Veterans Credit Computed

An announcement recently from the registrar's office states that veterans may apply for their military credits in residence at this school. The school will apply credit for veterans in teacher education and for those ex-service personnel who are working toward junior college credit, according to R. E. Lieuallen, OCE registrar. Any student who is to transfer soon from OCE is advised against having courses transferred here as various institutions have different standards of evaluating military credits. Honorary discharged veterans may apply for credit on the basis of five years' service as their military forces within the following maximums:

For one year of service ... 3 hours
For two years of service ... 10 hours
For three years of service ... 18 hours

Any student who attained the rank of warrant officer or commissioned officer may apply for additional credit of four hours per year, for each rank attained. This is granted for military service as stipulated in the previous paragraph, will be allowed for courses completed in the various services. The registrar suggests that anyone interested may consult the "Guide to the Evaluation of Educational Experience in the Armed Forces" published by the American Council on Education.

Grove Staff Sets Order Dead-Line

March 1, 1948, is the final date that subscriptions for the Grove will be accepted. The staff of the ASOE annual urges that every student who plans to buy a copy of the Grove to have his order placed by the above date.

"We, the staff of the Grove, wish to thank the students for their enthusiasm and interest that the Grove has for the student body. We give our thanks to the student body for the many kind things we have heard about the Grove during the past years. We hope that we have been able to bring you something that has been educational and entertaining. We hope that you have enjoyed reading the Grove as much as we have enjoyed writing it. We wish you good luck in the future."
DORM LIFE

Rumors have been heard lately that the name of our dorm should be changed to "Asphalt Hall" or the "Hall of Mopeds." However, it remains to be seen whether or not this rumor should be considered true. The current occupant of the dorm seems to have a special affinity for the name as he often keeps the rest of the students up with his loud music.

A COMMENDABLE INDICATION

Several remarks of astonishment have been heard since various sources have taken in the pursuit of curricular activities. Since the beginning of the term there has existed in the right wing of Campbell hall a peculiar phenomenon. The library has been filled to its capacity every evening.

Whether this is a result of bigger assignments from the faculty or genuine student interest, is open for debate. Nevertheless, about half the student body has decided that the library should be open longer in the evening on week nights and also that it should remain open Sunday afternoons. These students have expressed their concern in the form of a petition.

If even this petition brings about no change in the hours the library remains open, the fact that some of the students have indicated that they would like to have more time to remain in a place conducive to study is commendable. With such an attitude on the part of half of the student body, pessimism about the younger generation and the future of the Oregon College of Education should be partially, if not wholly, dissipated.

Resolved, never to do anything which I should be afraid to do if it were the last hour of my life.

Collette Coeds
The past week has been a busy one for Collette. Monday evening a meeting was held to discuss further plans for the Sweetheart Ball. Decorations were discussed by the girls and reports on progress of various committees for the dance were given.

And say, have you noticed these new problems the club is wearing? Pretty nice looking, we think! For the benefit of those who haven’t seen them, they’re red chenille with white chenille letters. They look very nice on those white sweaters.

Another meeting was held Tuesday evening for the purpose of planning the initiation and banquet for our new members, Misses Freeman, Misses Sloan, and Elinor Winter. The new girls have really gone to work and pitched right in on planning and decorating for the big dance. We feel very lucky to get three such wonderful members.

Thursday evening, Todd Hall was the scene of the Collecto Coed banquet and formal initiation. After dinner the girls adjourned to the music room where candlelight initiation rites were held.

Following the ceremony a short program was enjoyed by all. The program consisted of a vocal solo by Jean Bysted, an amusing piano selection by Elise Smith, and a piano duet by Cordelia Wilkins and Jean Bysted. Delmar Depuy was Collector guest on this occasion.

Committees for the banquet were: Betty Buhler, Ellen Smith, and Eldora Whitaker, table decorations; and Cordelia Wilkins and Carolyn Geiling, place cards.

Mallory Players  
Please Audience  

With the three couples at last united for a happy ending, the Mallory Players production of Oscar Wilde's play "The Importance of Being Earnest," presented last Wednesday night in Campbell hall auditorium, closed amid applause from a large, appreciative audience.

This performance seemed superlative in its achievement, as a portrayal of Wilde's outworn characters and situations is not easy for beginners. Particularly effective in this line was Dan Gordon as the "intelectual snob" Algernon Moncrieff, and perhaps he can attribute his success to his British parentage. All of the Mallory Players have brought considerable credit to their school to their roles with the group.
