Training School To Re-open February 1

Mr. Ellis A. Stebbins, business manager of the Oregon College of Education, has announced that all classes will be able to return to their school at the first of February with the exception of the kindergarten, and the first through fourth grades in the new wing.

Registration Figure Reaches 642 Mark

Registration reached 462 students at the end of January 6th, in comparison to 464 students registered at the same time, according to H. E. Lenzlauer, OCE registrar. Of the 462, 203 were men and 259 were women. A total of 340 are in teacher training while 122 are going in other directions.

The remodeling has been very complete and the school building is now recognized in the same building. Rooms are much larger, and very modern in design. An equipment of asphalt the floors have roofs and echo and noise reduction. All the chalk boards are to be replaced with blackboards, and all the lamp shades are also to be replaced with woodwork, eliminate glare from desk tops almost completely.

Most room in the own bathroom and store, storage space and a small living room in a house like or library or recreation room. Dads, tabs and chairs are no longer required. The room is much larger, and very efficient.

At the new wing, which is well an enclosed building, the sun will furnish most of the light, and the glass is being used in the windows.

As much like the other rooms as much large, and very efficient.

In the new wing, which is now scheduled to be completed by March 15, the situation has been improved by the addition of additional rooms.

As much like the other rooms as much large, and very efficient.

A room is being used in the library and the library is being used for its own driver. However, the school will own the bus and will have the signature of the driver on the bus. He will know, too, whom to send the bill.

MILLIONS QUOTED

Students should understand that the college bus is used on any of the buses which are used. Through the generosity of the local school board the college is permitted to arrange for the rental of the buses of the local school board in order to be paid by the organization sponsoring the trip. This is true, business office, from Miss Hill, or from the student body office.

Charles E. Smiths

Charles E. Smiths - "What do you mean by a busman who is really a bus driver?"

The report to call for induction will not be held but is the result of changes in the draft. The most recent changes were in connection with the campus organizations.

The remodeling has been very complete and the school building is now recognized in the same building. Rooms are much larger, and very modern in design. Higher Education's Problems Discussed

The present high enrollment in the institutions of the state system of higher education is the most serious problem being faced, which has soared from 5,902 in 1949-50 to 9,210 this year, and which is likely to rise to 13,000 is the next biennium. This increase is an increase of 17 per cent over the enrollment at the end of the last biennium. Part of this increase is due to the increased cost of operating. Part is due to a decrease in in-state enrollment. Veteran enrollment has increased 50 per cent over last session. This presents a definite problem for the coming years.

Additional space must be provided. The present facilities are being crowded. The enrollment this year is 114 per cent over last year. A continuation of growth and expansion is inevitable. Higher education is a continuing process. Enough post-war students to take up the slack as veterans complete their studies.

Since 1946 the population of the state has increased 25 per cent. The population of the state's institutions of higher education has risen 87 per cent. The enrollment in elementary schools throughout the state has increased 20 per cent. The full impact of the increased population will come in the next few years, and will be most evident in the next decade, as a result of the increase in the number of college students.

The Federal government, to meet the need for education for returning service men and women under the G.I. Bill of Rights, has contributed. In the major institutions of the Oregon system this year, 12 per cent of the student body were veterans, compared with the 6 per cent of non-veterans.

The enrollment for the spring term will be 2,757, or 227 per cent over last year, a much higher percentage than the 12 per cent of non-veterans.

The total federal award, from the state for operating and maintenance of the instructional units during the past biennium is $22,275,861, which is an increase of 17 per cent over the amount appropriated for the last biennium. Part of this increase is due to the increased cost of operating. Part of it is due to the decrease in in-state enrollment. Veteran enrollment has increased 50 per cent over last session. This presents a definite problem for the coming years.

The poor, unenlightened male! You must respect the poor, unenlightened male! You must respect the ignorant male! You must respect the endless variety of male! You must respect the male who has been able to meet withering stares, if necessary, to complete his simple mind! Is it any wonder that he is given recognition at all. Is it any wonder that he is given recognition at all.

The poor, unenlightened male! You must respect the poor, unenlightened male! You must respect the ignorant male! You must respect the endless variety of male! You must respect the male who has been able to meet withering stares, if necessary, to complete his simple mind! Is it any wonder that he is given recognition at all. Is it any wonder that he is given recognition at all.

Dance in the spring, ushering in the realms of commerce have begun their annual creation, to emerge at last with a splendid finale. The poor, unenlightened male! You must respect the poor, unenlightened male! You must respect the ignorant male! You must respect the endless variety of male! You must respect the male who has been able to meet withering stares, if necessary, to complete his simple mind! Is it any wonder that he is given recognition at all. Is it any wonder that he is given recognition at all.
MAY WE PRESENT:

JIM BEACH

who names Northome, Minnesota, as his real estate. Jim attended high school in Northome where he played basketball for a couple of years and served as president of his senior class.

He has two sisters and one brother, and he present owns his own home. A senior this year at OCE, Jim is Financial Secretary of the Associated Students, a member of Theta Delta Phi and Alpha Sigma Iota, and he plays intramural basketball for the House of Burglars. He likes basketball and dancing and is especially interested in films.

Ask about Jim's dislikes he thought a minute and then started clacking his fingers on the valley's eternal rain. He also mentioned that he disliked Clarence McDonnell, but as "Mac" was present and appeared to think the remark was facetious, little credence seems to be attached to this statement.

On world affairs, he remarked: "I was in the navy for five years during the last war. If we have another war I plan to join as many dependents as possible." Jim serves as a radio man aboard a navy LST.

He plans to graduate in June with a B.S. Degree in Elementary Education and expects to teach science and math in the upper grades.

IVCF Representatives

Hold Conference

During the Christmas vacation 35 representatives from Oregon colleges and universities as well as about 120 students from more than 250 campuses in the United States and Canada met on the University of Illinois campus at Urbana for a missionary conference, December 27 to 31. The main purpose of this conference, which was sponsored by the Inter-Varsity Christian Fellowship and its affiliated organization, the Russian Missionary Fellowship, was to present the need of and preparation for Christian missions.

Min Ruth Denney and Miss Mil- slie Fulk attended the conference from OCE, traveling by car with a group of Oregon students.

Cupid Strikes

Again At OCE

The Yule-tide season this year seemed to be marked in red ink on Cupid's calendar. The number of OCE students who were wed during the joyful time is truly surprising.

Among these happy couples who helped place their minister in a higher income bracket were: Leil- na Kinney, Al Petersen; Sher- har, Kirch, W. Bruce Hamilton; Dorothy Brokman, Jack Jensc; Carmen Wetzler, (Lou) Xer- ger; Jane Yarn, George Jensen; Marcy Tracy, Jady Hagemana; Capri Cook, Carolyn McFarland.

Smith Hailed as Outstanding Forward

The OCE Wolves brought their five-game losing streak to an emphatic halt last Friday night when they trumped the Pacific college team 71 to 32. It was OCE's first win of the season, but they had still been outplayed by their opponents in two home games played this last month.

The new year started with the team and the weather cold. The seemingly futile efforts to make many of the attempted lay-ins kept the Wolves constantly in the rear and left them trailing at the end of the game with Vanport with the score board reading Vanport 64, OCE 69. The Wolves looked stronger Wednesday night of last week when they met the Halsey Page-Woolen team in an unscheduled return game. An early OCE rally took the Wolves from their trailing position of 8-10 and put them in the lead at the half with a score of 31 to 24. It was the Wolf center of the 1947-48 season, Jack McElroy, who made 23 points during the game and who sparked the Page-Woolen team to a 63-24 victory.

This week will see the Wolves meet two of their strongest opponents in two home games this week. Both games are against Ramey's and Palma. One of the visiting teams, the Pullman university five, will be favored. However, they were also the favorites last year when they met the Wolves at OCE and we all remember the game and the outcome. Too much emphasis should not be put on the score of these two teams' last encounter.

Tuesday night's game against the Linfield Wildcats also promises to be a tough one. The Wildcat coaches considered the underdog when they meet the Beavers at McMinnville last Friday night but day held their own. All day and it took a last-minute Wildcat rally to put the Beavers out of the danger zone. The final score was 51 to 44. Five of these points came from the Beavers in the last two minutes.

Following the remainder of remaining Wolf games:

**Date**  Opponent  Score
Jan. 11-Linfield C. Monmouth  49-40
Jan. 14-Pullman Monmouth  52-30
Jan. 21-Ramey's Portland  73-24
Jan. 28-35-OCE Monmouth  62-30
Feb. 6-3-OCE Monmouth  69-30
Feb. 6-Beed C. Monmouth  68-18
Feb. 11-Vanport Portland  64-21
Feb. 14-15-OCE Monmouth  71-32
Feb. 22-Palma U. Monmouth  58-55
Feb. 25-26-Seattle C. Monmouth  71-25

One of the outstanding reasons for many of the OCE victories last three years has been the fighting spirit and the score-making ability of Bob Knox, their right forward. Harrel Smith, Horace was also a star on the Redd's basketball squad when he attended high school there.

Since coming to OCE he has not only made a name for himself as an athlete but has also joined the ranks of the happily married. He now resides at Vet's Village with his wife, the former Vivian Labl in Airston.
