doing good & productive tasks you are rewarded. For example going to the gym could earn you some food.

Student Achievement

Studying and staying active can not only help you in the game, but, it can also benefit you as a student. It can help you stay caught up, and pass your classes, and help you stay in good shape.

The Good

- A lot of things can help you.
- Remaining mentally & physically active gets you bonuses.
- Bonuses are rewards that help you survive the apocalypse.

Abilities

At times, learning new things is the only way to survive. Anything from building shelter, to shooting a gun. The more mental & physical objectives or tasks that you perform, the better your abilities become. You also gain new abilities along the way. With the new abilities you earn, you could learn how to hunt & cook your own meal. But, keep in mind, that if you stop using a skill, it can be lost.

STAYING ALIVE

The Good & The Bad

The Bad

• Not staying active mentally or physically can slowly but surely turn you into a zombie.

3 Main Keys To Survival

1. Find or make shelter
2. Find food & water
3. Stay Mentally & physically active.
