Campus Dance To Be Held Aug. 2

"In the Good Old Summertime" will be the theme of an all-campus dance which will be held on Thursday, August 2, from 8 to 11 p.m. in the gymnasium. There will be no admission charge, and everyone is invited—students and faculty members, their husbands or wives, and friends. Music for the occasion is being furnished by an orchestra from Crystal Gardens, in Salem.

There will be mixers, square, and social dancing, so gals, leave your high heels home and wear summer casuals. Men, wear slacks and sport shirts. A baby-sitting service is being offered free of charge to those with family responsibilities. More about this will be announced later.

Square dance class will not be held on Thursday, because the idea and plans for this dance were developed by Miss Beverly Strongman and the class. Committees for the occasion have been named, and students and faculty members alike are working to make this a grand success. Make it a date!

McNellys To Discuss Leprosarium Duties

Guest speakers for this week's Inter-Varity meeting will be Mr. and Mrs. Gordon McNelly who will be leaving shortly for the Island of Terian where they plan to establish leprosarium and special music by Mr. William Weatherby of Independence.

Be sure to reserve Monday evening, August 6, for the grand finale of Inter-Varity activities for the summer term.

CAMPUS CALENDAR

Monday, July 30
7:00 p.m.—IVCF (MES aud.)
8:00 p.m.—Faculty Discussion Group

Tuesday, July 31

Wednesday, August 1
6:30 p.m.—Swimming in OCE pool
7:30 p.m.—Square dance in Grove
8:00 p.m.—Dance in Gym

Mehrens, Bancroft To Speak on Aviation

Dr. Mehrens, adviser for the civil aeronautics board of the Department of Commerce, Washington, D.C., and Mr. Bancroft, of the Air- Age Education of Seattle, will be on the campus on August 1, 2 and 3. They will be dealing with the impact of aviation on schools both elementary and secondary, and what teachers need to do in changing programs to meet this. There will be displays and films, which will be announced later.

Dr. Mehrens and Mr. Bancroft will be working with the intermediate and upper grade workshop. Everyone interested in hearing them is invited to attend on these dates. Large classes desiring to attend certain lectures are asked to contact Dr. Ella A. Hawkins or that arrangements may be made to accommodate them.

Landscape Project Underway on Campus

Students have, no doubt, been aware that much of the shrubbery and some of the trees on the campus have been moved, or in some cases, removed. This is a part of a landscaping project designed to reju- venate the entire OCE campus.

More shrubs, especially of the flowering type, are to be planted, the lawns are to be rolled and re-done, and some of the more unattractive trees are being removed. The latter is being done to allow more of the buildings themselves to be seen. It is expected that the project will be completed by the beginning of fall term.

Alumni Picnic Held In Grove

An alumni picnic was held in the grove at 5:30 p.m. on July 26. A sizeable gathering ate their supper, while background music was furnished by Lewis Holt and Forrest Hollyman.

The program was opened by welcome addresses from Dr. Roben J. Maaske, OCE president, and George Turner, student-body president-elect. Twilo Tabler then sang a solo, accompanied by Jeanne Darby at the piano.

A Hawaiian group, Cornelia Hope, Roberta Richards and Allie Lou Ching, presented several numbers, after which Bill Butler gave two short readings.

The group joined in singing several songs, led by Matt Thompson, and accompanied by Ruth Turner, after which other activities—square dancing, volleyball, horseshoes, or just visiting—were enjoyed.

Wants Suggestions

Dr. Louis Kaplan has received many suggestions for improving the summer school and plans are already underway for carrying out some of them, according to a statement re- ceived today.

The suggestion boxes will be placed on the bulletin boards again the latter part of this week so those who didn't get a chance to express an opinion or idea may do so now. Everyone should take advantage of this opportunity to help improve next year's summer session.

NOTICE!

Mr. Black's intermediate workshop extends an invitation to anyone who may be interested to attend the open-house to be held on Tuesday, July 31, from 9 a.m. to 2 p.m. Projects which will be on display are concerned with the fields of social studies, science, and related areas.

EDITOR'S NOTE

This is the final issue of the OCE Lamron for the school year. Publication will be resumed in September.
Notice, Summer Grads!

Students completing requirements for graduation from either the three-year or the four-year course at the close of the summer session will be invited back to the campus to participate in the annual commencement exercises in June, 1952. At that time degree earned in summer school, as well as those earned throughout the year, will be awarded. Degree graduates will receive their diplomas at that time, but the diplomas for the three-year graduates will not be ordered until after commencement. Since some time is required for printing, it is usually about the middle of July before they are ready for distribution. Diplomas are mailed to the address specified by the student on the application form for graduation, and it is therefore important that the registrar's office be notified of any change of address.

All teaching certificates are issued by the State Department of Education in Salem, and graduates should make application to that department for them after the close of the term. Names of graduates are automatically sent to the State Department of Education. Application forms for certificates are available in the education office, room 116 of the Administration building. The fee for the first certificate is $2.

Intermediate Workshop To Hold Open House

This week the intermediate workshop of the elementary school, under the direction of Mr. John Black, presents its open house. All students and faculty members have been invited.

Mr. Black, an intermediate supervising teacher during regular session of OCE, has directed a very successful workshop in the areas of social studies and science. He has applied the technique of correlating activities with all subject matter. He has illustrated this in many interesting ways within the workshop.

At the beginning of the summer session the people in the workshop were divided into smaller groups according to each individual's interest. With only 19 people in the class it was impossible to develop very many areas within so short a time; consequently fewer areas were organized extensively. The areas of social studies have included Brazil and Canada. The other group took as their project an area in science.

McBee Thanks Faculty And Students for Help

I want to take this opportunity to thank Mr. Park and the Lamron staff who so faithfully worked on the paper at the expense of week-end recreation. I'm sure the entire campus would join me in saying the paper has been of excellent quality and has had superior management. I would also like to thank faculty members and students who have given so generously of their time to assist in the various recreational and other activities. Any success which has been evident was due to the cooperative help of everyone.

In closing, I'd like to wish all of you a very pleasant vacation.

Mrs. Oma Belle McBee

Youngsters Enjoy Hike
At Silver Creek Falls

On Friday, July 20, the recreation staff of the Monmouth elementary school took 36 youngsters to Silver Creek Falls, which is located in the Santiam mountains about eight miles from Silverton. It is one of the many parks owned and operated by the state for the enjoyment of the Oregon people and tourists.

The bus left the school about 1 p.m. and arrived at the main picnic area by the South Falls at 3 o'clock. After exploring the picnic area and the lodge, the children decided they all wanted to take the hike through the park around the seven falls.

The five miles of beautiful scenery was exciting and hard work for all. One of the most beautiful sights for everyone was the main South Falls which tumbles down to the large pool below, a total of 180 feet.

The group met back at the picnic area about 5:30 p.m., a very tired but happy and hungry group, and ate sack lunches which they had brought from home. After the necessary lapse of time, the group went wading in the pool below South Falls and some of the more venturesome ones swam over to the falls.

Postl Speaks at Meet

Anton Postl was speaker at a meeting of the Salem Geological society on July 26. He used slides which he made and prepared himself as well as specimens and maps to illustrate his topic, "Alpine Geology."

The meeting was held in Collins hall at Willamette university. Approximately 70 people attended.

Dr. Maynard To Speak

The assembly to be held on July 31 will be a chapel service with Dr. Arthur H. Maynard, professor of religion at Willamette university as speaker. Many students are already acquainted with Mrs. Maynard, who is a student here at OCE.
OCE'ers Take Close Game from Churchmen

Monday evening, July 23, the Collegians traveled to Dallas to take a close game from the Salt Creek aggregation. The college team started strong and scored a run in the first inning, two runs in the second, and three runs in the third. Then Salt Creek, held hitless in the first two frames, scored on a walk from pitcher Art Sperber, who then was replaced by Marv Turner. Turner quelled the Salt Creek boys after three more runs came in. The Collegians roared back with three runs again in the fourth stanza and the game was called because of darkness when the Salt Creek men went out after four men scored for them. Ralph Hurst and Harry Walters both hit home runs in the third inning for the OCE team. The final score was 9-8 for the Collegians.

In the short game preceding the Salt Creek encounter, the Collegians played the Dallas church team for three innings before Salt Creek arrived. The locals won 6-1, with Marv Turner and Art Sperber dividing the mound duty. Ray Godsey and Ralph Miller both hit home runs.

Films To Be Previewed

The following films will be available for previewing at the OCE Instructional Materials Center in the basement of the library on Wednesday, August 2:

- New Oregon Trail
- Butterflies
- Nervous System
- Woodwind Choir
- American Teacher

If you wish to see any of the films listed above, be sure to schedule them by Tuesday noon, August 1, at the Instructional Materials Center.
